Medical Services Plan

Notes to the Financial Statement for the Year Ended March 31, 2022

Unaudited

1. Statement of Operations

This Financial Statement reflects the total expenditures of the Medical Services Plan (Plan) as reported in the 2021/22 Public Accounts of the Province.

2. The Commission

The Medical Services Commission was established July 1, 1968, by the Province of British Columbia under the *Medical Service Act* and Regulations.

The legal authority for the Medical Services Commission to administer and operate the Plan is the *Medicare Protection Act* and related Regulations.

Under Section 5(4) of the *Medicare Protection Act*, the *Financial Administration Act* applies to the Medical Services Commission as though it is a division of the Ministry of Health. The Plan premiums and expenditures are included within the Province's Consolidated Revenue Fund, Statement of Operations, which is audited annually by the Auditor General of British Columbia.

Effective October 1, 2015, the *Laboratory Services Act* (LSA) was brought into force. As a result, the LSA replaces the *Medicare Protection Act* and the *Hospital Insurance Act* as the authority for insuring laboratory services and consolidates the responsibilities for the governance, funding and service delivery oversight of all publicly-funded laboratory services in the province. The responsibility of the LSA rests with the Minister of Health.

3. Significant Accounting Policies

The Statement of Operations is prepared for the purpose of presenting the expenditures of the Plan and contributions by the Province.

The expenditures and contributions are recorded on an accrual basis.

4. Expenditure

Service costs include payments for eligible services provided by physicians, health care practitioners and diagnostic facilities on a fee for service or alternative contractual basis, and other recruitment, retention, training, and planning initiatives with respect to physicians, health care practitioners and diagnostic facilities. Payments for these services and initiatives are in accordance with the *Medicare Protection Act*, the *Laboratory Services Act*, and agreements with professional associations and health authorities.

The expenditures also include estimates of unprocessed claims for services performed in 2021/22.

5. Contributions

General contributions represent the Province's contribution to the expenditures of the Medical Services Plan (Plan) as reported in the 2021/22 Public Accounts of the Province.

UNAUDITED SCHEDULE OF PAYMENTS BY THE MEDICAL SERVICES PLAN

The Medical Services Commission is reporting the Unaudited Schedule of Payments made by the Medical Services Plan for the Medical Services Commission and the Ministry of Health.

The Unaudited Schedule of Payments is published in compliance with the *Financial Information Act* and B.C. Regulation 371/93, and lists the gross payments made for the cost of insured services paid to each individual account of at least \$25,000 during the fiscal year ending March 31, 2022. All other accounts are shown as a consolidated total.

The information is presented in three categories:

1. Practitioners

Payments to Practitioners are reported alphabetically under the practitioner who performed the services and/or who allowed others to perform the services, but payment is to the practitioner. Exception – when the practitioner is associated with a hospital, laboratory or health authority and the service provided is laboratory, medical microbiology, radiology or nuclear medicine, or payment received is for the General Practice Services Committee (GPSC) unassigned inpatient network, the payments for services performed by the practitioner will not be included as Payments to Practitioners, but instead will be recorded as Payments to Organizations. Payments include fee-for-service for residents of British Columbia and other jurisdictions, locums, Medical On-Call Availability Program, rural retention, recruitment and education programs, isolation allowance, and interest. The practitioner payments exclude benefit payments, which are reported under the Doctors of BC (DoBC). Compensation received by physicians under services contracts or sessional arrangements with health authorities are not included in the payment amount. Payments for services provided on behalf of the Insurance Corporation of British Columbia (ICBC), WorkSafeBC, RoadSafetyBC and the Ministry of Social Development and Property Reduction are not included in the payment amount.

2. Organizations

Payments to Organizations are reported alphabetically by organization (health authority, hospital, group, clinic or Division of Family Practice). The payments reflect the total amounts paid to a particular account.

3. Other Accounts

Other Accounts report payments to other agencies, out-of-province payments, account payments under \$25,000, adjustments (such as accruals), and reciprocal agreement recoveries.

Readers of this Unaudited Schedule of Payments should understand that it provides only a record of gross payments. In some instances, the recorded figure is a payment for the services of several practitioners. Practitioners must pay the expenses of their practice out of this gross amount. No calculation of a practitioner's net income can be made from such figures. Conclusions cannot be drawn from these figures about the relative net income of any practitioner since overhead varies greatly from practitioner to practitioner.

The Chair and staff of the Medical Services Commission and the applicable staff of the Ministry of Health are public servants. Details of employee salaries, wages, travel expenses and payments to suppliers for administrative services are included in the Public Accounts of the Province of British Columbia.

PAYMENTS TO PRACTITIONERS
