## **HDPBC Importing Git Repositories**

Version: V1.1

Updated: June 2022

## Overview

This document is filled out by users who want to import a git repository, for review by the HDPBC team.

When the document is complete, attach it to a General Inquiry through the Health Sector Information, Analysis and Reporting Request Management System (RMS) [portal](#). Please reference [this document](#) for guidance on how to submit a General Inquiry.

### Notes:

- The information being imported into the HDPBC desktop must be approved by the HDPBC team.
- The information being imported cannot contain any personal information.

## Contents

Overview .....	2
Git Repository Import Checklist.....	4
Document History .....	5

## Git Repository Import Checklist

Enter your contact information and the HDPBC project that you would like the files made available to.

User Information		
Name	Email	HDPBC Project Name

Enter the Git Repository name and location. Add more rows as necessary.

Git Repository Information	
Name	Location

**Example:**

Git Repository Information	
Name	Location
<i>HDPBC_Test_Repo</i>	<i>Git Repo URL</i>
