WHEREAS:

1. On March 17, 2020 I provided notice under section 52 (2) of the Public Health Act that the transmission of the infectious agent SARS-CoV-2, which has caused cases and outbreaks of a serious communicable disease known as COVID-19 among the population of the Province of British Columbia, constitutes a regional event as defined in section 51 of the Public Health Act;

2. The SARS-CoV-2 virus, an infectious agent, can cause outbreaks of COVID-19;

3. A person infected with SARS-CoV-2 can infect other people with whom the infected person is in direct contact through droplets in the air, or from fluid containing SARS-CoV-2 left on surfaces;
4. Social interactions and close contact between people are associated with significant increases in the transmission of SARS-CoV-2, and increases in the number of people who develop COVID-19 and become seriously ill;

5. Social interactions and close contact resulting from the gathering of people and events promotes the transmission of SARS-CoV-2 and increases the number of people who develop COVID-19 and become seriously ill;

6. With schools and post-secondary institutions operating and the change of seasons bringing cooler weather, people are interacting more and spending more time indoors which increases the risk of the transmission of SARS-CoV-2 in the population and the number of people who develop COVID-19 and become seriously ill;

7. Seasonal and other celebrations and social gatherings in private residences and other places have resulted in the transmission of SARS-CoV-2 and increases in the number of people who develop COVID-19 and become seriously ill;

8. There has been a rapid increase in COVID-19 cases throughout the province which has resulted in increasing and accelerating numbers of people being hospitalized and admitted to critical care, outbreaks in health-care facilities and deaths;

9. For certainty, this Order does not apply to the Executive Council, the Legislative Assembly; a council, board, or trust committee of a local authority as defined under the Community Charter, when holding a meeting or public hearing without members of the public attending in person; the distribution of food or other supplies to people in need; health or social services provided to people in need, such as warming centres; an episodic market at which only food for human consumption is sold; health care related events such as immunization clinics, health authority COVID-19 testing centres and blood donation clinics, court sittings wherever they occur; workers at a worksite when engaged in their work activities; workers living at a work camp; students, teachers or instructors at a school operating under the School Act [RSBC 1996] Ch. 412, the Independent School Act [RSBC 1996] Ch. 216 or a First Nations School, or a post-secondary educational institution when engaged in educational activities; students and instructors when engaged in occupational training activities which cannot be provided virtually by their nature; individuals attending regularly scheduled classes or practices in a recreation centre, other than indoor group high intensity fitness activities, indoor group low intensity fitness activity or adult team sport; customers in a mall or retail or service business when engaged in shopping activities or seeking services; a volunteer work party engaged in gardening, vegetation removal, trail building or a similar outside activity; or the use of any place for local government, provincial or federal election purposes.
10. For further certainty, this Order applies to private residences, vacation accommodation and private clubs and organizations;

11. I have reason to believe and do believe that

   (i) the risk of an outbreak of COVID-19 among the public constitutes a health hazard under the *Public Health Act*;
   (ii) there is an immediate and urgent need for focused action to reduce the rate of the transmission of COVID-19 which extends beyond the authority of one or more medical health officers;
   (iii) coordinated action is needed to protect the public from the transmission of COVID-19
   (iv) and that it is in the public interest for me to exercise the powers in sections 30, 31, 32 and 39 (3) of the *Public Health Act* TO ORDER as follows:

1. A medical health officer may issue an order further to this Order for the purpose of having the provisions of the order incorporated into this Order. For certainty, a contravention of an order of a medical health officer issued further to this Order and posted on my website is a contravention of this Order.

2. While it is in force, a provision in an order made by a medical health officer further to this Order and posted on my website, which adds further prohibitions or imposes more restrictive limitations or requirements than this Order, applies in the whole or part of the geographic area of the province for which the medical health officer is designated, despite the provisions of this Order.

   (b) be suitable as the basis of a written agreement under section 38 [may make written agreements]

3. Require more time to comply with the order.
Under section 43 (6) an Order is not suspended during the period of reconsideration unless the health officer agrees, in writing, to suspend it.

(b) charge a person with an offence under this Act.
Contents of orders

39  (3) An order may be made in respect of a class of persons.

Duty to comply with orders

42  (1) A person named or described in an order made under this Part must comply with the order.

(2) Subsection (1) applies regardless of whether the person leaves the geographic area for which the health officer who made the order is designated.

Reconsideration of orders

43  (1) A person affected by an order, or the variance of an order, may request the health officer who issued the order or made the variance to reconsider the order or variance if the person

   (a) has additional relevant information that was not reasonably available to the health officer when the order was issued or varied,

   (b) has a proposal that was not presented to the health officer when the order was issued or varied but, if implemented, would

      (i) meet the objective of the order, and

      (ii) be suitable as the basis of a written agreement under section 38 [may make written agreements], or

   (c) requires more time to comply with the order.

(2) A request for reconsideration must be made in the form required by the health officer.

(3) After considering a request for reconsideration, a health officer may do one or more of the following:

   (a) reject the request on the basis that the information submitted in support of the request

      (i) is not relevant, or

      (ii) was reasonably available at the time the order was issued;  

   (b) delay the date the order is to take effect or suspend the order, if satisfied that doing so would not be detrimental to public health;

   (c) confirm, rescind or vary the order.
(4) A health officer must provide written reasons for a decision to reject the request under subsection (3) (a) or to confirm or vary the order under subsection (3) (c).

(5) Following a decision made under subsection (3) (a) or (c), no further request for reconsideration may be made.

(6) An order is not suspended during the period of reconsideration unless the health officer agrees, in writing, to suspend it.

(7) For the purposes of this section,

(a) if an order is made that affects a class of persons, a request for reconsideration may be made by one person on behalf of the class, and

(b) if multiple orders are made that affect a class of persons, or address related matters or issues, a health officer may reconsider the orders separately or together.

(8) If a health officer is unable or unavailable to reconsider an order he or she made, a similarly designated health officer may act under this section in respect of the order as if the similarly designated health officer were reconsidering an order that he or she made.

**Review of orders**

**44** (1) A person affected by an order may request a review of the order under this section only after a reconsideration has been made under section 43 [reconsideration of orders].

(2) A request for a review may be made,

(a) in the case of an order made by a medical health officer, to the provincial health officer, or

(b) in the case of an order made by an environmental health officer, to a medical health officer having authority in the geographic area for which the environmental health officer is designated.

(3) If a review is requested, the review is to be based on the record.

(4) If a review is requested, the reviewer may do one or more of the following:

(a) delay the date the order is to take effect or suspend the order, if satisfied that doing so would not be detrimental to public health;

(b) confirm, vary or rescind the order;
(c) refer the matter back to the person who made the order, with or without directions.

(5) A reviewer must provide written reasons for an action taken under subsection (4) (b) or (c), and a person may not request further review of an order.
