

MINISTRY OF ENERGY, MINES AND LOW CARBON INNOVATION
REVERTED CROWN GRANTS

Disposal of Crown granted 2 post mineral claims that have reverted, escheated, surrendered or otherwise been acquired by the Crown.

Take notice that, pursuant to section 26 of the Mineral Tenure Act, the mineral rights formerly held under the following Crown granted 2-post claims are available for selection by registration of mineral cell claims on **January 15, 2021**. Acquisition must be in accordance with the Mineral Tenure Act and the Mineral Tenure Act Regulation. Where a lot may be wholly or partially within an alienated area not open to the acquisition of a mineral cell claim, registration of a claim including that cell acquires no rights within the alienated land.

Where an existing mineral cell claim is registered over the land formerly subject to the Crown granted 2-post claim that registered cell claim acquires the mineral rights that are available for selection.

District Lot No.	Land District	Claim Name	BCGS Mapsheet
