

# Drug Coverage Decision for B.C. PharmaCare

## About PharmaCare

B.C. PharmaCare is a government-funded drug plan. It helps British Columbians with the cost of eligible prescription drugs and specific medical supplies.

## Details of Drug Reviewed

<b>Drug</b>	<b>Mesalazine</b>
Brand Name	Mezera™
Dosage Forms	1 g/actuation foam enema, 1 g suppository
Manufacturer	Avir Pharma
<b>Submission Type</b>	<b>Line Extension</b>
Use Reviewed	Foam enema: treatment of mildly active ulcerative colitis of the sigmoid colon and rectum. Suppository: treatment of acute mild to moderate ulcerative proctitis.
Common Drug Review (CDR)	No, CDR did not review.
Provincial Review	The Drug Benefit Council (the DBC) does not review drugs submitted as Line Extensions.
<b>Drug Coverage Decision</b>	<b>Non-Benefit</b>
Date	February 26, 2019
Reasons	<ul style="list-style-type: none"> <li>Mezera foam enema and suppository did not demonstrate advantages over existing mesalazine formulations with respect to efficacy, safety and quality of life.</li> <li>Based on existing PharmaCare coverage of mesalazine comparators and clinician feedback, Mezera was assessed to have a minimal role with regard to fulfilling current unmet clinical needs in British Columbia.</li> <li>Based on economic considerations and the submitted product price, Mezera foam enema is more costly than available alternatives.</li> </ul>
Other Information	None

### The Drug Review Process in B.C.

A manufacturer submits a request to the Ministry of Health (Ministry).

An independent group called the [Drug Benefit Council \(DBC\)](#) gives advice to the Ministry. The DBC looks at:

- whether the drug is safe and effective
- advice from a national group called the [Common Drug Review \(CDR\)](#)
- what the drug costs and whether it is a good value for the people of B.C.
- ethical considerations involved with covering or not covering the drug
- input from physicians, patients, caregivers, patient groups and drug submission sponsors

The Ministry makes PharmaCare coverage decisions by taking into account:

- the existing PharmaCare policies, programs and resources
- the evidence-informed advice of the DBC
- the drugs already covered by PharmaCare that are used to treat similar medical conditions
- the overall cost of covering the drug
