

# Coast Fibre Recovery Zone Version 1

The Fibre Recovery Zone defines areas where increased waste rates may apply to avoidable waste left on a cutting authority as detailed in the Provincial Logging Residue and Waste Measurement Procedure Manual. The boundary was approved by the Director of the Forest Tenures Branch, Ministry of Forests, Lands, Natural Resource Operations and Rural Development.

This map is a representation of the Coast Fibre Recovery Zone boundaries. To determine if an area of interest falls within a Fibre Recovery Zone, please refer to the FADM\_FIBRE\_RECOVERY\_ZONES\_SP layer located in the BC Geographic Warehouse.

As per Section 1.2 of the Provincial Logging Residue and Waste Measurement Procedures Manual, this map is effective between April 1, 2019 and December 22, 2019 as approved by Doug Stewart, Director, Forest Tenures Branch.
