

Search by BCGS Map Number

BCGS Map Number defined: This is a designation for the British Columbia Geographic System (BCGS) of map referencing or numbering, which divides the province into large numerical grids, then smaller alphabetic grids. Each alphabetic grid is then divided into 100 mapsheets, starting at the lower left with 001, then moving in a 10 by 10 grid, ending at the upper right corner of the grid with mapsheet numbered 100.

Hint: The format for the BCGS mapsheet number is NNNANNN, where N is numeric and A is alphabetic in capitals, as is 93P002 or 104G069, all without spaces.
