

Mining Application Requirements List

The following requirements are part of the application and must be provided. Incomplete applications will be returned to the applicant.

In addition to the General Application Requirements included on the Application Form, the following items are required for all Mining applications.

- A Site Plan of the entire application area, drawn to scale with a north arrow, identifying the location of all improvements (buildings, structures, roads, powerlines, fences, etc.) in relation to the boundaries of the tenure area and other legal boundaries.
The Site Plan should, as a minimum, identify:
 - Location and size of all improvements;
 - Source of water;
 - Means of sewage disposal;
 - Proposed road access and/ or parking; and
 - Utilities.

- A Certificate of Public Convenience and Necessity from the BC Utilities Commission (if applicable).

AND

- A [Management Plan](#), signed and dated, which includes the project overview, project description and additional information as necessary.

Note: Applicants should restrict management plan content to information that is directly relevant to the proposed project. Management Plans should not contain statements that are biased or judgmental or which may be harmful to other applicants, other licensed users of Crown land and resources, the general public, or businesses operating on private land.
