

Special Authority eForms

What are eForms?

- A digital version of the paper request form that can now be completed and submitted online
- Fast, convenient, more secure and more accurate
- Reduce processing times and return decisions quicker
- Easy: enter patient and prescriber information, the form auto-populates, and criteria can be checked off

For more information, including enrolment and video tutorials, go to www.gov.bc.ca/SpecialAuthorityeForms

Faxed submissions

- Slower to process
- Difficult to track
- Often incomplete or illegible, causing delays

27%

of faxed forms are returned because they're completed incorrectly

Did you know?

eForms tracking

- Patients can track their requests in [Health Gateway](#)
- Some submissions eligible for auto-adjudication (immediate coverage decision)

Decisions

- Sent by fax in the short-term
- To be replaced by digital notifications
