Dear Reader:

Re: Endorsement of the Sayward Landscape Unit Plan

On behalf of the Ministry of Forests, Ministry of Water Land and Air Protection and Ministry of Sustainable Resource Management, we are pleased to endorse the Sayward Landscape Unit Plan.

This plan provides strategic direction on key resources that were identified by the *Vancouver Island Summary Land Use Plan* and the Sayward Landscape Unit planning process. Components of the Sayward Landscape Unit plan related to forest development will be established as Higher Level Plan Objectives under the *Forest Practices Code Act* to provide direction to agencies governed by this Act. Other elements of this plan that are not established as legal objectives serve as the best available information and should be considered by practitioners of activities related to forest development.

We would like to thank First Nations, local government, stakeholders and the public for their contributions.
