

Post Harvest Certification

| | | | |
|------------------------|--|-----------------------------|--|
| Date: | | Primary Timber Mark: | |
| Cutblock: | | Area: | |
| Reporting Unit: | | ECAS#: | |

| | |
|----------------------------------------------------------|-------------------------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Is the waste assessment area within a BCTS cutting authority? |
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Is the waste assessment area within a non-appraised tabular rate cutting authority? |

Standing trees in a BCTS WAA (waste assessment area) are tallied as waste. Standing trees in a tabular rate WAA are not tallied as waste, except in the case where a reappraisal is done, which removes the uncut timber from the appraised volume.

| | |
|----------------------------------------------------------|-----------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Is there an approved amendment to the cutting authority harvest area? |
|----------------------------------------------------------|-----------------------------------------------------------------------|

Timber that is amended out of the harvest area is not tallied as waste.

| | |
|----------------------------------------------------------|------------------------------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Is the waste assessment area within a fully appraised adjustable rate cutting authority? |
|----------------------------------------------------------|------------------------------------------------------------------------------------------|

I certify the following regarding this waste assessment area:

| | |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Do the post harvest area(s) or reserve area(s) differ from what was used in the original appraisal? |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------|

| | |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Do the post harvest leave tree volumes or characteristics differ from the original appraisal? |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------|

Standing trees in a fully appraised cutting authority are tallied as waste if they remain in the final appraisal data submission volume.

| | |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | A post harvest appraisal data submission includes or will include revisions to the appraised timber volume or value. |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|

| | |
|----------------------------------------------------------|--------------------------------------------------------|
| Yes <input type="checkbox"/> No <input type="checkbox"/> | Timber remains that must be tallied as standing waste. |
|----------------------------------------------------------|--------------------------------------------------------|

| | |
|------------------------------------------------------------------------------------------|--|
