

Utilities Application Requirements List

The following requirements are part of the application and must be provided. Incomplete applications will be returned to the applicant.

In addition to the General Application Requirements included on the Application Form, the following items are required for all Mining applications.

- A Site Plan of the entire application area, drawn to scale with a north arrow, identifying the location of all improvements (buildings, structures, roads, powerlines, fences, etc.) in relation to the boundaries of the tenure area and other legal boundaries. Applications for individual private lines shall include written confirmation that the utility company supplying power to the area does not wish to apply for the tenure.

AND

- A Management Plan, signed and dated, which includes the project overview, project description and additional information as necessary. Specific information required is listed below. The template can be found here: <http://www2.gov.bc.ca/gov/content/industry/natural-resource-use/land-use/crown-land/crown-land-uses/management-plans>

Section B – Project Description

- Access plans during and after construction;
- Construction details such as: poles, guy lines, footings, aviation markers, etc. and equipment to be utilized;
- Advise of any plans to use poles belonging to other utility companies and arrangements made for joint use;
- Survey evidence found nearby; and,
- Drainage and other environmental control measures to be employed, such as ditching, bridging, tunneling, fencing, etc

Note: Applicants should restrict management plan content to information that is directly relevant to the proposed project. Management Plans should not contain statements that are biased or judgmental or which may be harmful to other applicants, other licensed users of Crown land and resources, the general public, or businesses operating on private land.
