Medical Services Plan

Notes to the Financial Statement for the Year Ended March 31, 2023

Unaudited

1. Statement of Operations

This Financial Statement reflects the total expenditures of the Medical Services Plan (Plan) as reported in the 2022/23 Public Accounts of the Province.

2. The Commission

The Medical Services Commission was established July 1, 1968, by the Province of British Columbia under the *Medical Service Act* and Regulations.

The legal authority for the Medical Services Commission to administer and operate the Plan is the *Medicare Protection Act* and related Regulations.

Under Section 5(4) of the *Medicare Protection Act*, the *Financial Administration Act* applies to the Medical Services Commission as though it is a division of the Ministry of Health. The Plan premiums and expenditures are included within the Province's Consolidated Revenue Fund, Statement of Operations, which is audited annually by the Auditor General of British Columbia.

Effective October 1, 2015, the *Laboratory Services Act* (LSA) was brought into force. As a result, the LSA replaces the *Medicare Protection Act* and the *Hospital Insurance Act* as the authority for insuring laboratory services and consolidates the responsibilities for the governance, funding and service delivery oversight of all publicly-funded laboratory services in the province. The responsibility of the LSA rests with the Minister of Health.

3. Significant Accounting Policies

The Statement of Operations is prepared for the purpose of presenting the expenditures of the Plan and contributions by subscribers and the Province.

The expenditures and contributions are recorded on an accrual basis.

4. Expenditure

Service costs include payments for eligible services provided by physicians, health care practitioners and diagnostic facilities on a fee for service or alternative contractual basis, and other recruitment, retention, training and planning initiatives with respect to physicians. Payments for these services and initiatives are in accordance with the *Medicare Protection Act*, the *Laboratory Services Act*, and agreements with professional associations and health authorities. The expenditures also include estimates of unprocessed claims for services performed in 2022/23.

5. Contributions

General contributions represent the Province's contribution to the expenditures of Medical Services Plan's appropriation.

UNAUDITED SCHEDULE OF PAYMENTS BY THE MEDICAL SERVICES PLAN

The Medical Services Commission is reporting the Unaudited Schedule of Payments made by the Medical Services Plan for the Medical Services Commission and the Ministry of Health.

The Unaudited Schedule of Payments is published in compliance with the *Financial Information Act* and B.C. Regulation 371/93, and lists the gross payments made for the cost of insured services paid to each individual account of at least \$25,000 during the fiscal year ending March 31, 2023. All other accounts are shown as a consolidated total.

The information is presented in three categories:

1. Practitioners

Payments to Practitioners who received a payment directly from the Ministry of Health through Health Insurance BC are reported alphabetically under the practitioner who performed the services and/or who allowed others to perform the services.

Exceptions

Payments to physicians will be recorded under Organizations or Health Authorities when

- the practitioner is associated with a hospital, laboratory or health authority and the service provided is laboratory, medical microbiology, radiology or nuclear medicine, or if the payment received is for the Family Practice Services Committee (FPSC) unassigned inpatient network.
- the practitioner is under contract with a Health Authorities or other health providers. This would include payments for Alternative Payments Program, Medical On-Call Availability Program, rural retention, recruitment and education programs, isolation allowance.

Exclusions

- The practitioner payments exclude benefit payments, which are reported under the Doctors of BC (DoBC).
- Payments for services provided on behalf of other provinces for services provided to their residents, Insurance Corporation of British Columbia (ICBC), WorkSafeBC, RoadSafetyBC and the Ministry of Social Development and Property Reduction. These payments are excluded from this document.

Important Notes

In 2022/23, stabilization funding was provided to support family doctors and medical clinics with their operational business costs. Over one thousand physicians received the funding on behalf of other physicians in their clinic and were responsible for redistribution of the funds.

2. Organizations, Health Authorities and Doctors of BC

Payments to Organizations are reported alphabetically by organization (health authority, hospital, group, clinic, laboratory or Division of Family Practice). The payments reflect the total amounts paid to a particular account.

3. Other Accounts

Other Accounts report payments to other agencies, out-of-province payments, account payments under \$25,000, adjustments (such as accruals), and reciprocal agreement recoveries.

Readers of this Unaudited Schedule of Payments should understand that it provides only a record of gross payments. In some instances, the recorded figure is a payment for the services of a number of practitioners. Practitioners must pay the expenses of their practice out of this gross amount. No calculation of a practitioner's net income can be made from such figures. Conclusions cannot be drawn from these figures about the relative net income of any practitioner since overhead varies greatly from practitioner to practitioner.

The Chair and staff of the Medical Services Commission and the applicable staff of the Ministry of Health are public servants. Details of employee salaries, wages, travel expenses and payments to suppliers for administrative services are included in the Public Accounts of the Province of British Columbia.
