Notes:
* Section 24 (2.1) requires that the physician’s examination must include:
  (a) consideration of all reasonably available evidence concerning the patient’s history of mental disorder including (i) hospitalization for
treatment, and (ii) compliance with treatment plans following hospitalization, and
  (b) an assessment of whether there is significant risk that the patient, if discharged, will as a result of mental disorder fail to follow the
treatment plan the director or physician considers necessary to minimize the possibility that the patient will again be detained under
section 22.

** Section 22 (3) of the Act states the following involuntary admission criteria:
The patient is a person with a mental disorder who (i) requires treatment in or through a designated facility, (ii) requires care, supervision and
control in or through a designated facility to prevent the patient’s substantial mental or physical deterioration or for the protection of the patient
or the protection of others, and (iii) cannot suitably be admitted as a voluntary patient.
