

Parcel Identification Number (PIN) Search

Parcel Identification Number (PIN) defined: Parcel identification numbers (PIN) are the unique numbering system generated number used by Crown lands and registry and GATOR to identify a parcel. It is not the same identification number used by the Land Title Office (PID). PINs are not necessarily limited to seven digits. From the Gator Survey Parcel Search by PIN page, users can enter the PIN number to search for a particular parcel or from the parcel encumbrance report link, enter the PIN number for a combination report.

Hint: Not all PINs are seven digits
