Updated June 23, 2026

**Legend:** Year: ('26' refers to 2025/2026 collection year) S/L's: (number of seedlots in average) Yield: (kilograms per hectolitre)

GC: Germination Capacity (number of normal germinants, expressed as a percent)

Species averages are based on the five most current collection years. Cw '23 B-class: yield based on 4 seedlots; GC based on 11 seedlots

*\*Note: squirrel cache yields may be lower than species yields shown above*
