

Road Project Assurance Statement

TO BE COMPLETED BY COORDINATING MEMBER **AFTER** COMPLETION OF A PROJECT

Road Name and Location	Project #	Forest District/Business Area
-------------------------------	------------------	--------------------------------------

This assurance statement is for a project that includes (check one or more as applicable):

<input type="checkbox"/> Road Layout	<input type="checkbox"/> Road Survey
<input type="checkbox"/> Road Design	<input type="checkbox"/> Preparation of a Road Plan
<input type="checkbox"/> Road Construction	<input type="checkbox"/> Maintenance Plan
<input type="checkbox"/> Maintenance Works	<input type="checkbox"/> Road Deactivation

This is to advise that I am the responsible Coordinating Member (CM) for the activities included above, and I am a:

- an Engineering Professional (P.Eng., P.L.Eng.), registered with Engineers and Geoscientists British Columbia; or
- a Forest Professional (RPF, RFT, Limited Licensee), registered with the Association of British Columbia Forest Professionals (FPBC).

I have lead and coordinating responsibilities for the professional services associated with this project, the scope of which includes reviewing any existing Assurance Statements for earlier project activities, as well as any necessary field reviews* and reviews of office works and outputs, and have completed the work as required under the Legislation for my profession, the Guidelines for Professional Services in the Forest Sector - Forest Roads as applicable to this project and by good practice.

Based on the above, I give my assurance** that:

- the work substantially complies in all material respects with the intent reflected in any approved documents and assessments provided by Members or Specialists; and
- any significant modifications from those documents or assessments have been approved by the Member or Specialist that prepared the documents or assessments, OR the undersigned takes full responsibility for the modifications, and these modifications have been documented and marked on the as-built drawings.

* "Field reviews" means reviews conducted at the site of any field works by the CM as appropriate or his or her subordinate acting under his or her direct supervision, that the CM in his or her professional discretion considers necessary to ascertain whether the implementation of the work substantially complies in all material respects with the intent reflected in any approved documents and assessments provided by the Ministry, other Members or Specialists.

** "Assurance" means that the CM has undertaken the field and documentation reviews that, in his or her professional judgment, are considered necessary to ascertain whether the significant aspects of the project are in general conformance with approved plans, designs or other documents.
