MEDICATION REVIEW SERVICE— ONLINE TRAINING MODULE NOW AVAILABLE

The Clinical Services Committee (which consists of representatives from the BC Ministry of Health, the BC Pharmacy Association and the Canadian Association of Chain Drug Stores) is pleased to announce that an online training module is now available to assist pharmacists.

The module is a valuable tool in learning the policies and procedures for providing medication review services to eligible patients and receiving PharmaCare payment for these services. It covers information current to August, 2011, including changes to patient eligibility criteria, service deliverables and documentation requirements.

This module was prepared by the University of British Columbia's Department of Continuing Pharmacy Professional Development. It is available free-of-charge at <http://cpd.pharmacy.ubc.ca/MedRevTraining>.

FAIR PHARMACARE UPDATE—MONTHLY DEDUCTIBLE PAYMENT OPTION REMINDER

After September 30th of each year, patients can no longer enrol in the Monthly Deductible Payment Option for the current year. They can, however, enrol for **next year**.

Enrolling at, or before, the start of the calendar year offers eligible individuals and families the smallest monthly payment.
