

Clean Energy

Application Requirements Checklist

**The following requirements are part of the application and must be provided.
Incomplete applications will be returned to the applicant.**

In addition to the General Application Requirements included on the Application Form, the following items are required for all Clean Energy applications:

This application checklist is for all Clean Energy Applications, including [Ocean Energy](#) projects, [Water Power](#) projects, and [Wind Power](#) projects.

- ☐ See the [Apply for crown land tenure](#) webpage for key requirements and advice on applications.
- ☐ You are required to provide a general map, site plan(s) and spatial files in accordance with the standards listed on the [Application maps and site plans](#) webpage.

Investigative Phase

- ☐ An [Investigative Plan](#). Be sure to include location and type of monitoring equipment proposed for placement on Crown land.

Development and Operating Phase

- ☐ A Development Plan which includes information on project construction, operation, monitoring, and decommissioning. Information requirements pertain to the development plan are available in the [Clean Energy Development Plan Information Requirements](#) document.

Note: Applicants should restrict management plan content to information that is directly relevant to the proposed project. Management Plans should not contain statements that are biased or judgmental or which may be harmful to other applicants, other licensed users of Crown land and resources, the general public, or businesses operating on private land.
