Drug Benefit Council (DBC)	DBC met on December 7, 2015. DBC considered various inputs including: final review completed by the Common Drug Review (CDR) on October 28, 2015, which included clinical and pharmacoeconomic evidence review material and the recommendation from the Canadian Drug Expert Committee (CDEC); input from two specialists, and one patient-type input.
Drug Coverage Decision	Limited Coverage Benefit. Access the vedolizumab criteria from www.gov.bc.ca/pharmacarespecialauthority
Date	May 2, 2017
Reasons	Drug coverage decision is consistent with the DBC recommendation. <ul style="list-style-type: none"> • The drug demonstrated some advantage over placebo with respect to clinical response, clinical remission, mucosal healing and quality of life. • There was no efficacy data comparing the drug to other biologic drugs approved for the treatment of ulcerative colitis. • The Ministry participated in the pan-Canadian Pharmaceutical Alliance negotiations with the manufacturer which were able to address the concerns identified by the CDEC with respect to the cost-effectiveness and value for money.
Other Information	None

The Drug Review Process in B.C.

A manufacturer submits a request to the Ministry of Health (Ministry).

An independent group called the [Drug Benefit Council \(DBC\)](#) gives advice to the Ministry. The DBC looks at:

- whether the drug is safe and effective
- advice from a national group called the [Common Drug Review \(CDR\)](#)
- what the drug costs and whether it is a good value for the people of B.C.
- ethical considerations involved with covering or not covering the drug
- input from physicians, patients, caregivers, patient groups and drug submission sponsors

The Ministry makes PharmaCare coverage decisions by taking into account:

- the existing PharmaCare policies, programs and resources
- the evidence-informed advice of the DBC
- the drugs already covered by PharmaCare that are used to treat similar medical conditions
- the overall cost of covering the drug
