Dangerous Occurrences

0

Dangerous Occurrences Reported for the Week of March 28 to April 3, 2022

Zero Dangerous Occurrences were reported during this period

Comments:

Sections 1.7.1 to 1.7.3 from the Health, Safety and Reclamation Code for Mines in BC outline what types of incidents are considered a Dangerous Occurrence (DO), and what actions mine managers are required to fulfill after a DO occurs. To ensure compliance, mine managers must be familiar with these sections; they contain clear requirements for identifying, reporting, investigating and recommending corrective actions.
