

Mineral Titles Online version 1.11.6

(March 30, 2017)

Administrative Improvements

Change to Claim Acquisition (CEXT) at the captcha code stage

During the acquisition process, whether by map selection or by data entry of the cell key IDS, MTO has asked clients to enter a captcha code (this security code ensures a human, not a computer, is performing the registration).

The captcha code has been upgraded to [reCAPTCHA](#), created and used by Google.

You will have 30 seconds to click I'm not a robot and solve the puzzle, example, select all the squares with street signs. You may be asked to solve a single puzzle or multiple puzzles.

DATA ENTRY BY CELL KEY ID METHOD

Enter the cell IDs, click the **I'm not a robot** box to be directed to a puzzle to solve.

The screenshot shows a web form titled "Select Number of Cells". At the top, there is a dropdown menu labeled "Select Number of Cells:" with the number "1" selected, and a "submit" button to its right. Below this is a text input field labeled "1. cell ID:" containing the text "104O07A012A" and a small "x" icon for clearing the field. Underneath the input field is a reCAPTCHA widget. It features a checkbox labeled "I'm not a robot" on the left and the reCAPTCHA logo on the right, which includes the text "reCAPTCHA" and "Privacy - Terms". Below the reCAPTCHA widget, a timer indicates "Code will expire in 00:18 Min.". At the bottom of the form, there is a blue "Back" button.

An example shown below, Select all images with books. Click on each image that has a book in the picture, once finished click **Verify**. You may be asked to solve another puzzle or you may be directed to the next step in acquisition where you can name your claim.
