

# PharmaCare Ostomy Supplies

*The ostomy supplies listed below are covered for eligible patients who have undergone bowel and/or bladder surgery that results in a colostomy, ileostomy, or urostomy, requiring an external pouch. Actual reimbursement is subject to the rules of the patient's PharmaCare plan, including any deductible requirements.*

New Listings are noted in **red**.

## Non-benefit Items

The following items are not benefits.

**Note:** Exclusion of a product from this list does not imply it is a benefit product.

- Catheters—for any use, including
  - for management of any medical or post-surgical condition
  - all products for management of continent urostomies—catheters, absorbent pads  
Note: PINs 88123480, 88123492 and 88123510 are benefits for patients using a urostomy pouch (PIN 88123431)
- All products for the management of nephrostomy tubes, feeding tubes, other drainage tubes, wound drainage—such as Hollister drain tube attachment device, or urinary drainage collection equipment (including PINs 88123480, 88123492 and 88123510, except as noted above)
- All products for management of urinary incontinence—catheters, condoms, drainage containment equipment, diapering systems, incontinence pads, tubing and adapters (including PINs 88123480, 88123492 and 88123510, except as noted above)
- Cotton covers for pouches or night drainage bottles
- Pouch liners—such as Colo-Majic
- Stoma hole cutters
- Ostomy support belts—such as Nu-Hope
- Skin protectants—such as Marathon skin protectant
- Creams—such as Sween Cream, Chiron Cream, BAZA cream
- Cleansers—such as Uni-Wash, ConvaTec AloeVesta products
- Lubricants—such as KY Jelly, Hollister stoma lubricant
- Tapes (other than paper-type or elastic barrier tape)—such as waterproof tape, Elastoplast, straight transparent dressings—such as OpSite, Tegaderm
- Room deodorants—such as M9
- In-pouch deodorants—such as Uri-Kleen, M9, Banish
- Hydrocolloid dressings—such as DuoDerm, Restore, Tegasorb
- Instruments—such as scissors, dressings sets
- Alcohol swabs, sterile and unsterile gauze
- Any items purchased through online suppliers – items must be purchased from authorized PharmaCare providers.

PharmaCare does not cover any items, even if they are listed in this document, not used for the purposes stated. Non-benefit uses include management of a catheter, diabetes, an insulin pump, wounds, ineligible types of ostomy (e.g., a cecostomy or nephrostomy), feeding tubes, or urinary incontinence.
