

1.9 Cancelling Road Use Permits

An industrial user may apply to the District Manager to be relieved of its Road Use Permit on an FSR when that road will not be required for industrial purposes. Before the Road Use Permit of the designated maintainer is cancelled, ensure that the road has been maintained to the level required for non-industrial use, to the extent necessary to ensure there is no material adverse effect on a forest resource, as evidenced by:

- structural integrity of the road prism and clearing width are protected; and
- drainage systems of the road are functional.

Otherwise, the permit will remain in force even while the user is idle for periods of time, and any designated maintenance obligations remain during those same periods.
