

ORDER OF THE PROVINCIAL HEALTH OFFICER

(Pursuant to section 13 of the *Health Professions General Regulation*, B.C. Reg 275/2008)

REGULATED AND UNREGULATED HEALTH PROFESSIONALS SARS-CoV-2 IMMUNIZATION – March 24, 2021

WHEREAS:

- A. On March 17, 2020 I provided notice under section 52 (2) of the *Public Health Act* that the transmission of the infectious agent SARS-CoV-2, which has caused cases and outbreaks of a serious illness known as COVID-19 among the population of the Province of British Columbia, constitutes a regional event as defined in section 51 of the *Public Health Act* (the “**Emergency**”);
- B. Immunization against the infection SARS-CoV-2 includes one or more of the activities set out in column B of Appendix A (each an “**Immunization Activity**”);
- C. I am of the opinion that:
- (i) the operation of a health profession regulation is adversely affecting the timely delivery of the Immunization Activities, the scope of Immunization Activities that can be delivered, and the efficient and effective use of health human resources, throughout British Columbia, and
 - (ii) health professionals set out in column A of Appendix A (each an “**Authorized Health Professional**”) may perform an Immunization Activity, as authorized by this order, without undue risk to the health or safety of the patient or any other person; and
- D. For the purposes of applying this order to a particular Authorized Health Professional:
- (i) the authorized Immunization Activities are specifically set out in the entry in column B of Appendix A that corresponds to the Authorized Health Professional,
 - (ii) for greater certainty, the authorized Immunization Activities specifically exclude the services (if any) set out in the entry in column C of Appendix A that corresponds to the Authorized Health Professional,
 - (iii) the applicable specific limits (the “**Specific Limits**”) are set out in the entry in column D of Appendix A that corresponds to the Authorized Health Professional,

- (iv) the applicable mandatory training (the “**Mandatory Training**”) is set out in the entry in column E of Appendix A that corresponds to the Authorized Health Professional and the corresponding entries of Appendix B.

THIS ORDER REPEALS AND REPLACES MY EMERGENCY ORDER OF MARCH 14, 2021 WITH RESPECT TO REGULATED AND UNREGULATED HEALTH PROFESSIONALS SARS-CoV-2 IMMUNIZATION.

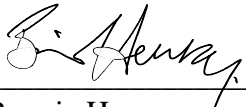

I, Dr. Bonnie Henry, Provincial Health Officer, order that notwithstanding any requirements set out in a health profession regulation that conflict or may conflict with this order, an Authorized Health Professional is authorized to perform an Immunization Activity, subject to the following conditions:

1. The Immunization Activity must be performed in the course of providing a SARS-CoV-2 immunization program approved by a medical health officer with responsibility for the geographic area in which the Immunization Activity is performed.
2. The Immunization Activity must be conducted in accordance with the resources issued by the BC Centre for Disease Control (the “**Resources**”) posted at the following website:

<http://www.bccdc.ca/health-info/diseases-conditions/covid-19/covid-19-vaccine/resources-for-health-professionals>
3. The Authorized Health Professional must complete all Mandatory Training before performing the Immunization Activity.
4. The Authorized Health Professional must comply with the Specific Limits (if any).
5. The Authorized Health Professional’s employer or a medical health officer must first assess the Authorized Health Professional’s competence to perform the Immunization Activity in a manner that is safe for both the patient and the Authorized Health Professional, including by requiring the Authorized Health Professional to demonstrate knowledge and skill, in accordance with the Resources, respecting the Immunization Activity. The Authorized Health Professional’s employer may only make this assessment if the employer is a registrant, or is acting on the advice of a registrant, who has assessed the Authorized Health Professional and who is authorized under a health profession regulation, and competent, to perform the Immunization Activity.

Unless repealed earlier, this order will end on the date that I provide notice under section 59 (b) of the *Public Health Act* that the Emergency has passed.

DATE: March 24, 2021

SIGNED: 
 Bonnie Henry
 MD, MPH, FRCPC
 Provincial Health Officer

Appendix A: Immunization Activity, Limitations and Mandatory Training

Note: this list does not include health professionals who can normally provide immunization services under their health profession regulations (e.g. Medical Practitioners, Registered Nurses, Registered Psychiatric Nurses, Licensed Practical Nurses, Pharmacists and Naturopathic Physicians).
