General Practice Group Medical Visit

A Group Medical Visit provides 1:1 patient care in a group setting. Group Medical Visits are an effective way of leveraging existing resources; simultaneously improving quality of care and health outcomes, increasing patient access to care and reducing costs. Group Medical Visits can offer patients an additional health care choice, provide them support from other patients and improve the patient-physician interaction. Physicians can also benefit by reducing the need to repeat the same information many times and free up time for other patients. Appropriate patient privacy is always maintained and typically these benefits result in improved satisfaction for both patients and physicians.

The Group Medical Visit is not appropriate for advice relating to a single patient. It applies only when all members of the group are receiving medically required treatment (i.e. each member of the group is a patient). The GP Group Medical Visits are not intended for activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns other than in the context of the individual medical condition.

GP Telephone/E-mail follow-up Management Fee

In order to encourage non-face-to-face communication with patients covered by some of the GPSC incentives, the initial four separate telephone/e-mail follow up fees have been simplified into a single code that will still apply to the planning incentives (Complex Care G14033, Mental Health G14043, Palliative Care G14063 & COPD G14053 which requires a COPD Action Plan). Patients covered by one or more of these incentives are eligible for five telephone/e-mail services over the 18 months following the billing of the qualifying incentive(s).

G14079	GP Telephone/Email Management Fee	15.00
	This fee is payable for two-way communication with eligible patients, or the patient's medical representative, via telephone or email by the GP who has billed and been paid for at least one of the following GPSC incentives: Complex Care Planning Fee (G14033) Mental Health Planning Fee (G14043) Annual Chronic Care Bonus for COPD (G14053)	

Palliative Care Planning Fee (G14063)

Chart entry must record the name of the person who communicated with the patient or patient's medical representative, as well as capture the elements of care discussed.

3. Complex Care Fees

The Complex Care Management Fee was developed to compensate GPs for the management of complex patients who have chronic conditions from a least 2 of the 8 categories listed below. Providing the Complex Care planning visit and billing for the development of a care plan allows access to 5 telephone/e-mail fees (G14079) during the following 18 months.

These items are payable only to the General Practitioner who accepts the role of being Most Responsible for the longitudinal, coordinated care of that patient; by billing this fee the practitioner accepts that responsibility for the ensuing calendar year.

The Most Responsible General Practitioner may bill this fee when providing care only to community patients; i.e. residing in their homes or in assisted living with two or more of the following chronic conditions:

- 1) *Diabetes mellitus (type 1 and 2)*
- 2) *Chronic Kidney Disease*

If a patient has more than 2 of the qualifying conditions, when billing the Complex Care Management Fee the submitted diagnostic code from Table 1 should represent the two conditions creating the most complexity.

Successful billing of the Complex Care Management Fee (G14033) allows access to 5 Telephone/E-mail follow-up fees (G14079) per calendar year over the following 18 months.

7. Mental Health Planning and Management Fees

G14043 GP Mental Health Planning Fee 100.00

This fee is payable upon the development and documentation of a patient's Mental Health Plan for patients resident in the community (home or assisted living, excluding care facilities) with a confirmed Axis I diagnosis of sufficient severity and acuity to cause interference in activities of daily living and warrant the development of a management plan.

This fee requires the GP to conduct a comprehensive review of the patient's chart/history, assessment of the patient's current psychosocial symptoms/issues by means of psychiatric history, mental status examination, and use of appropriate validated assessment tools, with confirmation of diagnosis through DSM IV diagnostic criteria. It requires a face-to-face visit with the patient and/or the patient's medical representative.

From these activities (review, assessment, planning and documentation), a Mental Health Plan for that patient will be developed that documents in the patient's chart, the following:

1. That there has been a detailed review of the patient's chart/history and current therapies;
2. The patient's mental health status and provisional diagnosis by means of psychiatric history and mental state examination;
3. The use of and results of validated assessment tools. G14063 Palliative Care planning fee.....100.00

This fee is payable upon the development and documentation of a Palliative Care Plan for patients who have been determined to have reached the palliative stage of a life-limiting disease or illness, with life expectancy of up to 6 months, and who consent to the focus of care being palliative rather than treatment aimed at cure. Eligible patients must be resident in the community; in a home or in assisted living or supportive housing. Facility-resident patients are not eligible for this initiative.

This fee requires the GP to conduct a comprehensive review of the patient's chart/history and assessment of the patient's current diagnosis to determine if the patient has a life-limiting condition that has become palliative and/or remains palliative. It requires a face-to-face visit and assessment of the patient. If the patient is incapable of participating in the assessment to confirm and agree to their being palliative, then the patient's alternate substitute decision maker or legal health representative must be consulted and asked to provide informed consent. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

10. GPSC Incentives for A GP for Me/Attachment initiative

**Total
Fee \$**

Overview:

The fee codes for the A GP for Me, also known as the Attachment initiative, will be available to all family doctors who submit the MSP fee G14070 'GP Attachment Participation Code', a zero-sum amount, at the beginning of each calendar year. This will in turn open the door to the new Attachment initiative suite of fees. Billing the zero sum fee code signifies that:

- You are providing full-service family practice services to your patients, and will continue to do so for the duration of that calendar year.
- You are confirming your doctor-patient relationship with your existing patients through a standardized conversation or 'compact'. Refer to A GP for Me –Frequently asked questions Q6 for details.
- You have contacted your local division of family practice to share your contact information and to indicate your desire to participate in the community-level Attachment initiative as you are able. Refer to A GP for Me –Frequently asked questions Q20 and Q21 for more information.

Prior to submitting the GP Attachment Participation Code, each participating family physician must register their intent to participate in A GP for Me with their local division, even if he/she is not a member of that local division. This will assist the local division to understand how many doctors in their area are prepared to support Attachment initiative efforts. Division contacts are available online at www.divisionsbc.ca.

The standardized wording of the Family Physician-Patient 'Compact' was developed in consultation with the physicians of the three Attachment prototype communities and in consultation with members of the Patient Voices Network. The compact states:

As your family doctor I, along with my practice team, agree to:

- Provide you with the best care that I can
- Coordinate any specialty care you may need
- Offer you timely access to care, to the best of my ability
- Maintain an ongoing record of your health
- Keep you updated on any changes to services offered at my clinic
- Communicate with you honestly and openly so we can best address your health care needs

As my patient I ask that you:

- Seek your health care from me and my team whenever possible and, in my absence, through my colleague(s), xxxxxx
- Name me as your family doctor if you have to visit an emergency facility or another provider
- Communicate with me honestly and openly so we can best address your health care needs

GP Locum Attachment Participation Code

It is the intent of the General Practice Services Committee (GPSC) to make initiatives available to Family Physicians participating in the 'A GP for Me' program, also known as the Attachment initiative that would not otherwise be accessible. GPSC recognizes that when locums are working for a Family Physician who is participating in the attachment initiative they should also have the opportunity to provide the same services to those patients.

Therefore, the fee codes for the Attachment initiative will be available to all locum GP's who submit the MSP fee G14071 'GP Locum Attachment Participation Code', a zero-sum amount, when they are providing locum coverage in a family practice subject to the services allowed in the locum agreement between the locum and the host family physician. In subsequent years, G14071 should be submitted at the beginning of the calendar year or prior to providing the first locum coverage for a family physician participating in the attachment initiative. Billing the zero sum fee code signifies that:

You are providing full-service family practice services to the patients of the host physician, and will continue to do so for the duration of locum coverage for a family physician participating in the attachment incentive.

You have contacted the Divisions of Family Practice central office to share your contact information and to indicate your desire to participate as a locum in the community-level Attachment initiative as you are able.
