

OUT-OF-OFFICE HOURS PREMIUMS

(Applicable to General Practitioners and Specialists)

Explanatory Notes

- a) The out-of-office hours premium listings apply only to those services initiated and rendered within the designated time limits. They apply to visits to a physician's office only if the office is officially closed during the designated time period.
- b) Call-out charges apply only when the physician is specially called to render emergency or non-elective services and only when the physician must travel from one location to another to attend the patient(s).
- c) The call-out charge applies only to the first patient examined or treated on any one special visit. A call-out charge is applicable to each special call-out whether or not a previous call-out charge has been billed for the same patient on the same day.

For example, a physician may provide a consultation during out-of-office hours for which a call-out charge is applicable. The physician may then perform an operation on the same patient at a different time during out-of-office hours. If the physician was specially called, on separate occasions, to render both services and was required to travel from one location to another for both services, it would be appropriate to bill a call-out charge for the consultation and a call-out charge for the operation in addition to the regular fees for the services and any applicable continuing care operative and non-operative surcharges.

- d) Within the foregoing guidelines, the call-out charges are also applicable to the attending surgeon post-operatively even though the visit itself may not be chargeable as described in Preamble D. 5. 1.
- e) The operative continuing care surcharge applies also to surgical assistant fees.
- f) The "home visit" (00103) and "emergency visit when specially called" listings (00111, 00112, 00115, 00205, 00205, 002505, 00305, 00405, 03005, 04005, 00505, 00605, 01705, 06005, 07005, 07805, 08005, 30005, 31005, 32005, 33005, 33205, 33305, 33405, 33505, 33605, 33705, 77005, 79005, 94005) are not payable in addition to the out-of-office hours premium. Neither are emergency visits payable to the attending surgeon (or his/her substitute) within 10 post-operative days from a surgical procedure (except "operation only" procedures).
- g) The non-operative continuing care surcharge applies to delivery only (not standby time or first stage of labour). State continuous time spent with the patient during second or third stages of labour only.
- h) These items are not applicable to full or part-time emergency physicians, or physicians designated by a hospital emergency room as the on duty/on site physician. Those physicians are referred to the Emergency Medicine Section of the Payment Schedule.
- i) Call-out charges and continuing care surcharges are also applicable when called from home to provide labour epidural insertions, or to provide subsequent resuscitative care under fee code 01088.
- j) The non-operative continuing care surcharge is payable to general practitioners, medical specialists and surgical specialists when non-operative services are provided. Continuing care surcharges are payable to radiologists and laboratory (including nuclear medicine) physicians only when the primary service to which the continuing care surcharges apply are payable by MSP on a fee-for-service basis.

- k) The following applies in the event that a consultation or visit is followed by surgery: 1) the non-operative continuing care surcharge applies to the consultation or visit, and 2) the operative continuing care surcharge applies to the surgery.
- l) Physicians providing anesthetic services may be eligible for continuing care surcharges even if the service is initiated before 1800 hours. That portion of anesthetic services rendered within the designated times are eligible for continuing care surcharges if they fulfil the requirements described in the Anesthetic Continuing Care Surcharges section.
