TO: CONTRACTORS AND SUB-CONTRACTORS WHO PROVIDE STAFFING FOR FACILITIES

TO: EMPLOYEES AND CONTRACTED WORKERS (HEREINAFTER REFERRED TO COLLECTIVELY AS “STAFF”) AT FACILITIES

A. Staff and residents of many facilities have now been vaccinated against COVID-19 thereby lessening the risks of transmission of infection and of serious illness and hospitalization on the part of residents;

B. There is a shortage of staff available to work in facilities;
C. The requirement that staff only work in one facility affects the ability of operators to staff facilities, particularly in order to provide coverage for staff holidays over the summer months;

D. Staff who are fully vaccinated pose a minimal risk of transmitting COVID–19 to residents or other staff;

E. In order to the reduce the risk that immunized staff could introduce COVID-19 into multiple facilities it is desirable to limit the number of facilities in which a fully vaccinated person may work during the summer months by permitting immunized staff to only work in a cluster of facilities, as determined by health authority working groups;

F. In order to increase the ability of operators to operate facilities with adequate staff levels over the summer months, it is necessary for me to vary my Order of April 15, 2020 to permit vaccinated staff to work in more than one facility during the term of this variance

8. An operator, contractor or sub-contractor may not permit a person to work at more than one facility for a period which extends beyond the expiry of this Variance, unless permitted to do so under the Order.

9. A person must not work at more than one facility after the expiry of this Variance, unless permitted to do so under the Order.
This Variance expires on September 30, 2021.
