ORDER OF THE MEDICAL HEALTH OFFICER
(Pursuant to Sections 30, 31, 32, 39, 54, 67 (2) and 69 Public Health Act, S.B.C. 2008)

GATHERINGS AND EVENTS – NOVEMBER 30, 2021

The Public Health Act is at:
http://www.bclaws.ca/civix/content/complete/statreg/08028/?xsl=/templates/browse.xsl
(excerpts enclosed)

TO: OWNERS AND OPERATORS OF PLACES IN NORTHERN HEALTH
TO: PERSONS WHO ORGANIZE EVENTS IN NORTHERN HEALTH
TO: PERSONS WHO ATTEND EVENTS IN NORTHERN HEALTH
TO: OWNERS AND OCCUPANTS OF PRIVATE RESIDENCES IN NORTHERN HEALTH
TO: OWNERS AND OCCUPANTS OF VACATION ACCOMMODATION IN NORTHERN HEALTH
TO: OWNERS AND OPERATORS OF RESTAURANTS, COFFEE SHOPS, CAFES, CAFETERIAS, FOOD PRIMARY AND LIQUOR PRIMARY ESTABLISHMENTS, INCLUDING PUBS, BARS, LOUNGES AND NIGHTCLUBS, LIQUOR MANUFACTURING FACILITIES THAT HAVE TASTING ROOMS WITH SEATING OR PRIVATE CLUBS IN NORTHERN HEALTH
TO: PATRONS OF RESTAURANTS, COFFEE SHOPS, CAFES, CAFETERIAS, FOOD PRIMARY AND LIQUOR PRIMARY ESTABLISHMENTS, INCLUDING PUBS, BARS, LOUNGES AND NIGHTCLUBS, LIQUOR MANUFACTURING FACILITIES THAT HAVE TASTING ROOMS WITH SEATING OR PRIVATE CLUBS IN NORTHERN HEALTH
TO: OWNERS, OPERATORS, LEADERS, AND PATRONS OF PLACES OF WORSHIP IN NORTHERN HEALTH
TO: MEDICAL HEALTH OFFICERS

WHEREAS:
In the matter of an ORDER made pursuant to Part 4 Division 4 of the British Columbia Public Health Act, I, Dr. Jong Kim, Chief Medical Health Officer, Northern Health Authority, Fort St. John, BC, am of the opinion that a Public Health Hazard exists in the Northern Health Region for the following reasons:

A. On March 17, 2020 the Provincial Health Officer, Dr. Bonnie Henry, provided notice under section 52 (2) of the Public Health Act that the transmission of the infectious agent SARS-CoV-2, which has caused cases, clusters and outbreaks of a serious communicable disease known as COVID-19 among the population of the Province of British Columbia, constitutes a regional event, as defined in section 51 of the Public Health Act;

B. A person infected with SARS-CoV-2 can infect other people with whom the infected person is in contact;

C. Social interactions and close contact between people are associated with increases in the transmission of SARS-CoV-2, and increases in the number of people who develop COVID-19 and become seriously ill;

D. People spending time together indoors increases the risk of the transmission of SARS-CoV-2 in the population, thereby increasing the number of people who develop COVID-19 and become seriously ill;

E. Gatherings and events in private residences, vacation accommodation, worship services and other places continue to pose a risk of promoting the transmission of SARS-CoV-2 and increasing the number of people who develop COVID-19 and become seriously ill;

F. There has been an increase in the number of persons infected with COVID-19, in the Northern Health Authority, (hereinafter collectively referred to as the “Affected Area” or “Northern Health”);

G. Vaccination is safe, highly effective, and the single most important preventive measure a person can take to protect themselves, their families, and other persons with whom they come into contact from infection, severe illness and possible death from COVID-19. In particular:

   a. the vaccines available in British Columbia are highly effective, providing strong protection across all eligible age groups against infection and especially against severe illness;

   b. most British Columbians have strong and durable protection from SARS-CoV-2 resulting from the extended interval between dose one and dose two that is being utilized in British Columbia;

   c. a full course of vaccine provides more effective and durable protection against infection and severe illness than natural immunity from prior COVID-19 infection alone, or natural immunity in combination with a single-dose of vaccine; and

   d. a full course of vaccine provides highly effective and durable protection from infection and in particular from severe illness resulting in hospitalization or death from the Delta
variant with COVID-19, with illness being mostly milder in vaccinated people who become infected than in unvaccinated people.

H. Vaccines, which prevent or reduce the risk of infection with SARS-CoV-2, have been and continue to be readily available in British Columbia and while substantial progress has been made in vaccinating the population of British Columbia 12 years of age and older, a portion of the public remains unvaccinated and there are communities where vaccination rates are low;

I. Communities with low vaccination rates have experienced rapid spread of SARS-CoV-2, causing serious illness and increases in hospitalizations and intensive care admissions, primarily in unvaccinated people. By contrast, communities with high vaccination rates have seen corresponding lower transmission, case rates;

J. Unvaccinated people are at a significantly greater risk than vaccinated people of being infected with SARS-CoV-2, and those who are infected, experience significantly higher rates of hospitalization, ICU-level care and invasive mechanical ventilation, complications and death when compared with vaccinated people. Unvaccinated people are also at higher risk of transmitting SARS-CoV-2 to other people, including vaccinated people;

K. People who are vaccinated can be infected with SARS-CoV-2, but experience less severity of illness than unvaccinated people, especially in younger populations. Vaccinated persons who contract COVID-19 are also generally contagious for shorter periods of time, are less symptomatic, and are less likely to transmit SARS-CoV-2, when compared to unvaccinated infected persons;

L. This situation has been exacerbated by the highly transmissible Delta variant of SARS-CoV-2, which is now the dominant variant of SARS-CoV-2 circulating in British Columbia, causing significantly more rapid transmission and increased severity of illness, particularly in younger unvaccinated people. Absent vaccination, British Columbia would be in a far more challenging situation than the fragile balance our current immunization rates have provided, but the transmissibility of the Delta variant means that higher vaccination rates than previously expected are now required to maintain this balance, control transmission, reduce case numbers and serious outcomes, and reduce the burden on the healthcare system, particularly hospital and intensive care admissions;

M. Preserving the ability of the public health and health care systems to protect and care for the health needs of the population, including providing care for health needs other than COVID-19, is critical. High incidence of transmission and illness in one or more regions have spill-over effects on health care delivery across the Province, including in critical care and surgical services. Our public health and health care systems are currently experiencing severe stress, and are stretched beyond capacity in their efforts to prevent and respond to illness resulting from the transmission of COVID-19 in the population, primarily among unvaccinated people;

N. Both the public health and the health care systems are using disproportionate amounts of their resources in their efforts to prevent and respond to the transmission of SARS-CoV2,
and to provide care for those who become ill with COVID-19, primarily unvaccinated people who comprise the majority of hospitalizations and ICU admissions;

O. While people who have contracted SARS-CoV-2 may develop some natural immunity for a period of time following infection, the strength and duration of that immunity varies depending on a multitude of factors, including severity of infection. The risk of reinfection and hospitalization is significantly higher in people who remained unvaccinated after contracting SARS-CoV-2 than in those who were vaccinated post-infection. Vaccination, even after infection, remains an important measure to protect against reinfection. It does so by providing a stronger immune response that is known to be effective for a longer period of time and against a wider variety of strains of SARS-CoV-2 that are currently circulation in British Columbia, including the Delta variant;

P. People over 70 years of age, and people with chronic health conditions or compromised immune systems, are particularly vulnerable to severe illness and death from COVID-19, even if they are vaccinated;

Q. Included among the members of the community who are more likely to be infected are children aged 5 to 11 years. It will take some time before they can be fully vaccinated, and children below the age of 5 will remain unprotected from infection until a vaccine is available for them;

R. Adults and children who are either particularly vulnerable to infection with SARS-CoV-2 or too young to be immunized depend upon the people with whom they come into contact to protect them from the risk of infection;

S. Unvaccinated people in close contact with other people can promote the transmission of SARS-CoV-2 and increase the number of people who develop COVID-19 and become seriously ill; in particular, social mingling coupled with the consumption of alcohol, which increases risky behavior, is associated with increases in the transmission of SARS-CoV-2;

T. Gatherings and events which involve large numbers of people continue to pose a risk of promoting the transmission of SARS-CoV-2, and increasing the number of people who develop COVID-19 and become seriously ill;

U. Programs that require that proof of vaccination be provided have been shown to increase vaccination uptake in populations, thereby reducing the public health risk of COVID-19;

V. There are difficulties and risks in accommodating persons who are unvaccinated, since no other measures are nearly as effective as vaccination in reducing the risk of contracting or transmitting SARS-Co-2, and the likelihood of severe illness and death;

W. I have considered and continue to consider based on the currently available generally accepted scientific evidence whether other measures, such as natural immunity, PCR testing or rapid antigen testing, are as effective as vaccination in reducing the risk of transmission SARS-Co-2 and or the severity of illness if infected;

X. Routine COVID-19 testing of asymptomatic people is not recommended in BC and PCR
testing capacity is reserved for people who may be ill with COVID-19 to promote public health case identification, follow up and control measures. Asymptomatic testing increases the likelihood of generating false positive tests, which can unnecessarily consume public health resources in following up false positive tests. Similarly, rapid testing, which is followed up with confirmatory PCR testing for positive tests, is reserved for specific settings in which additional layers of protection are needed to protect people at higher risk of serious outcomes of COVID-19, such as in long-term care and assisted living facilities, or in remote or rural communities where obtaining results of PCR testing may be delayed;

Y. There are clear, objective criteria for determining whether a person has a medical deferral to a COVID-19 vaccination, and very few people fall into this category;

Z. Various options for establishing vaccine status, including in paper and online format, are readily available to members of the public;

AA. I recognize the societal effects, including the hardships, which the measures which I have and continue to put in place to protect the health of the population have on many aspects of life, and, with this in mind, continually engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the public, including constitutionally protected interests, in gatherings and events, against the risk of harm to public health created by gatherings and events and unvaccinated persons;

BB. I further recognize that constitutionally-protected interests include the rights and freedoms guaranteed by the Canadian Charter of Rights and Freedoms, including specifically freedom of religion and conscience, freedom of thought, belief, opinion and expression, freedom of peaceful assembly and freedom of association. These freedoms, and the other rights protected by the Charter, are not, however, absolute and are subject to reasonable limits, prescribed by law as can be demonstrably justified in a free and democratic society. These limits include proportionate, precautionary and evidence-based restrictions to prevent loss of life, serious illness and disruption of our health system and society. When exercising my powers to protect the health of the public from the risks posed by COVID-19, I am aware of my obligation to choose measures that limit the Charter rights and freedoms of British Columbians less intrusively, where this is consistent with public health principles. In consequence, I am not prohibiting outdoor assemblies for the purpose of communicating a position on a matter of public interest or controversy, subject to my expectation that persons organizing or attending such an assembly will take the steps and put in place the measures recommended in the guidelines posted on my website in order to limit the risk of transmission of COVID-19;

CC. In addition, I recognize the interests protected by the Human Rights Code, and have taken these into consideration when exercising my powers to protect the health interests of members of the public from the risk created by being in contact with unvaccinated persons
in gatherings and events;

DD. This Order does not apply to a council, board, or trust committee of a local authority as defined under the Community Charter, or the Local Government Act, or a school board; the distribution of food or other supplies to people in need; health or social services provided to people in need, such as warming or cooling centres; swimming and activities in swimming pools; fitness facilities which are located in a workplace for the benefit of workers, in a residential building for the benefit of residents, in a hotel for the benefit of guests; rehabilitation or exercise therapy programs; health care related events, including immunization clinics, COVID-19 testing centres and blood donation clinics; drug and alcohol support group meetings; court sittings wherever they occur; workers at a workplace when engaged in their work activities, including staff meetings; work camps; before, during or after school programs for students of public or independent schools (schools) organized by a school; home education or distributed learning activities; educational activities, including a practicum or research, involving students or researchers of post-secondary institutions in any location when provided or arranged by a post-secondary institution; language courses; employment related training; the use of any place for local, provincial or federal government purposes; services provided by or on behalf of any level of government, other than events, as defined in the Order, provided inside by or on behalf of a recreation centre or a library; food or liquor serving premises which are located in airports, or at BC Ferries terminals or on BC Ferries;

EE. Part B, section 15, and Part C, section 18, do not apply to the Province as owner of a place;

FF. I have reason to believe and do believe that

a. the continued presence of large numbers of unvaccinated people in the population, particularly in some age groups and some communities where vaccination rates continue to be low, continues to pose a risk to the health of the population, and constitutes a health hazard. This is because unvaccinated people can be the source of viral transmission to other unvaccinated people, and also to vaccinated people who are not completely immune consequent to their vaccination, either because of a reduced immune response or only having had one dose of vaccine. These infections can result in serious illness, hospitalization, intensive care unit admission for care and death.

b. it is in the public interest for me to exercise the powers in sections 30, 31, 32, 39, 54, 67 (2) and 69 of the Public Health Act TO ORDER as follows:

PUBLICATION OF THIS ORDER ON THE PROVINCIAL HEALTH OFFICER’S WEBSITE, THIS ORDER IS INCORPORATED INTO THE PROVINCIAL GATHERINGS AND EVENTS ORDER.

THIS ORDER IS LIMITED IN APPLICATION TO THE AFFECTED AREA, NORTHERN HEALTH.

THIS ORDER

A. REPEALS AND REPLACES MY ORDER MADE ON NOVEMBER 18, 2021, WITH RESPECT TO GATHERINGS AND EVENTS,
B. ENTERS INTO FORCE AT 12:01 AM ON DECEMBER 1, 2021

DEFINITIONS:

“adult” means a person 19 years of age or older;

“event” means a gathering of persons for a purpose;

“exemption” means a variance issued to a person under the Public Health Act on the basis of a medical deferral to a vaccination with respect to an event or type of event;

"face covering" means either of the following that covers the nose and mouth of a person:
   (a) a medical or non-medical mask;
   (b) a tightly woven fabric;
   (c) but does not include a clear plastic face shield

“flow through event” means an inside or outside event which patrons continually move through the event over a relatively short period of time and only interact with vendors or displays and includes markets, tradeshows and car shows.

"inside event” means
(a) a gathering of more than 10 participants in an inside place for one of the following purposes:

(i) entertainment, including a theatrical production or dance performance;

(ii) musical, including a concert or symphony performance;

(iii) business, but limited to a lecture, presentation or workshop;

(iv) social, including a wedding ceremony, wedding reception, funeral, funeral reception not held at a funeral home, or a sponsored or ticketed party;

(v) a sports event in an inside place;

(b) a gathering of more than 10 participants in an inside place for one of the following purposes

(i) a business purpose not described in (a), and including a conference, convention, commercial trade fair or home show;

(ii) choral;

(iii) gambling;

(iv) recreational education or classes, including arts, crafts, music, photography, culture, or travel education or classes;

(c) a gathering of any number of participants in an inside place for the purpose of an adult sports activity, an adult exercise or fitness activity or class, or an adult dance class;

(d) a program for children or youth in an inside place;

(e) does not include a flow-through event.

“organizer” means the person responsible for organizing an event;

“outside” does not include in a vehicle containing persons who reside in the same private residence.

“outside event” means

(a) an organized gathering of more than 25 participants in an outside place, for one of the following purposes:

(i) entertainment, including a theatrical production or dance performance;
(ii) musical, including a concert or symphony performance;

(iii) business, but limited to a lecture, presentation, or workshop

(iv) social, including a wedding reception, funeral reception not held at a funeral home, or a sponsored or ticketed party;

(v) a sports event in an outside place;

(b) an organized gathering of more than 25 participants in an outside place for one of the following purposes:

(i) a business purpose including a conference, convention, commercial trade fair or home show;

(ii) choral;

(iii) gambling;

(iv) recreational education or classes, including arts, crafts, music, photography, culture, or travel education or classes

(v) a gathering of any number of participants in an outside place for the purpose of an adult sports activity, an adult exercise or fitness activity or class, or an adult dance class;

(c) does not include a flow-through event.

“participant” means a person present at an event including a spectator, but does not include an organizer, event staff member, official, volunteer, officiant, or any other person who is acting in an official or service capacity, or a paid performer, player or athlete;

“patron” means a participant;

“person” does not include the Province;

“photo identification” means one of the following:

(a) a photo BC Services Card within the meaning of the Identification Card regulation;

(b) a temporary or permanent driver’s licence, issued by a government of a province of Canada;

(c) a certificate of Indian Status;
(d) a Métis Nation British Columbia citizenship and identification card;

(e) a passport attesting to citizenship or other national status, issued by a government of any jurisdiction and including a photograph of the holder;

(f) another form of identification, issued by a government of any jurisdiction, including a photograph of the holder;

(g) a military identification card that is issued by a government of any jurisdiction, which includes a photograph of the holder;

“**place**” means a venue, other than a private residence or vacation accommodation, and includes a hotel ballroom or conference room, a banquet hall, conference hall, auditorium, recreation centre, theatre, movie theatre, multi-movie theatre complex, casino, work-out gym, exercise or dance facility or studio, recreational facility arena, stadium, vacation accommodation, or a tent;

“**premises**” refers to restaurants, coffee shops, cafes, cafeterias and food primary and liquor primary establishment, including pubs, bars, lounges, liquor manufacturing faculties that have tasting rooms, private clubs and unlicensed restaurants that don't offer table service such as fast food, coffee shops, food courts, food trucks and takeout.

“**program for children or youth**” means a structured educational program not provided by a school, including music, art, drama, dance, recreational, sport, exercise, or social activity and provided primarily for persons under 22 years of age, but not including parenting programs or breast feeding programs;

“**proof of vaccination**” means

(a) in the case of a person who is more than 18 years of age, photo identification and a vaccine card;

(b) in the case of a person who is 18 years of age or younger, a vaccine card;

“**social gathering**” means a gathering of one or more individuals at a private residence or vacation accommodation for social or recreational purposes;

“**tent**” includes a marquee;
“vacation accommodation” means a house, townhouse, cottage, cabin, apartment, condominium, mobile home, recreational vehicle, hotel suite, tent, yurt, houseboat or any other type of living accommodation, and any associated deck, patio, garden or yard, in which a person is residing, but which is not the person’s primary residence;

“vaccinated” means to have received, all doses of a vaccine or a combination of vaccines as recommended by

(a) the provincial health officer, with respect to vaccines approved for use in Canada by the department of the federal government responsible for regulating drugs, or

(b) the World Health Organization, with respect to vaccines approved by the World Health Organization but not approved for use in Canada;

“vaccine” means a vaccine intended for use in humans against SARS-CoV-2;

“vaccine card” means proof in one of the following forms that the holder is vaccinated:

(a) electronic proof or a printed copy of an electronic proof,

   (i) issued by the government in the form of a QR code, accessible through the Health Gateway online platform, and

   (ii) showing the name of the holder;

(b) proof in writing, issued by the government for the purpose of showing proof of vaccination in accordance with orders of the provincial health officer made under the Public Health Act;

(c) proof, whether electronic or in writing, issued

   (i) by the government of Canada or of a province of Canada, and

   (ii) for the purpose of showing proof of vaccination in accordance with an order made in the exercise of a statutory power with respect to the protection of public health or the facilitation of international travel;

“variance” means the Variance of Gatherings and Events & Food and Liquor Serving Premises Orders to Suspend Reconsideration re Proof of Vaccination – November 12, 2021.

“worship service” includes bible study, choir and other gathering for the purpose of worship. It does not include a wedding, baptism, or funeral.
A. SOCIAL GATHERINGS AT PRIVATE RESIDENCES AND VACATION ACCOMMODATION

1. A person must not organize, host, or attend a social gathering inside a private residence or vacation accommodation unless:

   (a) all individuals in attendance age 12 and older are vaccinated;
   (b) the occupants of not more than one other private residence or vacation accommodation, and any event staff, are present in addition to the occupants; or
   (c) up to a maximum of 10 people, including any event staff, are present in addition to the occupants.

2. A person must not organize, host or attend, an event outside a private residence or vacation accommodation, including on a deck, patio, garden, or yard unless:

   (a) all individuals in attendance age 12 and older are vaccinated;
   (b) hand sanitation supplies are readily available;
   (c) up to a maximum of 25 people, including any event staff, are present in addition to the occupants;
   (d) no person who is attending the event and who is not an occupant goes inside, except for the purpose of using the washroom facilities, or the kitchen in the case of event staff

3. The owner of vacation accommodation must require any tenant, guest or other person using the vacation accommodation to comply with the requirements in this Part A.

B. EVENTS

1. A person must not permit a place to be used for, organize, or be present at an event, except in compliance with this Order.

2. For certainty,

   (a) an event held in a tent with one or more sides is an inside event; and
   (b) an event held in a tent without any sides is an outside event.

C. OUTSIDE EVENTS

1. A person may permit a place to be used for, or may organize or be present at an outside event, if the provisions of this Part and Part I (Proof of vaccination) are complied with.

2. Proof of vaccination required in accordance with Section I (Proof of vaccination).
3. There is an organizer.

4. Access to the event is controlled.

5. A person must not permit a place to be used for or must not organize an outside event with a purpose described paragraph (a) of the definition of an “outside event” unless the event is held as a seated outside event.

6. A person must not participate in an outside event

   (a) with a purpose described in paragraph (a) of the definition of an “outside event”, unless the event is held as a seated outside event; or

   (b) held as a standing event, if the purpose of the event is described in paragraph (b) of the definition of “outside event”.

7. If the event is described in paragraph (a) of the definition of “outside event”

   (a) there must be a seat available for each participant;

   (b) No more than 50% of the seated operating capacity of a place, excluding event staff, are present for a seated outside event.

   (c) participants must be seated throughout the place in such a way as to use all available space;

   (d) For venues with no specified operating capacity, participants must be seated throughout the place in such a way as to use all available space and provide 2 metres separation between participants not from the same household.

   (e) participants must be seated throughout the event, except

      (i) to use a food or drink station;

      (ii) to use washroom facilities;

      (iii) to move to another seat;

      (iv) to provide assistance to another person who requires care or first aid;

      (v) to leave or return to the premises.

8. If the event is described in paragraph (b) of the definition of “outside event”

   (a) No more than 50% of the operating capacity of a place, excluding event staff, are present for an outside event.
(b) For those places that do not have an official operating capacity, participants maintain a distance of two metres from one another, unless they reside together

9. If there is a food or drink station,

(a) hand washing facilities or alcohol-based sanitizers are within easy reach of the station;

(b) signs reminding participants to wash or sanitize their hands before touching self-serve food, drink or other items, are posted at the self-serve station; and

(c) high touch surfaces at the station, and utensils that are used for self-serve, are frequently cleaned and sanitized.

10. Hand sanitation supplies are readily available to participants.

11. Toilet facilities with running water, soap and paper towels for hand washing and drying purposes, or hand sanitation supplies, are available for participants.

12. The organizer monitors the number of participants present, and ensures that the number of participants present does not exceed 50% of the maximum capacity of the venue. If they are not seated, the organizer ensures that participants maintain a distance of two metres from one another.

13. A participant must not attend an event at which there are more participants present than are permitted in this Part, and must not enter a place, or must leave a place, if so directed by the organizer or a member of staff.

14. A participant must comply with the requirements in this Part, and with measures, or guidance or directions from the organizer or a member of staff, intended to avoid the congregation of participants.

15. If an event is held in part of a place which is completely separated from the rest of the place, additional persons who are not attending the event may be present in other parts of the place.

16. If there is more than one area in which events may be held in a place, there may be an event in each of the areas.

17. If the organizer is not the owner or occupant of the place in which an outside event is held, the owner or occupant must be satisfied that the organizer is aware of the conditions and requirements in this Part, and has the capacity to fulfill them.

18. COVID-19 safety Plan required, available upon request by enforcement officers

D. INSIDE EVENTS
1. A person may permit a place to be used for or may organize or be present at an inside event, if the provisions of this Part and Part I (Proof of vaccination) are complied with.

2. A person must not permit a place to be used for or must not organize an inside event with a purpose described in paragraph (a) of the definition of an “inside event” unless the event is held as a seated inside event.

3. A person must not participate in an inside event
   (a) with a purpose described in paragraph (a) of the definition of an “inside event”, unless the event is held as a seated inside event; or
   (b) held as a standing event, if the purpose of the event is described in paragraph (a) of the definition of “inside event.

4. Up to 50% of the seated operating capacity of a place may be used for the purpose of a seated inside event.

5. Proof of vaccination required in accordance with Section I (Proof of vaccination)

6. There is an organizer.

7. Access to the event is controlled.

8. If the event is described in paragraph (a) of the definition of “inside event”
   (a) there must be a seat available for each participant;
   (b) participants must be seated throughout the place in such a way as to use all available space;
   (c) participants must be seated throughout the event, except
      (i) to use a food or drink station;
      (ii) to use washroom facilities;
      (iii) to move to another seat;
      (iv) to provide assistance to another person who requires care or first aid;
      (v) to leave or return to the premises.

9. If there is a food or drink station,
   (a) hand washing facilities or alcohol-based sanitizers are within easy reach of the station;
(b) signs reminding participants to wash or sanitize their hands before touching self-serve food, drink or other items, are posted at the self-serve station; and

(c) high touch surfaces at the station, and utensils that are used for self-serve, are frequently cleaned and sanitized.

10. Hand sanitation supplies are readily available to participants.

11. Toilet facilities with running water, soap and paper towels for hand washing and drying purposes or hand sanitation supplies are available for participants.

12. Subject to further direction from me, posted on the Provincial Health Officer’s website, dance floors are closed with physical barriers or occupied with tables, unless they are being used for a dance performance.

13. A participant must comply with the requirements in this Part and in Part D, and with measures, or guidance or directions from the organizer or a member of staff, intended to avoid the congregation of participants.

14. Subject to further direction from me, posted on the Provincial Health Officer’s website, participants do not dance, unless they are performing at an event, registered participants in and attending at a dance class at a dance studio, or a child or youth participating in a program for children or youth.

15. If there is more than one area in a place in which events may be held, there may be an event in each of the areas.

16. If the organizer is not the owner or occupant of the place in which an inside event is held, the owner or occupant must be satisfied that the organizer is aware of the conditions and requirements in this Part and Part I, and has the capacity to fulfill them.

17. COVID-19 safety plan required, available upon request by enforcement officers.

E. FLOW THROUGH EVENTS

1. All flow through events require a COVID-19 safety plan, available upon request by enforcement officers.

2. Outdoor flow through events must limit capacity, and facilitate movement of patrons through the venue to avoid overcrowding and congregation.

3. Indoor flow through events are limited to 50% capacity of the venue or dedicated event space within the venue. This does not include vendors, volunteers or organizers and the capacity limit must be included in the COVID-19 safety plan.

4. Vendors must sanitize their booth or display; organizers must ensure common surfaces are sanitized every 2 hours throughout the indoor or outdoor event.
5. All vendors and participants must wear face coverings at indoor flow through events and face coverings are highly recommended at outdoor flow through events.

**F. WORSHIP SERVICES**

1. Patrons individually may attend a place of worship for the purpose of prayer or quiet reflection.

2. A person must not permit a place of worship to be used for, or organize, lead or participate in, a worship service inside or outside.

3. Virtual worship service or drive-in service may be provided.

   (a) If a drive-in service is held, patrons must only attend with members of their household and remain in the vehicle for the duration of the service.

4. A participant must not gather with other participants during, before or after a virtual worship service.

**G. OWNERS AND OPERATORS OF RESTAURANTS, COFFEE SHOPS, CAFES, CAFETERIAS, FOOD PRIMARY AND LIQUOR PRIMARY ESTABLISHMENTS, INCLUDING PUBS, BARS, LOUNGES, LIQUOR MANUFACTURING FACILITIES THAT HAVE TASTING ROOMS WITH SEATING OR PRIVATE CLUBS**

1. Despite any lesser restrictions under the Provincial Food and Liquor Serving Premises Order, a premises as defined in this order, must not provide food or drink services inside except in compliance with Part B (Proof of Vaccination) of the Provincial Food and Liquor Serving Premises Order.

   (a) Definition of premises in this order includes unlicensed restaurants that don't offer table service. For example, fast food, coffee shops, food courts, food trucks and takeout-only place.

2. A premises may provide food or drink takeout, or delivery services without requiring proof of vaccination, subject to the following conditions:

   (a) A patron may only be inside the premises for the purposes of ordering, purchasing or collecting food or drink for takeout or delivery.

   (b) A patron and staff member must be able to maintain a distance of two metres from one another, unless there is a physical barrier between them which blocks the transmission of droplets.
(c) A patron must maintain a distance of two metres from other patrons and from staff members, unless there is a physical barrier between them.

3. Premises which are licensed to serve liquor, and which do not have full meal service, must be closed.

4. Liquor manufacturing facilities with tasting rooms without full meal service, may stay open, but liquor service must cease at 10:00 pm and not resume until 9:00 am the following day.

5. If a full meal service is provided, premises may stay open, but liquor service must cease at 10:00 pm and not resume until 9:00 am the following day.

H. OWNERS AND OPERATORS OF LIQUOR PRIMARIES OPERATING AS NIGHTCLUBS

1. No person may operate a premises as a nightclub

2. No person may be a patron at a premises operating as a nightclub

I. PROOF OF VACCINATION

1. This Part applies to inside and outside events.

2. This Part does not apply to

   (a) a person under 12 years of age, or

   (b) a person 12 to 21 years of age who is participating in a program for children or youth.

3. Sections 8 and 9 do not apply to a person who is employed to lead, supervise or assist with a program for children or youth.

4. The following requirements apply with respect to an inside event:

   (a) An organizer must obtain proof in the form of a vaccine card that a participant has received two doses of vaccine.

   (b) A participant must provide an organizer with proof in the form of a vaccine card of having received two doses of vaccine.
(c) An organizer must not permit a participant who has not provided the organizer with proof in the form of a vaccine card of having received two doses of vaccine to enter or remain a place for the purpose of an event or to participate in an event.

(d) A participant who has not provided an organizer with proof in the form of a vaccine card of having received two doses of vaccine must not enter or remain in a place for the purpose of an event or participate in an event.

(e) If an event takes place on more than one day, the requirements in this section apply on each of those days.

5. An operator must not scan the QR code on a vaccine card with any tool other than a BC Vaccine Card Verifier App.

6. Subject to section 7, an organizer must not retain proof of vaccination or identification provided by a participant, or use it for any purpose other than to confirm that a participant has been vaccinated, as required by this Order.

7. Despite section 6, with the written consent of a participant, an organizer may keep a record of the fact that the participant has provided proof of being vaccinated in compliance with this Part until this Order expires or is repealed, and the organizer may rely upon this record to satisfy the requirements in this Part with respect to future participation by the participant in an event at the same place.

8. A person, including a parent, must have received two doses of vaccine, if the person is

(a) leading, supervising or assisting with a program for children or youth on a volunteer basis, including if the person receives an honorarium for doing so, but not including if the person is employed for this purpose, or

(b) required to be present with a child or youth at a program for children or youth,

9. A person who has not received two doses of vaccine must not

(a) lead, supervise or assist with a program for children or youth on a volunteer basis, including if the person receives an honorarium for doing so, but not including if the person is employed for this purpose, or

(b) be present with a child or youth at a program for children or youth.

10. Section 3 applies with respect to persons to whom section 8 applies.

This Order expires at 11:59 PM on January 31, 2022.

Pursuant to section 54 (1) (h) of the Public Health Act, and in accordance with the emergency powers set out in Part 5 of the Act, I will not be accepting requests for reconsideration of this
Order. For clarity, requests for reconsideration from proof of vaccination requirements under the Provincial Gathering and Events Order may be made as specified in the Provincial Gathering and Events Order.

You are required under section 42 of the Public Health Act to comply with this Order.

Failure to comply with this Order is an offence under section 99 (1) (k) of the Public Health Act.

If you fail to comply with this Order, I have the authority to take enforcement action against you under Part 4, Division 6 of the Public Health Act.

SIGNED:
Dr. Jong Kim, MD, MSC, FRCPC  
Chief Medical Health Officer  
Northern Health

DELIVERY BY: Posting to the BC Government the BC Centre for Disease Control websites.

Enclosure: Excerpts of the Public Health Act.
Definitions

1 In this Act:

"health hazard" means

(a) a condition, a thing or an activity that
   (i) endangers, or is likely to endanger, public health, or
   (ii) interferes, or is likely to interfere, with the suppression of infectious agents or
        hazardous agents, or

(b) a prescribed condition, thing or activity, including a prescribed condition, thing or activity
    that
       (i) is associated with injury or illness, or
       (ii) fails to meet a prescribed standard in relation to health, injury or illness;

When orders respecting health hazards and contraventions may be made

30 (1) A health officer may issue an order under this Division only if the health officer
reasonably believes that

   (a) a health hazard exists,

   (b) a condition, a thing or an activity presents a significant risk of causing a health
        hazard,

   (c) a person has contravened a provision of the Act or a regulation made under it, or

   (d) a person has contravened a term or condition of a licence or permit held by the person
        under this Act.

(2) For greater certainty, subsection (1) (a) to (c) applies even if the person subject to the order is
complying with all terms and conditions of a licence, a permit, an approval or another
authorization issued under this or any other enactment.
General powers respecting health hazards and contraventions

31 (1) If the circumstances described in section 30 [when orders respecting health hazards and contraventions may be made] apply, a health officer may order a person to do anything that the health officer reasonably believes is necessary for any of the following purposes:

(a) to determine whether a health hazard exists;

(b) to prevent or stop a health hazard, or mitigate the harm or prevent further harm from a health hazard;

(c) to bring the person into compliance with the Act or a regulation made under it;

(d) to bring the person into compliance with a term or condition of a licence or permit held by that person under this Act.

(2) A health officer may issue an order under subsection (1) to any of the following persons:

(a) a person whose action or omission

   (i) is causing or has caused a health hazard, or

   (ii) is not in compliance with the Act or a regulation made under it, or a term or condition of the person's licence or permit;

(b) a person who has custody or control of a thing, or control of a condition, that

   (i) is a health hazard or is causing or has caused a health hazard, or

   (ii) is not in compliance with the Act or a regulation made under it, or a term or condition of the person's licence or permit;

(c) the owner or occupier of a place where

   (i) a health hazard is located, or

   (ii) an activity is occurring that is not in compliance with the Act or a regulation made under it, or a term or condition of the licence or permit of the person doing the activity.
Specific powers respecting health hazards and contraventions

32 (1) An order may be made under this section only

(a) if the circumstances described in section 30 [when orders respecting health hazards and contraventions may be made] apply, and

(b) for the purposes set out in section 31 (1) [general powers respecting health hazards and contraventions].

(2) Without limiting section 31, a health officer may order a person to do one or more of the following:

(a) have a thing examined, disinfected, decontaminated, altered or destroyed, including

(i) by a specified person, or under the supervision or instructions of a specified person,

(ii) moving the thing to a specified place, and

(iii) taking samples of the thing, or permitting samples of the thing to be taken;

(b) in respect of a place,

(i) leave the place,

(ii) not enter the place,

(iii) do specific work, including removing or altering things found in the place, and altering or locking the place to restrict or prevent entry to the place,

(iv) neither deal with a thing in or on the place nor dispose of a thing from the place, or deal with or dispose of the thing only in accordance with a specified procedure, and

(v) if the person has control of the place, assist in evacuating the place or examining persons found in the place, or taking preventive measures in respect of the place or persons found in the place;

(c) stop operating, or not operate, a thing;

(d) keep a thing in a specified place or in accordance with a specified procedure;
(e) prevent persons from accessing a thing;

(f) not dispose of, alter or destroy a thing, or dispose of, alter or destroy a thing only in accordance with a specified procedure;

(g) provide to the health officer or a specified person information, records, samples or other matters relevant to a thing's possible infection with an infectious agent or contamination with a hazardous agent, including information respecting persons who may have been exposed to an infectious agent or hazardous agent by the thing;

(h) wear a type of clothing or personal protective equipment, or change, remove or alter clothing or personal protective equipment, to protect the health and safety of persons;

(i) use a type of equipment or implement a process, or remove equipment or alter equipment or processes, to protect the health and safety of persons;

(j) provide evidence of complying with the order, including

   (i) getting a certificate of compliance from a medical practitioner, nurse practitioner or specified person, and

   (ii) providing to a health officer any relevant record;

(k) take a prescribed action.

(3) If a health officer orders a thing to be destroyed, the health officer must give the person having custody or control of the thing reasonable time to request reconsideration and review of the order under sections 43 and 44 unless

   (a) the person consents in writing to the destruction of the thing, or

   (b) Part 5 [Emergency Powers] applies.

Contents of orders

39  (3) An order may be made in respect of a class of persons.

Duty to comply with orders

42  (1) A person named or described in an order made under this Part must comply with the order.
(2) Subsection (1) applies regardless of whether the person leaves the geographic area for which the health officer who made the order is designated.

Reconsideration of orders

43  (1) A person affected by an order, or the variance of an order, may request the health officer who issued the order or made the variance to reconsider the order or variance if the person

(a) has additional relevant information that was not reasonably available to the health officer when the order was issued or varied,

(b) has a proposal that was not presented to the health officer when the order was issued or varied but, if implemented, would

(i) meet the objective of the order, and

(ii) be suitable as the basis of a written agreement under section 38 [may make written agreements], or

(c) requires more time to comply with the order.

(2) A request for reconsideration must be made in the form required by the health officer.

(3) After considering a request for reconsideration, a health officer may do one or more of the following:

(a) reject the request on the basis that the information submitted in support of the request

(i) is not relevant, or

(ii) was reasonably available at the time the order was issued;

(b) delay the date the order is to take effect or suspend the order, if satisfied that doing so would not be detrimental to public health;

(c) confirm, rescind or vary the order.

(4) A health officer must provide written reasons for a decision to reject the request under subsection (3) (a) or to confirm or vary the order under subsection (3) (c).

(5) Following a decision made under subsection (3) (a) or (c), no further request for reconsideration may be made.
(6) An order is not suspended during the period of reconsideration unless the health officer agrees, in writing, to suspend it.

(7) For the purposes of this section,

(a) if an order is made that affects a class of persons, a request for reconsideration may be made by one person on behalf of the class, and

(b) if multiple orders are made that affect a class of persons, or address related matters or issues, a health officer may reconsider the orders separately or together.

(8) If a health officer is unable or unavailable to reconsider an order he or she made, a similarly designated health officer may act under this section in respect of the order as if the similarly designated health officer were reconsidering an order that he or she made.

General emergency powers

54  (1) A health officer may, in an emergency, do one or more of the following:

(h) not reconsider an order under section 43 [reconsideration of orders], not review an order under section 44 [review of orders] or not reassess an order under section 45 [mandatory reassessment of orders];

Offences

99  (1) A person who contravenes any of the following provisions commits an offence:

(k) section 42 [failure to comply with an order of a health officer], except in respect of an order made under section 29 (2) (e) to (g) [orders respecting examinations, diagnostic examinations or preventive measures];
