Dear Geoff Bekker:

I have reviewed the timber supply analysis dated February 14, 2002 and the three addendums (dated March 20, April 16, and May 8, 2002) provided in support of Management Plan No. 10 for Tree Farm Licence 8 (TFL 8) and hereby accept it.

I must advise you that this letter does not mean that the Ministry of Forests (MoF), the Ministry of Sustainable Resource Management (MSRM) and the Ministry of Water, Land and Air Protection (MWLAP) endorse all aspects of the analysis. During the Allowable Annual Cut (AAC) determination information session, MoF, MSRM and MWLAP staff will advise the Deputy Chief Forester on the technical material provided in the analysis, and the implications of its assumptions and results. The Deputy Chief Forester will consider this information and advice as he prepares his rationale for the AAC determination for TFL 8.

I would like to thank you and your consultant, Mark Hafer of Timberline Forest Inventory Consultants Ltd., for the professional attention you have given to the preparation, presentation and delivery of information. If you have any questions, please call me at (250) 356-2158.

Yours truly,

Qiong Su, RPF
