

## Interior Camps (non-remote) List Effective October 1, 2017

Notes:

- Camps identified on this list are for the sole purpose to assign a CAMPV (i.e. average volume of logs directly related to the net costs associated with the camp) for non-remote camps as per the Interior Appraisal Manual definition.
- This list does not supersede the interior appraisal manual requirements. A camp must meet the definition as per the IAM to qualify for a camp cost estimate in an appraisal. New camps not already on this list must be approved by Area timber pricing staff.
- This list of camps/volumes will be updated as required. A camp's average volume will be updated for each new cost base in the IAM.

na - Camps without an average volume at this time.

Non Remote Camp	2017 Average Volume
3980	na
2 Mile	115,399
280 Holdings	na
Anzac	na
Babine	330,811
Bear Lake	na
Big Creek	231,108
