

# Payment Instead of Exploration and Development Work

---

## Before you start:

- The recorded holder(s) of the title(s) must have a valid Free Miner Certificate.
- You will need to know the title numbers of the titles.
- If you are acting as an agent for the recorded holder, you will need to know the Client Number of the person who owns the titles. If you do not know the client number, you will want to do a search in MTO and find that number before starting.
- If a title(s) has multiple owners, the person entering the registration in MTO must be set up as an agent in MTO by each of the owners before the registration can be entered.
