

February 25, 2022

Honourable Rob Fleming
Minister of Transportation and Infrastructure
Parliament Buildings
Victoria, British Columbia V8V 1X4

Dear Minister Fleming:

Thank you for agreeing to serve British Columbians as Minister of Transportation and Infrastructure.

In this past year, as a member of Cabinet, your work has contributed to this government's efforts to support British Columbians as they face the impacts of COVID-19. People throughout the province continue to work together to stay safe and rebuild their lives and communities from the effects of the pandemic. Our government remains committed to getting through the pandemic and its after effects by building on this resilience and focusing on what matters most to people.

British Columbians voted for a government focused on their priorities: providing better health care for people and families, delivering affordability and security in our communities, and investing in good jobs and livelihoods in a clean-energy future.

I expect you –with support of your ministry – to focus on the commitments detailed in our platform, *Working for You*, along with the following foundational principles:

- **Putting people first:** Since 2017, our government has focused on making decisions to meet people's needs. That focus drove our work in our first term and will continue to be our priority. British Columbians are counting on the government to keep them safe and to build an economic recovery that works for everyone, not just those at the top. Keeping people at the centre of everything we do means protecting and enhancing the public services people rely on and working to make life more affordable for everyone.

.../2

- **Lasting and meaningful reconciliation:** Reconciliation is an ongoing process and a shared responsibility for us all. The unanimous passage of the *Declaration on the Rights of Indigenous Peoples Act* was a significant step forward in this journey. True reconciliation will take time and ongoing commitment to work with Indigenous peoples as they move toward self-determination. Our government – and every ministry – must remain focused on creating opportunities for Indigenous peoples to be full partners in our economy and providing a clear and sustainable path for everyone to work toward lasting reconciliation.
- **Equity and anti-racism:** Our province's history, identity and strength are rooted in its diverse population. Yet racialized and marginalized people face historic and present-day barriers that limit their full participation in their communities, workplaces, government, and their lives. Our government has a moral and ethical responsibility to tackle systemic discrimination in all its forms – and every ministry has a role in this work. While our caucus elected a record number of women, more work remains to address gender equity. Delivering on our commitments to address racial discrimination will require a commitment by all of government to ensure increased IBPOC (Indigenous, Black and People of Colour) representation within the public service, including in government appointments. Our efforts to address systemic discrimination must also inform policy and budget decisions by reviewing all decisions through a Gender-Based Analysis Plus (GBA+) lens.
- **A better future through fighting climate change:** In 2018, our government launched our CleanBC climate action plan. CleanBC puts British Columbia on the path to a cleaner, better future by building a low-carbon economy with new clean-energy jobs and opportunities, protecting our air, land and water and supporting communities to prepare for climate impacts. It is every Minister's responsibility to ensure your ministry's work continues to achieve CleanBC's goals.
- **A strong, sustainable economy that works for everyone:** We will continue our work to support British Columbians through the pandemic and the economic recovery by investing in health care, getting people back to work, helping businesses and communities, and building the clean, innovative economy of the future. Our plan will train the workforce of tomorrow, help businesses hire and grow and invest in the infrastructure needed to build our province.

The pandemic has reminded us that we're strongest when we work together. Delivering on our commitments to people will require a coordinated effort with your cabinet and caucus colleagues, supported by the skilled professionals in the public service. You will also support your cabinet colleagues to do their work, particularly where commitments cross ministry lines.

British Columbians expect their elected representatives to work together to advance the broader public good despite their partisan perspectives. That means seeking out, fostering, and championing good ideas, regardless of their origin. I expect you to reach out to elected members from all parties as you deliver on your mandate. Further, you will build thoughtful and sustained relationships through public and stakeholder engagement plans that connect with people to incorporate their perspectives early in the policy development process. These plans must include measurable outcomes and ensure active dialogue and ongoing outreach in your ministry's actions and priorities.

Over the course of our mandate, I expect you will make progress on the following items:

- Work with the Minister of Municipal Affairs and Minister of State for Infrastructure to support economic recovery from the effects of the COVID-19 pandemic in communities across BC by continuing to build important infrastructure projects, including through StrongerBC and the Investing in Canada Infrastructure Program.
- Ensure that infrastructure investments deliver benefits for local communities and workers through the use of Community Benefit Agreements where appropriate.
- Develop a strategy to streamline consultation, tendering, and construction of infrastructure projects to ensure benefits flow to British Columbians without unnecessary delays.
- Work with BC Transit to help families get around more affordably by making transit free for children up to and including age 12.
- Work with the Minister of Environment and Climate Change Strategy to integrate TransLink and BC Transit services.
- Deliver better transit and transportation for the South Island, guided by the South Island Transportation Strategy.
- Improve transit options for people in rural communities by expanding service for the successful BC Bus North program.
- Make BC Ferries more responsive and accountable by encouraging improved service at peak time, an improved reservation system and better coordination with public transit.
- Work with communities to expand their networks of active transportation to meet our CleanBC goal of doubling trips taken by walking, biking and other kinds of active networks by the year 2030.

- Continue the work to modernize the passenger directed transportation industry, supporting the Passenger Transportation Board in providing appropriate oversight and regulation, while ensuring accessible vehicles are available as needed.
- Continue efforts to ensure economic sustainability and equity for the taxi industry in the face of the impact of COVID-19.
- Continue the work to modernize BC's trucking industry, so that it can support economic activity into the future and ensure owners and drivers have a good standard of living.
- Lead work, with support from the Minister of Municipal Affairs and the Minister of Land, Water and Resource Stewardship and Minister Responsible for Fisheries, on the Integrated Transportation and Development Strategy to ensure greater alignment between transportation and land-use planning.

Our work as a government must continually evolve to meet the changing needs of people in this province. Issues not contemplated in this letter will come forward for government action and I ask you to bring such matters forward for consideration by the Planning and Priorities Committee of cabinet, with the expectation that any proposed initiatives will be subject to the usual cabinet and Treasury Board oversight. Your ministry's priorities must reflect our government's overall strategic plan as determined by cabinet.

All cabinet members are expected to review, understand and act according to the *Members' Conflict of Interest Act* and conduct themselves with the highest level of integrity. As a minister of the Crown, your conduct will reflect not only on you, but on cabinet and our government.

You are responsible for providing strong, professional, and ethical leadership within cabinet and your ministry. You will establish a collaborative working relationship with your deputy minister and the public servants under their direction who provide the professional, non-partisan advice that is fundamental to delivering on our government's priorities. You must ensure your minister's office meets the highest standards for integrity and provides a respectful and rewarding environment for all staff.

My commitment to all British Columbians is to do my level best to make sure people's lives are better, safer, and more affordable. I believe the challenges we face can and will be overcome by working together. By way of this letter, I am expressing my faith that people can expect the same commitment from you.

Sincerely,

A handwritten signature in blue ink that reads "John J. Horgan". The signature is fluid and cursive, with a long horizontal stroke at the end.

John Horgan
Premier
