

Utilities

Application Requirements Checklist

The following requirements are part of the application and must be provided. Incomplete applications will be returned to the applicant.

In addition to the General Application Requirements included on the Application Form, the following items are required for all Utilities applications:

- See the [Natural Resource Online Services website](#) for key requirements and advice on applications.
- You are required to provide at least two (2) [digital maps](#) (.pdf, .jpg or other commonly used format)
 - General Location Map
 - [Site Plan](#) (see link for specific site plan requirements)

AND

- Written confirmation that the utility supplying the power to the area does not wish to apply for the tenure.
- A [Management Plan](#) which includes the project overview, project description and additional information as necessary. Information is provided in the [Management Plan Application Guidance Document](#). Specific information for Utility applications is listed below and references the section of the Management Plan it relates to:
 - 1.2 Survey evidence found nearby
 - 3.1 Construction details such as: poles, guy lines, footings, aviation markers, etc. and equipment to be utilized
 - 3.2 Access plans for during and after construction
 - 3.3 Advise of any plans to use poles belonging to other utility companies and arrangements made for joint use
 - 4.3 Drainage and other environmental control measures to be employed, such as ditching, bridging, tunneling, fencing, etc.

Note: Applicants should restrict management plan content to information that is directly relevant to the proposed project. Management Plans should not contain statements that are biased or judgmental or which may be harmful to other applicants, other licensed users of Crown land and resources, the general public, or businesses operating on private land.
