

Medical Assistance in Dying (MAiD)

Statistical Report

2022 Quarter Two

April 1 – June 30, 2022

Table of Contents

1. Data Limitations and Data Suppression
2. MAiD Provisions Reported in B.C. by Health Authority (Apr 1 – Jun 30, 2022)
3. Profile of Persons Receiving MAiD in B.C. (Apr 1 – Jun 30, 2022)
 - 3.1 Sex and Average Age
 - 3.2 Age Range
 - 3.3 Underlying Medical Condition(s)
 - 3.4 Source of Written MAiD Request
 - 3.5 Location of MAiD Provision
4. MAiD Prescribers in B.C. (Apr 1 – Jun 30, 2022)

1. Data Limitations & Data Suppression

The data presented is collected in accordance with the [Federal Regulations for the Monitoring of Medical Assistance in Dying](#) that came into force on November 1, 2018. In British Columbia, the Ministry of Health was designated as the recipient of all federally reportable information for the province. Medical practitioners and nurse practitioners are required to report on all written requests for MAiD, and pharmacists must report on the dispensation of drugs for the purposes of MAiD.

To protect the personal health information and privacy of those who have requested or received MAiD, statistics involving small numbers (less than a dozen individuals) have been suppressed to remove the risk of potential identification of individuals through the combination of datasets.

The data in this report represents 615 individuals who were provided MAiD between **April 1, 2022, and June 30, 2022.**

2. MAiD Provisions in B.C. by Health Authority

Health Authority	2022 MAiD Deaths (April 1 – June 30, 2022)	%
Fraser Health	125	20%
Interior Health	128	21%
Northern Health	22	4%
Vancouver Coastal Health	132	21%
Vancouver Island Health	208	34%
B.C.	615	100%

3. Profile of Persons Receiving MAiD in B.C.

The following tables represent **615 MAiD Deaths** from **April 1, 2022 to June 30, 2022**.

3.1 Sex and Average Age of Persons Receiving MAiD

	2022	
Sex	(Apr 1 - Jun 30)	%
Male	317	51.5%
Female	298	48.5%
B.C. MAiD Deaths	615	

Average Age by Sex
(Apr 1 - Jun 30)
77
77

3.2 Age Range of Persons Receiving MAiD

	2022
Age Range	(Apr 1 - Jun 30)
*18-55 years	5%
56-64 years	9%
65-70 years	13%
71-75 years	17%
76-80 years	13%
81-85 years	17%
86-90 years	13%
91+ years	13%

*18-45 years age data has been suppressed due to low numbers. The 18-45 years and 46-55 years age ranges have been combined.

3.3 Underlying Medical Condition of those who Received MAiD

Underlying Medical Condition of those who Received MAiD	2022 (Apr 1 - Jun 30)
Cancer - lung and bronchus	12%
Cancer - breast*	<5%
Cancer - colorectal	8%
Cancer - pancreas	6%
Cancer - prostate*	<5%
Cancer - ovary*	<5%
Cancer - hematologic*	<5%
Cancer - other	22%
Neurological condition - includes multiple sclerosis and amyotrophic lateral sclerosis*	<5%
Neurological condition - other	8%
Chronic respiratory disease	10%
Cardio-vascular condition	17%
Other organ failure	6%
Multiple co-morbidities	19%
Other illness, disease, or disability	16%

*Data suppressed due to low numbers

Explanatory Note: The data above indicates the proportion of the 615 individuals who received MAiD and that had each underlying illness, disease, or disability, as indicated on the Prescribing Practitioner's Assessment records during that period. As some individuals have multiple underlying medical conditions, the percentages do not total to 100%. The occurrence of each condition may also be slightly higher than indicated due to medical conditions that have been reported only as part of the Multiple Co-Morbidities option and not as an individual condition.

3.4 Source of Written MAiD Request

Requests Received by MAiD Prescribers in B.C	2022 (Apr 1 – Jun 30)
MAiD Requestor Directly	11%
Another Practitioner	16%
MAiD Care Coordination Service	71%
Another Third Party/Other	2%

3.5 Location of MAiD Provision

Location of MAiD Provision	2022 (Apr 1 – Jun 30)
Assisted Living Residence	4%
Community Care and Residential Care Facility (including long term care)	5%
Hospice	12%
Hospital (<i>excluding Palliative Care Beds</i>)	24%
Medical Office or Clinic, Ambulatory, or Other	4%
Palliative Care Facility (<i>including hospital based palliative care beds/units</i>)	7%
Private Residence	44%

4. MAiD Provisions by Prescriber Type

MAiD Prescriber Type	2022 (April 1 – June 30, 2022)	
	Count	%
Medical Practitioner	504	82%
Nurse Practitioner	111	18%
B.C. Total MAiD Deaths	615
