

BCeID

What is it and how do I get it?

To access Mineral Titles Online (MTO), you need a Free Miner Certificate (FMC) and a Business British Columbia Electronic Identification (BCeID)

Access to MTO requires activation by Mineral Titles staff

$$\text{FMC} + \text{Business BCeID} = \text{MTO}$$

About BCeID

BCeID is a free, online authentication service that represents your business or proprietorship in the electronic world. Using your User ID and password, you can securely sign in to online services, such as MTO, to conduct electronic business with the BC Government.

Account Types

There are three types of BCeID accounts: Basic, Personal and Business. **Mineral Titles Online requires a Business account along with an FMC.** If you already have a Business BCeID for another BC government online service, you may not need to apply for another one.

Obtaining a Business BCeID

All Business BCeID registrations must be initiated online and are completed in various ways:

- ▶ Through the online registration process; or
- ▶ With the assistance of a BCeID staff (for companies); or
- ▶ Through over-the-counter identity verification at a BCeID Point of Service location (for proprietorships), namely Service BC and FrontCounterBC offices

Note: For access to MTO, the business entity represented by your BCeID account must match the business entity represented by your FMC.

Business Accounts

Allows you to access Online Services that require the verification of the business or organization's unique identity, and that you are acting in a business capacity as an authorized representative of the business or proprietorship.

For companies or partnerships, the first User ID created during enrolment for a Business BCeID account will automatically be designated as the Business Profile Manager (BPM). Additional user accounts for employees can be created as required. A Business Account Manager (BAM) can be designated to an additional user. It is suggested for companies or partnerships to have a minimum of 2 users designated as BPMs or one as a BPM and one as a BAM.
