

INSTRUCTIONS: How to complete a Safekeeping Agreement

WHAT IS A SAFEKEEPING AGREEMENT?

The Safekeeping Agreement document, along with a supporting Guarantee Investment Certificate (GIC), forms a Reclamation Security that is required by the Ministry of Energy, Mines and Petroleum Resources (EMPR) and is governed by the “Mines Act”. EMPR requires that the original (typed or clearly printed) Safekeeping Agreement be signed by the Applicant(s) and their Financial Institution, and then forwarded to EMPR for approval and execution. **THIS DOCUMENT IS NOT VALID UNTIL IT HAS BEEN APPROVED AND SIGNED BY THE MINISTRY.** EMPR retains the original, and sends copies to both the Applicant(s) and their Financial Institution.

The Safekeeping Agreement in Fillable PDF form can be provided for your convenience.

HOW TO COMPLETE A SAFEKEEPING AGREEMENT

Page 1
