Dear Mike

I fully understand your response. However, I do not even the capacity for someone on this end to sit down with you and your colleagues to even begin a proper and effective information sharing and discussion regarding the impacts of this Plan upon our territory.

This is the issue amongst many we have with GOVT. What part of meaningful consultation do they not understand. We deserve to have the same if not exceed the duty of dialogue that legislation requirement demands of Developers and their plans. ONA requires your counterpart on this side of the table.

And, at this point in time that is impossible.

Sincerely,

Hi Pauline, I just wanted to follow up the phone message I left you this morning. At this point it is Louisiana-Pacific intention to share information with ONA. I can understand you have limited resources to review and respond to the numerous request for your input. LP staff would be willing to meet with you to explain and discuss the plan if you think it would require less of your resources. As I mentioned in an earlier email, Ministry of Forests Staff will be contacting the ONA to discuss the governments consultation process.

If you wish to discuss this matter further or set up a meeting please don't hesitate to contact me.

Sincerely,

Michael Copperthwaite RPF

Mike

This not meaningful consultation: the ONA does not have the capacity or financial resources to responsibly repond.

Thank you.
