Code	
✓	The use or activity is considered acceptable and appropriate. Applications for tenure of this use should be accepted for processing and evaluation.
o	The use is considered conditionally acceptable. Applications for tenure for use require more specific information on capability and potential to accompany a tenure application before it is accepted for processing.
•	The use is acceptable at existing levels of tenure, subject to limited modifications as required by government. Applications for new tenures should not be accepted. Abandoned or unutilized sites should not subsequently be made available for the same use.
X	The use is considered inappropriate. Applications for tenure of this use should not be accepted for processing and evaluation.

Management Provisions

This unit should be managed to support recreational use while minimizing conflict with log handling and storage.

Maintain *Land Act* notation of interest over Peet Bay boat haven.

Log handling on adjacent shoreline should minimize visual impact for recreation.

New tenures should minimize impact on estuaries and associated values.

The regional district should address local recreational interests in its review of tenure referrals.
