## **Medical Services Commission**

### **Notes to Financial Statement for the Year Ended March 31, 2006**

#### Unaudited

#### **1. The Commission**

The Medical Services Commission was established July 1, 1968, by the Province of British Columbia under the *Medical Service Act* and Regulations.

The legal authority for the Medical Services Commission to administer and operate the Medical Services Plan is the *Medicare Protection Act* and related Regulations.

Under Section 5(4) of the *Medicare Protection Act*, the *Financial Administration Act* applies to the Medical Services Commission as though it were a division of the Ministry of Health. The Medical Services Plan premiums and expenditures are included within the Province's Consolidated Revenue Fund Statement of Revenue and Expenditure, which is audited annually by the Auditor General of British Columbia.

#### **2. Significant Accounting Policies**

The Statement of Operations is prepared for the purpose of presenting the expenditures of the Medical Services Plan and contributions by subscribers and the Province.

The expenditures and contributions are recorded on an accrual basis.

The total expenditures shown in this financial statement are the same as the expenditures shown in the Public Accounts of the Province for the Medical Services Plan. In previous years, certain administrative expenditures were charged to the Plan. Since 2003, due to a change in the vote structure of the Ministry of Health, these expenditures are no longer charged to the Medical Services Plan.

#### **3. Expenditure**

Service costs include payments for eligible services provided by medical practitioners, health care practitioners and diagnostic facilities on a fee for service or alternative contractual basis, and other recruitment, retention, training and planning initiatives with respect to physicians. Payments for these services and initiatives are in accordance with the *Medicare Protection Act* and agreements with professional associations and health authorities. The expenditures also include estimates of unprocessed claims for services performed in 2005/06.

#### **4. Contributions**

Premium revenue represents Medical Services Plan premiums paid by subscribers. This amount does not include bad debt expense arising from premiums that could not be collected.

Premium assistance represents the value of subsidy provided by the Province on behalf of eligible persons.

General contributions represent the residual amount required from the Province to fully meet the expenditures of the Medical Services Plan.

## UNAUDITED SCHEDULE OF PAYMENTS BY THE MEDICAL SERVICES PLAN

The Schedule of Payments is published in compliance with the *Financial Information Act* and B.C. Regulation 371/93, and lists the gross payments made for the cost of insured services paid to each individual account of at least \$25,000 during the fiscal year ending March 31, 2006. All other accounts are shown as a consolidated total.

The information is presented in three categories:

### 1. Practitioner

Payments to Practitioners are reported alphabetically under the practitioner who performed the services, except when the practitioner is associated with a hospital, laboratory, or health authority. Payments include fee-for-service to residents of British Columbia and other jurisdictions, locums, Medical On-Call Availability Program, rural retention, recruitment and education programs, isolation allowance, and interest. The practitioner payment excludes benefit payments, which are reported under the BCMA. Payments made on behalf of the Insurance Corporation of British Columbia and WorkSafeBC are not included in the payment amount.

### 2. Organization

Payments to Organizations are reported alphabetically by organization (health authority, hospital, group or clinic), grouped geographically under the applicable health authority region. The payments reflect the total amounts paid to a particular account.

### 3. Other Accounts

Other Accounts report payments to other provincial agencies, out of province payments, miscellaneous payments, account payments under \$25,000, adjustments (such as accruals), and reciprocal agreement recoveries.

Readers of this Schedule of Payments should understand that it provides only a record of gross payments. In some instances, the recorded figure is a payment for the services of a number of practitioners. Practitioners must pay the expenses of their practice out of this gross amount. No calculation of a practitioner's net income can be made from such figures. Conclusions cannot be drawn from these figures about the relative net income of any practitioner since overhead varies greatly from practitioner to practitioner.

The Chair and staff of the Medical Services Commission, and the applicable staff of the Medical Services Division are public servants. Details of employee salaries, wages, travel expenses and payments to suppliers for administrative services are included in the Public Accounts of the Province of British Columbia.
