BC PHARMACARE MEDICATION ADMINISTRATION PROGRAM (MAP) SERVICE LOG

All MAP services must be documented either in this log or in a log maintained by the pharmacy that captures the same information.

Pharmacies are responsible for retaining this documentation in the pharmacy and must be able to provide upon request the MAP Service Log; supporting records related to client assessment and monitoring; and where applicable, documentation of the referral or a formal agreement with a health authority or community organization.

The pharmacy must be enrolled in MAP and must have submitted the MAP Patient Roster. All services and providers must meet MAP eligibility criteria, as described in the BC PharmaCare Medication Administration Program, https://www2.gov.bc.ca/gov/content/health/practitioner-professional-resources/pharmacare/pharmacies/map.

Each MAP service must be recorded on the same day it is provided.

Pharmacy Name				**Pharmacy Site ID**	
Date and time of service MM/DD/YYYY 00:00 am/pm	**Patient Name**	**Patient PHN**	**Service provided (e.g., blood sugar monitoring and insulin adjustment)**	**Name and role of health professional providing service (e.g., Jane Kim, care aide)**	**Health professional signature**
