

2024 Information Sessions for Cost Survey Data Preparers

Information and drop-in sessions are open to all coastal clients.

The information sessions and drop-in sessions, support clients throughout the survey preparation period. The material due to be presented in 2024, is a repeat of prior information sessions, except for an introduction to the new silviculture tenure obligation adjustment schedule and the schedule for root disease control (destumping). These sessions are typically suited to new client staff or as a refresher.

Drop-in sessions, with a Q & A format, have been added, to support clients who have only, a quick or single questions regarding a specific topic.
