DISTANCE-READING (DIAGNOSTIC ULTRASOUND TELEMETRY) POLICY

a) Both public and privately-owned facilities may apply for Distance-Reading (Diagnostic Ultrasound Telemetry) for ultrasound services they are approved to perform.

b) Both sending (transmitting) and receiving sites must hold an ultrasound Certificate of Approval from the Committee or the Commission.

c) Applications will be assessed based on patient access needs and the general and specific criteria in the *Policies and Guidelines of the Medical Services Commission's Advisory Committee on Diagnostic Facilities*.

d) An application must be submitted and approval received prior to any change in a facility's Distance Reading approval, including the type of ultrasound services transmitted or any change in receiving sites. Applications must include the addresses of all current and proposed sites.

IMPORTANT APPLICANT INFORMATION

Any publicly or privately-owned Diagnostic Facility in British Columbia intending to bill the British Columbia Medical Services Plan (MSP) for outpatient diagnostic services must obtain a *Certificate of Approval,* granted by the Advisory Committee on Diagnostic Facilities (ACDF) or the Medical Services Commission (MSC).

All Certificates of Approval are **site and owner-specific and cannot be transferred or assigned.** If a facility is sold, the new owner must apply for a new Certificate of Approval in order to bill MSP for the provision of outpatient services.

Once an application is approved, the applicant must ensure all required facility accreditation and practitioner credentialing is in place prior to billing MSP for outpatient services.
