

Drug Coverage Decision for B.C. PharmaCare

About PharmaCare

B.C. PharmaCare is a government-funded drug plan. It helps British Columbians with the cost of eligible prescription drugs and specific medical supplies.

Details of Drug Reviewed

Drug	selexipag
Brand Name	Uptravi [®]
Dosage Form(s)	200 mcg, 400 mcg, 600 mcg, 800 mcg, 1,000 mcg, 1,200 mcg, 1,400 mcg, and 1,600 mcg tablets
Manufacturer	Actelion Pharmaceuticals Canada Inc.
Submission Type	New Submission
Use Reviewed	Treatment of pulmonary arterial hypertension (PAH)
Common Drug Review (CDR)	Yes, CDR recommended: to Reimburse with clinical criteria and/or conditions. Visit the CDR website for more details: https://www.cadth.ca/sites/default/files/cdr/complete/SR0482_complete_Uptravi-Oct-28-16.pdf
Provincial Review	Drug Benefit Council (DBC) now screens drug submissions under review by the CDR to determine whether or not a full DBC review is necessary, based on past DBC reviews, recommendations, and existing PharmaCare coverage. If a full DBC review is determined to not be required, the Ministry's drug coverage decision will be based on the CDEC recommendation and an internal review only. The DBC advised that because selexipag is similar to some of the other drugs used for the treatment of PAH, the Ministry may accept the CDEC's recommendation for selexipag.
Drug Coverage Decision	Limited Coverage Benefit. Access the selexipag criteria from www.gov.bc.ca/pharmacarespecialauthority
Date	October 30, 2018
Reason(s)	Drug coverage decision is consistent with the Canadian Drug Expert Committee (CDEC) recommendation. <ul style="list-style-type: none"> • The drug was similar to or demonstrated some advantage over placebo with respect to efficacy and safety. There were no quality of life data reported for the randomized controlled trial. • Based on economic considerations and the submitted product price, the drug was not cost-effective and/or offered value for money. • The Ministry participated in the pan-Canadian Pharmaceutical Alliance (pCPA) negotiations with the manufacturer which were able to address the concerns identified by the CDEC with respect to the cost-effectiveness and value for money.
Other Information	None

The Drug Review Process in B.C.

A manufacturer submits a request to the Ministry of Health (Ministry).

An independent group called the [Drug Benefit Council \(DBC\)](#) gives advice to the Ministry. The DBC looks at:

- whether the drug is safe and effective
- advice from a national group called the [Common Drug Review \(CDR\)](#)
- what the drug costs and whether it is a good value for the people of B.C.
- ethical considerations involved with covering or not covering the drug
- input from physicians, patients, caregivers, patient groups and drug submission sponsors

The Ministry makes PharmaCare coverage decisions by taking into account:

- the existing PharmaCare policies, programs and resources
- the evidence-informed advice of the DBC
- the drugs already covered by PharmaCare that are used to treat similar medical conditions
- the overall cost of covering the drug
