WHEREAS:

A. On March 17, 2020 I provided notice under section 52 (2) of the Public Health Act that the transmission of the infectious agent SARS-CoV-2, which has caused cases and outbreaks of a serious communicable disease known as COVID-19 among the population of the Province of British Columbia, constitutes a regional event as defined in section 51 of the Public Health Act;

B. A person infected with SARS-CoV-2 can infect other people with whom the infected person is in direct contact through droplets in the air, or from fluid containing SARS-CoV-2 left on surfaces;
C. Social interactions and close contact between people are associated with significant increases in the transmission of SARS-CoV-2, and increases in the number of people who develop COVID-19 and become seriously ill;

D. People spending time together indoors significantly increases the risk of the transmission of SARS-CoV-2 in the population, thereby increasing the number of people who develop COVID-19 and become seriously ill;

E. The Province continues to experience high levels of transmission of SARS-CoV-2, and to be at risk of rapid exponential growth in cases of COVID-19 which can result in high levels of cases and increased clusters and outbreaks which, in turn, can increase the incidences of serious disease leading to hospitalizations, intensive care admissions and deaths, thereby putting undue pressure on the health care system to care for people, and on the public health system to carry out contact tracing for the purpose of preventing further transmission;

F. Virus variants of concern which are more transmissible and have the potential to cause more serious illness, including among younger populations, are now present in Canada and the Province, and have heightened the risk to the population if people gather together. Gatherings and events in private residences and other places continue to pose a significant risk of promoting the transmission of SARS-CoV-2 and increase in the number of people who develop COVID-19 and become seriously ill;

G. I recognize the societal effects, including the hardships, which the measures which I have and continue to put in place to protect the health of the population have on many aspects of life, and with this in mind continually engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the public, including constitutionally protected interests, in gatherings and events, against the risk of harm created by gatherings and events;

H. I further recognize that constitutionally-protected interests include the rights and freedoms guaranteed by the Canadian Charter of Rights and Freedoms, including specifically freedom of religion and conscience, freedom of thought, belief, opinion and expression, freedom of peaceful assembly and freedom of association. These freedoms, and the other rights protected by the Charter, are not, however, absolute and are subject to reasonable limits, prescribed by law as can be demonstrably justified in a free and democratic society. These limits include proportionate, precautionary and evidence-based restrictions to prevent loss of life, serious illness and disruption of our health system and society. When exercising my powers to protect the health of the public from the risks posed by COVID-19, I am aware of my obligation to choose measures that limit the Charter rights and freedoms of British Columbians less intrusively, where this is consistent with public health principles. In consequence, I am not prohibiting outdoor
assemblies for the purpose of communicating a position on a matter of public interest or controversy, subject to my expectation that persons organizing or attending such an assembly will take the steps and put in place the measures recommended in the guidelines posted on my website in order to limit the risk of transmission of COVID-19.

I. This Order does not apply to the Executive Council, the Legislative Assembly; a council, board, or trust committee of a local authority as defined under the Community Charter, when holding a meeting or public hearing without members of the public attending in person; the distribution of food or other supplies to people in need; health or social services provided to people in need, such as cooling centres; individual attendance at a place of worship for the purpose of prayer or quiet reflection; health care related events such as immunization clinics, COVID-19 testing centres and blood donation clinics; court sittings wherever they occur; workers at a workplace when engaged in their work activities; workers living at a work camp; students, teachers or instructors at a school, or a post-secondary educational institution when engaged in educational activities; public pools and public skating rinks when not associated with an event; customers in a service business; a volunteer work party engaged in gardening, vegetation removal, trail building or a similar outside activity; the use of any place for local government, provincial or federal election purpose; or a rehabilitation or an exercise therapy program.

J. For certainty, this Order applies to private residences, vacation accommodation and private clubs and organizations;

K. I have reason to believe and do believe that

(i) the risk of an outbreak of COVID-19 among the public constitutes a health hazard under the Public Health Act;

(ii) there continues to be an urgent need for focused action to reduce the risk of the transmission of COVID-19 which extends beyond the authority of one or more medical health officers;

(iii) coordinated action is needed to protect the public from the transmission of COVID-19;

(iv) it is in the public interest for me to exercise the powers in sections 30, 31, 32 and 39 (3) of the Public Health Act TO ORDER as follows:

THIS ORDER REPEALS AND REPLACES MY ORDER OF MAY 26, 2021 WITH RESPECT TO GATHERINGS AND EVENTS

O. RELATED MEDICAL HEALTH OFFICERS ORDERS

Recognizing that the risk differs in different regions of the province and that medical health officers are in the best position to assess local circumstances and to determine whether additional or more restrictive steps need to be taken to reduce the risk of the transmission of COVID-19, I FURTHER ORDER:

1. A medical health officer may issue an order further to this Order for the purpose of having the provisions of the order incorporated into this Order. Such an order may add further prohibitions, or impose more restrictive limitations or conditions in the whole or part of the geographic area of the province for which the medical health officer is designated and, subject to section 2, the provisions of the order are incorporated into this Order when posted on my website. For certainty, a contravention of an order of a medical health officer issued further to this Order and posted on my website is a contravention of this Order.

2. While it is in force, a provision in an order made by a medical health officer further to this Order and posted on my website, which adds further prohibitions or imposes more restrictive limitations or requirements than this Order, applies in the whole or part of the
geographic area of the province for which the medical health officer is designated, despite the provisions of this Order.

This Order does not have an expiration date.

Pursuant to section 54 (1) (h) of the Public Health Act, and in accordance with the emergency powers set out in Part 5 of the Public Health Act, I will not be accepting requests for reconsideration of this Order.

You are required under section 42 of the Public Health Act to comply with this Order. Failure to comply with this Order is an offence under section 99 (1) (k) of the Public Health Act.

If you fail to comply with this Order, I have the authority to take enforcement action against you under Part 4, Division 6 of the Public Health Act.
