(b) the Crown land described in Schedule "B" to the Licence,
and as shown outlined in bold black on the map attached to this Licence, but excludes Crown land deleted, from time to time, under the Forest Act.

1.03 As Timber Licences expire, or as areas are deleted from them under section 57 of the Forest Act, the land subject to the Timber Licences or the areas deleted, as the case may be, shall be deemed to be deleted from Schedule "A" and to be added to Schedule "B".

1.04 This Licence may be amended by agreement of the parties, by deleting from the licence area private land described in Schedule "A" to this Licence, where
(a) the private land is required for a use that is more valuable than timber production, and

1.06 On its tenth anniversary this Licence may be replaced according to the Forest Act.

*AMENDMENT * ADD PARAGRAPHES 1.07, 1.08, 1.09 AS PER ~~*~~ INST. NO. 49

(c) serious and unforeseen damage is caused to soils, fisheries or wildlife resources, of the licence area,

and the Chief Forester considers that the occurrence has rendered the management and working plan inadequate.

2.05 Where a notice is given under paragraph 2.04

(a) the notice shall specify the occurrence, the extent to which the management and working plan is inadequate and the nature of the change required by the Chief Forester, and

(b) the Licensee will, within 6 months after the notice, submit for the Chief Forester's approval a proposed management and working plan or a proposed amendment to the management and working plan, as the case may be, to have effect during the unexpired term of the then current management and working plan.

2.07 The Chief Forester will approve, from time to time, management and working plans for the licence area, acceptable to him, that specify

(a) an allowable annual cut that he determines may be sustained from the licence area, having regard to

(i) the composition of the forest on the licence area and its expected rate of growth, determined from an inventory of the forest,

(ii) the expected time that it will take the forest to become re-established on the licence area following denudation,

(iii) silvicultural treatments to be applied to the licence area,

(iv) the standard of timber utilization and the allowances for waste and breakage it is expected will be applied with respect to timber harvesting operations conducted on the licence area, and

(v) any other information that relates to the capability of the licence area to produce timber,

(b) measures taken and to be taken by the Licensee, consistent with this Licence and the Forest Act, for developing, protecting, restoring and improving the forest resources in the licence area, and for fulfilling its obligations under part 10.00, and

(c) the portion of the allowable annual cut that the Chief Forester determines is attributable to Schedule "B" land at the beginning of the term of this Licence,

and any management and working plan may provide for the protection of such unique features of the licence area as are identified from time to time, by studies within the licence area, the results of which are approved by the Chief Forester.

2.08 A management and working plan shall be deemed to be a part of, and shall be consistent with, this Licence.

3.00 CUTTING PERMITS

5.04 Where the Regional Manager considers that timber harvesting or related operations that are proposed to be carried out under a cutting permit or road permit are likely to cause damage to the improvements or chattels of a lawful occupier or lawful user of Crown land, the Licensee may be required in the cutting permit or road permit
(a) to prevent the damage from occurring,
(b) to pay reasonable compensation to the occupier or user in respect of damage that occurs, and

(a) fails to prevent the damage from occurring, and
(b) fails to pay reasonable compensation to the occupier or user,
