- (b) the Crown land described in Schedule "B" to the Licence, and as shown outlined in bold black on the map attached to this Licence, but excludes Crown land deleted, from time to time, under the Forest Act.

1.03 As Timber Licences expire, or as areas are deleted from them under section 57 of the Forest Act, the land subject to the Timber Licences or the areas deleted, as the case may be, shall be deemed to be deleted from Schedule "A" and to be added to Schedule "B".

1.04 This Licence may be amended by agreement of the parties, by deleting from the licence area private land described in Schedule "A" to this Licence, where

- (a) the private land is required for a use that is more valuable than timber production, and
- (b) the deletion would not, in the Chief Forester's opinion, unreasonably disturb the management of the licence area for timber production.

1.05 The term of this Licence is 25 years, beginning January 1, 1981.

1.06 On its tenth anniversary this Licence may be replaced according to the Forest Act.

2.00 MANAGEMENT AND WORKING PLANS

2.01 Not later than June 30, 1988 the Licensee will submit for the Chief Forester's approval a proposed revision to Management and Working Plan No. 6 which incorporates those lands formerly covered by Tree Farm Licence No. 7.

- and the Chief Forester considers that the occurrence has rendered the management and working plan inadequate.

2.05 Where a notice is given under paragraph 2.04

- (a) the notice shall specify the occurrence, the extent to which the management and working plan is inadequate and the nature of the change required by the Chief Forester, and
- (b) the Licensee will, within 6 months after the notice, submit for the Chief Forester's approval a proposed management and working plan or a proposed amendment to the management and working plan, as the case may be, to have effect during the unexpired term of the then current management and working plan.

2.06 A proposed management and working plan shall be prepared, signed and sealed by a professional forester and shall

- (f) specify measures taken and to be taken by the Licensee for fulfilling its obligations under part 10.00, and
- (g) contain such other information respecting the development, management and use of the licence area as the Chief Forester requires.

2.07 The Chief Forester will approve, from time to time, management and working plans for the licence area, acceptable to him, that specify

- (a) an allowable annual cut that he determines may be sustained from the licence area, having regard to
 - (i) the composition of the forest on the licence area and its expected rate of growth, determined from an inventory of the forest,
 - (ii) the expected time that it will take the forest to become re-established on the Licence area following denudation,
 - (iii) silvicultural treatments to be applied to the Licence area,
 - (iv) the standard of timber utilization and the allowances for decay, waste and breakage it is expected will be applied with respect to timber harvesting operations conducted on the Licence area,

2.08 A management and working plan shall be deemed to be a part of, and shall be consistent with, this Licence.

2.09 The District Manager will approve, from time to time, 5 year development plans and pre-harvest silviculture prescriptions acceptable to him.

3.00 CUTTING PERMITS

4.02 The Licensee will not permit the volume of timber harvested

- (a) during a calendar year

- (a) the payment may, after at least 30 days' notice has been given to the Licensee, be taken from the deposit maintained under paragraph 5.02 and for that purpose a security included in the deposit may be sold, and
- (b) the Licensee will forthwith pay to the Crown, in cash or in negotiable securities acceptable to the Licensor, an amount of money sufficient to maintain the deposit in the amount specified under paragraph 5.02.

5.04 Where the Regional Manager considers that timber harvesting or related operations that are proposed to be carried out under a cutting permit or road permit are likely to cause damage to the improvements or chattels of a lawful occupier or lawful user of Crown land, the Licensee may be required in the cutting permit or road permit

- (a) to prevent the damage from occurring,
- (b) to pay reasonable compensation to the occupier or user in respect of damage that occurs, and
