### **GENERAL PREAMBLE TO THE PAYMENT SCHEDULE**

#### A. 1. PURPOSE OF THE GENERAL PREAMBLE

The General Preamble to the Medical Services Commission (MSC) Payment Schedule (the "Schedule") complements the specialty preambles in the Schedule. The intention is that, together, the preambles assist medical practitioners in appropriate billing for insured services. Not every specialty requires a specific preamble; several are governed exclusively by the General Preamble. Every effort has been made to avoid confusion in the structure and language of the preambles; if, however, there is an inadvertent conflict between a fee item description, a specialty preamble and the General Preamble, the interpretation of the fee item description and/or the specialty preamble shall prevail.

The Schedule is the list of fees approved by the MSC and payable to physicians for insured medical services provided to beneficiaries enrolled with the Medical Services Plan (MSP). The preambles provide the billing rules under which the fees are to be claimed; these rules are a roadmap designed to clarify the use of the Schedule.

#### A. 2. INTRODUCTION TO THE GENERAL PREAMBLE

All benefits listed in the Schedule, except where specific exceptions are identified, must include the following as part of the service being claimed; payment for these inherent components is included in the listed fees:

- i) Direct face-to-face encounter with the patient by the medical practitioner, appropriate physical examination when pertinent to the service and on-going monitoring of the patient's condition during the encounter, where indicated.
- ii) Any inquiry of the patient or other source, including review of medical records, necessary to arrive at an opinion as to the nature and/or history of the patient's condition.
- iii) Appropriate care for the patient's condition, as specifically listed in the Schedule for the service and as traditionally and/or historically expected for the service rendered.
- iv) Arranging for any related assessments, procedures and/or therapy as may be appropriate, and interpreting the results, except where separate listings are applicable to these adjunctive services. (Note: This does not preclude medical practitioners rendering referred "diagnostic and approved laboratory facility<sup>1</sup>" services from billing for interpretation of diagnostic or laboratory test results).
- v) Arranging for any follow-up care which may be appropriate.
- vi) Discussion with and providing advice and information to the patient or the patient's representative(s) regarding the patient's condition and recommended therapy, including advice as to the results of any related assessments, procedures and/or therapy which may have been arranged. No additional claims may be made to the Plan for such advice and discussion, nor for the provision of prescriptions and/or diagnostic and laboratory requisitions, unless the patient's medical condition indicates that the patient should be seen and assessed again by the medical practitioner in order to receive such advice.
- vii) Making and maintaining an adequate medical record of the encounter that appropriately supports the service being claimed. A service for which an adequate medical record has not been recorded and retained is considered not to be complete and is not a benefit under the Plan.

<sup>&</sup>lt;sup>1</sup> The <u>Laboratory Services Act</u> came into force on October 1, 2015. Reference should be made to the Laboratory Services Payment Schedule for definitions and a schedule of laboratory fees.

The General Preamble is divided into four interdependent sections:

- B. Definitions
- C. Administrative Items
- D. Types of Services

#### B. DEFINITIONS

Please note that definitions of specific types of medical assessments and services are provided in the corresponding section of the General Preamble.

#### "Age categories"

| Premature Baby     | -2,500 grams or less at birth                        |
|--------------------|------------------------------------------------------|
| Newborn or Neonate | -from birth up to, and including, 27 days of age     |
| Infant             | -from 28 days up to, and including, 12 months of age |
| Child              | -from 1 year up to, and including, 15 years of age   |

#### Notes:

a) for pediatric specialists - up to and including 19 years of age

b) for psychiatrists – up to and including 17 years of age

#### "Antenatal visit"

Pregnancy-related visits from the time of confirmation of pregnancy to delivery Same as prenatal

#### "CPSBC"

College of Physicians and Surgeons of British Columbia

#### "Diagnostic Facility"

Means a facility, place or office principally equipped for prescribed diagnostic services, studies or procedures, and includes any branches of a diagnostic facility

#### "Emergency department physician"

Either a medical practitioner who is a specialist in emergency medicine or a medical practitioner who is physically and continuously present in the Emergency Department or its environs for a scheduled, designated period of time

#### "General practitioner"

A medical practitioner who is registered with the College of Physicians and Surgeons of British Columbia as a General Practitioner

#### "Health care practitioner"

Any of the following persons entitled to practice under an enactment:

- a) a chiropractor
- b) a dentist
- c) an optometrist
- d) a podiatrist
- e) a midwife
- f) a nurse practitioner
- g) a physical therapist
- h) a massage therapist
- i) a naturopathic physician or
- j) an acupuncturist

#### "Holiday"

New Year's Day, Family Day, Good Friday, Easter Monday, Victoria Day, Canada Day, B.C. Day, Labour Day, Thanksgiving Day, Remembrance Day, Christmas Day, Boxing Day

The list of dates designated as statutory holidays will be issued annually by MSP

#### "Hospital"

An institution designated as a hospital under Section 1 of the BC Hospital Act - except in Parts 2 and 2.1, means a non-profit institution that has been designated as a hospital by the minister and is operated primarily for the reception and treatment of persons:

- a) suffering from the acute phase of illness or disability,
- b) convalescing from or being rehabilitated after acute illness or injury, or
- c) requiring extended care at a higher level than that generally provided in a private hospital licensed under Part 2.

#### "Medical practitioner"

A medical practitioner as entitled to practice under the Medical Practitioners Regulations to the Health Professions Act;

#### "Microsurgery"

Surgery for which a significant portion of the procedure is done using an operating microscope for magnification. Magnification by other than an operating microscope is not microsurgery

#### "MSC"

Medical Services Commission: A statutory body, reporting to the Minister, consisting of 9 members appointed by the Lieutenant Governor in Council as follows:

- a) 3 members appointed from among 3 or more persons nominated by the British Columbia Medical Association;
- b) 3 members appointed on the joint recommendation of the minister and the British Columbia Medical Association to represent beneficiaries;
- c) 3 members appointed to represent the government.

See Preamble C. 2. for additional details

#### "MSP"

Medical Services Plan

#### "No charge referral"

Notifying MSP of a referral is usually done by including the practitioner number of the physician to who the patient is being referred on your FFS claim. If no FFS claim is being submitted, a "no charge referral" is a claim submitted to MSP under fee item 03333 with a zero dollar amount.

#### "Palliative care"

Care provided to a terminally ill patient during the final 6 months of life, where a decision has been made that there will be no aggressive treatment of the underlying disease, and care is directed to maintaining the comfort of the patient until death occurs.

#### "Practitioner"

- a) a medical practitioner, as defined above, or
- b) a health care practitioner who is registered with the Medical Services Plan;

#### "Prefixes to fee codes"

Note: These prefixes to fee services codes should not be submitted when billing

- B designates services included in the visit fee.
- C designates fee items for which it is not required to indicate by letter the need for a certified surgeon to assist at surgery (see fee item 70019).
- G designates listings which are administered through the Claims payment system but are not funded through the medical practitioners' Available Amount.
- P designates fee items approved on a provisional basis and awaiting further review.
- S designates fee items for which a surgical assistant's fee is not payable.
- T designates fee items approved on a temporary basis and awaiting further information.
- V designates general surgery fee items that are exempt from the post-operative general preamble rule (D. 5. 1.). Therefore, fee item 71008 can be billed for post- operative care within the first 14 post-operative days in hospital.
- Y designates office or hospital visit on the same day is billable in additional to the procedure fee.

#### "Referral"

A request from one practitioner to another practitioner to render a service for a specific patient; typically the service is one or more of a consultation, a laboratory service, diagnostic test, specific surgical, or medical treatment.

#### **Referring practitioner:**

Notify MSP of a referral by including the MSP practitioner number of the physician being referred to in the "Referred to Field" on your fee for service (FFS) claim. If no FFS claim is being submitted, a claim record for a "no charge referral" may be submitted to MSP under fee item 03333 with a zero dollar amount. If the referring physician does not have a MSP practitioner number (e.g.: alternative payment practitioner), a written request for the referral must be sent to the practitioner being referred to and a copy retained in the patient's clinical record.

#### Referred to practitioner:

Notify MSP that a referral has been made to you by including the MSP practitioner number of the referring physician in the "Referred by Field" on your FFS claim.

On occasion, a MSP practitioner's number is not available (e.g.: alternative payment practitioner), for these rare cases the following generic numbers have been established:

- 99957 referral by retired/deceased/moved out of province physician
- 99991 referral by a chiropractor to an orthopaedic specialist
- 99992 referral by an optometrist to an ophthalmologist and referral by an optometrist to a neurologist
- 99993 referral by a salaried, sessional or contract physician
- 99994 referral by a dentist
- 99996 referred by public health for a TB x-ray
- 99997 referred by a primary care organization
- 99998 referred by an Out of Province physician

The generic numbers may be used in place of the MSP practitioner number. The name of the physician should be documented in the note field in the FFS claim and a record of the referral must be retained in the patient's clinical record.

#### "Specialist"

A medical practitioner who is a Certificant or a Fellow of the Royal College of Physicians and Surgeons of Canada; and/or be so recognized by the College of Physicians and Surgeons of British Columbia in that particular specialty.

#### "Third party"

A person or organization other than the patient, his/her agent, or MSP that is requesting and/or assuming financial responsibility for a medical or medically related service

#### "Transferral"

The transfer of responsibility from one medical practitioner to another for the care of patient, temporarily or permanently.

This is distinguished from a referral, and does not provide the basis for billing a consultation; the exception is that, when the complexity or severity of illness necessitates that accepting the transferral requires an initial chart review and physical examination, a limited or full consultation may be medically necessary and is requested by the transferring medical practitioner.

#### "Time categories"

- 12-month period any period of twelve consecutive months
- Calendar year the period from January 1 to December 31
- Day a calendar day
- Fiscal year from April 1 of one year to March 31 of the following year
- Month a calendar month
- Week any period of 7 consecutive days
- Calendar week from Sunday to Saturday

#### "Uninsured service"

• A service that is not a benefit as defined by the MSC

### C. ADMINISTRATIVE ITEMS

#### Index to Administrative Items

| C. 1.  | Fees Payable by the Medical Services Plan (MSP)                            | 1-8  |
|--------|----------------------------------------------------------------------------|------|

| C. 15. | Missed Appointments                                                        | 1-14 |
| C. 16. | Payment for Specialist Consultations/Visits and specialty-restricted items | 1-14 |
| C. 17. | Motor Vehicle Accident (MVA) Billing Guidelines                            | 1-14 |
| C. 18. | Guidelines for Payment for Services by Trainees, Residents and Fellows     | 1-14 |
| C. 19. | Services to Family and Household Members                                   | 1-15 |
| C. 20. | Delegated Procedures                                                       | 1-15 |
| C. 21. | Diagnostic Facility Services                                               | 1-16 |
| C. 22. | Appliances/Prostheses/Orthotics                                            | 1-16 |
| C. 23. | Accompanying Patients                                                      | 1-16 |
| C. 24. | Salaried and Sessional Arrangements                                        | 1-17 |
| C. 25. | WorkSafeBC (WSBC)                                                          | 1-17 |
| C. 26. | BC Transplant Society                                                      | 1-17 |

#### C. ADMINISTRATIVE ITEMS

#### C. 1. Fees Payable by the Medical Services Plan (MSP)

A Payment Schedule for medical practitioners is established under Section 26 of the *Medicare Protection Act* and is referred to in the Master Agreement between the Government of the Province of British Columbia and the Medical Services Commission (MSC) and the British Columbia Medical Association (BCMA). The fees listed are the amounts payable by the Medical Services Plan (MSP) of British Columbia for listed benefits. "Benefits" under the Act are limited to services which are medically required for the diagnosis and/or treatment of a patient, which are not excluded by legislation or regulation, and which are rendered personally by medical practitioners or by others delegated to perform them in accordance with the Commission's policies on delegated services.

Services requested or required by a "third party" for other than medical requirements are not insured under MSP. Services such as consultations, laboratory investigations, anesthesiology, surgical assistance, etc., rendered solely in association with other services which are not benefits also are not considered benefits under MSP, except in special circumstances as approved by the Medical Services Commission (e.g.: Dental Anesthesia Policy).

#### C. 2. Setting and Modification of Fees

The tri-partite Medical Services Commission (MSC) manages the Medical Services Plan (MSP) on behalf of the Government of British Columbia in accordance with the *Medicare Protection Act* and Regulations. The MSC is the body that has the statutory authority to set the fees that are payable for insured medical services provided to beneficiaries enrolled with the Medical Services Plan (MSP). The MSC Payment Schedule is the official list of fees for which insured services are paid by MSP.

The BC Medical Association (BCMA) maintains and publishes the BCMA Guide to Fees. The Guide mirrors the MSC Payment Schedule, with some exceptions including recommended private fees for uninsured services.

The process for additions, deletions or other changes to the MSC Payment Schedule, are made in accordance with the Master Agreement. Medical practitioners who wish to have modifications to the MSC Payment Schedule considered should submit their proposals to the BCMA Tariff Committee through the appropriate Section. The Government and the BCMA have agreed to consult with each other prior to submitting a recommendation to the MSC. If both parties agree, in writing, to a revision, MSC will adopt the recommendation as part of the MSC Payment Schedule as long as the service is medically necessary and consistent with the requirements of the *Medicare Protection Act* and Regulations and it agrees with the estimated projected cost that will result from the revision. In the case where there is no agreement between Government and the BCMA, both parties may make a separate recommendation to the MSC will determine the changes, if any, to the MSC Payment Schedule.

Usually, the earliest retroactive effective date that may be established for a new or interim fee code, is April 1st of the current fiscal year. For services not listed in the MSC Payment Schedule, please refer to the following sections C. 3. & C. 4.

#### C. 3. Services Not Listed in the Schedule

Services not listed in the MSC Payment Schedule must not be billed to MSP under other listings. These services should be billed under the appropriate miscellaneous fee as described in section C. 4.

On recommendation of the BCMA Tariff Committee and agreed to by Government, interim listings may be designated by the MSC for new procedures or other services for a limited period of time to allow definitive listings to be established.

However, prior to establishment of a new or interim fee code, an individual or the section may request special consideration to bill for a medically required service not currently listed by following the procedure under Miscellaneous Services (C. 4.).

#### C. 4. Miscellaneous Services

This section relates to services not listed in the MSC Payment Schedule that are:

- new medically necessary services generally considered to be accepted standards of care in the medical community currently and not considered experimental in nature;
- unusually complex procedures, for established but infrequently performed procedures;
- for unlisted "team" procedures, or
- for any medically required service for which the medical practitioner desires independent consideration to be given by MSP

Claims under a miscellaneous fee code will be accepted for adjudication only if the following criteria are fulfilled:

- An estimate of an appropriate fee, with rationale for the level of that fee
- Sufficient documentation of the services (such as the operative report) to substantiate the claim.

The Medical Services Plan will review the fee estimate proposed and the supporting documentation and by comparing with the service provided with comparable services listed in the MSC Payment Schedule, determine the level of compensation. While an application for a new fee item is in process (as per Section C. 2.), MSP will pay for the service at a percentage of a comparable fee until the new fee item is effective. Should it be determined that a new listing will not be established due to the infrequency of the unlisted service, payments will be made at 100% of the comparable service.

Miscellaneous (...99) Fee Items

| 00000          | Conorol Convision                          |

Medical Services Commission – March 31, 2019

**General Preamble** 

- 33299 Endocrinology and Metabolism
  33399 Gastroenterology
  33499 Geriatric Medicine
  33599 Hematology and Oncology
  33699 Infectious Diseases
  33899 Nephrology
  33999 Occupational Medicine
  59999 Orthopaedics
  77799 Vascular Surgery
- 79199 Thoracic Surgery

If a medical practitioner wishes to dispute the adjudication of a claim submitted under a miscellaneous fee, please refer to section C. 12. on Disputed Payments.

#### C. 5. Inclusive Services and Fees

If it is not medically necessary for a patient to be personally reassessed prior to prescription renewal, specialty referral, release of diagnostic or laboratory results, etc., claims for these services must not be made to MSP regardless of whether or not a medical practitioner chooses to see his/her patients personally or speak with them via the telephone.

Some services listed in the MSC Payment Schedule have fees which are specifically intended to cover multiple services over extended time periods. Examples are most surgical procedures, the critical care per diem listings and some obstetrical listings. The preambles and Schedule are explicit where these intentions occur.

When, because of serious complications or coincidental non-related illness, additional care is required beyond that which would normally be recognized as included in the listed service, MSP will give independent consideration to claims for this additional care, if adequate explanation is submitted with the claim.

#### C. 6. Medical Research

Costs of medical services (such as examinations by medical practitioners, laboratory procedures, other diagnostic procedures) which are provided solely for the purposes of research or experimentation are not the responsibility of the patient or MSP. However, it is recognized that medical research may involve what is generally considered to be accepted therapies or procedures, and the fact that a therapy or procedure is performed as part of a research study or protocol does not preclude it from being a service insured by MSP. In the situation where therapies or procedures are part of a research study, only those reasonable costs customarily related to routine and accepted care of a patient's problem are considered to be insured by MSP; additional services carried out specifically for the purposes of the research are not the responsibility of MSP.

#### **Experimental Medicine**

New procedures and therapies not performed elsewhere and which involve a radical departure from the customary approaches to a medical problem, are considered to be experimental medicine. Services related to such experimental medicine are not chargeable to MSP.

New therapies and procedures which have been described elsewhere may or may not be deemed to be experimental medicine for the purposes of determining eligibility for payment by MSP.

Until new procedures or therapies are proven by peer-reviewed studies and adopted by the medical community, they are experimental. Services related to such experimental medicine are not the responsibility of the Medical Services Plan.

#### Coverage:

- Associated costs for any routine follow up care and diagnostic procedures related to experimental medicine are the responsibility of the patient.
- Care related to complications of any treatment, including experimental medicine, is covered by the Medical Services Plan. Care may include direct telephone consultation with physicians as required and clinical services provided directly to patients. Physician claims are billed under existing mechanisms through the Medical Services Plan Fee-for-Service system (see the MSC Payment Schedule for further information).

#### Process:

Where such a new therapy or procedure is being introduced into British Columbia and the medical practitioners performing the new therapy or procedure wish to have a new fee item inserted in to the fee schedule to cover the new therapy or procedure, the process to be used is as follows:

An application for a new fee item related to the new therapy or procedure will be submitted by the appropriate section(s) of the BCMA to the BCMA Tariff Committee for consideration, with documentation supporting the introduction of this item into the payment schedule. The BCMA Tariff Committee will advise the Medical Services Commission whether or not this new therapy constitutes experimental medicine. If the Tariff Committee considers that the item is experimental, it will not be considered an insured service and will not be introduced into the fee schedule. If the Medical Services Commission, on the advice of Tariff Committee, determines that the new therapy or procedure is not experimental medicine, the fee item application will be handled in the usual manner for a new fee.

When a new therapy or procedure is being performed outside British Columbia, a patient or patient advocate may request that the services associated with this new therapy or procedure be considered insured services by MSP. The situation will be reviewed by the Medical Services Commission utilizing information obtained from various sources, such as medical practitioners, the BCMA or evidence based research. If it is determined that the new therapy or procedure is experimental, then the cost of medical services provided for this type of medical care will not be the responsibility of MSP. If it is considered that the therapy or procedure is not experimental, the cost of medical services associated with this treatment will be in part or in whole the responsibility of MSP.

If the procedures are accepted as no longer being experimental, they may be added into the MSC Payment Schedule, if approved by the MSC after the appropriate review process has been followed (see section C. 3.)

#### C. 7. MSP Billing Number

A billing number consists of two numbers - a practitioner number and a payment number. The practitioner number identifies the practitioner performing and taking responsibility for the service. The payment number identifies the person or party to whom payment will be directed by the Medical Services Plan (MSP). Each claim submitted must include both a practitioner number and payment number.

#### C. 8. Group Practice, Partnerships, and Locum Tenens

The *Medicare Protection Act* requires that each medical practitioner will charge for his/her own services. For MSP and WorkSafeBC (WSBC) billings this requires the use of the individual's personal practitioner number. This includes members of Group Practices, Partnerships and Locum Tenens. Non compliance may impact the level of benefits a medical practitioner may accrue under the Benefits Subsidiary Agreement.

Exceptions to this rule are hospital-based Diagnostic Imaging, and where specifically allowed by the MSC.

#### C. 9. Assignment of Payment

An "Assignment of Payment" is a legal agreement by which an attending practitioner designates payment for his/her services to another party. In this circumstance, the designated party may use the attending practitioner's practitioner number in combination with its own payment number when submitting claims to MSP. To authorize MSP to make payment to a designated party, the attending practitioner must complete and file an "Assignment of Payment" form. However, even though the payment has been assigned, the responsibility for the clinical service and its appropriate billing remains with the practitioner whose practitioner number is used.

#### C. 10. Adequate Medical Records of a Benefit under MSP

Except for referred "diagnostic facility" services and approved laboratory facility services, a medical record is not considered adequate unless it contains all information which may be designated or implied in the MSC Payment Schedule for the service. Another medical practitioner of the same specialty, who is unfamiliar with both the patient and the attending medical practitioner, would be able to readily determine the following from that record at hand:

- a. Date and location of the service.
- b. Identification of the patient and the attending medical practitioner.
- c. Presenting complaint(s) and presenting symptoms and signs, including their history.
- d. All pertinent previous history including pertinent family history.
- e. The relevant results, both negative and positive, of a systematic enquiry pertinent to the patient's problem(s).
- f. Identification of the extent of the physical examination including pertinent positive and negative findings.
- g. Results of any investigations carried out during the encounter.
- h. Summation of the problem and plan of management.

For referred "diagnostic facility" services, but not including approved laboratory facility services an adequate medical record must include:

- a. Date and location of patient encounter or specimen obtained.
- b. Identification of the patient and the referring practitioner.
- c. Problem and/or diagnosis giving rise to the referral where appropriate.
- d. Identification of the specific services requested by the referring practitioner.
- Identification of specific services performed but not specifically requested by the referring practitioner, and identification of the medical practitioner who authorized the additional services.
- f. Original requisition or a copy or electronic reproduction of the requisition, in which the method for copying or producing an electronic reproduction must be approved by the Commission, the nature of the copy or electronic reproduction must comply with the intent relative to the form and content of the standard diagnostic requisition, and must be auditable to the original source document.
- g. Where a requisition is submitted electronically, the electronic ordering methods must be approved by the Commission employing guidelines established jointly by MSP and BCMA.
- h. Where a written requisition was never submitted by the referring practitioner, the diagnostic person who recorded the verbal requisition must be identified. The requisitions must be retained for 6 years.
- i. Results of all services rendered, and interpretation where appropriate. These data must be retained for 6 years.

#### C. 11. Reciprocal Claims

All Provinces, and Territories, except Quebec, have entered an agreement to pay for insured services provided to residents of other provinces when a patient presents with a valid Provincial Health Registration Card. Claims can be submitted electronically and details of this process may be obtained

by contacting MSP. However, the services listed below are exempt from this agreement and should be billed directly to the non-resident patient.

## Medical Practitioner Services Excluded under the Inter-Provincial Agreements for the Reciprocal Processing of Out-of-Province Medical Claims

- 1. Surgery for alteration of appearance (cosmetic surgery)
- 2. Gender-reassignment surgery
- 3. Surgery for reversal of sterilization
- 4. Routine periodic health examinations including routine eye examinations (including PAP tests for screening only)
- 5. In-vitro fertilization, artificial insemination
- 6. Acupuncture, acupressure, transcutaneous electro-nerve stimulation (TENS), moxibustion, biofeedback, hypnotherapy
- 7. Services to persons covered by other agencies; Armed Forces, WorkSafe BC, Department of Veterans Affairs, Correctional Services of Canada (Federal Penitentiaries)
- 8. Services requested by a "Third Party"
- 9. Team conference(s)
- 10. Genetic screening and other genetic investigation, including DNA probes
- 11. Procedures still in the experimental/developmental phase
- 12. Anesthetic services and surgical assistant services associated with all of the foregoing.

The services on this list may or may not be reimbursed by the home province. The patient should make enquires of that home province after direct payment to the BC medical practitioner.

#### C. 12. Disputed Payments

Remittance statements issued by MSP should be reviewed carefully to reconcile all claims and payments made. Claims may have been adjusted in adjudication and explanatory codes should designate the reason(s) for any adjustments. If a medical practitioner is unable to agree with an adjustment, the account should be resubmitted to MSP together with additional information for reassessment. Further disagreement with the payment should be referred to the BCMA Reference Committee for review and subsequent recommendation to the Commission.

#### C. 13. Extra Billing and Balance Billing

"Extra Billing" means billing an amount over the amount payable for an insured service (a "benefit") by MSP. Extra billing is not allowed under the *Medicare Protection Act* except for services rendered by medical practitioners who are not "enrolled" with MSP (i.e., no services are covered by MSP) and then only for those services which are rendered outside of hospitals and community care facilities.

"Balance billing" denotes the practice of medical practitioners who are opted in under MSP billing MSP for the MSP fee and the patient for the amount of the difference between the payment made by MSP for an insured service and the fee for that service listed in the BCMA Guide to Fees, under the heading "BCMA Fee." Except as defined by differential billing for non-referred patients above, balance billing is not permitted under the *Medicare Protection Act*.

#### C. 14. Differential Billing for Non-Referred Patients

If a specialist attends a patient without referral from another practitioner authorized by the Medical Services Commission to make such referral, the specialist may submit a claim to MSP for the appropriate general practitioner visit fee and in addition may charge the patient a differential fee. This is not considered "extra billing."

The maximum amount the patient may be charged is the difference between the amount payable under the General Practice Payment Schedule for the service rendered, and the amount payable under the Payment Schedule to the specialist had the patient been referred.

#### C. 15. Missed Appointments

Claims for missed appointments must not be submitted to MSP. Billing the patient directly for such missed appointments would not be considered extra billing.

#### <u>C. 16.</u> Payment for Specialist Consultations/Visits and specialtyrestricted items

To be paid by MSP, ICBC or WorkSafeBC for specialist consultations, visit items and/or other specialty-restricted fee items listed in the specialty sections of the Payment Schedule, one must be a Certificant or a Fellow of the Royal College of Physicians and Surgeons of Canada and/or be so recognized by the College of Physicians and Surgeons of British Columbia in that particular specialty.

A specialist recognized in more than one specialty by the College of Physicians and Surgeons of British Columbia should bill consultation and referred items under the specialty most appropriate for the condition being diagnosed and/or treated for that referral/treatment period.

#### C. 17. Motor Vehicle Accident (MVA) Billing Guidelines

- 1. All cases directly relating to an MVA which ICBC Insurance coverage applies should be identified as such by a "yes" code in the Teleplan MVA field.
- 2. All such cases should be coded "MVA" regardless of whether seen in an office visit, emergency, diagnostic, lab or x-ray facility. Surgery or procedures performed in regard to these cases should also be identified.
- 3. Where possible, please attach an ICBC claim number to each coded MVA in your Teleplan billing.
- 4. In cases where a visit or procedure was occasioned by more than one condition, the dominant purpose must be related to an MVA to code it as such.
- 5. If the patient is from another province, use the normal out-of-province billing process.
- 6. In those instances in which the patient has no MSP coverage, the medical practitioner should bill the patient or ICBC directly. Medical practitioners have the choice of either billing the uninsured patient directly at the BCMA recommended rate and having the patient recover the costs from ICBC (see BCMA Guide to Fees), or billing ICBC for the MSP amount.
- 7. If the MVA is work-related, WorkSafeBC (WSBC) should be billed under their procedures.
- 8. Medical Practitioners are accountable for proper MVA identification and are subject to audit.

#### C. 18. Guidelines for Payment for Services by Trainees, Residents and Fellows

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the supervising medical practitioner shall be identified to the patient at the earliest possible moment. No fees may be charged in the name of the supervising staff physician for services rendered by a trainee, resident or fellow prior to the identification taking place. Moreover, the supervising staff physician must be available in person, by telephone or videoconferencing in a timely manner appropriate to the acuity of the service being supervised.

For a medical practitioner who supervises two or more procedures or other services concurrently through the use of trainees, residents, fellows or other members of the team, the total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members. For example:

General Preamble

- a) If an anesthesiologist is supervising two rooms simultaneously, the anesthetic intensity/complexity units should only be billed for one of the two cases.
- b) If a surgeon is operating in one room while his/her resident is operating in a second room, charges should only be made for the case the surgeon performs.
- c) In psychotherapy where direct supervision by the staff physician may distort the psychotherapeutic milieu, the staff physician may claim for psychotherapy when a record of the psychotherapeutic interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff physician should not exceed the lesser of the time spent by the resident in the psychotherapeutic interview or the staff physician in the supervision of that interview.
- d) For hospital visits and consultations rendered by the resident in the name of the staff physician, the staff physician should only charge for services on the days when actual supervision of that patient's care takes place through a physical visit to the patient by the staff physician and/or a chart review is conducted with detailed discussion with the other members of the health team within the next weekday workday.
- e) The supervising physician may not bill for out-of-office hours premiums or continuing care surcharges unless he/she complies with the explanatory notes for out-of-office hours premiums in the Payment Schedule/Guide to Fees and personally attends the patient.
- f) In order to bill for a supervised service the physician must review in person, by telephone or videoconferencing the service being billed with the trainee, resident or fellow and have signed off within the next weekday workday on the ER record, hospital chart, office chart or some other auditable document.

#### C. 19. Services to Family and Household Members

- 1. Services are not benefits of MSP if a medical practitioner provides them to the following members of the medical practitioner's family:
  - a) a spouse,
  - b) a son or daughter,
  - c) a step-son or step-daughter,
  - d) a parent or step-parent,
  - e) a parent of a spouse,
  - f) a grandparent,
  - g) a grandchild,
  - h) a brother or sister, or
  - i) a spouse of a person referred to in paragraph (b) to (h).
- 2. Services are not benefits of MSP if a medical practitioner provides them to a member of the same household as the medical practitioner.

#### C. 20. Delegated Procedures

Procedures which are generally and traditionally accepted as those which may be carried out by a nurse, nurse practitioner or a medical assistant in the employ of a medical practitioner may, when so performed, only be billed to MSP by the medical practitioner when the performance of the procedure is under the "direct supervision" of the medical practitioner or a designated alternate medical practitioner with equivalent qualifications. Direct supervision requires that during the procedure, the medical practitioner be physically present in the office or clinic at which the service is rendered. While this does not preclude the medical practitioner from being otherwise occupied, s/he must be in personal attendance to ensure that procedures are being performed competently and s/he must at all times be available immediately to improve, modify or otherwise intervene in a procedure as required in the best

interest of the patient. Billing for these procedures also implies that the medical practitioner is taking full responsibility for their medical necessity and for their quality. Any exceptions to this rule are subject to the written approval of MSP.

"Procedures" in this context do not include such "visit" type services as examinations/ assessments, consultations, psycho-therapy, counselling, telehealth services, etc., which may not be delegated.

The foregoing limitations do not apply to approved procedures rendered in approved "diagnostic facilities", as defined under the Medicare Protection Act and Regulations, or to services rendered in approved laboratory facilities, as defined under the Laboratory Services Act and Regulation and which are subject to accreditation under the Diagnostic Accreditation Program.

#### C. 21. Diagnostic Facility Services

Diagnostic Facility Services are defined under the Medicare Protection Act as follows:

"Medically required services performed in accordance with protocols agreed to by the Commission, or on order of the referring practitioner, who is a member of a prescribed category of practitioner, in an approved diagnostic facility by, or under the supervision of, a medical practitioner who has been enrolled, unless the services are determined by the Commission not to be benefits."

The Medical Services Commission designates, from time to time, certain diagnostic procedures as "diagnostic facility" services under the MSC Payment Schedule. Currently, the following services are considered "diagnostic facility" services for purposes of the MSC Payment Schedule:

The services, studies, or procedures of diagnostic radiology, diagnostic ultrasound, nuclear medicine scanning, pulmonary function, computerized axial tomography technical fee (CT, CAT), magnetic resonance imaging (MRI), positron emission tomography (PET), and electro diagnosis (including electrocardiography, electroencephalography, and polysomnography) are not payable by MSP for services rendered to hospital in-patients, "day surgery" patients, or emergency department patients.

The venepuncture and dispatch listings in the Payment Schedule (00012) apply only to those situations where this sole service is provided by a facility or person unassociated with any other bloodwork services provided to that patient. Fee items 00012 cannot be billed or paid to a medical practitioner if any other bloodwork assays are performed or if the specimen is sent to an associated facility.

#### C. 22. Appliances/Prostheses/Orthotics

The costs of prostheses, orthotics and other appliances are not covered under MSP. Such devices, where insertion in hospital is medically/surgically required and where the devices are embedded entirely within tissue, may be covered under an institutional budget.

#### C. 23. Accompanying Patients

When it is medically essential that a medical practitioner accompany a patient to a distant hospital, MSP allows payment at the rates listed in the Payment Schedule for the travelling time spent with the patient only. Out-of-office hours premiums may also be applicable in accordance with the guidelines. Payment is based on a return trip and not applicable to layover time. Claims should be submitted with details under fee code 00084. Claims for travel, board and lodging are not payable by MSP. Medical practitioners who accompany a patient who is being transferred will, upon application to the Health Authority, be reimbursed for expenses reasonably incurred during, and necessitated by, the transfer.

#### C. 24. Salaried and Sessional Arrangements

Fee for Service claims for any physician service(s) that is funded under a service contract, or compensated for under a sessional or salaried payment arrangement, must not be billed to MSP. When physicians who receive compensation under a service contract, sessional payment or salaried arrangement are billing for an unrelated service, the appropriate location code and facility code should be included on all fee for service claims.

#### C. 25. WorkSafeBC (WSBC)

A detailed description of WorkSafeBC (WSBC) fees, preamble, and policies is contained in the WorkSafeBC section of the BCMA Guide to Fees. The fees listed under "MSP and WSBC Fee" have been accepted by the WorkSafeBC through negotiated agreements as the basis for their Guide to Fees. WorkSafeBC supplies its own reporting and billing forms. To facilitate payment, WorkSafeBC requires the practitioner to include their MSP payment number on all forms.

MSP is currently processing claims on behalf of WorkSafeBC as its agent. The BCMA and WorkSafeBC agree that MSP Teleplan is the only acceptable manner of billing WorkSafeBC for services billable through MSP.

#### C. 26. BC Transplant Society

With the exception of medical practitioners paid by the BC Transplant Society under an alternate payment plan, all medical practitioner services associated with cadaveric organ recovery ("organ donation") are payable on a fee-for-service basis through the MSP. For the purpose of payment of these services, the donor's PHN will remain valid after legal brain death until such time as the donor's organs have been successfully harvested. A note record should accompany the account stating "organ donor".

#### D. TYPES OF SERVICES

| Inde  | x to Types of Services                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                              |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| D. 1. | Telehealth Services                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 1-19                                                                                                         |
| D. 2. | Consultation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                              |

#### D. 1. Telehealth Services

"Telehealth Service" is defined as a medical practitioner delivered health service provided to a patient via live image transmission of those images to a receiving medical practitioner at another approved site, through the use of video technology. "Video technology" means the recording, reproducing and broadcasting of live visual images utilizing a direct interactive video link with a patient. If the sending and/or receiving medical practitioner are not in a Health Authority approved site, the medical practitioner is responsible for the confidentiality and security of all records and transmissions related to the telehealth service. In order for payment to be made, the patient must be in attendance at the sending site at the time of the video capture. Only those services which are designated as telehealth services are payable by MSP. Other services/procedures require face-to-face encounters. Telehealth services do not include teleradiology or tele-ultrasound, which are regulated by their specific Sectional Preambles.

Telehealth services are payable only when provided as defined under the specific Preamble pertaining to the service rendered (e.g.: telehealth consultation - see Preamble D. 2.) to a patient with valid medical coverage. Patients must be informed and given opportunity to agree to services rendered using this modality, without prejudice.

Notwithstanding the above, "telehealth examination" means an examination of a patient by the consultant at the receiving site using "telehealth services" as defined above, but does not include the "face-to-face encounter" requirements referred to under Preamble A. 2.

In those cases where a specialist service requires a general practitioner at the patient's site to assist with the essential physical assessment, without which the specialist service would be ineffective, the specialist must indicate in the "Referred by" field that a request was made for a General Practice assisted assessment.

Where a receiving medical practitioner, after having provided a telehealth consultation service to a patient, decides s/he must examine the patient in person, the medical practitioner should claim the subsequent visit as a limited consultation, unless more than 6 months has passed since the telehealth consultation.

Where a telehealth service is interrupted for technical failure, and is not able to be resumed within a reasonable period of time, and therefore is unable to be completed, the receiving medical practitioner should submit a claim under the appropriate miscellaneous code for independent consideration with appropriate substantiating information.

General Preamble

Video technology services are generally payable once per patient/per day/per medical practitioner. Any exceptions to this policy must comply with all Payment Schedule criteria for multiple visits. Information regarding the medical necessity and times of service should accompany claims.

Compensation for travel, scheduling and other logistics is the responsibility of the Regional Health Authority. Rural Retention fee-for-service premiums are applicable to telehealth services and are payable based on the location of the receiving medical practitioner in eligible RSA communities.

The College of Physicians and Surgeons of British Columbia have confirmed that in this province, licensure is defined by the location of the medical practitioner. However, other jurisdictions may have other definitions. BC medical practitioners providing care via telehealth to patients outside the province must abide by the regulations set in the patient's home province.

See the appropriate Section for specific fee items and further criteria.

#### D. 2. Consultation

#### D. 2. 1. General

A consultation applies when a medical practitioner, or a health care practitioner (chiropractor, for orthopaedic consultations; midwife, for obstetrical or neonatal related consultations; nurse practitioner; optometrist, for ophthalmology consultations; optometrist, for Neurology consultations for suspected optic neuritis or amaurosis fugax or Aion {anterior ischemic optic neuropathy} or stroke or diplopia; oral/dental surgeon, for diseases of mastication), in the light of his/her professional knowledge of the patient and because of the complexity, obscurity or seriousness of the case, requests the opinion of a medical practitioner competent to give advice in this field.

The referring practitioner is expected to provide the consulting physician with a letter of referral that includes the reason for the request and the relevant background information on the patient. The referring practitioner is also required to notify MSP of the referral by including the practitioner number of the specialist to who the patient is being referred on their associated FFS claim. If no FFS claim is being submitted, a "no charge referral" claim under fee item 03333 is to be sent to MSP.

The service includes the initial services of a consultant necessary to enable him/her to prepare and render a written report, including his/her findings, opinions and recommendations, to the referring practitioner. A consultation must not be claimed unless the attending practitioner specifically requested it, and unless the written report is rendered. It is expected that a written report will be generated by the medical practitioner providing the consultation within 2 weeks of the date-of-service. In exceptional circumstances, when beyond the consultant's control, a delay of up to 4 weeks is acceptable.

Additional criteria apply to certain types of specialty specific consultations. These are described in the Sectional Preambles and/or the notes to the specific fee codes.

#### D. 2. 2. Restrictions

- i) A consultation for the same diagnosis is not normally payable as a <u>full</u> consultation unless an interval of at least six months has passed since the consultant has last billed a visit or service for the patient. A limited consultation may be payable within the six month interval, if medically necessary and a consultation has been specifically requested.
- ii) For consultations and/or other specialty limited services to be paid by MSP, the medical practitioner rendering the service must be certified by or be a Fellow of the Royal College of Physicians and Surgeons of Canada, and be so recognized by the College of Physicians and Surgeons of British Columbia. No other specialist qualifications will be recognized by MSP and payments for visits and examinations rendered by licensed physicians not so qualified will be made on the basis of fees listed in the General Practice Section of this MSC Payment Schedule.

Exceptions to this limitation will only be made in cases of geographic need, as recommended by the College of Physicians and Surgeons of BC.

#### D. 2. 3. Limited Consultation

A limited consultation requires all of the components expected of a full consultation for that specialty but is less demanding and normally requires substantially less of the medical practitioner's time than a full consultation.

It is expected that the limited consultation, when medically necessary and specifically requested, will be billed as part of continuing care, and that a full consultation is not billed simply because of the passage of time.

A new and unrelated diagnosis can be billed as a full consultation without regard to the passage of time since the consultant has last billed any visit or service for the patient.

#### D. 2. 4. Special Consultation

Specific additional conditions may apply to specific types of consultation, as designated in the Preamble to the pertinent section of the MSC Payment Schedule and/or the notes to the specific listings.

#### D. 2. 5. Continuing Care by Consultant

Once a consultation has been rendered and the written report submitted to the referring practitioner, this aspect of the care of the patient normally is returned to the referring practitioner. However, if by mutual agreement between the consultant and the referring practitioner, the complexities of the case are felt to be such that its management should remain for a time in the hands of the consultant, the consultant should claim for continuing care according to the MSC Payment Schedule pertaining to the pertinent specialty.

Where the care of this aspect of the case has been transferred, except for a patient in hospital, the referring practitioner generally should not charge for this aspect of the patient's care unless and until the full responsibility is returned to him/her. For hospitalized patients, supportive care may apply.

Continuing care by a specialist (following consultation) normally is paid at the pertinent specialist rates. However, continuing care requires that a written update of the patient's condition and care be appropriately reported to the referring practitioner at least every six months, until the responsibility for this aspect of the patient's care is returned to the Primary Care practitioner.

#### D. 2. 6. Referral and Transferral

A referral is defined as a request from one practitioner to another practitioner to render a service with respect to a specific patient. Such service usually would be a consultation, a laboratory procedure or other diagnostic test, or specific surgical/medical treatment.

When the medical practitioner to whom a patient has been referred makes further referrals to other medical practitioners, it is the usual practice that the original referring medical practitioner be informed of these further referrals.

A transferral, as distinguished from a referral, involves the transfer of responsibility for the care of the patient temporarily or permanently. Thus, when one medical practitioner is going off call or leaving on holidays and is unable to continue to treat his/her cases, medical practitioners who are substituting for that medical practitioner should consider that the patients have been temporarily transferred (not referred) to their care.

The medical practitioner to whom a patient has been transferred normally should not bill a consultation for that patient. However, when the complexity or severity of the illness requires that the medical practitioner accepting the transfer reviews the records of the patient and examines the patient, a

limited or full consultation may be billed when specifically requested by the transferring medical practitioner.

A new consultation is not allowed when a group or physicians routinely working together provide call for each other.

#### D. 3. Visits and Examinations

In addition to the general requirements contained in the Introduction to the General Preamble - Section A. 2., the following definitions apply. As well, please note when services are provided for simple education alone, including group education sessions (e.g.: asthma, cardiac rehabilitation and diabetic education) such services are not appropriately claimed under fee-for-service listings.

#### D. 3. 1. Complete Examination

- A complete physical examination shall include a complete detailed history and physical examination of all parts and systems with special attention to local examination where clinically indicated, adequate record of findings and, if necessary, discussion with patient. The above should include complaints, history of present and past illness, family history, personal history, functional inquiry physical examination, differential diagnosis and provisional diagnosis.
- Routine or periodic complete physical examination (check up) is not a benefit under MSP. This includes any associated diagnostic procedures or approved laboratory facility services unless significant pathology is found. The physician should advise the diagnostic or approved laboratory facility of the patient's responsibility for payment.

#### D. 3. 2. Partial Examination

A visit for any condition(s) requiring partial examination or history includes both initial and subsequent examination for same or related condition(s). A partial examination includes a history of the presenting complaint(s), appropriate enquiry and examination of the affected part(s), region(s) and/or system(s) as medically required to make a diagnosis, exclude disease and/or assess function.

#### D. 3. 3. Counselling

Counselling is defined as the discussion with the patient, caregiver, spouse or relative about a medical condition which is recognized as difficult by the medical profession or over which the patient is having significant emotional distress, including the management of malignant disease. Counselling, to be claimed as such, must not be delegated and must last at least 20 minutes.

Counselling is not to be claimed for advice that is a normal component of any visit or as a substitute for the usual patient examination fee, whether or not the visit is prolonged. For example, the counselling codes must not be used simply because the assessment and/or treatment may take 20 minutes or longer, such as in the case of multiple complaints. The counselling codes are also not intended for activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns. Nor are the counselling codes generally applicable to the explanation of the results of diagnostic tests or approved laboratory facility services.

Not only must the condition be recognized as difficult by the medical profession, but the medical practitioner's intervention must of necessity be over and above the advice which would normally be appropriate for that condition. For example, a medical practitioner may have to use considerable professional skill counselling a patient (or a patient's parent) who has been newly diagnosed as having juvenile diabetes, in order for the family to understand, accept and cope with the implications and emotional problems of this disease and its treatment. In contrast, if simple education alone including group educational sessions (e.g.: asthma, cardiac rehabilitation and diabetic education) is required, such service could not appropriately be claimed under the counselling listings even though the duration of the service was 20 minutes or longer. It would be appropriate to apply for sessional payments for group educational sessions. Unless the patient is having significant difficulty coping, the

counselling listings normally would not be applicable to subsequent visits in the treatment of this disease.

Other examples of appropriate claims under the counselling listings are Psychiatric Care, the counselling that may be necessary to treat a significant grief reaction, and conjoint therapy and/or family therapy for significant behavioural problems.

MSP payment of counselling under the counselling listings is limited to four sessions per year per patient unless otherwise specified. Subsequent counselling is payable under the other visit listings. Counselling by telephone is not a benefit under MSP.

#### D. 3. 4. Group Counselling

The group counselling fee items found in the General Practice and various specialty sections of the Schedule apply only when two or more patients are provided counselling in a group session lasting 60 minutes or more. The group counselling fee items are not applicable when there is a discussion with the patient in the presence of a caregiver, spouse, or relative when the patient is the only person requiring medical care. In those situations, only the applicable individual counselling fee item could be billed, using the patient's MSP personal health number.

Group counselling fee items are not billable for each person in the group. Claims should be submitted under the Personal Health Number of only one of the beneficiaries, with the names of the other patients attending the session listed in the note record. Only patients with valid MSP coverage should be included. Times should be included with billings for group counselling fee items.

#### D. 4. Hospital and Institutional Visits

#### D. 4. 1. Hospital Admission Examination

An in-hospital admission examination (fee item 00109 or 13109) may be claimed when a patient is admitted to an acute care hospital for medical care rendered by a general practitioner. The service also may be applicable when a medical practitioner is required to perform an admission examination prior to a hospital service being delivered by a health care practitioner (e.g.: a dental surgeon). The hospital admission examination listing is not applicable when a patient has been admitted for surgery or when a patient is admitted for care (other than directive care) rendered by a specialist. This service is applicable only once per patient per hospitalization and is in lieu of a "hospital visit" on the day it is rendered. This item is intended to apply in lieu of fee items 00108 or 13008 on the first in-patient day. However, if extra visits are medically required because of the nature of the problem, 00108 or 13008 may be billed in addition. An explanation of the reasons for the additional charges should accompany the claim.

This service includes all of the components of a complete examination and may not be claimed if either of these two services has been claimed by this medical practitioner, within the week preceding the patient's admission to hospital. If the MSC Payment Schedule listing for a hospital admission examination is not applicable, the service may be billed under the appropriate "hospital visit" listings.

#### D. 4. 2. Subsequent Hospital Visit

A subsequent hospital visit is the routine monitoring and/or examination(s) that are medically required following a patient's admission to an acute care hospital. Payments for subsequent hospital visits are usually limited to one per patient per day for a period up to 30 days. However, it is not the intent of the Schedule that subsequent visit fees be claimed for every day a patient is in hospital unless the visits are medically required and unless a medical practitioner visits the patient each day.

If it is medically required for a patient to be visited more than once per day at any time, or daily beyond the initial 30 day period (e.g.: if the patient is in one of the Intensive Care wards), an explanation should be submitted with the claim and independent consideration will be given.

#### D. 4. 3. Surgery by a Visiting Doctor

If a surgeon operates outside of his/her geographical area, (for example as part of an outreach program or other such circumstances), and because of this, s/he is unable to render the usual post-operative care, the medical practitioner who performs this service for the patient may claim for necessary hospital visits at the usual frequency, as described under Preamble D.4.2. Claims for such post-operative care should be accompanied by a written explanation or an electronic note record. No such claims, however, should be made if the hospital at which the post-operative care is being rendered is within the same metropolitan area or within 32 km of the surgeon's home or office.

#### D. 4. 4. Long-Stay Hospitalization

For long stays in an acute care hospital including discharge planning and holding units because of serious illness extending beyond 30 days, claims for subsequent hospital visits greater than two visits per patient per week should include an explanation, and will be given independent consideration.

#### D. 4. 5. Directive Care

Directive care refers to those subsequent hospital visits rendered by a consultant in cases in which the responsibility for the case remains in the hands of the attending practitioner but for which a consultant is requested by the referring physician to give directive care in hospital during the acute phase. Payments for directive care are limited to two visits per patient per week (Sunday to Saturday), even when there is no interval between visits, for each consultant requested to render directive care by the referring practitioner.

#### D. 4. 6. Concurrent Care

For those medical cases where the medical indications are of such complexity that the concurrent services of more than one medical practitioner are required for the adequate care of a patient, subsequent visits should be claimed by each medical practitioner as required for that care. To facilitate payment, claims should be accompanied by an electronic note record, and independent consideration will be given. For patients in I.C.U. or C.C.U. this information in itself is sufficient.

#### D. 4. 7. Supportive Care

Where a case has been referred and the referring medical practitioner no longer is in charge of the patient's care but for which continued liaison with the family and/or reassurance of the patient is necessary while the patient is hospitalized, supportive care may be claimed by the referring medical practitioner. Payments for supportive care are limited to one visit for every day of hospitalization for the first ten days and, thereafter, one supportive care visit for every seven days of hospitalization.

#### D. 4. 8. Newborn Care in Hospital

Newborn care in hospital is the routine care of a well baby up to 10 days of age and includes an initial complete assessment and examination and all subsequent visits as may be appropriate, including instructions to the parent(s) and/or the patient's representative(s) regarding health care. Newborn well baby care in hospital normally is not payable to more than one medical practitioner for the same patient. However, when a well baby is transferred to another hospital (because of the mother's state of health), separate claims for newborn care when rendered by a different medical practitioner at each hospital may be made.

#### D. 4. 9. Long-Term-Care Institution Visits

When visits are required to patients in long-term-care institutions (such as nursing homes, intermediate care facilities, extended care units, rehabilitation facilities, chronic care facilities, convalescent care facilities and personal care facilities, whether or not any of these facilities are situated on the campus of an acute care facility) claims may be made to a maximum of one visit every two weeks. It is not sufficient, however, for the medical practitioner simply to review the patient's chart.

A face-to-face patient/medical practitioner encounter must be made. For acute concurrent illnesses or exacerbation of original illness requiring institutional visits beyond the foregoing limitations, additional institutional visits may be claimed with accompanying written explanation.

#### D. 4. 10. Palliative Care

The Palliative Care listings are applicable to the visits for palliative care rendered to terminally ill patients suffering from malignant disease or AIDS, or end-stage respiratory, cardiac, liver and renal disease and end-stage dementia with life expectancy of up to 6 months. These listings only apply where aggressive treatment of the underlying disease process is no longer taking place and care is directed instead to maintaining the comfort of the patient until death occurs.

Claims for these listings should be billed continuously from time of determination of patient's palliative status, for a period not to exceed 180 days prior to death. Under extenuating circumstances palliative listings billed beyond 180 days will be given independent consideration upon receipt of an explanatory note record.

The listings are applicable to patients in acute care hospitals, hospice facilities or other institutions whether or not the patient is in a designated palliative care unit. The palliative care listings do not apply when unexpected death occurs after long hospitalization for a diagnosis unrelated to the cause of death.

#### D. 4. 11. Sub Acute Care

Sub acute care is payable twice per week under fee items 00108, 13008. If more services or concurrent care is required an explanatory note record should accompany the claim submission. Independent consideration will be given to these claims.

#### D. 4. 12. Emergency Department Examinations

Emergency department examinations are designated by various intensity levels of emergency department care. These fee codes apply only to those circumstances where either specialists in emergency medicine or other medical practitioners are physically and continuously present in the Emergency Department or its environs for an arranged designated period of time. For complete details, please refer to the Emergency Medicine section of the MSC Payment Schedule.

#### D. 4. 13. House Calls

- A house call is considered necessary and may be billed only when the patient cannot practically attend a physician's office due to a significant medical or physical disability or debility and the patient's complaint indicates a serious or potentially serious medical problem that requires a medical practitioner's attendance in order to determine appropriate management;
- A house call may be initiated by the patient, the patient's advocate, or the physician when planned proactive care is determined to be medically necessary to manage the patient's condition;
- iii) If a house call is determined to be necessary and is rendered any day of the week between 0800 and 2300 hours, the house call should be billed as a home visit (use 00103);
- iv) If the house call is initiated and rendered between 2300 and 0800 hours, the visit may be billed as an out-of-office visit with the night call-out charge (01201).
- v) A house call provided for patient convenience should be billed as an out-of-office visit (12200, 13200, 15200, 16200, 17200 or 18200) without a service charge;

- vi) The above also applies to house calls rendered by medical practitioners taking call for other medical practitioners;
- vii) As practicality dictates, the necessity and detail and the time of the call should be documented in the patient's clinical record.

| D. 5. | Surgery |
|-------|---------|
|       |         |

#### D. 5. 1. General

The fees for surgery, unless otherwise specifically indicated, include the surgical procedure itself and in-hospital post-operative follow-up, including removal of sutures and care of the operative wound by the surgeon or associate. Unless otherwise specifically indicated, the normal post-operative period included in the surgical fee is 14 days and the surgery fees include all concomitant services necessary to perform the listed service (including preparation of the operative site, incision, exploration, review of the results of diagnostic tests and approved laboratory facility services rendered during the surgery, closure, and pre and post-operative discussion with the patient and/or patient's family).

When unusual circumstances require that additional medical services are provided in the in-hospital 14 days following a surgical procedure over and above the concomitant services necessary to perform the operative procedure, the additional services performed are not part of the inclusive fee for the surgical procedure and may be billed separately. A note record is required.

#### D. 5. 2. Operation Only

For listings designated "operation only" the in-hospital, 14 day post-operative visits may be claimed in addition to the surgical procedure, with the exception of the visit(s) made on the day of the procedure.

#### D. 5. 3. Multiple Surgical Procedures

- i) When two or more similar procedures (including bilateral procedures) are performed under the same anesthetic, or when two or more procedures are performed in the same general area, whether through the same incision, an extension of that incision or through separate incisions, the procedure with the greater listed fee may be claimed in full and the fees for the additional procedure are reduced to 50 percent, unless otherwise indicated by the Schedule. However, additional incidental surgery performed en passant (i.e. surgery which would not have been performed in the absence of the primary procedure, such as an appendectomy during abdominal surgery, or incidental cystectomy during gynecological surgery) is considered to be included in the fee for the planned procedure and may not be charged.
- ii) When two or more different procedures are performed through separate incisions under the same anesthetic, and repositioning or redraping of the patient or more than one separately draped surgical operating field is medically/surgically required (because of the nature of the procedure and/or the safety of the patient), the procedure with the greater listed fee may be claimed in full and the fees for the additional such procedures are reduced to 75 percent, unless otherwise indicated by the Payment Schedule.
- iii) Procedures which are listed as "extra" in the Payment Schedule may be claimed at the full listed fee even when performed with other surgical procedures, unless otherwise indicated in the Payment Schedule.
- iv) When two procedures are performed under the same anesthetic by two surgeons and both procedures are or should be within the competence of either one of the operators within the specialty or specialities, the total surgical fee claimed should be no more than that which would be payable if both procedures had been performed by one surgeon, plus one assistant's fee.
- v) Except where team fees are specifically listed in the Payment Schedule or where a team fee reasonably could be expected to apply, when two procedures are performed under the same anesthetic by two surgeons whose different specialty skills are required to perform both

procedures, each surgeon may claim his/her specific services as if they were performed in isolation from the other surgeon. These surgeons are not eligible for assistant fees for assisting each other, however, unless each of the surgical procedures takes place consecutively instead of concurrently.

- vi) Where a surgical procedure is performed in stages under separate anesthetics and where there is no specific staged procedure listing in the Payment Schedule, the maximum fee applicable to the complete procedure is 150 percent of the listed fee. However, for emergency surgery followed by a definitive surgical procedure for the same problem (e.g.: cholecystostomy followed by cholecystectomy at a later date) each procedure may be claimed at the full listed fee.
- vii) Surgical procedures which are abandoned before completion will be given independent consideration and paid in accordance with the services performed.
- viii) Additional surgery performed to correct an intra-operative injury(ies) which result from the complicated nature of the disease or significant pathology may be billed at 50%. When submitting a claim for a repair of an intra-operative injury, it must be supported by an explanation in a note record or an operative report. If the repair is performed by another surgeon, it may be billed at 100%.

#### D. 5. 4. Surgical Assist

- i) Time, for the purposes of fee codes 00193, 00198, 07920, 70019 and 70020 is calculated at the earliest time of medical practitioner/patient contact in the operating suite.
- ii) Where a medical practitioner renders surgical assistance at two operations under the same anesthetic but for which repositioning or redraping of the patient or more than one separately draped surgical operating field is medically/surgically required, separate assistants' fees may be claimed for each operation, except for bilateral procedures, procedures within the same body cavity, or procedures on the same limb.
- iii) If, in the interest of the patient, the referring medical practitioner is requested by the patient or the surgeon to attend but does not assist at the procedure, attendance at surgery may be claimed as a subsequent hospital visit.
- iv) The specialist's assistant listings apply only to surgical procedures having unusual technical difficulties identified and documented by the primary surgeon in a detailed note record as necessitating the services of a certified surgical assistant. The general assistant listings are applicable to all other situations where surgical assistance is necessary. (Also see Preamble B. Definitions, Prefixes to Fee Codes).
- v) Where surgery is abandoned, independent consideration will be given to the fee applicable to the assistant, to a maximum of 50 percent of the listed assistant fee for the intended procedure.
- vi) Surgical fee modifiers are excluded from the calculation for total operative fee(s) for which surgical assist fees are based.

#### D. 5. 5. Cosmetic Surgery

The guidelines for MSP coverage of surgery for alteration of appearance are listed under Preamble D. 9. For cosmetic surgery not covered by MSP, the anesthetic and assistants' fees also are not covered. In addition, hospitalization charges are not insured for cosmetic surgical procedures not covered by MSP.

#### D. 6. Fractures and Other Trauma

- a. When multiple procedures for multiple fractures and/or soft tissue injuries are done by the same surgeon, through different incisions, the largest fee should be charged at 100% and all subsequent fees at 75%. In cases of dissociated injuries for which the presence of one impedes the progress of another, or in the case of multiple major fractures (e.g.: a fractured femur and tibia in the same limb), a full fee for each (to a maximum of 3) may be charged provided that adequate clinical evidence to support this charge is rendered with the account.
- b. Open (compound) fractures: primary wound management fee(s) may be charged in addition to the fracture fee and will be paid at the same percentage as applies to the fracture fees. These wound management fee items are exempt from the 14 day rule (D.5.1). Secondary wound management fees may also be charged and are exempt from the 14 day rule (D.5.1). These primary and secondary Wound Management fees are only applicable where fee items have been designated in a section's schedule of fees for specific open fractures or specified primary or secondary wound management of fractures.
- c. Open reduction of fracture or dislocation when necessary 50% extra may be charged if a fee for open reduction is not listed.
- d. Formation and application of moulded casts or splints may be charged in full in addition to procedure and visit fees with the following exceptions:
  - formation and application of a cast or splint at the time of the initial orthopedic procedure charged is included in the procedure;
  - in the minority of cases when application of a cast or splint is the sole purpose of a visit, a visit fee may not be charged.

Fees for formation and application of moulded casts or splints are payable only when performed by the medical practitioner. Multiple casts (e.g.: bilateral leg casts) are paid at 100%.

- e. Open reduction of old malunited fracture may be billed at an additional 25% of the listed fee unless a specific fee item exists.
- f. External Skeletal Fixation with closed reduction may be billed at an additional 25% of the listed fee unless a specific fee item exists.

#### D. 7. Diagnostic and Selected Therapeutic Procedures

a. The listings under the "Diagnostic Procedures and Selected Therapeutic Procedures" section of the MSC Payment Schedule may be claimed in addition to a consultation or other assessment/visit, when performed during that visit.

If, however, the procedure takes place on a subsequent visit arranged to perform the procedure, then that visit may not be claimed in addition to the procedure unless the fee code for the latter is prefixed by the letter "Y".

A subsequent visit fee will be paid in addition to the procedure if more than thirty (30) days has elapsed between the initial visit or service and the diagnostic procedure.

- b. Diagnostic procedures may be claimed in addition to surgical procedures, when applicable.
- c. For multiple diagnostic procedures performed at the same sitting, the procedure having the largest fee may be claimed in full and the remaining procedure(s) at 50 percent of the listed fee(s), unless otherwise specifically indicated in the Payment Schedule.

- d. When two diagnostic/therapeutic procedures are performed by separate medical practitioners at the same sitting and both procedures are or should be within the competence of either medical practitioner, the total fee claimed should be no greater than that which would be payable if both procedures had been performed by one medical practitioner, plus one assistant's fee (if applicable).
- e. When a medical practitioner performs a diagnostic procedure, s/he must be allowed to appropriately perform a full or limited consultation for which s/he charges and is paid, regardless of what consultations and procedures have been performed by other specialists or sub-specialists. The consultation would require a written report in addition to the report of the diagnostic procedure.

If the diagnostic procedure is done on an initial visit, and the initial visit is for the specific purpose of performing the diagnostic procedure, and this visit occurs on an out-patient basis in a procedure facility (including endoscopy suites and cardiac catheterization suites), then a limited consultation would normally be billed rather than a full consultation.

f. Procedures designated as "extra" will be paid at 100 percent for the first "extra" and 50 percent for any additional procedures designated as "extra". Should all procedures be designated as "extra" then the first procedure will be deemed a regular procedure and payment for the first subsequent "extra" will be at 100 percent and all others at 50 percent.

#### D. 8. Minor Diagnostic and Therapeutic Procedures

a. Minor Diagnostic and Therapeutic Procedures are defined as procedures which have a fee value that is less than that of the office visit.

Note: To determine the service with the greatest value when a tray fee is applicable, the amount of the tray fee will be added to the value of the procedure fee in the calculation process.

- b. When minor diagnostic or therapeutic procedures are performed in conjunction with an assessment/visit (not a consultation) <u>either</u> the visit <u>or</u> the procedure may be claimed, but not both. Includes fee items identified as "isolated procedures".
- c. When the performance of a minor diagnostic or therapeutic procedure is the primary purpose of the visit (excluding home visits), the fee listed for the procedure includes the associated assessment.
- d. If in the course of a visit for a specific complaint, one or more procedures are performed which are unrelated to the purpose of the visit (e.g.: URI and laceration repair), the service having the largest fee may be claimed in full and the remaining service(s) at 50 percent of the listed fee(s), unless otherwise specifically indicated in the MSC Payment Schedule.
- e. For two or more minor diagnostic or therapeutic procedures listed in the "General Services" section of the Payment Schedule and performed together at the same sitting, each applicable fee may be claimed in full.

#### D. 9. Surgery for Alteration of Appearance

#### D. 9. 1. General

- a. Surgery to alleviate significant physical symptoms or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under MSP. Surgery solely to alter or restore appearance is not a benefit of MSP except under the circumstances listed in the following policy.
- b. In establishing this policy, it has been recognized that:
  - peer acceptance in our society often is influenced disproportionately by the face,
  - children are especially susceptible to emotional trauma caused by physical appearances,

- some procedures traditionally have been accepted as benefits of Health Insurance Plans in spite of the obvious cosmetic nature of these procedures.
- c. Emotional, psychological or psychiatric grounds are not considered sufficient reason for MSP coverage of surgery for alteration of appearance except in children and under exceptional circumstances in adults.

On request of the attending medical practitioner, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, and if the surgery is essential to obtain employment as documented by the attending physician and by an employer with regard to a specific job.

- d. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of MSP.
- e. Within the context of this policy, the word "disease" does not include the normal sequelae of aging. Surgery to alter changes in appearance caused by aging is not a benefit of MSP.
- f. Within the context of this policy, the word "trauma" includes trauma due to treatment such as surgery, radiation, etc.
- g. As the phrase "reasonable period of convalescence" is imprecise, independent consideration will be given to more complex cases or extenuating circumstances.
- h. Authorization from MSP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under MSP policy.
- i. Authorization required and obtained remains valid for a period of up to two years, after which a new authorization will be required.

Where authorization has been denied or has not been obtained when required for a surgical procedure, the associated consultations, anesthesiology and surgical assistance also are not covered by MSP. Hospitalization costs also will remain the patient's responsibility.

#### D. 9. 2. Surface Pathology

All references in Payment Schedule relating to the size of a lesion, tumour, laceration, scar, etc. is based upon the measurements of the actual lesion, tumour, laceration, scar, etc and not upon the measurements of the incision. Documentation of the size should be noted in the patient's chart. For cases of excision or re-excision for malignancies the measurement shall be based upon the length of the required incision.

#### D. 9. 2. 1. Trauma Scars

- a. Neck or Face
  - Includes non-hair bearing areas of the scalp.
  - Repair of all significant and unsightly such scars, including acne scars, is a benefit of MSP.
  - Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures to remove scar prominence, however, are not a benefit of MSP.
  - Implantation of collagen, etc. to restore contour, or chemical abrasion to reduce hyperpigmentation are not benefits of MSP except in those rare cases where the pitting or the pigmentation is so severe that a generally acceptable result would not be possible without these procedures.
  - MSP authorization for repair of such scars is required.

#### b. Scars in other Anatomical Areas

- Repair of scars which interfere with function or which are significantly symptomatic (pain, local irritation, etc.) is a benefit of MSP.
- Scars with no significant symptoms or functional interference:
  - Repair is a benefit if such repair is carried out within a reasonable period of convalescence, or is part of a pre-planned post-traumatic (including post surgical) staged process. MSP notification must be included as part of the planning process in the latter case.
  - (ii) Other post-traumatic scar revision is not a benefit of MSP.
  - (iii) Revision of acne scars other than on the face or neck is not a benefit of MSP.
- MSP authorization is required for all scar repair procedures.

#### D. 9. 2. 2. Keloids and Hypertrophic Scars

#### a. Head or Neck

- The repair of all significant and unsightly scars, such as keloids, is a benefit of MSP.
- Repair procedures may include excision and/or injection.

#### b. Excision of keloids in other areas

• Not a benefit of MSP unless significantly symptomatic or there is functional impairment.

#### D. 9. 2. 3. Tattoos

#### a. Face and Neck

- Excision or destruction of all significant and unsightly tattoos is a benefit of MSP
- Authorization is not required, but adjudication of repair procedures will be identical to that for scars in these areas.

#### b. Other Anatomical Areas

• Normally not a benefit of MSP

#### D. 9. 2. 4. Benign Skin Lesions

Surgical, physical or chemical removal of benign lesions of the skin, including that done by dermabrasion or chemical peel, unless the diagnosis is specifically defined as an approved indication, in article D. 9. 2. 4. a. is not a benefit of MSP.

Examples of benign lesions that are not insured include but are not limited to the following: benign naevi, seborrhoeic keratosis, common warts (verrucae), lipomata, uncomplicated benign dermal and/or epidermal cysts, telangiectasias and angiomata of the skin, skin tags, acrochordons, fibroepithelial polyps, papillomata, neurofibromata, dermatofibromata.

#### a. Exceptions

Destructive therapies of benign skin lesions are insured services when the treatment is medically necessary. Examples of medical necessity include but are not limited to the following indications:

- genital warts (condylomata acuminate)
- plantar warts

- viral induced cutaneous tumours in the immune compromised patient
- inflamed dermal and epidermal cyst
- dysplastic naevi
- lentigo maligna
- congenital naevi
- actinic (solar) keratosis
- atypical pigmented naevi
- lesions which cause significant pathophysiologic dysfunction
- b. When a patient presents with a surface pathology, the initial visit and or consultation and/or pathologic examination of a tissue specimen, when one is submitted, is regarded as medically necessary to establish the diagnosis, and therefore, is an insured service.

#### D. 9. 2. 5. Hair Loss

#### a. Scalp or Neck

- (i) Post-traumatic:
- Repair to the area of traumatic hair loss is a benefit of MSP only if carried out within a reasonable period of convalescence.
- MSP authorization is required.
  - (ii) Other Etiology:
- Not a benefit of MSP
  - (iii) Usual repair procedures may include skin shifts or flaps, skin grafts, or hair plugs.

#### b. Other Anatomical Areas

• Not a benefit of MSP

#### D. 9. 2. 6. Epilation of Hair

• Not a benefit of MSP

#### D. 9. 2. 7. Redundant Skin

- a. Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of MSP.
- b. Blepharoplasty is not a benefit of MSP unless there is documented evidence of medical necessity such as a visual field defect caused by the redundant eyelid skin and which meets the BCMA/MSC guidelines for significant defect.
- c. MSP authorization is required.

#### D. 9. 3. Sub-Surface Pathology

#### D. 9. 3. 1. Congenital deformities

a. Face or neck

Repair is a benefit of MSP except for:

- surgery to revise or remove features which are familial in nature;
- surgery to correct ear abnormalities in patients who are sixteen years of age or over.

• MSP authorization is required, other than recognized craniofacial disorders and cleft lip.

#### b. Other Anatomical Areas

• Normally not a benefit of MSP if surgery is for alteration of appearance only.

#### D. 9. 3. 2 Post-Traumatic Deformities

- Reconstructive procedures are a benefit at the acute stage; within a reasonable period of convalescence; or if part of a pre-planned staged process of repair.
- Repair procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.
- MSP authorization is required for repairs beyond the acute stage.

# D. 9. 3. 3. Deformities resulting from local disease (such as loss or distortion of bone, muscle, connective tissue, adipose tissue,

#### <u>etc.).</u>

#### a. Head or Neck

- Reconstructive procedures for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence, or if part of a planned staged process of repair initiated during one of these periods.
- Repair procedures normally could include tissue grafts, flaps, shifts or cell-assisted lipotransfer, bone revision, prosthesis insertion, etc.
- Face lifts, modified face lifts, brow lifts, etc. are not a benefit of MSP if skin, only, is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of MSP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.
- MSP authorization is required for repair of deformities resulting from local disease.

#### b. Other Anatomical Areas

• Not a benefit of MSP if the correction is for appearance, only.

#### D. 9. 3. 4. Breast Surgery

#### a. Augmentation Mammoplasty

- This procedure is a benefit of MSP unilaterally or bilaterally for a female patient with breast aplasia.
- It is a MSP benefit unilaterally for a female patient with a severely hypoplastic breast when the other breast is not also hypoplastic.
- A "balancing" augmentation mammoplasty may be allowed on an independent consideration basis for correction of unilateral hypoplasia when performed in association with approved contralateral reduction mammoplasty.
- MSP authorization is required.

#### b. Post-Mastectomy Reconstruction

- Unilateral or bilateral breast reconstruction, including cell-assisted Lipotransfer, is a benefit of MSP when the procedure is subsequent to total or partial mastectomy or prophylactic mastectomy.
- Authorization is not required but the reason for the reconstruction must accompany the claim.

#### c. Reduction Mammoplasty

- Reduction Mammoplasty is a benefit for female patients only, where there is significant associated symptomatology such as intertrigo, neck or back pain or shoulder grooving. Ptosis and/or size are not sufficient grounds for MSP coverage of reduction mammoplasty. Mastopexy is not normally covered by MSP.
- Unilateral reduction mammoplasty may be a benefit of MSP if there is gross disproportion present, or in association with approved unilateral augmentation mammoplasty or post mastectomy reconstruction of the contralateral breast.
- MSP authorization is required.

#### d. Male Mastectomy

- This procedure is a benefit of MSP for gynecomastia.
- MSP authorization is not required.

#### e. Accessory breasts or accessory nipples

- Excision of such accessory tissue is a benefit of MSP.
- The appropriate fee item normally would be from the skin tumour excision listings.
- Authorization is not required.

#### D. 9. 3. 5. Excision of excess fatty tissue

- This is a benefit of MSP only if there is significant associated symptomatology such as intertrigo, pain or excoriations.
- When performed for alteration of appearance, the removal of redundant skin and fat from the abdomen, extremities, etc. is not a benefit of MSP.
- There must be clinical evidence of substantial hyperplasia of adenomatous breast tissue.
- MSP authorization is required.

#### D. 9. 4. Gender Reassignment Surgery

Prior approval is required for gender reassignment surgery before the surgery is considered to be a MSP benefit. Approval for surgery requires a medical assessment by qualified medical assessors who have recognized and demonstrable expertise in the treatment of gender dysphoria.

Treatment for gender dysphoria refers to the guidelines provided by the World Professional Association for Transgender Health, Standards of Care.

If MSP has not approved funding for the gender-reassignment surgery, any medical consultation(s), anesthesiology and surgical assistance services related to the surgery, will not be eligible for MSP funding.

#### D. 9. 5. Complications and Revisions

- a. The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of MSP whether or not the original surgery was covered by MSP. This includes complications resulting from trans-sexual surgery (such as breakdown of the artificial vaginal wall). No authorization is required.
- b. Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of MSP only if the original surgery was a benefit and if the revision either is part of a preplanned staged process or occurs within a reasonable period of convalescence. Correction of the effects on appearance which are due to complications is a benefit of MSP if it is carried out within a reasonable period of convalescence. MSP authorization is required.

#### D. 10. Out-of-Office Premiums

The out-of-office premium is an additional fee that may be billed for services initiated and rendered within designated time limits. These premiums are applicable to eligible insured medical services provided to MSP beneficiaries and can be billed by both General Practitioners and Specialists.

For complete details, please refer to the Out-of-Office Hours Premiums section of the MSC Payment Schedule.

## **OUT-OF-OFFICE HOURS PREMIUMS**

#### (Applicable to General Practitioners and Specialists)

#### **Explanatory Notes**

- a) The out-of-office hours premium listings apply only to those services initiated and rendered within the designated time limits. They apply to visits to a physician's office only if the office is officially closed during the designated time period.
- b) Call-out charges apply only when the physician is specially called to render emergency or non-elective services and only when the physician must travel from one location to another to attend the patient(s).
- c) The call-out charge applies only to the first patient examined or treated on any one special visit. A call-out charge is applicable to each special call-out whether or not a previous call-out charge has been billed for the same patient on the same day.

For example, a physician may provide a consultation during out-of-office hours for which a callout charge is applicable. The physician may then perform an operation on the same patient at a different time during out-of-office hours. If the physician was specially called, on separate occasions, to render both services and was required to travel from one location to another for both services, it would be appropriate to bill a call-out charge for the consultation and a call-out charge for the operation in addition to the regular fees for the services and any applicable continuing care operative and non-operative surcharges.

- d) Within the foregoing guidelines, the call-out charges are also applicable to the attending surgeon post-operatively even though the visit itself may not be chargeable as described in Preamble D. 5. 1.
- e) The operative continuing care surcharge applies also to surgical assistant fees.
- f) The "home visit" (00103) and "emergency visit when specially called" listings (00111, 00112, 00115, 00205, 02005, 02505, 00305, 00405, 03005, 04005, 00505, 00605, 01705, 06005, 07005, 07805, 08005, 30005, 31005, 32005, 33005, 33205, 33305, 33405, 33505, 33605, 33705, 77005, 79005, 94005) are not payable in addition to the out-of-office hours premium. Neither are emergency visits payable to the attending surgeon (or his/her substitute) within 10 post-operative days from a surgical procedure (except "operation only" procedures).
- g) The non-operative continuing care surcharge applies to delivery only (not standby time or first stage of labour). State continuous time spent with the patient during second or third stages of labour only.
- h) These items are not applicable to full or part-time emergency physicians, or physicians designated by a hospital emergency room as the on duty/on site physician. Those physicians are referred to the Emergency Medicine Section of the Payment Schedule.
- Call-out charges and continuing care surcharges are also applicable when called from home to provide labour epidural insertions, or to provide subsequent resuscitative care under fee code 01088.
- j) The non-operative continuing care surcharge is payable to general practitioners, medical specialists and surgical specialists when non-operative services are provided. Continuing care surcharges are payable to radiologists and nuclear medicine physicians only when the primary service to which the continuing care surcharges apply are payable by MSP on a fee-for-service basis.

- k) The following applies in the event that a consultation or visit is followed by surgery: 1) the nonoperative continuing care surcharge applies to the consultation or visit, and 2) the operative continuing care surcharge applies to the surgery.
- I) Physicians providing anesthetic services may be eligible for continuing care surcharges even if the service is initiated before 1800 hours. That portion of anesthetic services rendered within the designated times are eligible for continuing care surcharges if they fulfil the requirements described in the Anesthetic Continuing Care Surcharges section.

#### **Call-Out Charges**

|       | <ul> <li>Extra to consultation or other visit, or to procedure if no consultation or<br/>other visit charged.</li> </ul> |       |
|-------|--------------------------------------------------------------------------------------------------------------------------|-------|
| 01200 | Evening (call placed between 1800 hours and 2300 hours and service                                                       |       |
|       | rendered between 1800 hours and 0800 hours)                                                                              | 61.42 |
| 01201 | Night (call placed and service rendered between 2300 hours and 0800                                                      |       |
|       | hours)                                                                                                                   |       |
| 01202 | Saturday, Sunday or Statutory Holiday                                                                                    |       |
|       | (call placed between 0800 hours and 2300 hours)                                                                          |       |

Note: Claims must state time service rendered.

#### **Continuing Care Surcharges**

a) NON-OPERATIVE - applicable when an out-of-office hours call-out charge is applicable or when specially called for an emergency. Timing begins after the first 30 minutes for consultations, visits or anesthetic evaluations. Payment is based on one half hour of care or major portion thereof. Therefore, the first surcharge is billable after 45 minutes of continuous care.

Applicable also, without the 30 minute time lapse and with timing continuing, to immediately subsequent patients seen on the same call-out as an emergency.

Surcharges do not apply to time spent standing by and are based on the amount of time providing care, regardless of the number of patients attended or services provided.

| 01205 | Evening (service rendered between 1800 hours and 2300 hours) - per half hour or major part thereof                               |  |
|-------|----------------------------------------------------------------------------------------------------------------------------------|--|
| 01206 | Night (service rendered between 2300 hours and 0800 hours) - per half hour or major part thereof                                 |  |
| 01207 | Saturday, Sunday or Statutory Holiday (Service rendered between 0800 hours and 2300 hours) - per half hour or major part thereof |  |

#### Notes:

- *i)* Claim must state start and end times.
- ii) Where timing is continuous submit an account for each patient, indicating "CCFPP" (continuing care from previous patient).
- iii) Not applicable to full or part-time emergency practitioners or to on site practitioners providing coverage in drop-in emergency clinics or hospital emergency rooms.

| b)    | <b>OPERATIVE</b> - applicable only to emergency surgery or to elective surgery<br>which, because of intervening emergency surgery, commences within the<br>designated times. Applicable only to surgical procedure(s) requiring general,<br>spinal or epidural anesthesiology and/or requiring at least 45 minutes of<br>surgical time. |        |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 01210 | Evening (1800 hours to 2300 hours) 38% of surgical (or assistant) fee                                                                                                                                                                                                                                                                   |        |
|       | - minimum charge<br>- maximum charge                                                                                                                                                                                                                                                                                                    |        |
| 01211 | Night (2300 hours to 0800 hours) 61% of surgical (or assistant) fee                                                                                                                                                                                                                                                                     |        |
|       | - minimum charge                                                                                                                                                                                                                                                                                                                        |        |
|       | - maximum charge                                                                                                                                                                                                                                                                                                                        | 532.14 |
| 01212 | Saturday, Sunday or Statutory Holiday (Service rendered between 0800 hours and 2300 hours) 38% of surgical (or assistant) fee                                                                                                                                                                                                           |        |
|       | - minimum charge                                                                                                                                                                                                                                                                                                                        |        |
|       | - maximum charge                                                                                                                                                                                                                                                                                                                        |        |
|       | Notes:                                                                                                                                                                                                                                                                                                                                  |        |
|       | i) When surgery commences within evening time period (1800 – 2300 hrs) and continues into night time period (2300 – 0800 hrs), the appropriate item for                                                                                                                                                                                 |        |

- billing is determined by the period in which the major portion of the surgical time is spent.ii) When emergency surgery commences prior to 1800, even if the major
- portion of surgical time is after 1800, surgical surcharges are not applicable.
   iii) If emergency surgery commences prior to 0800 and continues after 0800,
- surcharges are applicable to the entire surgical time.
- iv) Claim must state time surgery commenced.

# These items are not applicable to full or part time emergency practitioners, designated by a hospital emergency room as the on duty/on site physician and billing under the Emergency Medicine Section of the Payment Schedule.

(c) ANESTHESIOLOGY - Anesthesiology services are eligible for continuing care surcharges when an out-of-office hours call-out charge is applicable or when specially called for an emergency. Timing begins after the first 30 minutes for consultations, visits or anesthesiology evaluations. Payment is based on one half hour of care or major portion thereof. Therefore, the first surcharge is payable after 45 minutes of continuous care when a call-out charge is applicable. If a call-out charge is not applicable then the first continuing care surcharge is payable after 15 minutes of continuous care as long as the anesthetic service is rendered within the designated times.

Applicable also, without the 30 minute time lapse and with timing continuing, to immediately subsequent patients seen on the same call-out, under the following conditions:

- i) as an emergency;
- ii) to provide subsequent resuscitative care under fee code 01088;
- iii) to provide labour epidural insertion under fee code 01102.

Surcharges do not apply to time spent standing by unless code 01112 is payable and are based on the amount of time providing care, regardless of the number of patients attended or services provided.

#### Total Fee \$

| 01215 | Evening (service rendered between 1800 hours and 2300 hours)<br>- per half hour or major part thereof                                      |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------|
| 01216 | Night (service rendered between 2300 hours and 0800 hours)                                                                                 |
| 04047 | - per half hour or major part thereof                                                                                                      |
| 01217 | Saturday, Sunday or Statutory Holiday (Service rendered between 0800                                                                       |
|       | hours and 2300 hours) - per half hour or major part thereof                                                                                |
|       | Notes:                                                                                                                                     |
|       | i) Claim must state start and end times.                                                                                                   |
|       | ii) Where timing is continuous submit an account for each patient,                                                                         |
|       | indicating "CCFPP" (continuing care from previous patient).<br>iii) Not applicable to full or part-time emergency physicians or to on site |
|       | practitioners providing coverage in drop-in emergency clinics or hospital                                                                  |
|       | emergency rooms.                                                                                                                           |
|       | iv) When emergency services commence prior to 1800 hours (weekday) and                                                                     |
|       | extend beyond 1800 hours, anesthetic surcharges are applicable to the time                                                                 |
|       | after 1800 hours. Timing begins at 1800 hours and surcharge payments are                                                                   |
|       | based on one half hour of care or major portion thereof. Therefore, the                                                                    |
|       | 01215 surcharge in these cases is payable after 15 minutes of continuous care (i.e.: 1815 hours).                                          |
|       | v) When emergency anesthetic services commence prior to 0800 hours and                                                                     |
|       | continue after 0800 hours, anesthetic surcharges are only applicable to the                                                                |
|       | time prior to 0800 hours.                                                                                                                  |
|       | vi) Anesthetic surcharges are applicable to services associated with elective                                                              |
|       | surgery which, because of intervening emergency surgery, extends into or                                                                   |
|       | commences within the designated times.                                                                                                     |

## **GENERAL SERVICES**

These listings cannot be correctly interpreted without reference to the Preamble. No additional visit fee should be charged unless extra service is rendered.

- B Service included in visit fee. For an isolated service, see Clause D. 8. Preamble.
- Y Office or hospital visit on same day extra to procedure fee.

\$

#### **Emergency Care**

- 1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
- 2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions: (which are given as examples)
  - a) Cardiac Arrest
  - b) Multiple Trauma
  - c) Acute Respiratory Failure
  - d) Coma
  - e) Shock
  - f) Cardiac Arrhythmia with haemodynamic compromise
  - g) Hypothermia
  - h) Other immediate life threatening situations
- 3. 00081 includes the following procedure items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, nasogastric tubes with or without lavage and urinary catheters (as part of a cardiac arrest).
- 4. 00081 includes the time required for the use and monitoring by the physician of pharmacologic agents such as inotropic or thrombolytic drugs.
- 5. All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which therefore, may be billed in addition when rendered: (note the time required for these procedures should be noted with the claim and deducted from the 00081 time).
  - a) Endotracheal Intubation as a separate entity, i.e. not part of a cardiac arrest or followed by an anesthetic.
  - b) Cricothyroidotomy
  - c) Venous cutdown
  - d) Arterial catheter
  - e) Diagnostic peritoneal lavage
  - f) Chest tube insertion
  - g) Pacemaker insertion
- 6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.
- 7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.
- 8. When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.
- 9. When a second or third physician becomes involved in the emergency care of a acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.

\$

| 00081<br>00082 | Emergency care, per ½ hour or major portion thereof                                                                                                                                                                                                                                                                                                                   |

#### Trauma - General Services:

These fees are intended for the Trauma Team Leader (TTL) within the facility (or facilities) that a trauma patient may arrive at, requiring treatment.

Trauma Team Leader Assessment and Support fees (10087, 10088, and 10089) will be paid for services to patients demonstrating any one of the following criteria:

#### Trauma Team Activation Criteria:

- i) Shock confirmed Blood Pressure  $\leq$  90 at any time in adults.
- ii) Airway Compromise including intubations.
- iii) Transfer patients from other Emergency Departments receiving blood to maintain vital signs.
- iv) Unresponsiveness Glasgow Coma Score  $\leq 8$  with a mechanism suggestive of injury.
- v) Gunshot or other penetrating wounds to head, neck, chest, abdomen or proximal extremity (at or above knee or elbow).
- vi) Autolaunched Trauma Patient.
- vii) Pediatric Trauma Patient under 16 years of age.

viii) Special consideration will be given for patients with significant comorbidities, pregnant patients, and patients <5 years of age and >65 years of age.

#### Trauma Team Consults:

- i) Spinal cord injury (confirmed or suspected).
- ii) Vascular compromise of an extremity with a traumatic mechanism.
- iii) Amputation proximal to the wrist or the ankle.
- iv) Crush to the chest or pelvis.
- v) Two or more proximal long bone fractures (ie: humerus, femur).
- vi) Burns
  - Partial thickness  $(2^{\circ})$  burn  $\geq 10\%$  and full thickness  $(3^{\circ})$  burn
  - Electrical or lightning burn
  - Chemical burn or Inhalation injury
  - Burn injury in patients with significant comorbidities
  - Burn injury with concomitant trauma
- vii) Obvious significant injury and Falls > 20 feet.
- viii) Obvious significant injury and Pedestrian hit (thrown or run over).
- ix) Obvious significant injury and Motorcycle crash with separation of the rider and bike.
- x) Obvious significant injury and Motor vehicle crash with either
  - Ejection
  - Rollover
  - Speed > 70 kph
  - A death at the scene
- xi) Patients with possible head injury and GCS less than 13.

#### All Trauma Assessment and Support fees include:

- Consultation and assessment
- subsequent examinations of the patient
- family counselling
- teleconference with higher level trauma facilities
- ongoing and active daily surgical management of trauma patients including but not limited to:
  - performing tertiary and quaternary survey physical exams
  - · assessment and management of active and passive body core warming
  - care of traumatic wounds or burns (including suturing) not requiring a general anesthetic
  - obtaining appropriate surgical consultations and transfer to higher level facilities when needed
  - coordinating with the transplant organ retrieval team, family counselling (related to organ donation) and obtaining consent for organ procurement
- usual resuscitative procedures such as endotracheal intubation, tracheal toilet and artificial ventilation
- extraordinary resuscitative procedures such as resuscitative thoracotomy or emergency surgical airway
- all necessary measures for respiratory support
- insertion of intravenous lines, peripheral and central
- bronchoscopy
- chest tubes
- lumbar puncture
- cut-downs
- arterial and/or venous catheters and insertion of SWAN-GANZ catheter
- pressure infusion sets and pharmacological agents
- insertion of CVP lines
- defibrillation
- cardio-version and usual resuscitative measures
- insertion of urinary catheters and nasal gastric tubes

- securing and interpretation of laboratory tests

- oximetry

- transcutaneous blood gases
- intra-cranial pressure (ICP) monitoring, interpretation and assessment when indicated
- suturing of wounds not requiring a general anesthetic
- ensuring adequate DVT prophylaxis
- reduction of fractures and dislocations (including casting) not requiring a general anesthetic
- clearance of C-spines or appropriate referral

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Anes.<br>Level |

|       | i) 00044 is applicable to fee items 00190, 00217, 00744 and 14560 only.                                                                                                                                                                    |
| 08000 | Minor Tray - is defined as the use of sterile tray suitable for cautery,<br>cryotherapy, dilation or similar procedure10.41                                                                                                                |
|       |                                                                                                                                                                                                                                            |
| 00090 | Major Tray - is defined as the use of sterile instrument tray requiring local anesthetic and/or suture material or similar supplies, or plaster cast                                                                                       |
|       | material, and endoscopy requiring sterile instrumentation                                                                                                                                                                                  |
|       | Notes – General for Tray Fees                                                                                                                                                                                                              |
|       | <ul> <li>i) Tray fees are only applicable where the costs are actually incurred by the<br/>physician.</li> </ul>                                                                                                                           |
|       | <li>Tray fees are only applicable in conjunction with the procedures included in<br/>the attached lists. Other procedures will be given independent consideration<br/>with the British Columbia Medical Association Tariff Committee.</li> |
|       | iii) Tray food are not applicable when the gonize is performed at a funded                                                                                                                                                                 |

iii) Tray fees are not applicable when the service is performed at a funded facility (e.g.: hospital, D&T Centre, Psychiatric Institution, etc.).

#### PROCEDURES ELIGIBLE FOR MAJOR TRAY FEES

- S00571 Pediatric Oesophagogastroduodenoscopy in a patient 16 years of age and under S00701 Direct laryngoscopy Cystoscopy dilation and Panendoscopy S00704 SY00715 Sigmoidoscopy with biopsy Sigmoidoscopy Flexible SY00716 Sigmoidoscopy Flexible with Biopsy SY00718 Sialogram (per duct) or galactograms (per blast) - procedure fee for Injection S00723 S00727 Salpingogram - procedural fee S00732 Voiding cvsto-urethrogram – procedural fee S00745 Peripheral or Subcutaneous Lymph Node Biopsy S00747 Prostate biopsy - procedural fee Bone biopsy under local/regional anesthetic S00748 S00759 **Chest Aspiration Paracentesis** S00760 Paracentesis Abdominal S00785 Endometrial biopsy S00807 **Diagnostic Hysteroscopy** Diagnostic Hysteroscopy with Biopsy(s) S00808 **Urethral Profilometry** S00874 S00878 Cystometry (includes pelvic floor EMG) Endoscopic Examination of the Nose and Nasopharynx SY00907 SY00908 Endoscopic Examination of the Nose and Nasopharynx with biopsy SY00909 Flexible fiberoptic nasopharyngolaryngoscopy 01036 **Epidural Block: Thoracic** 01037 **Epidrual Block: Cervical** Epidural Block: Lumbar 01135 Epidural Block: Caudal blocks 01138 Nerve root or facet blocks - cervical - single 01140 Nerve root or facet blocks - cervical - multiple 01141 Nerve root or facet blocks - thoracic - single 01142 Nerve root or facet blocks - thoracic - multiple 01143 Nerve root or facet blocks - lumbar - single 01144 01145 Nerve root or facet blocks - lumbar - multiple Repair of eyelid margin defect, requiring layered closure S02107 S02150 Chalazion Excision S02152 Tarsorrhaphy S02153 Ectropion - Ziegler or Simple Procedure PS02154 Ectropion/Entropion - complicated, including neoplasms and plastic repair - requires both repair and associated lid shortening and/or skin grafting S02156 Eyelid Margin Tumour - Benign Excision (operation only) S02157 Eyelid Tumour - Benign Excision (operation only) S02171 Pterygium or Limbus Tumour (operation only) **Mvringoplastv** 02251 02254 Myringotomy unilateral - with insertion of aerating tube (operation only) Exploratory tympanotomy 02255 Myringoplasty - Paper patch, ear drum (operation only) 02266 Myringotomy bilateral - with insertion of aerating tube (operation only) 02274 02307 Naso-antral window – single (operation only) 02308 Naso-antral window - double 02317 Electrocoagulation of turbinates - one side (operation only) Electrocoagulation of turbinates – both sides (operation only) 02318
- S02322 Removal of nasal polypi unilateral (operation only)

| 600000 | Demoval of population bilatoral                                                              |
|--------|----------------------------------------------------------------------------------------------|
| S02323 | Removal of nasal polypi - bilateral                                                          |
| 02324  | Antral lavage – unilateral (operation only)                                                  |
| 02325  | Antral lavage – bilateral (operation only)                                                   |
| 02341  | Posterior nasal packing – to include balloon control of epistaxis (operation only)           |
| 02345  | Drainage of abscess or haematoma of septum (operation only)                                  |
| 02346  | Posterior nasal packing with trans-oral gauze pack, under local, topical or general          |
|        | anesthesiology (operation only)                                                              |
| 02412  | Biopsy of larynx and/or cauterization (including laryngoscopy) (operation only)              |
| 02413  | Operative control of post-tonsillectomy or post-adenoidectomy haemorrhage requiring local or |
|        | general anesthetic                                                                           |
| 02419  | Direct or indirect laryngoscopy with foreign body removal                                    |
| 02447  | Incision of peritonsillar abscess – under local anesthetic (operation only)                  |
| 02535  | Maxillary Sinus Endoscopy                                                                    |
| 02538  | Laryngostroboscopy                                                                           |
| 03211  | Muscle Biopsy                                                                                |
| 04032  | Biopsy of vulva, excisional lesion > /= 2 cm                                                 |
| 04002  | Therapeutic abortion (vaginal), by whatever means – less than 14 weeks gestation             |
| 04111  | (operation only)                                                                             |
| 04200  |                                                                                              |
| 04300  | Hymen Incision (operation only)                                                              |
| 04301  | Bartholin's cyst excision (operation only)                                                   |
| 04312  | Resection of labia minora (operation only)                                                   |
| 04317  | Biopsy Vulva, lesion <2 cm                                                                   |
| 04404  | Cyst Vaginal Inclusion Removal (operation only)                                              |
| 04405* | Removal of other vaginal cyst (operation only)                                               |
| 04406  | Operation for removal of vaginal septum (operation only)                                     |
| S04500 | Cervix dilatation and curettage (operation only)                                             |
| 04510  | Biopsy of cervix, with dilation and curettage (operation only)                               |
| 04536  | Cone Biopsy Cervix (includes D&C)                                                            |
| 06027  | Repair of torn (split) earlobe (simple)                                                      |
| 06046  | Free Skin Grafts - less than 6.5 sq. cm (operation only)                                     |
| 06051  | Free Skin Grafts - finger tip (operation only)                                               |
| 06052  | Free Skin Grafts - head and neck - 6.5 sq. cm or less                                        |
| 06060  | Free Skin Grafts - mouth                                                                     |
| 06075  | Eyelid and lip wounds avulsed and complicated                                                |
| 06076  | Nose and ear wounds avulsed and complicated                                                  |
| 06077  | Lacerations of the scalp, cheek and neck complicated                                         |
| 06079  | Minor burns debridement, surgical (operation only)                                           |
| 06125  | Blepharoplasty - Simple                                                                      |
| 06126  | Blepharoplasty - Complicated                                                                 |
| 06131  | Accessory Auricle (operation only)                                                           |
| 06156  |                                                                                              |
|        | Periperhal nerve: transplant of neuroma                                                      |
| 06182  | Ganglia of tendon sheath or joint                                                            |
| 06186  | Tenoplasty                                                                                   |
| 06187  | Tenoplasty - 2 or more tendons                                                               |
| 06188  | Tenolysis                                                                                    |
| 06193  | Palmar Fasciectomy - more than one digit                                                     |
| 06197  | Tenosynovitis, finger (operation only)                                                       |
| 06210  | Neurolysis external                                                                          |
| 06218  | Amputation, Transmetacarpal                                                                  |
| 06219  | Amputation, Finger (operation only)                                                          |
| S06258 | Neurolysis and exploration of Peripheral Nerve                                               |
| 07025  | Biopsy, Temporal Artery (operation only)                                                     |
| 07041  | Aspiration: abdomen or chest (operation only)                                                |
| 07045  | Abscess Anterior Closed Space (operation only)                                               |
| V07053 | Excision of nail bed, complete, with shortening of phalanx                                   |
| 07110  | Multiple ligations and stripping tributaries: - 3 to 5 incisions (operation only)            |
| V07111 | Multiple ligations and stripping tributaries: - 6 or more incisions                          |
| V07112 | Ligation of 2 or more perforators                                                            |
| • =    |                                                                                              |

- S07464 Sigmoidoscopy, flexible; diagnostic with removal of polyp(s) (operation only)
- V07470 Microdochectomy, Nipple exploration
- 07516 Excision of salivary cyst (operation only)
- 07685 Pilonidal Sinus
- S08262 Meatotomy and plastic repair (operation only)
- S08264 Urethra dilation (operation only)
- S08301 Dorsal slit (operation only)
- S08340 Epididymis abscess incision (operation only)
- S08345 Vasectomy bilateral (operation only)
- 08513 Dacrocystogram
- 08595 Cystogram or Retrogradeurethrogram (not including catheterization)
- SY10714 Proctosigmoidoscopy, rigid, diagnostic
- SY10750 Transnasal esophagogastroduodenoscopy (TGD), procedural fee
- S10761 Esophagogastroduodenoscopy (EGD), including collection of specimens by brushing or washing, per oral procedural fee
- S10762 Rigid esophagoscopy, including collection of specimens by brushing or washing, procedural fee

#### Excision - Diagnostic, Percutaneous:

- S11230 Shoulder Girdle, Clavicle and Humerous Needle biopsy under GA
- S11330 Elbow, Proximal Radius and Ulna Needle biopsy under GA
- S11430 Hand and Wrist Needle biopsy, under GA
- S11530 Pelvis, Hip and Femur Needle biopsy, under GA
- S11630 Femur, Knee Joint, Tibia and Fibula Needle biopsy, under GA

#### Excision - Diagnostic:

S11730 Tibial Metaphysis (Distal), Ankle and Foot Needle biopsy, under GA

#### Excision - Diagnostic, Percutaneous:

Vertebra, Facette and Spine

- S11830 Needle biopsy soft tissue/bone thoracic spine, under GA
- S11831 Needle biopsy soft tissue/bone lumbar spine, under GA
- 13600 Biopsy of skin or mucosa (operation only)
- 13601 Biopsy of facial area (operation only)
- 13611 Laceration or foreign body, Minor (operation only)
- 13612Laceration, Extensive (operation only)
- 13620 Scar or tumour Excision (operation only)
- 13622 Localized carcinoma of skin, proven histopathologically (operation only)
- 13623 Excision of tumour of skin or subcutaneous tissue or small scar under local anesthetic face (operation only)
- 13632Removal of nail with destruction of nail bed (operation only)
- 13633 Wedge excision of one nail (operation only)
- 13650 Hemorrhoid Thrombotic, Enucleation (operation only)
- 14540 Insertion of IUD

Local tissue shifts: Advancements, rotations, transpositions, "Z" plasty, etc:

- 20221 Single or multiple flaps under 2 cm in diameter used in repair of a defect
- (except for special areas as in 20225) (operation only)
- 20222 Single
- 20223 Multiple
- 20224 with free skin graft to secondary defect
- 20225 Eyebrow, eyelid, lip, ear, nose single

- V70123 Multiple flap for lesion greater than 2cm with free skin graft to secondary defect
- V70124 Eyebrow, eyelid, lip, nose single

Removal of indwelling Enteral tubes with or without exploration of tube insertion site:

- S71281 requiring local or regional anesthesia (operation only)
- SV71682 Botox injection for anal fissure
- 71684 Papillectomy or excision of anal tag or polyp single (operation only)
- 71686 Papillectomy or excision of anal tag or polyp multiple (operation only)
- 71690 Hemorrhoid(s); infrared photocoagulation to include proctoscopy (operation only)
- 72669 Excision rectal tumour 0 to 2.5 cm (operation only)
- 72670 Excision rectal tumour 2.6 to 5 cm
- 72672 Electrodessication or fulguration of malignant tumour of rectum (operation only)
- 77045 Varicose veins, injection, each visit
- 77050 Compression sclerotherapy initial uncomplicated
- P77046 Ultrasound directed (with image capture) foam sclerotherapy initial
- P77047 Ultrasound directed (with image capture) foam sclerotherapy repeat
- 77060 Compression sclerotherapy repeat
- High ligation, long saphenous
- 77142 Removal of totally implantable access device (e.g.: portacath), operation only

#### PROCEDURES ELIGIBLE FOR MINOR TRAY FEES

| 00019  | Venesection for polycythaemia or phlebotomy                                                  |
|--------|----------------------------------------------------------------------------------------------|
| 00218  | Curettage and electrosurgery of Skin carcinoma (operation only)                              |
| 00219  | Curettage skin carcinoma, additional lesion                                                  |
| 00424  | Botulinum toxin injections                                                                   |
| S00743 | Breast lesion, non-palpable localizing                                                       |
| S00762 | Scratch test, per antigen                                                                    |
|        | <b>Note:</b> Minor tray fees may be paid in addition if a minimum of 16 antigens are used.   |
| S00763 | Scratch test – children under 5 years of age, per antigen                                    |
| 000100 | <b>Note:</b> Minor tray fees may be paid in addition if a minimum of 14 antigens are used.   |
| S00765 | Annual maximum (to include scratch or intracutaneous tests) for each physician – per patient |
| S00784 | Cervix punch biopsy                                                                          |
| S00803 | Loopogram                                                                                    |
| S00811 | Joint injection, aspiration or arthrogram, under radiological guidance                       |
| 01042  | Nerve block paravertebral sympathetic                                                        |
| 01124  | Periperhal nerve block - single                                                              |
| 01125  | Peripheral nerve block - multiple                                                            |
| S02076 | Botulinum toxin injection for strabismus                                                     |
| S02118 | Snip procedure, two or three (operation only)                                                |
| S02119 | Dacryocyst-ostomy (operation only)                                                           |
| S02120 | Punctum dilation                                                                             |
| S02122 | Lacrimal duct probing local anesthetic (operation only)                                      |
| S02147 | Trichiasis, electric (operation only)                                                        |
| S02148 | Cryotherapy of eyelids (operation only)                                                      |
| S02167 | Cauterization or cryotherapy of corneal ulcer (operation only)                               |
| 02210  | Paracentesis of the ear drum (operation only)                                                |
| 02221  | Aural polyp removal or debridement, foreign body removal                                     |
| 02303  | Cauterization of septum, electric (operation only)                                           |
| 02364  | Nasal fracture - simple reduction (operation only)                                           |
| S02365 | Nasal fracture - reduction and splinting (operation only)                                    |
| 02452  | Sialolithotomy - simple, in duct (operation only)                                            |
| 04305  | Venereal warts (operation only)                                                              |
| 04503  | Cervix, cryosurgery, cautery or excision (operation only)                                    |
| 04509  | Cervical polypectomy (operation only)                                                        |
| 04533* | Electric cauterization, cervix (operation only)                                              |
| 06028  | Abscess, web space (operation only)                                                          |
| 06271  | Alveolar fracture (operation only)                                                           |
| 07678  | Abscess - Perianal, I & D, superficial (operation only)                                      |
| 08601  | Radiographic study of sinus, fistula, etc., with contrast media, including injection and     |
|        | fluoroscopy, if necessary                                                                    |
| 13605  | Abscess, superficial opening, including furuncle (operation only)                            |
| 13610  | Laceration or foreign body, minor (not requiring anesthesia) (operation only)                |
| 13630  | Paronychia (operation only)                                                                  |
| 13631  | Nail removal (operation only)                                                                |
| P20231 | Biopsy, not sutured                                                                          |
| P20232 | Biopsy, not sutured, multiples same sitting, maximum of four (extra)                         |
| 61291  | Biopsy, not sutured                                                                          |
| 70469  | Breast biopsy needle core (operation only)                                                   |
| 70674  | Destruction of anal lesion, anus fulguration and condylomata (operation only)                |
|        | Removal of indwelling Enteral tubes with or without exploration of tube                      |
| _      | insertion site:                                                                              |
| S71280 | - not requiring anesthesia (operation only)                                                  |
| 71689  | Hemorrhoid(s); (e.g.: band ligation) to include proctoscopy (operation only)                 |
|        |                                                                                              |

#### PROCEDURES ELIGIBLE FOR MINI TRAY FEES

- 00190 Forms of treatment other than excision, X-ray or Grenz ray; such as removal of haemangiomas and warts with electrosurgery, cryotherapy, etc., per visit (operation only)
- 00217 Treatment of skin disorders and lesions other than: ultraviolet, X-ray, grenz ray, such as cryosurgery, electrosurgery, etc. extra (operation only)
- S00744 Thyroid biopsy
- 14560 Routine pelvic examination including Papanicolaou smear

## DIAGNOSTIC AND SELECTED THERAPEUTIC PROCEDURES

These listings cannot be correctly interpreted without reference to the Preamble. Letter prefix **Y** - Office or hospital visits on same day - extra to procedure fee

|        | Note: Not payable with definitive spinal surgery                |   |

# **CRITICAL CARE**

Complete understanding of the following paragraphs is essential to appropriate billing of the critical care fees. Members of the team billing the Critical Care Payment Schedule can not be receiving other payments (e.g.: fees, alternative or sessional payments) for the clinical care of the patient.

#### Preamble

#### Adult and Pediatric Critical Care

These listings do not apply to the non-ventilated stable patients admitted to a special care unit for routine post-op care, or for nursing care reasons, cardiac or other monitoring. The Critical Care Payment Schedule is intended to be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment, such as ventilatory support, haemodynamic support including vasoactive medications, or prolonged resuscitation.

Day 1 billing is to be used only when more than 2 hours of bedside care is provided. (If 01411 – 01413 billed in isolation, a total of 2 hours care on the first day is required. If critical and ventilatory care is billed conjointly by the team, then each component must be a minimum of 1 hour of care). Day 1 is defined as starting at 0000 hours. If a patient is seen after 2200 hours, the physician may bill emergency care services, (00081/00082) or a major consultation fee with resuscitation services, (00081), or a major consultation fee with additional visits when appropriate. Day 2 billing would start at 0000 hours the next day. Standby time is not allowed.

It is recognized that a team of physicians often manages complicated problems in the Intensive Care Unit. The schedule is a team fee and individual members of the team who share a common call rotation may not bill separately. The original physician or physicians providing initial bedside care will be designated physician or physicians in charge, i.e. if it is a single physician then the comprehensive or critical care item may be billed when appropriate. If two physicians are involved then the critical care item and ventilatory support item may be billed, if the other requirements are met. Critical care billing no longer applies when the services indicated in the listings are no longer required. If the patient has been discharged from the unit and is readmitted within 48 hours with the same or a similar problem, billing would continue from where it was stopped. After 48 hours, billing would usually start at Day 2 rates. If problem is totally different, Day 1 rates will apply regardless of time admitted both within or after 48 hours (a note record is required).

Since these listings are intended to cover all required services for critically ill patients, no other physician except the Primary Care Physician (who may bill for daily or supportive care) may bill for the care of the patient on the same day, except for:

- Consultation fee to a specialist outside the team when requested (service not within the competence or specialty of a team member). Follow-up visits may be billed only if the physician is involved in the active care of the patient.
- TPN when ordered by a physician not part of the critical care team.
- Medical management of Extra Corporeal Membrane Oxygenation (ECMO) should be billed as a miscellaneous fee, and will be paid in equity with the Critical Care daily fees (1411/21/31/41), starting at Day 1.
- The Critical Care team member who performs ECMO cannot concurrently bill the daily fees on the same patient. Another physician on the team may concurrently bill the appropriate Adult and Pediatric Critical Care daily fees on that patient.

- Continuous Renal Replacement Therapy (CRRT, also referred to as dialysis) and MARS (Molecular Adsorbents Recirculating System) may be paid in addition to Critical Care daily fees to the same physician or to another member of the Critical Care Team. For the CCM Physician, these fees will be paid at 75% of fee item 33750, 33751, 33752 and 33758, and will follow the billing rules under these dialysis fees.
- Dialysis, when supervised by a physician not part of the Critical Care Team, will be paid at 100%.
- In exceptional circumstances other physicians may be called in to perform specific procedures usually managed by the critical care team, i.e. anesthesiologist (not a member of the team) called to insert a difficult arterial line when no one else is capable of performing the procedure. That physician may bill the procedure fee but a consultation fee would not be applicable.

#### A note record is required explaining the need for services outside the critical care team.

Subsequent Major surgical procedures rendered by a physician who is on the team billing under the critical care schedule are payable at 75% (operation only procedures payable at 100%) and should be billed accordingly.

Postoperative surgical care is included in the surgeon's fee. Critical care fees are not applicable for services rendered to routine, stable patients who are simply recovering from surgery. The following is applicable for members of the critical care team, in cases where the patient requires critical care following surgery:

- (a) Services rendered to unstable, critically ill non-elective post-surgical patients who meet normal Day 1 criteria should be billed at Day 1 rates.
- (b) Services rendered to high risk and unstable patients, (particularly after emergency surgery) who warrant ICU care but who do not meet the requirement of two hours of direct critical care management on their first day in ICU, should be billed using the appropriate consultation and procedural item(s). Subsequent day, Day 2 rates are applicable.
- (c) Where the patient requires critical care following uncomplicated elective surgery, the critical care fees may be billed by the critical care team utilizing Day 2 rates. The operating surgeon(s) may bill the critical care fee guide but the preceding major surgical procedure will be reduced to 75%.
- (d) The critically ill patient, who, following elective surgery, has an unusual and unexpected problem, can be billed as Day 1. A note record is required.

Critically ill patients are occasionally transferred from one hospital to another. Under such circumstances the original intensive care team may bill for the day of the patient's transfer, if appropriate. First day rates would apply to the receiving intensive care team if more than two hours of bedside care are provided. This does not apply to intra-hospital transfers. Please also provide in a "note record" the statement that "patient transferred from \_\_\_\_\_ Hospital".

Physicians required to be in attendance during the transporting of a patient from a critical care area to an outside institution may claim the appropriate fee (e.g.: 00084).

These Critical Care listings only apply to physicians who are directly involved in the bedside care of patients as defined in the "Preamble to the Payment Schedule".

#### "C. 18. Guidelines for Payment for Services by Trainees, Residents and Fellows

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the supervising medical practitioner shall be identified to the patient at the earliest possible moment. No fees may be charged in the name of the supervising staff physician for services rendered by a trainee, resident or fellow prior to the identification taking place. Moreover, the supervising staff physician must be available in person, by telephone or videoconferencing in a timely manner appropriate to the acuity of the service being supervised.

For a medical practitioner who supervises two or more procedures or other services concurrently through the use of trainees, residents, fellows or other members of the team, the total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members. For example:

- a) If an anesthesiologist is supervising two rooms simultaneously, the anesthetic intensity/complexity units should only be billed for one of the two cases.
- b) If a surgeon is operating in one room while his/her resident is operating in a second room, charges should only be made for the case the surgeon performs.
- c) In psychotherapy where direct supervision by the staff physician may distort the psychotherapeutic milieu, the staff physician may claim for psychotherapy when a record of the psychotherapeutic interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff physician should not exceed the lesser of the time spent by the resident in the psychotherapeutic interview or the staff physician in the supervision of that interview.
- d) For hospital visits and consultations rendered by the resident in the name of the staff physician, the staff physician should only charge for services on the days when actual supervision of that patient's care takes place through a physical visit to the patient by the staff physician and/or a chart review is conducted with detailed discussion with the other members of the health team within the next weekday workday.
- e) The supervising physician may not bill for out-of-office hours premiums or continuing care surcharges unless he/she complies with the explanatory notes for out-of-office hours premiums in the Payment Schedule/Guide to Fees and personally attends the patient.
- f) In order to bill for a supervised service the physician must review in person, by telephone or videoconferencing the service being billed with the trainee, resident or fellow and have signed off within the next weekday workday on the ER record, hospital chart, office chart or some other auditable document."

Out-Of-Office Hours Call-out charges and Surcharges and emergency visit fees are not payable in addition to this schedule, as historically, these fees are included in the critical care fees.

| 01472 | Telehealth repeat or limited consultation: Where a consultation for same illness is repeated within six months of the last visit by the consultant, or where in the judgment of the consultant the consultative services do not warrant a full consultative fee (not for ICU patients) |

#### Miscellaneous

Total Fee \$

| P01450 | Adult and Pediatric Critical Care 1 <sup>st</sup> day modifier | – extra42.87 |
|--------|----------------------------------------------------------------|--------------|
|        | Notes:                                                         |              |

- i) Restricted to Critical Care physicians.
- ii) Payable only in addition to 01411, 01412, or 01413 by the same practitioner.

#### **Adult and Pediatric Critical Care**

1. <u>CRITICAL CARE</u> – includes provision in an Intensive Care Area of all aspects of care of a critically ill patient excluding ventilatory support and includes initial consultation and assessment, family counselling, emergency resuscitation, intravenous lines, bronchoscopy, chest tubes, lumbar puncture, cut-downs, pressure infusion set and pharmacological agents, insertion of arterial C.V.P., Swan-Ganz or urinary catheters and nasogastric tubes, defibrillation, cardio version and usual resuscitative measures, securing and interpretation of laboratory tests, oximetry, transcutaneous blood gases and intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). There is an expectation of at least 1 hour of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in ICU's for example, routine post-op monitoring, or patients admitted for ECG monitoring or observation alone.

Physician-in-charge is the physician(s) daily providing the above.

| 01411 | 1st day                             |        |
|-------|-------------------------------------|--------|
| 01421 | 2nd to 7th day (inclusive) per diem |        |
| 01431 | 8th day to 30th day                 | 114.69 |
| 01441 | 31st day onward                     |        |
| 01441 | 31st day onward                     | 53.74  |

2. VENTILATORY SUPPORT - includes provision of ventilatory care including initial consultation and assessment of the patient, family counselling, cut-down, pressure infusion, insertion arterial & CVP, Swan-Ganz, tracheal toilet, endotracheal intubation, intravenous lines, artificial ventilation and all necessary measures for its supervision, obtaining and interpretation of blood gases, oximetry, end tidal CO<sub>2</sub>, transcutaneous blood gas application and assessment and maximum inspiratory pressure monitoring and non-invasive metabolic measurements. There is an expectation of at least 1 hour of bedside care on Day 1. This is the fee to use when one physician is providing the ventilatory care and another physician, the critical care. This service may also be billed by a physician other than the operating surgeon or associate, for critical care required in addition to postoperative care by the surgeon.

Physician-in-charge is the physician(s) daily providing the above.

| 01412<br>01422 | 1st day<br>2nd to 7th day (inclusive) per diem                                                                                                                                                                                                                                                                                                                                                                                                               |                                                           |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|
| 01432          | 8th day to 30th day                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                           |
| 01442          | 31st day onward                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                           |
| 3.             | <u>COMPREHENSIVE CARE</u> - These fees apply to intensive care physic<br>provide complete care, both Critical Care and Ventilatory support (as<br>to Intensive Care patients. These fees include the initial consultation a<br>and subsequent examinations of the patient, family counselling, endo<br>intubation, tracheal toilet, artificial ventilation and all necessary measu<br>respiratory support, emergency resuscitation, insertion of intravenous | defined above),<br>and assessment<br>tracheal<br>ures for |

bronchoscopy, chest tubes, lumbar puncture, cut-downs, arterial and/or venous catheters, insertion of a Swan-Ganz catheter, pressure infusion sets and pharmacological agents, insertion of C.V.P. lines, defibrillation, cardioversion and usual resuscitative measures, insertion of urinary catheters and nasogastric tubes, securing and interpretation of blood gases, intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). There is an expectation of at least 2 hours of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in the ICU's or patients admitted for ECG monitoring and observations.

Physician-in-charge is the physician(s) daily providing the above.

#### Total Fee \$

| 01413 | 1st day                             |  |
|-------|-------------------------------------|--|
| 01423 | 2nd to 7th day (inclusive) per diem |  |
| 01433 | 8th day to 30th day                 |  |
| 01443 | 31st day onward                     |  |
|       | 2                                   |  |

If ventilatory support only is provided, claims should then be made under Ventilatory Support. Comprehensive Care fees do not apply. Other physicians should then charge Critical Care fees, if applicable, or the appropriate consultation, visit or procedure fees.

#### **Neonatal Intensive Care**

These listings may be used for patients receiving neonatal intensive care and are intended for use by the Neonatologist or Pediatrician (or Team) in charge of the patient. These listings may be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment such as ventilatory support, haemodynamic support including vasoactive medications or prolonged resuscitation. They are to be billed only on sick or preterm infants requiring intensive care. They are also for infants who are more than 28 days old, who have neonatal problems related to prematurity, etc. These listings do not apply to non-ventilated stable patients admitted to a special care unit for routine post-op care. These fees are not for the infant who is stable and only requiring a period of observation. Neither are they for the infant who needs a short course of prophylactic antibiotics. It would be unusual to bill these fees on an infant whose period of care in the NICU lasted less than 48 hours Consultation and visit fees would be appropriate.

These neonatal intensive care fees only apply to physicians who are directly involved in the bedside care of patients in the Critical Care Areas. "Preamble to the Payment Schedule" applies:

"C. 18. Guidelines for Payment for Services by Trainees, Residents and Fellows

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the supervising medical practitioner shall be identified to the patient at the earliest possible moment. No fees may be charged in the name of the supervising staff physician for services rendered by a trainee, resident or fellow prior to the identification taking place. Moreover, the supervising staff physician must be available in person, by telephone or videoconferencing in a timely manner appropriate to the acuity of the service being supervised.

For a medical practitioner who supervises two or more procedures or other services concurrently through the use of trainees, residents, fellows or other members of the team, the total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members. For example:

a) If an anesthesiologist is supervising two rooms simultaneously, the anesthetic intensity/complexity units should only be billed for one of the two cases.

- b) If a surgeon is operating in one room while his/her resident is operating in a second room, charges should only be made for the case the surgeon performs.
- c) In psychotherapy where direct supervision by the staff physician may distort the psychotherapeutic milieu, the staff physician may claim for psychotherapy when a record of the psychotherapeutic interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff physician should not exceed the lesser of the time spent by the resident in the psychotherapeutic interview or the staff physician in the supervision of that interview.
- d) For hospital visits and consultations rendered by the resident in the name of the staff physician, the staff physician should only charge for services on the days when actual supervision of that patient's care takes place through a physical visit to the patient by the staff physician and/or a chart review is conducted with detailed discussion with the other members of the health team within the next weekday workday.
- e) The supervising physician may not bill for out-of-office hours premiums or continuing care surcharges unless he/she complies with the explanatory notes for out-of-office hours premiums in the Payment Schedule/Guide to Fees and personally attends the patient.
- f) In order to bill for a supervised service the physician must review in person, by telephone or videoconferencing the service being billed with the trainee, resident or fellow and have signed off within the next weekday workday on the ER record, hospital chart, office chart or some other auditable document."

Included in these daily composite fees are the initial consultation or assessment, subsequent visits and examinations as required in any given day. Also included are: family counselling, emergency resuscitation, insertion of arterial, venous, Swan-Ganz, CVP or urinary catheters, intravenous lines, interpretation of blood gases, insertion of nasogastric tubes, infusion of pharmaceutical agents including TPN, endotracheal intubation and artificial ventilation and all other necessary respiratory support. Exchange transfusion is not included in these fees and not all infants requiring an exchange transfusion are critically ill.

Out-Of-Office Hours Call-out Charges may still apply for special calls back to the hospital and may be billed in conjunction with a no charge visit. If a patient is discharged from the unit for more than 48 hours and is readmitted, <u>second</u> day rates again apply. If the patient is re-admitted within 48 hours of discharge, billing continues under fee code billed at discharge, unless acuity level changes. If a patient changes acuity level up or down then the appropriate second day rate applies. A note record is required indicating the change in acuity level. Fee item 00505 (Emergency Visit) may not be billed by the person claiming these fees.

Call-out charges are billable with the neonatal critical care fee items. Historically, these have not been included in the neonatal fees and may be billed separately.

Members of the team billing the Neonatal Guide cannot be receiving other payments (e.g.: fees, alternative or sessional payments) for the clinical care of the patient.

**LEVEL A** - Infants in a Neonatal Intensive Care Unit requiring artificial ventilation and full intensive monitoring and parenteral alimentation if necessary. These fees include all necessary procedures.

| 01511 | Day 1         | 633.46 |
|-------|---------------|--------|
| 01521 | Day 2 - 10    |        |
| 01531 | Day 11 onward |        |

# **LEVEL B** - Infants in a Neonatal Intensive Care Unit requiring full monitoring both invasive and non-invasive and requiring IV therapy or parenteral alimentation but without ventilator support.

| 01512 | Day 1         |        |
|-------|---------------|--------|
| 01522 | Day 2 - 10    | 400.05 |
| 01532 | Day 11 onward | 125.33 |

# **LEVEL C** - Infants in a Neonatal Intensive Care Unit requiring oxygen administration and/or non-invasive monitoring, and/or gavage feeding.

| 01513 | Day 1         |  |
|-------|---------------|--|
| 01523 | Day 2 - 10    |  |
| 01533 | Day 11 onward |  |

# **EMERGENCY MEDICINE**

#### Preamble

- 1) The following listings apply only to examinations rendered by the emergency physician designated by the medical staff who is on hospital Emergency Department duty and on-site. Other physicians (e.g.: on call) who choose to attend their patients in the Emergency Department but who are not the designated emergency physicians as defined above, shall not bill these listings but shall refer to other sections of the Payment Schedule for billing the appropriate examinations. The physicians working in hospital Emergency Departments that are covered on a call-in basis as opposed to an on-site basis shall not bill these listings but shall refer to the section on General Practice. Physicians working in diagnostic treatment centres or freestanding emergency clinics should also refer to the listings in the section of General Practice. Call-in fees (i.e.: 00112) or call-out charges for patients seen in the Emergency Department are not applicable to emergency physicians while on duty and on-site in the hospital Emergency Department.
- 2) Separate day, evening, night and weekend/holiday listings are defined as follows:

| Day Visit:             | 0800 to 1800, weekdays                                  |
|------------------------|---------------------------------------------------------|
| Evening Visit:         | 1800 to 2300, weekdays                                  |
| Night Visit:           | 2300 to 0800                                            |
| Weekend/Holiday Visit: | 0800 to 2300 on Saturday, Sunday and statutory Holidays |

3) Emergency Department visit listings are further categorized into three levels of complexity.

#### LEVEL I

A level of service pertaining to the evaluation and treatment of a single condition requiring only an abbreviated history, examination and treatment. It shall include the review of appropriate laboratory tests and/or x-rays. This level of service shall also pertain to those patients who do not meet the criteria for Level II or III care.

#### LEVEL II

Pertains to the evaluation of a new or existing medical condition that necessitates a detailed medical history, and necessary physical examination of three or more regions. It will also include a review of laboratory tests and x-rays where required, and the initiation of appropriate therapy. This level of service shall also pertain to those patients whose illness/injury require prolonged observation, continuous therapy, and multiple reassessments.

#### LEVEL III

- a) Pertains to evaluation of patients with serious multiple and/or complex medical problem(s) which often can be obscure and where the emergency condition necessitates a detailed history and complete physical examination by the emergency room physician. This shall include the chief complaint(s), history of past and present illness, relevant personal and family history, functional enquiry, and complete physical examination with special attention to local examination where indicated. It shall include the review and interpretation of appropriate laboratory, x-ray and ECG studies, full recording of the findings, and discussion with the patient and/or family and/or personal physician, as well as the initiation of appropriate therapy.
- b) This level of care shall also pertain to the management of a life threatening illness/injury which requires immediate evaluation and emergent treatment by the emergency physician. It shall include the review and interpretation of appropriate laboratory, x-ray and ECG studies, full recording of the findings, and discussion with the patient and/or family and/or personal physician.

#### 4) <u>Emergency Medical Consultations</u>

- a. A specialist emergency medicine consultation (fee item 01810) only applies to Royal College Certified emergency physicians. Other full-time emergency physicians may bill a general practice out-of-office consultation (fee item 12210, 13210, 15210, 16210, 17210 or 18210) where indicated.
- b. An emergency medicine consultation (whether billed as 01810, 12210, 13210, 15210, 16210, 17210 or 18210) applies only when a patient is referred by another physician (other than an emergency physician at the same institution) who has seen and examined the patient and, because of the complexity, obscurity or seriousness of the problem, the referring physician has requested a consultation. Exception: If the consulting physician is an emergency physician who is a designated on-call Trauma Team Leader they may bill emergency medicine consultations if called in by the on-site emergency physician at the same institution.
- c. An emergency medicine consultation shall include a detailed history and physical examination, review of previous medical records, discussion with family, friends or witnesses, evaluation of appropriate laboratory, x-ray and ECG findings and report of opinions and recommendations in writing to the referring physician.
- d. A copy of the Emergency Department chart does not constitute a consultation report.
- e. A consultation cannot be charged for the routine transfer of care to the emergency physician or for the provision of treatment for a stable medical condition.
- f. A consultation does not apply in cases of self referral by patients who present themselves to the Emergency Department or are brought by persons acting on their behalf.
- g. If a consultation is charged in addition to critical care (fee item 00081), the consultation fee shall be paid but shall constitute the first half-hour of the critical care resuscitation fee.
- h. No service charges may be billed in addition to the emergency medicine consultation fee, except for Trauma Team Leaders, with a note record.
- 5) The routine transfer of care between emergency physicians at the change of shift shall not generate a new visit fee. However, in the event of a significant deterioration in a patient's status that medically requires both a new examination and modification of the treatment plan, then the appropriate visit fee item may be claimed.
- 6) Medical conditions treated in addition to minor surgical procedures:

Patients may present, for example, with a laceration requiring suture repair and also require treatment of an unassociated, unrelated illness or injury. Both a visit fee (Level I, II, or III) and the procedural fee (Repair of laceration - fee item 13611 or 13612) may be billed. In the event that a Level I, II, or III visit fee is medically required and billed, the greater fee shall be paid in full and the lesser at 50 percent.

Patients may also present with an emergency medical condition <u>associated</u> with a laceration (e.g.: syncope with a scalp laceration or seizure disorder with a facial laceration). Again, both the appropriate visit fee (Level I, II or III) and a procedural fee (e.g.: 13611 or 13612) may be billed. The greater fee shall be paid in full and this lesser fee at 50 percent.

# **EMERGENCY MEDICINE**

# **GENERAL PRACTICE**

These listings cannot be correctly interpreted without reference to the Preamble.

**Note: Cosmetic Surgery** - Physicians should be familiar with the Guidelines for Cosmetic Surgery in the Preamble prior to referring patients for surgery for alteration of appearance. Where it is clear at the time of referral that the proposed surgery for alteration of appearance would not qualify for coverage under MSP, the consultation also would not be covered.

#### Note: Daily Volume Payment Rules Applying to Designated Office Codes

(i) The codes to which these rules apply are as follows:

Office visits: 12100, 00100, 15300, 16100, 17100, 18100 Office counselling: 12120, 00120, 15320, 16120, 17120, 18120 Office complete examinations: 12101, 00101, 15301, 16101, 17101, 18101

(ii) The total of all billings under the codes listed in i) that are accepted for payment by MSP will be calculated for each practitioner for each calendar day. When such a daily total exceeds 50 the practitioner's payment on these codes for that day will be discounted. Moreover, when a daily total exceeds 65, a further payment discount will be made.

| Daily Ranges<br>(for an individual practitioner<br>for any single calendar day) | Discount Rate | Payment Rate |
|---------------------------------------------------------------------------------|---------------|--------------|
| 0 to 50                                                                         | 0%            | 100%         |
| 51 to 65                                                                        | 50%           | 50%          |
| 66 and greater                                                                  | 100%          | 0%           |

- (iii) Payment discounts will not be applied to services rendered in communities that are/were receiving NIA premiums as of December 15, 2002.
- (iv) Payment discounts will not be applied to services designated by the physician as being the responsibility of ICBC, (designate by checking the MVA indicator on the claim), or services that are the responsibility of Worksafe BC.
- (v) Services will be assessed and payment/discounts will be applied to services in the order in which they are received and accepted for payment by MSP.

#### Billing For In-Office and Out-of-Office Visits

The following definitions must be adhered to when preparing MSP billings for consultation, complete examination, office visit and individual counselling services (both in and out-of-office listing).

IN-OFFICE FEE ITEMS: 12110, 00110, 15310, 16110, 17110, 18110, 12100, 00100, 15300, 16100, 17100, 18100, 12101, 00101, 15301, 16101, 17101, 18101, 12120, 00120, 15320,16120, 17120, and 18120 apply to consultation, visit, complete examination and counselling services provided in offices, clinics, outpatient areas of hospitals, diagnostic treatment centers and similar locations.

OUT-OF-OFFICE FEE ITEMS: 12210, 13210, 15210, 16210, 17210, 18210, 12200, 13200, 15200, 16200, 17200, 18200, 12201, 13201, 15201, 16201, 17201, 18201, 12220, 13220, 15220,

16220, 17220, and 18220 apply to consultation, visit, complete examination and counselling services provided in either a patient's home, at the scene of an illness or accident, in a hospital in-patient area, palliative care facility, long term care institution or in a hospital emergency department, unless the circumstance of the service is specifically covered by the definition of either fee item 00103, 00108, 00109, 13109, 00127, 00128, 13028, 00111, 00112, 00114, 00115, 00113, 00105, 00123, 13228 or one of the 01800 series.

#### WorkSafeBC and ICBC Services

In cases where a visit or procedure was occasioned by more than one condition, the dominant purpose must be related to an MVA or WorkSafeBC issue to code it as such. If medically necessary, an assessment of an unrelated condition can also be billed to MSP by General Practitioners.

\$

#### Consultations

GP Consultations apply when a medical practitioner (GP or Specialist), or a health care practitioner (midwife, for obstetrical or neonatal related consultations; nurse practitioner; oral/dental surgeon, for diseases of mastication), in the light of his/her professional knowledge of the patient and because of the complexity, obscurity or seriousness of the case, requests the opinion of a general practitioner competent to give advice in this field. A consultation must not be claimed unless it was <u>specifically requested</u> by the attending practitioner. The service consists of the initial services of GP consultant, including a history and physical examination, review of x-rays and laboratory findings, necessary to enable him/her to prepare and render a written report, including his/her findings, opinions and recommendations, to the referring practitioner. Consultations will not apply if the referred patient has been attended by the consulting general practitioner or another general practitioner in the same group during the preceding six months

#### **Complete Examinations**

For any condition seen requiring a complete physical examination and detailed history (to include tonometry and biomicroscopy when performed).

#### Notes:

*i)* A complete physical examination shall include a complete detailed history and detailed physical examination of all parts and systems with special

\$

attention to local examination where clinically indicated, adequate recording of findings and if necessary, discussion with patient. The above should include complaints, history of present and past illness, family history, personal history, functional inquiry, physical examination, differential diagnosis, and provisional diagnosis.

- Routine or periodic physical examination (check-up) is not a benefit under MSP. This includes any associated diagnostic or laboratory procedures unless significant pathology is found. Advise the diagnostic or approved laboratory facility of patient's responsibility for payment.
- iii) Complete examination fee codes are not to be charged for in-hospital admission examinations. Fee code 00109 or 13109 may apply in this circumstance. See Preamble and listing restrictions.

following fee item 00108.

#### **General Practice Group Medical Visit**

A Group Medical Visit provides medical care in a group setting. A requirement of a GMV is a 1:1 interaction between each patient and the attending physician. While portions of the GMV may be delegated to other allied health providers, the physician must be physically present at the GMV for the majority of each time interval billed and assumes clinical responsibility for the patients in attendance. Because this is a time based fee, concurrent billing for other services during the time intervals billed for GMV is not permitted.

Group Medical Visits are an effective way of leveraging existing resources; simultaneously improving quality of care and health outcomes, increasing patient access to care and reducing costs. Group Medical Visits can offer patients an additional health care choice, provide them support from other patients and improve the patient-physician interaction. Physicians can also benefit by reducing the need to repeat the same information many times and free up time for other patients. Appropriate patient privacy is always maintained and typically these benefits result in improved satisfaction for both patients and physicians.

The Group Medical Visit is not appropriate for advice relating to a single patient. It applies only when all members of the group are receiving medically required treatment (i.e. each member of the group is a patient). The GP Group Medical Visits are not intended for

activities related to attempting to persuade a patient to alter diet or other lifestyle behavioural patterns other than in the context of the individual medical condition.

#### 

- day hospitalized during the first ten days of hospitalization and thereafter one visit for every seven days hospitalized (Preamble D. 4. 7.).
- Essential non-emergent additional visits to a hospitalized patient by the attending or replacement physician during one day are to be billed under fee item 00108 or 13008. The claim must include the time of each visit and statement of need included in a note record.
- iii) For weekday, daytime emergency visit, see fee item 00112. Fee items 12200, 13200, 15200, 16200, 17200, 18200 may be billed for additional evening, night time or weekend emergent hospital visits same day, same patient when the attending physician or replacement physician is specially called back as the patient's condition has changed, requiring the physician's attendance or due to a condition unrelated to the hospitalization. If physician is on-site and called for emergent care, fee items 00113, 00105 or 00123 are billable. The claim must include the time of service and an explanation for the visit included in the note record.

#### 00127 Palliative care patient facility visit ......53.60 Notes:

- i) This item is applicable to the visits for palliative care rendered to terminally ill patients suffering from malignant disease or AIDS or end-stage respiratory, cardiac, liver and renal disease and end-stage dementia with life expectancy of up to 6 months and the focus of care is palliative rather than treatment aimed at cure. Billings for this item will only apply where there is no aggressive treatment of the underlying disease process and care is directed to maintaining the comfort of the patient until death occurs.
- ii) This item may be billed for necessary visits rendered for a period not to exceed 180 days prior to death and is applicable to patients in an acute care hospital, nursing home or palliative care patient facility, whether or not the patient is in a palliative care unit. Under extenuating circumstances, for visits that exceed 180 days, a note record must be submitted.
- iii) Palliative care patient visit fees do not apply when unexpected death occurs after prolonged hospitalization for another diagnosis unrelated to the cause of death.
- *iv)* The chemotherapy listings (33581, 33582, 33583, 00578, 00579, and 00580) may not be billed when palliative care patient facility visit fees are being billed.
- v) Essential non-emergent additional palllative care patient facility visits to a hospitalized patient by the attending or replacement physician during one day are to be billed under fee item 00127. The claim must include the time of each visit and a statement of need included in a note record.

vi) For weekday daytime emergency visit, see fee item 00112. Fee items 12200, 13200, 15200, 16200, 17200, 18200 may be billed for additional evening, night time, or weekend emergent palliative care patient facility visits same day, same patient when the attending physician or replacement physician is specially called back as the patient's condition has changed, requiring the physician's attendance or due to a condition unrelated to the hospitalization. If physician is on-site and called for emergent care, fee items 00113, 00105 or 00123 are billable. The claim must include the time of service and an explanation for the visit included in the note record.

# **Community Based GP Hospital Visits**

The following eligibility rules apply to all community based GP hospital visit fees.

## **Physician Eligibility:**

- Payable only to GPs who maintain an active family practice in the community, accepting the role of being Most Responsible Physician (MRP) for the longitudinal coordinated care of their patients.
- Not payable to physicians who have been paid for any specialty consultation fee in the previous 12 months.
- Not payable to physicians who are employed by, or who are under contract, whose duties would otherwise include provision of this care.
- Not payable to physicians working under salary, service contract or sessional arrangements and whose duties would otherwise include provision of this care.

| Anes.       |

| \$<br>Level |

# **Community Based GP with Active Hospital Privileges**

Active privileges signify the physician has the authority to write orders, whereas courtesy/associate privileges permit the GP to write progress notes in charts, but not orders.

#### 13109 Community based GP: Acute care hospital admission examination......102.01 *Notes:*

- i) This item applies when a patient is admitted to an acute care hospital for medical care rendered by a community based GP with active hospital privileges. It is not applicable when a patient has been admitted for surgery or for "continuing care" by a certified specialist.
- *ii)* This item is intended to apply in lieu of fee item 13008 on the first in-patient day, for that patient.
- Fee item 13109 is not applicable if fee item 12101, 00101, 15301, 16101, 17101, 18101, 12201, 13201, 15201, 16201, 17201, or 18201 has been billed by the same physician within the week preceding the patient's admission.
- iv) Essential non-emergent additional visits to a hospitalized patient by the attending or replacement physician during one day are to be billed under fee item 13008. The claim must include the time of each visit and a statement of need included in a note record.
- v) For weekday daytime emergency visit, see fee item 00112. Fee items 12200, 13200, 15200, 16200, 17200, 18200 may be billed for additional evening, night time or weekend emergent hospital visits same day, same patient when the attending physician or replacement physician is specially called back as the patient's condition has changed, requiring the physician's attendance or due to a condition unrelated to the hospitalization. If physician is on-site and called for emergent care, fee items 00113, 00105 or 00123 are billable. The claim must include the time of service and an explanation for the visit included in the note record.
- vi) Limit of one hospital admission (00109 or 13109) payable per patient per hospitalization.

- *i)* Payable once per calendar week per patient up to the first four weeks. Thereafter, payable once per two weeks up to a maximum of 90 days. For visits over 90 days please submit note record.
- *ii)* Payable for patients in acute, sub-acute care or palliative care.
- iii) Not payable with any other visit fee including 00108, 13008, 00109, 13109, 00114, 00115, 00113, 00105, 00123, 00127, 12200, 13200, 15200, 16200, 17200, 18200, 12201, 13201, 15201, 16201, 17201, 18201, 00128, 13028, 13015, 12220, 13220, 15220, 16220, 17220, 18220, 00121, 00122, 12210, 13210, 15210, 16210, 17210, 18210, 00116, 00112, 00111.
- iv) If physician is on-site and called for emergent care, fee items 00113, 00105 or 00123 are billable.
- v) A written record of the visit must appear in either patient's hospital or office chart.
- vi) If a hospitalist or GP member of an Unassigned In-Patient Care Network, is providing GP care to the patient, the community based GP with courtesy or associate hospital privileges may bill 13228.
- vii) Note vi) also applies to Community based GPs with active hospital privileges at a hospital other than the one to which the patient is admitted.

# **On-call On-site Hospital Visits**

These listings should be used when a physician, located in the hospital or Emergency Department, is called to see a patient in either the Emergency Department or elsewhere in the hospital.

| 00113 | Evening (between 1800 hours and 2300 hours)                                                                                                                                                                                                         | 51.51 |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 00105 | Night (between 2300 hours and 0800 hours)                                                                                                                                                                                                           |       |
| 00123 | Saturday, Sunday or Statutory Holiday                                                                                                                                                                                                               | 51.51 |
|       | <b>Note:</b> For services rendered between 0800 hours and 1800 hours weekdays bill appropriate visit or procedure fee. Out-of-office hours premiums are not chargeable in addition to emergency department fees. Claim must state time call placed. |       |

# **Long-Term Care Facility Visits**

| 00114  | One or multiple patients, per patient                                                                                                                                                                                                                                       | 36.13  |

|       | NOU | es:                                                                                                                                                                                                                                                             |        |
|       | i)  | This item to be charged only when one must immediately leave home, office,<br>or hospital to render immediate care. Call to hospital emergency department<br>while at hospital, bill under appropriate on-call on-site hospital visit listings or<br>procedure. |        |
|       | ii) | Claim must state time service rendered.                                                                                                                                                                                                                         |        |

The following are examples of situations explaining when it would be appropriate to bill under fee item 00112:

**<u>Example 1</u>**: Physician is called by patient with non-urgent condition. Physician agrees to meet the patient later in the day at the hospital.

Fee item 00112 is not applicable, as the physician was not required to immediately leave home, office or hospital to render immediate care.

**<u>Example 2</u>**: Physician is called to assess a patient at the hospital. Due to the urgent nature of the patient's condition, the physician must leave his/her office immediately.

Fee item 00112 is applicable, as all the criteria are met.

**Example 3**: Physician is visiting patients at the hospital during the daytime. She/he is called to attend a patient in the emergency ward. Due to the urgent nature of the patient's condition, the physician must attend the patient immediately.

Fee item 00112 is not applicable, as the physician remained at the same site.

**Example 4**: The physician is called at home regarding a patient. She/he asks the patient to meet him/her at the office later in the day for assessment.

Fee item 00112 is not applicable, as the physician was not required to immediately leave home, office or hospital to render immediate care.

- v) Dates of services under this item should be documented in the patient's record together with the name and position of the enquiring allied health care worker and a brief notation of the advice given. Alternatively the original of a fax or a copy of written advice will suffice to document these services.
- vi) This fee may not be claimed in addition to visits or other services provided on the same day by the same physician for the same patient.
- vii) This fee may be billed to a maximum of one per patient per physician per day.
- viii) This fee may not be claimed for advice in response to enquiries from a patient or their family.
- ix) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care. Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care. Similarly the fee does not cover advice provided by doctors who are on-site, on-duty in an emergency department, who are being paid at the time on a sessional basis, or who are working at the time as hospitalists.

03333 Use this code when submitting a claim for a "no charge referral."

# **General Practice Services Committee (GPSC) Initiated Listings**

The following incentive payments are available to B.C.'s eligible family physicians. The purpose of the incentive payments is to improve patient care. GPSC retains the right to modify or change fees.

Unless otherwise identified in the individual fee description, physicians are eligible to participate in the incentive program if they are:

- 1. A general practitioner who has a valid BC MSP practitioner number;
- 2. Currently in general practice in BC as a full service family physician;
- 3. The most responsible general practitioner for the majority of the patient's longitudinal general practice care; and
- 4. Practitioners who have billed any specialty consultation fee in the previous 12 months are not eligible.

Additional detailed eligibility requirements are identified in each section.

#### **Definitions In GPSC Initiated Listings:**

#### Full Service Family Physician:

GPSC defines a "Full Service Family Physician" (FSFP) as the FP who provides continuous comprehensive care to his/her patients and takes responsibility for the coordination of care needs for these patients. It is not about any specific set of services being provided by a specific individual; however, if the FP does not provide a particular service needed at any given time (e.g.: Obstetrics) the FSFP will coordinate the referral to a colleague who is able to provide that service in a shared care arrangement with the FSFP until such time as that particular service is no longer required.

#### General Practitioner with specialty training:

For the purpose of its incentives, GPSC defines a General Practitioner (GP) with specialty training as: "A GP who has specialty training and who provides services in that specialty area through a health authority supported or approved program".

#### Allied Care Provider:

For the purposes of its incentives, when referring to Allied Care Providers, GPSC includes trained professionals with a scope of practice that allows the provision of medical and medically related services to patients. Examples include but are not limited to: Physicians; Nurses; Nurse Practitioners; Mental Health Workers; Midwives; Psychologists; Clinical Counsellors; School Counsellors; Social Workers; Registered Dieticians; Physiotherapists; Occupational Therapists; and Pharmacists etc.

**Note:** Not all allied care providers are College-certified. Allied Care Providers who are College-certified are governed by a provincial regulatory college or body. Specific GPSC incentives may require ACPs to be College-certified for the delegation of tasks, whereas other GPSC incentives may not require ACPs to be College-certified to undertake delegated tasks. Fee notes will clearly indicate whether the ACP must be College-certified to be delegated tasks.

## Allied Care Provider "Employed Within" a Physician Practice:

For the purposes of its incentives, GPSC defines Allied Care Providers (ACPs) "employed within" a physician practice as ACPs who are employed by and work directly within a FP practice team, with no cost recovery either directly or indirectly from a third party (e.g.: Health Authority, Division of Family Practice, Ministry of Health, etc.).

#### Allied Care Provider "Working Within" a Physician Practice:

For the purpose of its incentives, GPSC defines Allied Care Providers (ACPs) "working within" a physician practice as ACPs who work directly within an FP practice team with ACP costs paid by the physician practice or a third party (directly or indirectly). For example, ACPs employed by a Health Authority, and assigned to work with a FP practice to support ongoing care of its patients are considered working within the practice team. ACPs not assigned to work with an FP practice, but who provide services to patients on a referral basis in stand-alone Health Authority Specialized Services Programs such as Chronic Disease Clinics, Mental Health Teams, Home & Community Care Teams, and Palliative Care Teams are not considered to be "working within" the physician practice team.

# Alternate Payment Program:

For the purposes of its incentives, GPSC defines Physicians working on an Alternative Payment Program (APP) as those working under Health Authority paid APP contracts. Agreements to pool FFS billings and pay out physicians in a mutually acceptable way (e.g.: per day, per shift, per hour, etc.) are not considered APP by GPSC. If services supported and paid through GPSC incentives are already included in a sessional, salary or service contract GPSC services are not billable in addition.

#### Patient's Medical Representative:

For the purpose of its incentives, GPSC defines Patient's Medical Representative as outlined in the "Health Care (Consent) and Care Facility (Admission) Act"

Representative means a person authorized by a representation agreement to make or help in making decisions on behalf of another and includes an alternate representative.

Temporary Substitute decision makers (Alternate Representative) in listed order, of the following who is available and qualifies under subsection 16(2):

(a) the adult's spouse
(b) the adult's child
(c) the adult's parent
(d) the adult's brother or sister
(d.1) the adult's grandparent
(d.2) the adult's grandchild
(e) anyone else related by birth or adoption to the adult
(f) a close friend of the adult
(g) a person immediately related to the adult by marriage

For the purpose of its incentives when referring to assisted living, GPSC utilizes the ministry definition as found at:

http://www2.gov.bc.ca/gov/content/health/accessing-health-care/home-community-care/care-options-andcost/assisted-living

For the purpose of its incentives, GPSC considers patients living in group homes to be living in community.

# 1. Expanded Full Service Family Practice Condition-based Payments

The GPSC Condition-based Payments compensate for the additional work, beyond the office visit, of providing guideline-informed care for the eligible condition(s) to the patient over a full year. The goal is to improve provision of clinically appropriate care that considers both the patient's values and the impact of comorbidities. To confirm an ongoing doctor-patient relationship, there must be at least 2 visits. Office, prenatal, home, long term care visits qualify. One of the two visits may be a GPSC Telephone Visit (G14076), Group Medical Visit (13763 -13781) or an in person visit with a college certified allied health provider working within the family physicians practice (G14029) billed on each qualifying patient in the 12 months prior to billing the CDM incentive. Visits provided by a locum or colleague covering for the MRP GP are included; however, an electronic note indicating this must be submitted with the claim. Patients in long-term care facilities are eligible. Clinical judgment must be used to determine the appropriateness of following clinical practice guidelines in all patients, particularly those with dementia or very limited life expectancy. Documentation of the provision of guideline-informed care for the specific condition is required in the medical record. Although use of the GPAC Chronic Care flow sheets is not mandatory, they are a useful tool for tracking care provided to patients over time. Condition-based payments are no longer payable once G14063, the Palliative Planning Incentive has been billed and paid as patient has been changed from active management of chronic disease to palliative management.

Patient self-management can be defined as the decisions and behaviors that patients with chronic illness engage in that affect their health. Self-management support is the help given to patients with chronic conditions that enables them to manage their health on a day to day basis. An important part of this support is the provision of tools by the family physician that can enable patients to make appropriate choices and sustain healthy behaviors. There are a variety of tools publically available (e.g.: health diaries/passports, etc.) to help build the skills and confidence patients need to improve management of their chronic conditions and potentially improve outcomes. Documentation in the patient chart of the provision of patient self-management supports as part of the patient's chronic disease management is expected.

When a new GP <u>assumes</u> the practice of another GP who has been providing guideline-informed care to patients with eligible chronic conditions, the CDM fee is billable on its anniversary date provided the new GP has continued to provide guideline-informed care for these patient(s). To demonstrate continuity, if some of the required visits have been provided by the previous GP, an electronic note indicating continuity of care over the full 12 months is required at the time of the initial submission of the CDM fee by the new GP.

| G14051 | Incentive for Full Service General Practitioner                                                   |        |  |  |  |
|        | - annual chronic care incentive (heart failure)                                                   | 125.00 |  |  |  |
|        | Notes:                                                                                            |        |  |  |  |
|        | i) Payable to the family physician who is the most responsible for the majority of                |        |  |  |  |
|        | the patient's longitudinal general practice care.                                                 |        |  |  |  |
|        | ii) Applicable only for patients with documentation of a confirmed diagnosis of                   |        |  |  |  |
|        | heart failure and the documented provision of a clinically appropriate level of                   |        |  |  |  |
|        | guideline-informed care for heart failure in the preceding year.                                  |        |  |  |  |
|        | iii) This item may only be billed after one year of care has been provided                        |        |  |  |  |
|        | including at least two visits. Office, prenatal, home, long term care visits                      |        |  |  |  |
|        | qualify. One of the two visits may be:                                                            |        |  |  |  |
|        | 1. a telephone visit (G14076) or                                                                  |        |  |  |  |
|        | 2. a group medical visit (13763-13781) or                                                         |        |  |  |  |

- 3. a telehealth visit (13017, 13018, 13037, 13038) or
- 4. an in-person visit with a college certified allied health provider (G14029) working within the family physician's practice.
- *iv)* Not payable if the required two visits were provided while working under salary, service contract or sessional arrangement. If applicable, bill your incentive under fee item G14251.
- v) Claim must include the ICD-9 code for heart failure (428).
- vi) Payable once per patient in a consecutive 12 month period.
- vii) Payable in addition to items G14050 or G14053 for the same patient if eligible.
- viii) Not payable once G14063 has been billed and paid as patient has been changed from active management of chronic disease to palliative management.
- ix) If a visit is provided on the same date the incentive is billed; both services will be paid at the full fee.

2. a group medical visit (13763-13781) or

- 3. a telehealth visit (13017, 13018, 13037, 13038) or
- 4. an in-person visit with a college certified allied health provider (G14029) working within the family physician's practice.
- iv) Not payable if the required two visits were provided while working under salary, service contract or sessional arrangement. If applicable, bill your incentive under fee item G14253.
- V) Claim must include the ICD-9 code for chronic bronchitis (491), emphysema (492), bronchiectasis (494) or chronic airways obstruction-not elsewhere classified (496).
- vi) Payable once per patient in a consecutive 12 month period.
- vii) Payable in addition to fee items G14050, G14051 or G14052 for the same patient if eligible.
- viii) Not payable once G14063 has been billed and paid as patient has been changed from active management of chronic disease to palliative management.
- ix) If a visit is provided on the same date the incentive is billed; both services will be paid at the full fee.

## **Chronic Care Incentives – Practitioners under Alternate Payment Program**

Use the following CDM incentives if the required two visits were billed as an encounter record while working under salary, service contract or sessional arrangement. Post review will be performed within 2 years and recoveries made if encounter records were not submitted for the required visits.

|                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Total<br>Fee \$ |

## 2. Conference Fees

# Table 1: Eligible patient populations for the Facility Patient, Community Patient and Acute Care Discharge Conference Fees

## Frail elderly (ICD-9 code V15)

Patient over the age of 65 years with at least 3 out of the following factors:

- Unintentional weight loss (10 lbs in the past year)
- General feeling of exhaustion
- Weakness (as measured by grip strength)
- Slow gait speed (decreased balance and motility)
- Low levels of physical activity (slowed performance and relative inactivity)
- Incontinence

i.

• Cognitive impairment

## ii. Palliative care (ICD-9 code V58)

Patient of any age who:

- Is living at home ("Home" is defined as wherever the person is living, whether in their own home, living with family or friends, or living in an assisted living residence or hospice); and
- Has been diagnosed with a life-threatening illness or condition; and
- · Has a life expectancy of up to six months; and
- Consents to the focus of care being palliative rather than treatment aimed at cure.

## iii. End of life (ICD-9 code V58)

Patient of any age:

- Who has been told by their physician that they have less than six months to live; or
- With terminal disease who wish to discuss end of life, hospice or palliative care.

## iv. Mental illness

Patient of any age with any of the following disorders is considered to have mental illness:

- Mood Disorders
- Anxiety and Somatoform Disorders
- Schizophrenia and other Psychotic Disorders
- Eating Disorders
- Substance Use Disorders
- Infant, Child and Adolescent Disorders
- Delirium, Dementia and Other Cognitive Disorders
- Personality Disorders
- Sleep Disorders
- Developmentally Delayed, Fetal Alcohol Spectrum Disorders and Autism
   Spectrum Disorders
- Sexual Dysfunction
- Dissociative Disorders
- Mental Disorders due to a General Medical Condition
- Factitious Disorder

Definitions and the management of these mental disorders are defined in the Manual: Management of Mental Disorders, Canadian Edition, Volume One and Two, edited by Dr. Elliot Goldner, Mental Health

Evaluation and Community Consultation Unit, University of British Columbia.

Definitions for Delirium, Dementia and Other Cognitive Disorders; Developmental Disabilities; Dissociative Disorders; Mental Disorders due to a General Medical Condition and Factitious Disorder are found in the Diagnostic and Statistical Manual of Mental Disorders - DSM-IVR.

v. Patients of any age with multiple medical needs or complex comorbidity

Patients of any age with multiple medical conditions or comorbidities (two or more distinct but potentially interacting problems) where care needs to be coordinated over a period of time between several health disciplines. On your claim form use the code for one of the major disorders.

## General Practice Urgent Telephone Conference with a Specialist Fee

The intent of this initiative is to improve management of the patient with acute needs, and reduce unnecessary ER or hospital admissions/transfers.

This fee is billable when the severity of the patient's condition justifies urgent conference with a specialist or GP with specialty training, for the development and implementation of a care plan within the next 24 hours to keep the patient stable in their current environment

This fee is not restricted by diagnosis or location of the patient, but by the urgency of the need for care.

|        | v)                                        | Not payable to the same patient on the same date of service as fee items<br>G14077.                                                                                                                                                                                                                                                                                                                                                                                                  |                 |

- vi) Not payable to physicians who are employed by, or who are under a contract to a facility, who would otherwise have provided the service as a requirement of their employment or contract with the facility; or physicians working under salary, service contract or sessional arrangement.
- vii) Include start time in time fields when submitting claim.
- viii) Not payable for situations where the primary purpose of the call is to:
  - a. book an appointment
  - b. arrange for transfer of care that occurs within 24 hours
  - c. arrange for an expedited consultation or procedure within 24 hours
  - d. arrange for laboratory or diagnostic investigations
  - e. convey the results of diagnostic investigations
  - f. arrange a hospital bed for the patient
  - g. obtain non-urgent advice for patient management (i.e. not required within the next 24 hours).
- ix) Limited to one claim per patient per physician per day.
- x) Out-of-Office Hours Premiums may not be claimed in addition.
- xi) Maximum of 6 (six) services per patient, per practitioner per calendar year.
- xii) Payable in addition to a visit on the same day.

## GP – Advice to Nurse Practitioner/Registered Midwife Fee

The intent of this fee is to support collaboration between nurse practitioners, registered midwives and community family physicians. This fee is billable when providing advice by telephone or in person to a Nurse Practitioner who is an independent practitioner providing care to patients under his/her MRP care. This fee is not billable for providing advice to a NP when the patient is attached to a GP. This fee is billable when providing advice by telephone or in person to a Registered Midwife who is an independent practitioner providing advice to a Registered Midwife who is an independent practitioner providing maternity care to patients under his/her MRP care.

- ix) Limit of five (5) G14019 may be billed by a GP on any calendar day.
- x) Not payable in addition to another service on the same day for the same patient by same GP.
- xi) Out-of-Office Hours Premiums may not be claimed in addition.
- xii) Not payable for communications which occur as a part of the performance of routine rounds on the patient if located in a facility.
- xiii) Not payable to physicians who are employed by or who are under contract to a facility or health authority, or who are working under salary, service contract or sessional arrangements and who would otherwise have provided the advice as a requirement of their employment.

## 3. Complex Care Fees

The Complex Care Planning and Management Fee was developed to compensate GPs for the management of complex patients living in their home or assisted living, who have documented confirmed diagnoses of 2 chronic conditions from at least 2 of the 8 categories listed below. Patients in acute or long term care facilities are not eligible.

Having comorbidities does not necessarily make a patient complex. To be eligible for the Complex Care Planning and Management Fee, G14033; the patient's comorbidities should be of sufficient severity and complexity to warrant the development of a management plan. In other words, eligibility is not based solely on the individual diagnoses. Consideration should be given to the over-all clinical impact of the diagnosis, and the burden of illness the patient experiences.

These items are payable only to the family physician who commits to providing the majority of the patient's longitudinal comprehensive general practice care for the ensuing calendar year.

## Eligible Complex Care Condition Categories:

- 1) Diabetes mellitus (type 1 and 2)
- 2) Chronic Kidney Disease
- 3) Heart failure
- 4) Chronic respiratory Condition (asthma, emphysema, chronic bronchitis, bronchiectasis, Pulmonary Fibrosis, Fibrosing Alveolitis, Cystic Fibrosis etc.)
- 5) Cerebrovascular disease, excluding acute transient cerebrovascular conditions (e.g.: TIA, Migraine)
- 6) Ischemic heart disease, excluding the acute phase of myocardial infarct
- 7) Chronic Neurodegenerative Diseases (Multiple Sclerosis, Amyotrophic Lateral Sclerosis, Parkinson's disease, Alzheimer's disease, brain injury with a permanent neurological deficit, paraplegia or quadriplegia, etc.)
- 8) Chronic Liver Disease with evidence of hepatic dysfunction.

If a patient has more than 2 of the qualifying conditions, the submitted diagnostic code from Table 1 should represent the two conditions creating the most complexity.

|        |                                                                                                                                                                                                                                                                                                                                                                                                          | Total<br>Fee \$ |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| G14033 | GP Complex Care Planning and Management Fee (2 diagnoses)<br>The Complex Care Planning and Management Fee is payment for the<br>creation of a care plan and advance payment for the complex work of caring<br>for patients with eligible conditions. It is payable upon the completion and<br>documentation of a Care Plan which includes Advance Care Planning when<br>appropriate, as described below. | 315.00          |
|        | The Complex Care Planning and Management fee (2 diagnoses) is payable<br>only to the family physician who commits to providing the majority of the<br>patient's longitudinal comprehensive general practice care for the ensuing<br>year.                                                                                                                                                                |                 |

A Care Plan requires documentation of the following core elements in the patient's chart that:

- 1. There has been a detailed review of the case/chart and of current therapies;
- 2. Name and contact information for substitute decision maker;
- 3. Documentation of eligible condition(s);
- There has been a face-to-face planning visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that Care Planning Incentive code is billed;
- 5. Specifies a clinical plan for the patient's care;
- Documentation of patient's current health status including the use of validated assessment tools when available and appropriate to the condition(s) covered by the care planning incentive;
- 7. Incorporates the patient's values, beliefs and personal health goals in the creation of the care plan;
- 8. Outlines expected outcomes as a result of this plan, including advance care planning when clinically appropriate;
- 9. Outlines linkages with other allied care providers who would be involved in the patient's care, and their expected roles;
- 10. Identifies an appropriate time frame for re-evaluation of the plan;
- 11. Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative and has been communicated verbally or in writing to other involved allied care providers as appropriate. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

#### Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long Term Care Facilities are not eligible.

#### Notes:

- *i)* Payable only for patients with documentation of a confirmed diagnosis of two eligible conditions.
- *ii)* Refer to Table 1 for eligible diagnostic categories.
- iii) Payable once per calendar year per patient on the date of the complex care planning visit.
- iv) Payable in addition to a visit fee (home or office) on the same day if medically required and does not take place concurrently with the face-to-face planning included under G14033.
- Ninimum required total planning time 30 minutes. The majority of the planning time must be face-to-face to create the care plan collaboratively with the patient and/or their medical representative (minimum 16 minutes). The non-face-to-face planning (review chart and existing care plan(s), medication reconciliation, etc.) may be on different dates and may be delegated to a College-certified allied care provider (e.g.: Nurse, Nurse Practitioner) working within the eligible physician practice.
- vi) Chart documentation must include:
  - 1. the care plan;
  - 2. total planning time (minimum 30 minutes); and
  - 3. face-to-face planning time (minimum 16 minutes).
- vii) G14018 or G14077 payable on same day for same patient if all criteria met. Time spent on conferencing does not apply to time requirement for 14033.
- viii) G14050, G14051, G14052, G14053 payable on same day for same patient, if all other criteria met.
- ix) Not payable once G14063 has been billed and paid as patient has been changed from active management of complex chronic conditions to palliative management.

- x) G14043, G14063, G14076 and G14078 not payable on the same day for the same patient.
- xi) Maximum daily total of 5 of any combination of G14033 and G14075 per physician.
- xii) G14075 is not payable in the same calendar year for same patient as G14033.
- xiii) Eligible patients must be living at home or in assisted living. Patients in Acute or Long Term Care facilities are not eligible.
- xiv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- xv) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

Diagnostic codes submitted with 14033 billing <u>must</u> be from Table 1. If the patient has multiple comorbidities, the submitted diagnostic code should represent the two conditions creating the most complexity of care.

| Diagnostic<br>Code | Condition One                      | Condition Two                 |

|                                                                                                              | Bathing                                                                                                 |

A care plan requires documentation of the following core elements in the patient's chart:

- 1. There has been a detailed review of the case/chart and of current therapies.
- 2. Name and contact information of substitute decision maker.
- 3. Documentation of eligible condition(s).
- 4. There has been a face-to-face planning visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that the Care Planning Incentive code is billed.
- 5. Specifies a clinical plan for the patient's care.
- 6. Documentation of patient's current health status including the use of validated assessment tools when available and appropriate to the condition(s) covered by the care planning incentive.
- 7. Incorporates the patient's values, beliefs and personal health goals in the creation of the care plan.
- 8. Outlines expected outcomes as a result of this plan, including advance care planning when clinically appropriate.
- 9. Outlines linkages with other allied care providers that would be involved in the care and their expected roles.
- 10. Identifies an appropriate time frame for re-evaluation of the plan.
- 11. Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative and has been communicated verbally or in writing to other involved allied care providers as appropriate. The patient and /or their representative /family should leave the planning process knowing there is a plan for their care and what that plan is.

## Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long Term Care Facilities are not eligible.

#### Notes:

- Payable only to Family Physicians who have successfully submitted G14070 or on behalf of Locum Family Physicians who have successfully submitted G14071 on the same or a prior date in the same calendar year.
- ii) Payable only for patients who require assistance with at least one ADL from each of the instrumental and non-instrumental activities of daily living.
- *iii)* Claim must include the diagnostic code V15.
- iv) Payable once per calendar year per patient on the date of the complex care planning visit.
- Payable in addition to a visit fee (home or office) on the same day if medically required and does not take place concurrently with the face-to-face planning included under G14075.
- vi) Minimum required total planning time 30 minutes. The majority of the planning time must be face-to-face to create the care plan collaboratively with the patient and/or their medical representative (minimum 16 minutes). The non-face-to-face planning (review chart and existing care plan(s), medication reconciliation, etc.) may be on different dates and may be delegated to a College-certified allied care provider (e.g.: Nurse, Nurse Practitioner) working within the eligible physician practice.
- vii) Chart documentation must include:
  - 1. the care plan;
  - 2. total planning time (minimum 30 minutes); and
  - 3. face-to-face planning time (minimum 16 minutes).
- viii) G14018 or G14077 payable on the same day for the same patient. Time spent on conferencing does not apply to time requirement for G14075.
- ix) Maximum daily total 5 of any combination of G14033 and G14075 per physician.
- x) G14075 not payable once G14063 has been billed and paid as patient has been changed from active management of chronic disease to palliative management.
- xi) G14033 is not payable in the same calendar year for same patient as G14075.
- xii) G14043, G14063, G14076, G14078 not payable on the same day for the same patient.
- xiii) Eligible patients must be living at home or in assisted living. Patients in Acute or Long Term Care Facilities are not eligible.
- xiv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- xv) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

#### 4. Prevention Fees

#### Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long Term Care Facilities are not eligible.

# Total Fee \$

#### Notes:

- *i)* Payable only for patients with one or more of the following risk factors: Smoking, unhealthy eating, physical inactivity, medical obesity.
- Diagnostic code submitted with 14066 must be one of the following: Smoking (786), unhealthy eating (783), physical inactivity (785), medical obesity (783).
- iii) The discussion with the patient and the resulting preventive plan of action must be documented in the patient's chart.
- iv) Payable in addition to a visit fee (home or office) on the same day if medically required and does not take place concurrently with the face-to-face planning included under G14066.
- v) G14077 payable on same day for same patient if all criteria met.
- vi) G14033, G14043, G14063, G14076 and G14078 not payable on the same day for the same patient.
- vii) Payable to a maximum of 100 patients per calendar year, per physician.
- viii) Payable once per calendar year per patient.
- *ix)* Not payable once G14063 has been billed and paid as patient has been changed from active management of chronic disease to palliative management.
- x) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- xi) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

|        | <ul> <li>Eligibility:</li> <li>To be eligible to be a member of the network, you must, for the three-month period up to the payment date:</li> <li>Be a general practitioner in active practice in BC;</li> <li>Have hospital privileges to provide obstetrical care;</li> <li>Be associated and registered with a minimum of three other network members (special consideration will be given in those hospital communities with fewer than four doctors providing maternity care). Refer to the Maternity Network Registration Form;</li> <li>Cooperate with other members of the network so that one member is always available for deliveries;</li> <li>Make patients aware of the members of the network and the support specialists available for complicated cases;</li> </ul> |

- Accept a reasonable number of referrals of pregnant patients from doctors who do not have hospital privileges to deliver babies (preferred first visit to the doctor planning to deliver the baby is no later than 12 weeks of pregnancy; the referring doctor may, with the agreement of the delivering doctor, provide a portion of the prenatal care);
- Share prenatal records (real or virtual) with other members of the network as practical, with the expectation to work toward utilizing an electronic prenatal record;
- Each doctor must schedule at least four deliveries in each six month period of time (April to September, October to March); and
- ☐ The maternity care network is payable for participation in the network activity for the majority of the preceding calendar quarter (50% plus 1 day).

#### Notes:

- *i)* Payable to the family physician who provides the maternity care and is responsible for or shares the responsibility for providing the patient's General Practice medical care.
- ii) Payable only when fee item 14109 billed in conjunction.
- iii) Maximum of one incentive under fee item G14004, G14008, G14009 per patient delivered.
- *iv)* Maximum of 25 incentives per calendar per physician under fee item G14004, G14005, G14008, G14009 or a combination of these items.

Total Fee \$

- *i)* Payable to the family physician who provides the maternity care and is responsible for or shares the responsibility for providing the patient's General Practice medical care.
- *ii)* Payable only when fee item 14108 billed in conjunction.
- iii) Maximum of one incentive under fee item G14004, G14008, G14009 per patient delivered.
- *iv)* Maximum of 25 incentives per calendar per physician under fee item G14004, G14005, G14008, G14009 or a combination of these items.

# 7. Mental Health Planning and Management Fees

A Care Plan requires documentation of the following core elements in the patient's chart:

- 1. There has been a detailed review of the patient's chart/history and current therapies.
- 2. Documentation of eligible condition(s).
- 3. Name and contact information for substitute decision maker.
- 4. There has been a face-to-face planning visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that Care Planning Incentive code is billed.
- 5. Specifies a clinical plan for the patient's care for the next year.
- 6. Documentation of patient's current health status including the use of validated assessment tools when available and appropriate to the condition(s) covered by the care planning incentive.
- 7. Incorporates the patient's values, beliefs and personal health goals in the creation of the care plan.
- 8. Outlines expected outcomes as a result of this plan, including advance care planning when clinically appropriate.
- 9. Outlines linkages with other allied care providers and community resources who will be involved in the patient's care, and their expected roles.
- 10. Identifies an appropriate time frame for re-evaluation of the Plan.

11. Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative and has been communicated verbally or in writing to other involved allied care providers as appropriate. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

Successful billing of the Mental Health Planning fee G14043 allows access to four counselling equivalent mental health management fees in that same calendar year which may be billed once the four MSP counselling fees (any combination of 00120 age differential or telehealth counselling codes) have been utilized.

# Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long Term Care Facilities are not eligible.

#### Notes:

- Payable only for patients with documentation of a confirmed eligible mental health diagnosis of sufficient severity to warrant the development of a care plan. Not intended for patients with self-limited or short lived mental health symptoms.
- ii) Payable once per calendar year per patient. Not intended as a routine annual fee.
- iii) Payable in addition to a visit fee (home or office) on the same day if medically required and does not take place concurrently with the face-to-face planning included under G14043.
- iv) Minimum required total planning time 30 minutes. The majority of the planning time must be face-to-face to create the care plan collaboratively with the patient and/or their medical representative (minimum 16 minutes). The non-face-to-face planning (review chart and existing care plan(s), medication reconciliation, etc.) may be on different dates and may be delegated to a College-certified allied care provider (e.g.: Nurse, Nurse Practitioner) working within the eligible physician practice.
- v) Chart documentation must include:
  - 1. the care plan;
  - 2. total planning time (minimum 30 minutes); and
  - 3. face-to-face planning time (minimum 16 minutes).
- vi) G14077 payable on same day for same patient if all criteria met. Time spent on conferencing does not apply to 30 minute time requirement for G14043.
- vii) G14044, G14045, G14046, G14047, G14048, G14033, G14063, G14075, G14076 and G14078 not payable on the same day for the same patient.
- viii) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- ix) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

## Total Fee \$

| G14044 | GP Mental Health Management Fee age 2 – 49                                  |       |
|--------|-----------------------------------------------------------------------------|-------|
| G14045 | GP Mental Health Management Fee age 50 - 59                                 | 59.78 |
| G14046 | GP Mental Health Management Fee age 60 - 69                                 | 62.49 |
| G14047 | GP Mental Health Management Fee age 70 - 79                                 | 70.64 |
| G14048 | GP Mental Health Management Fee age 80+                                     |       |
|        | These fees are payable for prolonged counselling visits (minimum time 20    |       |
|        | minutes) with patients on whom a Mental Health Planning fee G14043 has      |       |
|        | been successfully billed. The four MSP counselling fees (any combination of |       |

age-appropriate 00120 or telehealth counselling) must first have been paid in the same calendar year.

#### Notes:

- i) Payable a maximum of 4 times per calendar year per patient.
- ii) Payable only when G14043 has been paid in the same calendar year.
- iii) Payable only to the physician paid for the GP Mental Health Planning Fee G14043, unless that physician has agreed to share care with another delegated physician. To facilitate payment, the delegated physician must submit an electronic note.
- *iv)* Not payable unless the four age-appropriate 00120 or telehealth counselling (13018, 13038) fees have already been paid in the same calendar year.
- v) Minimum time required is 20 minutes.

----

- vi) Start and end times must be included with the claim and documented in the patient chart.
- vii) Counselling may be provided face-to-face or by videoconferencing.
- viii) G14077, payable on same day for same patient if all criteria met.
- ix) G14043, G14076, G14078 not payable on same day for same patient.
- Documentation of the effect(s) of the condition on the patient and what advice or service was provided is required.
- xi) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- xii) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

The following list of diagnosis and acceptable ICD9 codes are applicable for the Mental Health Planning and Management Fee, fee items G14043, G14044 – G14048:

|                       | DIAGNOSIS                                                                                     | <u>ICD-9</u> |

Total Fee \$

#### 8. Palliative Care Planning Fee

The Care Plan requires documentation of the following in the patient's chart:

- 1. There has been a detailed review of the case/chart and of current therapies.
- 2. Name and contact information for substitute decision maker.
- 3. Documentation of eligible condition(s).
- 4. There has been a face-to-face planning visit with the patient, or the patient's medical representative if appropriate, on the same calendar day that Care Planning Incentive code is billed.
- 5. Specifies a clinical plan for the patient's care.
- 6. Documentation of patient's current health status including the use of validated assessment tools when available and appropriate to the condition(s) covered by the care planning incentive.
- 7. Incorportates the patient's values, beliefs and personal health goals in the creation of the care plan.
- 8. Outlines expected outcomes as a result of this plan, including advance care planning when clinically appropriate.

- 9. Outlines linkages with other allied care providers who would be involved in the patient's care, and their expected roles.
- 10. Identifies an appropriate time frame for re-evaluation of the plan.
- 11. Provides confirmation that the care plan has been created jointly and shared with the patient and/or the patient's medical representative and has been communicated verbally or in writing to other involved allied care providers as appropriate. The patient and/or their representative/family should leave the planning process knowing there is a plan for their care and what that plan is.

# Patient Eligibility:

- Eligible patients must be living at home or in assisted living.
- Patients in Acute and Long Term Care Facilities are not eligible.

#### Notes:

- Requires documentation of the patient's medical diagnosis, determination that the patient has become palliative, and patient's agreement to no longer seek treatment aimed at cure.
- *ii)* Patient must be eligible for BC Palliative Care Benefits Program (not necessary to have applied for palliative care benefits program).
- iii) Payable once per patient once patient deemed to be palliative. Under circumstances when the patient moves communities after the initial palliative care planning fee has been billed, it may be billed by the new GP who is assuming the ongoing palliative care for the patient.
- *iv)* Payable in addition to a visit fee (home or office) on the same day if medically required and does not take place concurrently with the face-to-face planning included under G14063.
- Ninimum required total planning time 30 minutes. The majority of the planning time must be face-to-face to create the care plan collaboratively with the patient and/or their medical representative (minimum 16 minutes). The non-face-to-face planning (review chart and existing care plan(s), medication reconciliation, etc.) may be on different dates and may be delegated to College-certified allied care provider (e.g.: Nurse, Nurse Practitioner) working within the eligible physician practice.
- vi) Chart documentation must include:
  - 1. the care plan;
  - 2. total planning time (minimum 30 minutes); and
  - 3. face-to-face planning time (minimum 16 minutes).
- vii) G14077 payable on same day for same patient if all criteria met. Time spent on conferencing does not apply to time requirement for G14063.
- viii) Not payable if G14033 or G14075 has been paid within 6 months.
- ix) Not payable on same day as G14043, G14076 or G14078.
- x) G14050, G14051, G14052, G14053, G14033, G14066, G14075 not payable once Palliative Care Planning fee is billed and paid as patient has been changed from active management of chronic disease and/or complex condition(s) to palliative management.
- xi) G14043, G14044, G14045, G14046, G14047, G14048, the GPSC Mental Health Initiative Fees are still payable once G14063 has been billed provided all requirements are met, but are not payable on same day.
- xii) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- xiii) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

## 9. General Practitioners with Specialty Training Telephone Advice Fees

GP with Specialty Training Telephone Advice Fees (G14021, G14022, G14023) have been developed to support teleconferencing between GP's with Specialty Training and other Family Physicians, Specialists or Allied Care Providers for the purpose of improving patient care.

## Eligibility:

- Must not have billed another GPSC fee item on the specific patient in the previous 18 months.
- Service may be provided when physician is located in office or hospital.
- For the purpose of these telephone advice fee items GPSC has defined General Practitioner (GP) with specialty training as: "A GP who has specialty training and who provides services in that specialty area through a health authority supported or approved program".
- Telephone advice must be related to the field in which the GP has received specialty training.
- When advice is requested by an Allied Care Provider not registered with MSP use the generic practitioner number 99987: Advice requested by an allied care provider. (Not applicable to referred case fee items such as consultations.)

- Payable to a GP with specialty training for two-way telephone communication (including other forms of electronic verbal communication) regarding assessment and management of a patient but without the consulting physician seeing the patient.
- ii) Conversation must take place within two hours of the initiating provider's request. Not payable for written communication (i.e. fax, letter, email).
- iii) If conversation is with an allied care provider include a note record specifying the type of provider.
- iv) Includes discussion of pertinent family/patient history, history of presenting complaint and discussion of the patient's condition and management after reviewing laboratory and other data where indicated.
- v) Not payable for situations where the purpose of the call is to:
  - a. book an appointment
  - b. arrange for transfer of care that occurs within 24 hours
  - c. arrange for an expedited consultation or procedure within 24 hours
  - d. arrange for laboratory or diagnostic investigations
  - e. convey the results of diagnostic investigations
  - f. arrange a hospital bed for the patient.
- vi) Not payable to provider initiating call.
- vii) No claim may be made where communication is with a proxy for either provider (e.g.: office support staff).
- viii) Limited to one claim per patient per physician per day.
- ix) A chart entry, including advice given and to whom, is required.
- x) Start and end times must be included with the claim and documented in the patient chart.
- *xi)* Not payable in addition to another service on the same day for the same patient by same physician.
- xii) Out-of-Office Hours Premiums may not be claimed in addition.
- xiii) Cannot be billed simultaneously with salary, sessional, or service contract arrangements.
- xiv) Include the practitioner number of the provider requesting advice in the "referred by" field when submitting claim. (For allied care providers not registered with MSP use practitioner number 99987).

|        | b. arrange for transfer of care that occurs within 24 hours                                                                                                                                                  |
|        | c. arrange for an expedited consultation or procedure within 24 hours                                                                                                                                        |
|        | d. arrange for laboratory or diagnostic investigations                                                                                                                                                       |
|        | e. convey the results of diagnostic investigations                                                                                                                                                           |
|        | f. arrange a hospital bed for the patient.                                                                                                                                                                   |
|        | vi) Not payable to provider initiating call.                                                                                                                                                                 |
|        | vii) No claim may be made where communication is with a proxy for either                                                                                                                                     |
|        | provider (e.g.: office support staff).                                                                                                                                                                       |
|        | viii) Limited to two services per patient per physician per week.                                                                                                                                            |
|        | ix) A chart entry, including advice given and to whom, is required.                                                                                                                                          |
|        | x) Start and end times must be included with the claim and documented in the                                                                                                                                 |
|        | patient chart.                                                                                                                                                                                               |
|        | xi) Not payable in addition to another service on the same day for the same                                                                                                                                  |
|        | patient by same physician.                                                                                                                                                                                   |
|        | xii) Out-of-Office Hours Premiums may not be claimed in addition.                                                                                                                                            |
|        | xii) Cannot be billed simultaneously with salary, sessional, or service contract                                                                                                                             |
|        |                                                                                                                                                                                                              |
|        | arrangements.                                                                                                                                                                                                |
|        | xiv) Include the practitioner number of the provider requesting advice in the                                                                                                                                |
|        | "referred by" field when submitting claim. (For allied care providers not                                                                                                                                    |
|        | registered with MSP use practitioner number 99987).                                                                                                                                                          |
| G14023 | GP with Specialty Training Telephone Patient Management/<br>Follow-Up20.00                                                                                                                                   |
|        | Notes:                                                                                                                                                                                                       |
|        | i) This fee applies to two-way direct telephone communication (including other                                                                                                                               |
|        |                                                                                                                                                                                                              |
|        | forms of electronic verbal communication) between the GP with specialty                                                                                                                                      |
|        | training and patient, or a patient's representative. Not payable for written                                                                                                                                 |
|        | communication (i.e. fax, letter, email).                                                                                                                                                                     |
|        | ii) Access to this fee is restricted to patients having received a prior                                                                                                                                     |
|        | consultation, office visit, hospital visit, diagnostic procedure or surgical                                                                                                                                 |
|        | procedure from the same GP with Specialty training, within the 6 months                                                                                                                                      |
|        | preceding this service.                                                                                                                                                                                      |
|        | iii) Telephone management requires two-way communication between the                                                                                                                                         |
|        | patient and physician on a clinical level; the fee is not billable for                                                                                                                                       |
|        | administrative tasks such as appointment notification.                                                                                                                                                       |
|        | iv) No claim may be made where communication is with a proxy for the                                                                                                                                         |
|        | physician (e.g.: office support staff).                                                                                                                                                                      |
|        | v) Each physician may bill this service four (4) times per calendar year for each                                                                                                                            |
|        | patient.                                                                                                                                                                                                     |
|        | vi) This fee requires chart entry as well as ensuring that patient understands and                                                                                                                           |
|        | acknowledges the information provided.                                                                                                                                                                       |
|        | vii) Not payable in addition to another service on the same day for the same                                                                                                                                 |
|        | patient by the same practitioner.                                                                                                                                                                            |
|        |                                                                                                                                                                                                              |

- viii) Out-of-Office Hours Premiums may not be claimed in addition.
- ix) Cannot be billed simultaneously with salary, sessional, or service contract arrangements.

### 10. GPSC Portal Fees

The "GPSC Portal" Codes provides access to the following incentive fee codes:

- G14075 GP Frailty Complex Care Planning and Management Fee
- G14076 GP-Patient Telephone Management Fee
- G14077 GP-Allied Care Provider Conference Fee
- G14078 GP Email/Text/Telephone Medical Advice Relay Fee
- G14029 GP Allied Care Provider Practice Code (\$0.00)

Submitting G14070 signifies that:

- You are providing full-service family practice services to your patients, and will continue to do so for the duration of that calendar year.
- You are confirming your doctor-patient relationship with your existing patients through a standardized conversation or 'compact'.

The standardized wording of the Family Physician-Patient 'Compact' was developed in consultation with the physicians of the three attachment prototype communities and in consultation with members of the patient voices network. The GPSC continues to believe this compact appropriately describes the relationship between a full service family physician and his/her patients. The compact states:

As your family doctor I, along with my practice team, agree to:

- Provide you with the best care that I can
- Coordinate any specialty care you may need
- Offer you timely access to care, to the best of my ability
- Maintain an ongoing record of your health
- Keep you updated on any changes to services offered at my clinic
- Communicate with you honestly and openly so we can best address your health care needs

As my patient I ask that you:

- Seek your health care from me and my team whenever possible and, in my absence, through my colleague(s)
- Name me as your family doctor if you have to visit an emergency facility or another provider
- Communicate with me honestly and openly so we can best address your health care needs

Locums working in host practices where G14070 has been submitted are able to access the same fee codes once they have successfully submitted G14071 "GPSC Locum Portal Code", once at the beginning of each calendar year. The Locum and host FP should discuss and mutually agree on which of the GPSC Services, including the fees, accessed through the GPSC Portal codes, may be provided and billed by the locum. However, locums have their own annual allotment of G14076 GP Patient Telephone Management Fee and G14078 GP Patient Email/Text/Telephone Medical Advice Relay Fee. Submitting G14071 signifies that:

• You are providing full-service family practice services to the patients of the host physicians, and will continue to do so for the duration of any locum coverage for a family physician who has submitted G14070.

Total Fee \$

#### G14070 GPSC Portal Code ......0.00

The GPSC Portal Code should be submitted at the beginning of each calendar year by Full Service Family Physicians (FSFP) to access G14075, G14076, G14077, G14078 and G14029 during the calendar year.

Submit fee item G14070 GPSC Portal Code using the following "Patient" demographic information:

| PHN:             | 9753035697      |
|------------------|-----------------|
| Patient Surname: | Portal          |
| First name:      | GPSC            |
| Date of Birth:   | January 1, 2013 |
| ICD9 code:       | 780             |

Submission of this code signifies that:

- You are providing full-service family practice services to your patients, and will continue to do so for the duration of that calendar year.
- You are confirming your doctor-patient relationship with your existing patients through a standardized conversation or 'compact'.

#### Notes:

- i) Submit once per calendar year.
- ii) Not payable to any physician who has billed and been paid for any specialist consultation in the previous 12 months.

### **GPSC Locum Portal Code**

G14071 GPSC Locum Portal Code.....0.00

The GPSC Portal code may be submitted by the GP who provides locum coverage for Family Physicians who have submitted G14070. G14071 should be submitted at the beginning of the calendar year or prior to the start of the first such locum in each calendar year. Once processed by MSP, the locum may access G14075, G14076, G14077, G14078 and G14029.

Submit fee item G14071 GPSC Locum Portal Code using the following "Patient" demographic information:

| PHN:             | 9753035697      |
|------------------|-----------------|
| Patient Surname: | Portal          |
| First name:      | GPSC            |
| Date of Birth:   | January 1, 2013 |
| ICD9 code:       | 780             |

Submission of this code signifies that:

• You are providing full-service family practice services to the patients of the host physician who has submitted G14070 and will continue to do so for the duration of locum coverage.

#### Notes:

- *i)* Submit once per calendar year at the beginning of the year or prior to the first locum for a family physician who has submitted G14070 in the same calendar year.
- *ii)* Not payable to any physician who has billed and been paid for any specialist consultation in the previous 12 months.

#### 11. GP Email/Text/Telephone Medical Advice To Patients Fees

|       | conference as a requirement of their employment.                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| xiv)  | Not payable to physicians who are working under salary, service contract or                                                                                                                                                                                                                                                                                                                                                                                                                  |
|       | sessional arrangements who would otherwise have participated in the                                                                                                                                                                                                                                                                                                                                                                                                                          |
|       | conference as a requirement of their employment.                                                                                                                                                                                                                                                                                                                                                                                                                                             |

G14077

### 12. GPSC Incentives for In-patient Care

The GPSC In-patient Initiative was developed to recognize and better support the continuous relationship with a family physician (FP) that can improve patient health outcomes and ease the burden on hospitals by reducing repeat hospitalizations and emergency room visits. An important aspect of such continuous care is the coordination of care through the in-patient journey as well as in transitions between hospital and community FP offices. There are two separate levels of incentives aimed at better supporting and compensating FPs who provide this important aspect of care. This initiative will support family physicians who:

- Provide Most Responsible Provider (MRP) care to their own patients when they are admitted to the identified acute care hospital in their community (Assigned In-patients); and may also
- As part of a network, provide care for patients admitted to hospital without an FP, whose FP does not have hospital privileges, or who are from out-of-town (Unassigned In-patients).

To participate in the GPSC In-patient Initiative, it is expected that these FPs agree to the following expectations:

A. They are members of the active or equivalent medical staff category and have hospital privileges in the identified acute care hospital.

B. That their on-call colleagues (Network) are also members of the active or equivalent medical staff category and have hospital privileges.

C. That they will:

- Coordinate and manage the care of hospitalized patients (assigned and/or unassigned), admitted under them as the MRP.
- Provide supportive care when their hospitalized patient is admitted under a specialist as MRP.
- See all acute patients under their MRP care on a daily basis and document a progress note in the medical record.
- Work with the interdisciplinary team, as appropriate, to develop a care plan and a plan for discharge.
- When care is transferred to another physician, ensure that this is documented in the medical record and ensure there is a verbal or written handover plan provided to the accepting physician.
- Ensure availability through their network to expedite discharges of patients daily during the normal working day which includes early morning, daytime, and early evening.
- On weekends ensure the covering physician is made aware of those discharges that could occur over the weekend.
- Provide a discharge note to an unassigned in-patient for their FP or communicate directly with the FP on discharge.
- Respond to requests from members of the interdisciplinary in-patient care team by phone as per hospital bylaws.
- The Network Call Group will accept responsibility for their newly admitted in-patients on a 24/7/365 basis. The MRP shall assess and examine the patient, document findings and issue applicable orders as soon as warranted by the patient's needs, but in any case no longer than 24 hours after accepting the transfer. Utilization needs within the facility may dictate that the patient must be seen sooner.

D. The non-clinical services include the already existing expectations of FPs as outlined in the Health Authority Medical Staff bylaws, rules and regulations, and policies. The health authority, the Department of Family Practice, the Division of Family Practice (where it exists) and the In-patient Care Networks could reasonably expect that all parties would participate in discussions which could include:

- The orderly transitions of MRP status between specialists and generalists.
- Participating in the orderly discharge planning of generally more complicated patients.
- Patient safety concerns that come up in local hospitals.
- Identifying and providing input into "local hassle factors" that would need to be examined and resolved at a local level between the local division of family practice and health authorities.
- Participate in utilization management within the hospital.
- Patient care improvement discussions that would reasonably be covered under the improved FP hospital care incentives.

### Total Fee \$

### Eligibility:

To be eligible to be a member of a GP Assigned Inpatient Care Network, you must meet the following criteria:

- Be a Family Physician in active practice in B.C.
- Have active hospital privileges.
- Be associated and registered with a minimum of three other network members (special consideration will be given in those hospital communities with fewer than four doctors providing inpatient care – see below).
- o Submit a completed Assigned Inpatient Care Network Registration Form.
- Co-operate with other members of the network so that one member is always available to care for patients of the assigned inpatient network.
- Each doctor must provide MRP care to at least 24 admitted patients over the course of a year; networks may average out this number across the number of members.

This network incentive is payable in addition to visit fees, but is inclusive of time spent in associated Quality Improvement activities necessary to maintain privileges such as M and M rounds as well as time spent on network administration, etc.

Exemptions for communities where it may be difficult to achieve the minimum volume of MRP inpatient cases will be considered by the GPSC Inpatient Care Working Group.

The GP Assigned In-patient Care Network Incentive is payable for participation in the network activities for the majority of the following calendar quarter (50% plus 1 day). Once your registration in the network has been confirmed, submit fee item G14086 GP Assigned in-patient care network fee using the following billing specifics:

Billing Schedule: First day of the month, per calendar quarter (January 1, April 1, July1, October 1) and is paid for the subsequent quarter ICD9 code : 780

Your location will determine which PHN# to use:

Interior Health Authority: PHN# 9752590587 Patient Surname: Assigned First Name: IHA Date of birth: January 1, 2013 Fraser Health Authority: PHN# 9752590548 Patient Surname: Assigned First Name: FHA Date of birth: January 1, 2013

Vancouver Coastal Health Authority: PHN# 9752590523 Patient Surname: Assigned First Name: CVHA (note first name starts with 'C') Date of birth: January 1, 2013

Vancouver Island Health Authority: PHN# 9752590516 Patient Surname: Assigned First Name: VIHA Date of birth: January 1, 2013

Northern Health Authority: PHN# 9752590509 Patient Surname: Assigned First Name: NHA Date of birth: January 1, 2013

> Total Fee \$

> The GP Unassigned Inpatient Care Fee is designed to provide an incentive for Family Physicians to accept Most Responsible Physician status for an unassigned patient's hospital stay. It is intended to compensate the Family Physician for the extra time and intensity required to evaluate an unfamiliar patient's clinical status and care needs when the patient is admitted and is only billable once per hospital admission.

This fee is restricted to Family Physicians actively participating in the GP Unassigned Inpatient Care or the GP Maternity Networks. This fee is billable through the MSP Teleplan system and is payable in addition to the hospital visit (00109, 13109, 13008, 00127) or delivery fee.

#### Notes:

- Payable only to Family Physicians who have submitted a completed GP Unassigned Inpatient Care Network Registration Form and/or a GP Maternity Network Registration Form.
- ii) Payable only to the Family Physician who is the Most Responsible Physician (MRP) for the patient during the in-hospital admission.
- iii) Payable once per unassigned patient per in-hospital admission in addition to the hospital visit (00109, 13109, 13008, 00127) or delivery fee.
- iv) Not payable to physicians who are employed by or who are under contract to a facility and whose duties would otherwise include provision of this care.
- v) Not payable to physicians working under salary, service contract or sessional arrangements whose duties would otherwise include provision of this care.

# ANESTHESIOLOGY

# **Anesthesiology Preamble**

The tariff is for all types of anesthetic service. This includes general and regional anesthesia, resuscitation and critical care, monitored anesthesia care, and any other procedure carried out with the assistance of an anesthesiologist at the request of the attending physician. The fees are payable to all anesthesiologists with the exception of consultations and continuing care by consultants which are payable only to certified specialists in anesthesia.

### Intensity and Complexity Index

| Intensity/Complexity | Fee         | \$ (per 15 minutes |
|----------------------|-------------|--------------------|
| Level                | <u>Code</u> | or part thereof)   |
|                      |             |                    |
| 2                    | 01172       |                    |
| 3                    | 01173       |                    |
| 4                    | 01174       |                    |
| 5                    | 01175       |                    |
| 6                    | 01176       |                    |
| 7                    | 01177       |                    |
| 8                    | 01178       |                    |
| 9                    | 01179       |                    |
| 10                   | 01180       |                    |
| 11                   | 01181       |                    |

The Total Anesthetic Fee is determined by selecting the appropriate item, or items:

- 1. Pre-anesthestic evaluation fee.
- 2. Consultation and continuing care fees.
- 3. Anesthestic intensity/complexity levels.
- 4. Anesthestic procedural fee modifiers.
- 5. Resuscitation and critical care fees.
- 6. Diagnostic and therapeutic anesthetic fees.
- 7. Acute pain management fees.
- 8. Obstetrical analgesia fees.

### 1. Pre-Anesthetic Evaluation Fees

01151 and 13052 apply when a pre-anesthetic evaluation is performed for:

- a) In-patients where a separate visit prior to anesthetic is required. The assessment when performed immediately prior to anesthestic will be paid using the anesthetic intensity/complexity level of the anesthetic procedure itself and 01151 or 13052 will not be paid in addition.
- b) Out-patients where a separate visit for anesthetic assessment is required such as in a pre-anesthetic clinic.

# 2. Consultations

- a) 01015 applies when a certified specialist anesthesiologist is requested to assess a patient because of the complexity, obscurity and/or seriousness of the case. It may or may not be associated with a subsequent anesthetic. If this consultation is followed by an anesthetic within 24 hours by the same consultant, a pre-anesthetic assessment will not be paid in addition. If the anesthetic is given by the same consultant after an interval of more than 24 hours, or a different anesthesiologist within 24 hours, then the appropriate pre-anesthetic evaluation will apply.
- b) 01115 applies to two situations:
  - i) When a repeat consultation is done for the same condition within six months by the same consultant. If it is done by the same consultant for a <u>different condition</u>, or a different consultant for the same condition within six months, 01015 will be paid if the problem is appropriately complex, obscure and/or serious.
  - ii) 01115 also applies for a limited consultation when in the opinion of the consultant the problem does not warrant 01015. If a repeat or limited consultation is followed by an anesthetic within 24 hours by the same consultant, a pre-anesthetic assessment will not be paid in addition. If the anesthetic is given by the same consultant after an interval of more than 24 hours, or a different anesthesiologist within 24 hours then the appropriate pre-anesthetic evaluation (see preamble for fee item number 01151) will apply.
- c) 01016 applies to consultations for complex diagnostic and/or therapeutic chronic pain management problems which require a comprehensive history and physical examination.
- d) 01116 applies to two situations:
  - i) When in the opinion of the consultant the diagnostic and/or therapeutic chronic pain management problem is of a more limited nature.
  - ii) When the same consultant sees a patient in consultation within six months of billing 01016 for the same problem. When the same consultant sees the patient for a different problem within six months, or a different consultant sees the patient for the same problem within six months, then 01016 may be billed if the problem is appropriately complex.
- e) 01107 specifically applies to patient visits in a private office setting where the physician has an increased overhead factor.
- f) Continuing care items 01107, 01108 and 01109 cannot be billed with any other listings.

### 3. Anesthetic Procedural Fees

- a) The **anesthetic procedural fee** is calculated by multiplying the anesthetic intensity/complexity level by the anesthetic time calculated in 15 minute increments.
- b) The **anesthetic intensity/complexity level** is listed opposite the specific surgical, diagnostic and/or therapeutic procedure in the schedule. The anesthetic intensity/complexity level time units are indicated in the listing. These levels represent different degrees of complexity and/or intensity, and each procedure is allocated according to the complexity and/or intensity of the anesthetic service required.

c) The **anesthetic time** commences when the anesthesiologist is first present for the purpose of providing the anesthetic, and ends when the anesthesiologist is no longer in attendance, and the patient may be safely left in the care of the appropriate nursing staff. Time should be calculated in 15 minute periods or parts thereof, i.e. <u>the final period of an anesthetic counts as a full 15 minute period</u>, even if it lasts less than 15 minutes.

The **anesthetic procedural fee** covers all services rendered by an anesthesiologist during the procedure, except those listed in the "anesthetic procedural fee modifier" and "acute pain management" sections of the fee schedule.

d) P.A.R. (Post-Anesthetic Recovery)

There are three different ways to bill care in P.A.R. according to the situation:

- i) **Routine P.A.R. care:** Time spent with the patient subsequent to the end of the anesthetic, in the P.A.R. for routine problems, is to be billed at the same rate as the anesthetic, and included in the anesthetic procedural fee. For example, in a patient with post-operative hypertension after a cholecystectomy, the P.A.R. time is added to the anesthetic time and billed at the cholecystectomy procedural hourly rate.
- ii) **Critical care in P.A.R.** can be billed as fee item number 01088 where time spent with the patient begins when the anesthetic finishes. (e.g.: post-operative abdominal aortic aneurysm on a ventilator).
- iii) **Resuscitation in life threatening emergencies in the P.A.R.** should be billed as fee item number 01088 (e.g.: respiratory arrest in the recovery room requiring intubation).
- e) **Multiple procedures:** When more than one surgical, diagnostic and/or therapeutic procedure is performed during the same anesthetic service the procedural rate for the total anesthetic time will be the rate for whichever of those procedures having the highest procedural rate (e.g.: emergency craniotomy with compound fracture femur will be paid at the procedural rate for craniotomy).

### 4. Anesthetic Procedural Fee Modifiers

- a) These fee items are to be paid in addition to the anesthetic procedural fee. They apply to all general, regional and monitored anesthetic care for all surgical, therapeutic and/or diagnostic procedures. These fees are payable to all anaesthesiologist(s). They do not apply to diagnostic and therapeutic anesthesiology fees.
- b) 01059, 01065, 01070, 01071, 01072, 01077, 01082, 01084, 01192, 01093, 01096, 01164, 01166 and 01168 are fixed fees which are paid in addition to the anesthetic procedural fee. They are not included in the anesthetic procedural fee for the application of 01080.
- c) 01080 is a multiplier and applies only to the anesthetic procedural fee. When 01080 is applicable, multiply the total anesthetic procedural fee [including routine P.A.R. care as is 3 d) i)] by 15%.
- d) 01080 can only be used once per case, even if it qualifies more than once (e.g.: ASA 5E cardiac surgical case with an I.A.B.P. lasting 12 hours will be paid at 15%).
- e) Emergency cardiac surgery is defined for this purpose as surgery which is so urgent that it has to be done outside normal elective operating time, or necessitates "bumping" cases previously booked on the elective slate.

# 5. Resuscitation Fees

These fees refer to resuscitation by anesthesiologist.

a) **Resuscitation:** 01088 refers to treatment of acute life threatening emergencies that require constant bedside attendance. It includes all services provided by the anesthesiologist, such as endotracheal intubation, crico-thyroidotomy, invasive monitoring, chest tube drainage, and/or temporary pacemaker insertion. Consultations will not be paid. Written explanation is normally not required.

Timing begins when the anesthesiologist is first in attendance with the patient and ends when constant bedside attendance is no longer necessary. If resuscitation precedes a surgical procedure (e.g.: a patient with a ruptured thoracic aneurysm) resuscitation timing will finish when surgery is commenced as noted on the O.R. record and the anesthetic time will then start.

- b) **Neonatal Resuscitation:** 01090 refers to resuscitation of a severely depressed neonate when the Apgar score at one minute is 5 or less as noted on the delivery record. It includes all services performed by the anesthesiologist including endotracheal intubation and/or umbilical catheterization. Consultations will not be paid. Written explanation is normally not required.
- c) 01088, 01090, 01091, 01094, 00017, 01095 are eligible for out of office hours service charges and/or continuing care surcharges.

### 6. Diagnostic and Therapeutic Anesthetic Fees

- a) These fees apply to nerve blocks and intravenous procedures done for diagnostic and/or therapeutic chronic pain management problems.
- b) Consultations will be paid where appropriate.
- c) Anesthetic procedural fee modifiers will not be paid with these fee items.
- d) Diagnostic and/or therapeutic anesthetic fees are not eligible for out of office service charges and continuing care surcharges.
- e) DTAFs and/or FIs 00424 and/or 00811 paid to a maximum of three fees.
- f) When multiple DTAFs, and/or FIs 00424 and/or 00811 are billed, the fee with the largest value may be claimed in full and the remaining two procedures at 50 percent of the listed fee(s).
- g) Trigger point injections within 60 cms of a peripheral nerve block(s) are considered included in the peripheral nerve block fee.
- h) FI 01125 is the only peripheral nerve block fee regardless of the anatomic location of each nerve (e.g.: sciatic and occipital nerve blocks are paid as FI 01125).

### 7. Acute Pain Management

a) Acute pain management listings are applicable to the management of "acute" pain in: post-operative surgical patients, surgical patients who may not undergo surgery but have

"acute" pain problems, and medical patients who have "acute" pain problems. These listings are not applicable to pain management during labour.

- b) When catheters are inserted in the O.R. prior to or immediately following surgical, therapeutic and/or diagnostic procedures for the purpose of acute pain management in the post-operative period, the procedural fees for insertion of catheters are paid as anesthesiology procedural modifiers (01071, 01072, 01082, 01084). Catheters placed subsequently in the P.A.R. and/or ICU will be paid according to the acute pain management listings (01025, 01026, 01074, 01007). Catheter supervision visits (01076, 01021, 01073) in the P.A.R. should be billed as routine P.A.R. care as per 3 d) i).
- c) All acute pain management fee items are eligible for out-of-office hours service charges and continuing care surcharges in accordance with the Schedule and Preamble for outof-office hours premiums.
- d) Repeat injections of previously inserted catheters will be paid to a maximum of four in 24 hours without written explanation. Written explanation will be required by the Medical Services Plan (MSP) for payment of repeat injections in excess of this.
- e) Visits for continuous infusions and patient controlled analgesia will be paid to a maximum of two in 24 hours without written explanation to the MSP. Payment in excess of this will require written explanation to MSP.
- f) Anesthetic procedural fee modifiers will not be paid with acute pain management fee items.
- g) Consultations for assessment of the patient for acute pain management:
  - i) 01013 is not applicable to referrals from another certified specialist in anesthesiology.
  - ii) 01013 applies to consultations requested for post-operative acute pain management prior to surgery (but after admission) or within 24 hours following the end of surgery. When a certified specialist in anesthesiology is requested to consult on a patient for acute pain management not associated with surgery, or more than 24 hours following the end of surgery, then either 01016 or 01116 will be applicable.
  - iii) The peri-operative assessment of the routine patient PCA <u>post</u> operatively is included in the anesthetic fee. In exceptional circumstances, item 01013 may be applicable. Such claims will require an explanatory note in the claim note record. Fee item 01013 may also be applicable for cases requiring epidural, axillary plexus or intrapleural infusions and/or PCA for control of unanticipated, prolonged or severe or other exceptionally painful conditions unrelated to the surgery.

**Note:** Consultation (01015) or pain consultation (01013) may not be billed for routine PCA post-operative pain management.

- h) Referred consultations for acute pain management assessment post-operatively will be paid as 01013. In more complex situations (e.g.: acute pain management of terminal cancer patients) 01016 will be appropriate and paid as such. Pre-anesthetic evaluations will not be paid.
- i) Hospital visits for supervision of epidural, axillary plexus and/or intrapleural catheters and/or PCA are to be billed only when the physician is in attendance for the purpose of assessing the patient's response to, and/or adjustment of the infusion/PCA, and/or treating adverse reactions.

j) Acute pain management listings are not applicable in addition to claims for critical care fee items (01088, 01412, 01413, 01422, 01423, 01432, 01433, 01442 and 01443) when claimed by an anesthesiologist capable of acute pain management.

### 8. <u>Obstetric Analgesia Fees (Epidural Analgesia in Labour)</u>

a) Consultation will be appropriate when referred because of complex, obscure and/or serious problems. For example, patients with pregnancy induced hypertension, thrombocytopenia, or any other medical or obstetrical complications would be appropriate for an anesthetic consultation.

# 9. An anesthesiologist's continuous attendance

An anesthesiologist's continuing attendance, by request of the attending physician at any procedure for monitored anesthetic care, is payable at the same anesthetic intensity/complexity level as for administration of anesthetic for the procedure.

### 10. Payment of two anesthesiologists

- a) Where two anesthesiologists are medically required in the interest of the patient both may charge a full fee. When billing MSP support the need for charges with a written statement.
- b) Where one anesthesiologist takes over from another part way through a procedure, the total fee billed by both anesthesiologists should not exceed the fee that one anesthesiologist would have billed, had the replacement not occurred.

### 11. Payment of anesthetic when performed by the surgeons

When a surgeon is required to administer an anesthetic in addition to performing a surgical procedure it is recommended that a charge NOT be made for the anesthesiology in addition to the procedure performed. In emergency situations it may be necessary for the surgeon to act as the anesthesiologist; a charge for such service should be accompanied by a written explanation of the circumstances by the surgeon concerned when billing the Plan.

### 12. Anesthetic fees not included in the schedule

- a) Such fees shall be computed in equity with procedures of similar anesthetic responsibility, difficulty and skill. When submitting an account to MSP use fee item 01999 and state reason for the charge.
- b) The foregoing also applies to anesthetic procedural units for surgical or diagnostic procedures charged under a miscellaneous 999 number (see clause C. 4., Preamble).
- c) Anesthesiologists will not normally perform simultaneous services. In the rare event where a life-threatening emergency presents to an anesthesiologist already in attendance at one service, AND a second anesthesiologist is not immediately available, AND a delay to await the arrival of a second anesthesiologist would pose an unacceptable risk of adverse outcome to the second patient, SO THAT, in the judgment of the attending physicians and the attending anesthesiologist has no option other than performing two services simultaneously, THEN the attending anesthesiologist may perform two services

simultaneously and may bill the full fee for both services until the second anesthesiologist arrives. Written explanation to the payment agency is required. This does not apply to simultaneous services of a less than life-threatening nature or where one of the two services is conducted or supervised by a resident or intern or student.

For example, a patient with a respiratory arrest in a P.A.R. requires intubation. The patient undergoing a procedure in the O.R. has to be left with appropriate alternate care for a brief period while the P.A.R. patient is intubated and stabilized.

Another example would be setting up a second operating room for a "STAT" caesarian section for life threatening fetal distress and supervising two anesthestics with appropriate help until a second anesthesiologist can arrive to take over.

Similarly, when there is a life-threatening Neonatal Resuscitation required and the "baby doctor" is not available to perform the resuscitation, it is acceptable that the initial patient be supervised under appropriate alternate care until either the "baby doctor" arrives, or the baby is stabilized.

- d) Where unusual detention with the patient before, and/or after anesthetic is necessary, this time will be compensated at the same intensity/complexity level as the anesthetic except when it is appropriate to bill for resuscitation, or when requested to attend at delivery to resuscitate the neonate if necessary.
  - i) Examples where unusual detention may be required include (but are not limited to) patients with: prolonged neuromuscular paralysis, haemodynamic instability, post-extubation laryngeal stridor, bronchospasm and bleeding diathesis.
  - ii) T01112 is applicable where the attendance of the anesthesiologist is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and where the anesthesiologist is in constant attendance. For example, this applies to the situation where an anesthesiologist is requested to be present at delivery for the purpose of neonatal resuscitation. If resuscitation is necessary, then T01112 stops at the time of delivery and 01090 commences.

# 13. Anesthetic for non-insured dental procedures

### Preface:

This policy is restricted to non-cosmetic non-insured dental procedures where it is impossible for the dentist or oral and maxillofacial surgeon to properly manage the patient by any other means except with general anesthetic. The exceptions will apply to dental services regardless of the location in which they are performed.

### Policy:

Dental related anesthetic services are only a benefit when the dental procedure is an insured service under MSP unless one of the following exceptions exists:

- children requiring extensive dental rehabilitation and could not be otherwise managed/treated due to the length of time for the treatment and the dental treatment is scheduled to last more than one hour; or
- the patient has a severe mental or physical disability that precludes the performance of the dental procedure(s) under local anesthetic; or

- there is a demonstrated medical contra-indication (e.g.: allergy) to local anesthetic precluding the performance of the dental procedure(s) under local anesthetic; or
- there is difficulty with access to the airway precluding the performance of the dental procedure(s); or
- the presence of dental disease adds a significant risk of complication(s) to a planned major surgical procedure, medical treatment, or post-operative care such as for cancer treatment and/or the patient's presenting medical condition is severe enough to preclude the performance of the dental procedure(s) under local anesthetic; or
- the emergent nature of the dental condition requires immediate attention under general anesthetic.

#### Notes:

- 1. The term extensive dental rehabilitation will include surgery for trauma, fillings, and other traditional rehabilitation services.
- 2. Prior approval may be sought for those cases not fulfilling the exception criteria listed above when the dentist or oral and maxillofacial surgeon is of the opinion general anesthetic is essential for the safe and efficient performance of a medically required dental procedure. It is important to note that fear and/or anxiety does not warrant coverage of dental anesthetic by MSP. Requests for prior approval should be forwarded in writing (with appropriate documentation to make a decision) to the Director, Claims Branch, Medical Services Plan.
- 3. The Association of Dental Surgeons has agreed that in the case of an audit resulting in the recovery of inappropriately billed anesthetic claims, the dental or oral and maxillofacial surgeon requesting the anesthesiology will be responsible for reimbursement. Recoveries will be applied to the Available Amount for physician services.

Patients 70 – 79 years of age.....20.38

difficult airway ......61.13

BMI ≥ 35 - per 15 minutes or part thereof ......20.69

i) Restricted to certified specialists in Anesthesiology.
ii) Payable only when fee items 01172, 01173, 01174, 01175, 01176, 01177, 01178, 01179, 01180, 01181, 01005, 01106, 01110,or 01111 are also payable.
iii) Applied to all patients > 10 years of any with a RMI > 25 and to all patients

Awake intubation by any means in the patient with a suspected or proven

**Note:** Applicable only when airway score is 3 or 4.

iii) Applicable to all patients  $\geq$  19 years of age with a BMI  $\geq$  35 and to all patients < 19 years of age with a BMI  $\geq$  97th percentile adjusted for age and gender.

iii) The patient's BMI must be provided in the claim note record and documented on the patient's anesthetic record.

Notes:

01080

In the following cases an additional 15% of the procedural fee will be paid:

- a) All patients (except cardiac surgery patients) who have an incapacitating, systemic disease which is a constant threat to life, or who are not expected to survive for 24 hours, i.e. ASA 4 or 5.
- b) Cardiac surgery patients who have emergency surgery, i.e. ASA 4E or 5E.
- c) Cardiac or transplant surgery patients who require an IABP or mechanical assist device.
- d) All cases where the surgical time as noted on the OR record is 8 hours or more. This includes cardiac surgery.

# Controlled hypothermia and/or pump oxygenation in non-cardiac anesthesia should be billed as 01999, with a written report.

#### Total Fee \$

### **Diagnostic and Therapeutic Anesthetic Fee Items**

The anesthetic fee is for professional services. Consultations (fee items 01016, 01116, and 01013) when requested, will be charged in addition. Anesthetic evaluation (fee item 01151), or Continuing Care items (fee items 01107, 01108 and 01109) will not be charged in addition. These fees are for diagnostic and therapeutic procedures not associated with surgery. 01022 01124 Peripheral nerve block - single ......64.17 01125 Peripheral nerve block - multiple ......96.97 01035 Gasserian ganglion......254.41 Epidural Blocks: 01135 01036 01037 01138 Nerve Root or Facet Blocks: Cervical: 01140 01141 Thoracic: 01142 01143 Lumbar: 01144 01145 Note: Fee items 01140, 01141, 01142, 01143, 01144 and 01145 must be performed under medical imaging guidance (ultrasound, fluoroscopy or CT) with image capture. Subarachnoid (Spinal) Blocks: 01032 01034

|       | i) 00225. 00226. 00227 are billable only for complicated epithelial cancer and |        |

- only by physicians specially qualified in this technique.
- *ii)* 00226, 00227 are billable only once, whether or not excision of the lesion extends to the subsequent day.
- iii) 00227 is not billable if the surgery is performed in a hospital setting.
- iv) Closure of the resulting defect by undermining and advancement flaps is included in the above fees. If more complicated closure is medically necessary, bill as an extra under appropriate listings for skin grafts.

### **Skin Grafts**

# Additional procedures, other than skin grafts, are extra; e.g.: bone or tendon grafts, inlay grafts, etc

#### Notes:

- 1. The medical necessity for a single or multiple flap occurs when a defect cannot be closed by elevating or undermining the edges and suturing subcutaneous tissue and skin. An advancement flap does not qualify for these listings unless the repair involves at least one level of deep sutures and each edge of the lesion is undermined a distance equal to or greater than:
  - (a) 1 cm nose, ear, eyelid, lip
  - (b) 1.5 cm other face and neck
  - (c) 3 cm rest of body

These listings are only to be used where the dissection meets the criteria above, whether the advancement involves one or both sides of the wound. If the wound can be closed in a straight line, five cm or less in length, a tissue advancement flap should not ordinarily be required.

- When fee items 20222, 20223 or 20225 are done under local anesthesia, an operative note, and/or diagram or clinical record that describes the procedure may be required by MSP to justify claims.
- 3. The medical record of the patient must explain the medical necessity for the use of these listings.
- 4. Fee item 20222 should rarely be used for an excision of tumour of skin or subcutaneous tissue or scar up to five cm when excised under local anesthetic.
- 5. Fee items 20221 to 20228 are restricted to services provided by Dermatologists and/or MOHS surgeons.

| Local tissue shifts: Advancements, rotations, transpositions, "Z" plasty, etc: |                                                                                                                                                                                                                            |

# OPHTHALMOLOGY

# **Guidelines for Billing Eye Examinations**

Guide to Payments under the Medical Services Plan of B.C. (MSP) for insured services of consultations and eye examinations by Ophthalmologists to insured patients as agreed to by Section of Ophthalmology, B.C.M.A.

### 1. Consultations:

- (a) The definition of a consultation as outlined in Clause D. 2. of the Preamble to the schedule is applicable to ophthalmologists; an ophthalmologic referral is defined as a referral by a medical practitioner or optometrist to an ophthalmologist for a problem beyond refraction.
- (b) The account from the ophthalmologist to MSP must include the name of the referring medical practitioner, the appropriate diagnosis and/or symptoms.
- (c) A "no charge" referral will be acceptable to MSP to permit payment of the consultative fee where the referring medical practitioner did not carry out an examination of the patient but s/he indicated definite symptoms of which s/he was aware and which were beyond his/her scope.
- (d) A consultative fee may be paid to the consultant where a patient is "referred" on a "no charge" basis for an "eye examination" and the consultant in his/her examination finds significant eye pathology, so indicates and completes a written report to the referring medical practitioner. (Note: MSP reserves the right to request a copy of the written report to assist in its determination of any specific account.)
- (e) A consultative fee will not be paid where there is a "no charge" referral and the ophthalmologist does not find significant pathology in s/he examination or h/she does not provide satisfactory information regarding pathology s/he has found.
- (f) A consultation fee will not be paid if no reference is made to referral received by MSP from the referring medical practitioner, as it will be assumed that no referral was intended.
- (g) The deliberate seeking of referrals by an ophthalmologist is not condoned. Ophthalmologists who severely limit their practice to one area or areas of ophthalmology and who do not accept patients for routine eye examinations are to be considered consulting ophthalmologists only. It is the responsibility of these physicians to ensure that referring physicians and patients are aware that they do not accept patients for routine eye examinations; patients would be advised to seek such services elsewhere.
- (h) It is the responsibility of the ophthalmologist and the referring medical practitioner to make the system work.

### 2. Eye Examinations (Item 02015)

- (a) MSP, by law, includes as insured services, services rendered by a medical practitioner that are medically required by the patient.
- (b) A specific time frequency will not be used as a guide to evidence of medical requirement for an eye examination; if in the opinion of the examining doctor the service was medically required s/he will submit an account to MSP. MSP will accept the account from the examining doctor as evidence of medical requirement, but the Commission (or peer review committees), reserves the right in a specific patient pattern of frequency of

services, or physician pattern of practice to require additional information to clearly determine any question.

- (c) Where a patient demands or requests services that are beyond medical requirement in the opinion of the examining doctor the patient is responsible for payment of such service.
- (d) Where in the judgment of the attending physician the service rendered does not warrant the full 02015 fee, a lesser fee may be charged. It should be kept in mind that in non-referred cases fee item 02015 should not be used where it is more appropriate for the service rendered to be billed as a general practice office visit.

#### 3. Deinsurance of Routine Eye Examinations

A <u>routine</u> eye examination is not a benefit for individuals 19 – 64 years of age when not associated with an ocular or systemic disease or condition, trauma or injury, or if the patient is using medication which could reasonably be expected to cause a change in refractive status. Exceptional circumstances may be given independent consideration when supported by documentation.

An eye examination is still an insured service if medically required. Medically required eye examination may include the following:

- Ocular disease, trauma or injury
- Systemic diseases associated with significant ocular risk (e.g.: diabetes)
- ☐ Medications associated with significant ocular risk.

#### 4. Rural Retention Program Premium Adjustments

The Rural Retention Program applies a fee premium based on a community's isolation points. This fee premium is adjusted for Ophthalmology fee codes by a factor of 1.273.

# OPHTHALMOLOGY

These fees cannot be correctly interpreted without reference to the Preamble.

\* See fee item 02012.

|------------------|----------------------------------------------------------|-------|
|                  | - procedural fee (when done as an independent procedure) | 20.08 |
| 22050            | Specular Microscopy – total fee                          |       |
| 22051            | Specular Microscopy – professional fee                   |       |
| 22052            | Specular Microscopy – technical fee                      |       |

#### Notes:

- *i)* Paid for post-operative corneal transplant assessment, maximum 6 per patient, per each 12 month period.
- *ii)* Daily maximum of 1 per patient/day.
- iii) In cases of corneal failure or rejection, additional tests may be paid, if accompanied by a note.
- iv) This fee includes specular microscopy for one eye.
- v) Not paid for pre- or post-operative cataract patients.
- vi) Paid once prior to intraocular surgery when affected by:
  - o Fuchs corneal dystrophy
  - o Bullous keratopathy
  - o Iridocorneal endothelial syndrome
  - o Posterior polymorphous corneal dystrophy
  - o Other causes of endothelial disease, prior to surgical intervention
    - that could damage endothelial cells (e.g.: secondary IOL insertion).
- vii) 22050 (total fee) and 22052 (technical fee) paid only when service performed in a physician's office.

### **Ultrasound and Axial Measurement Examinations**

**Preamble**: "Real-time ultrasound fees may only be claimed for studies performed when a physician is on site in the diagnostic facility for the purpose of diagnostic ultrasound supervision."

#### 

- i) Eligible indications for billing 22399 include:
  - a) Intraocular lens (IOL) implant surgery following cataract removal.
  - b) Any procedure where a peribulbar or retrobulbar injection is needed and risk of eyeball perforation by the injection needle is a potential danger such as:
    - any ocular surgery requiring local anesthetic with peri or retro-bulbar block, e.g.: Ptyregium surgery, corneal transplant, retinal surgery.
       Retrobulbar injection of therapeutic agents.
  - c) Axial or pathological myopia-serial assessments.
  - d) Diagnosis of conditions where axial myopia is a diagnostic criteria (e.g.: Marfan's).
  - e) Posterior staphyloma-serial assessments.
  - f) Pre-operative assessment for radioactive plaque implant Brachytherapy for ocular melanoma.
- *ii)* Provide indication in note record when non-IOL implant indicated A-scan is performed.
- iii) Claims for IOL implant patients should indicate either:
  - R/L eye for cataract surgery -on wait list or
  - R/L eye for cataract surgery (with the surgery date indicated).
- *iv)* Limited to once per year, per eye. A note record indicating the need for additional scans is required.

### **Adult Critical Care**

Please refer to the Critical Care Section of the Payment Schedule for Preamble rules and billing guidelines applicable to appropriate billing of the critical care fees.

 <u>CRITICAL CARE</u> - includes provision in an Intensive Care Area of all aspects of care of a critically ill patient excluding ventilatory support and includes initial consultation and assessment, family counselling, emergency resuscitation, intravenous lines, bronchoscopy, chest tubes, lumbar puncture, cut-downs, pressure infusion set and pharmacological agents, insertion of arterial C.V.P., Swan-Ganz or urinary catheters and nasogastric tubes, defibrillation, cardio version and usual resuscitative measures, securing and interpretation of laboratory tests, oximetry, transcutaneous blood gases and intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). There is an expectation of at least 1 hour of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in ICU's for example, routine post-op monitoring, or patients admitted for ECG monitoring or observation alone.

Physician-in-charge is the Physician(s) daily providing the above.

| 01411 | 1st day                                                                                                                                                                                                                                                                                                         |     |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 01421 | 2nd to 7th day (inclusive) per diem                                                                                                                                                                                                                                                                             |     |
| 01431 | 8th to 30th day                                                                                                                                                                                                                                                                                                 |     |
| 01441 | 31st day onward                                                                                                                                                                                                                                                                                                 |     |
| 2.    | <u>VENTILATORY SUPPORT</u> - includes provision of ventilatory care inclu<br>initial consultation and assessment of the patient, family counselling, cu<br>down, pressure infusion, insertion arterial & CVP, Swan-Ganz, tracheal<br>endotracheal intubation, intravenous lines, artificial ventilation and all | ıt- |

necessary measures for its supervision, obtaining and interpretation of blood gases, oximetry, end tidal CO<sub>2</sub>, transcutaneous blood gas application and

assessment and maximum inspiratory pressure monitoring and non-invasive metabolic measurements. There is an expectation of at least 1 hour of bedside care on Day 1. This is the fee to use when one physician is providing the ventilatory care and another physician, the critical care. This service may also be billed by a physician other than the operating surgeon or associate, for critical care required in addition to postoperative care by the surgeon.

Physician-in-charge is the physician(s) daily providing the above.

| Anes.       |
|-------------|
| \$<br>Level |

| 01412 | 1st day                             | 294.96 |
|-------|-------------------------------------|--------|
|       | 2nd to 7th day (inclusive) per diem |        |
| 01432 | 8th to 30th day                     | 119.77 |
| 01442 | 31st day onward                     | 71.02  |

COMPREHENSIVE CARE - These fees apply to intensive care physicians 3. who provide complete care, both Critical Care and Ventilatory support (as defined above), to Intensive Care patients. These fees include the initial consultation and assessment and subsequent examinations of the patient, family counselling, endotracheal intubation, tracheal toilet, artificial ventilation and all necessary measures for respiratory support, emergency resuscitation, insertion of intravenous lines, bronchoscopy, chest tubes, lumbar puncture, cut-downs, arterial and/or venous catheters, insertion of a Swan-Ganz catheter, pressure infusion sets and pharmacological agents, insertion of C.V.P. lines, defibrillation, cardioversion and usual resuscitative measures. insertion of urinary catheters and nasogastric tubes, securing and interpretation of blood gases, intracranial pressure monitoring interpretation and assessment when indicated (excluding insertion of ICP measuring device). There is an expectation of at least 2 hours of bedside care on Day 1. These fees are not chargeable for services rendered to stabilized patients in the ICU's or patients admitted for ECG monitoring and observations.

Physician-in-charge is the physician(s) daily providing the above.

| 01413 | 1st day                             | 507.54 |
|-------|-------------------------------------|--------|
| 01423 | 2nd to 7th day (inclusive) per diem | 256.61 |
| 01433 | 8th to 30th day                     |        |
| 01443 | 31st day onwards                    | 81.20  |

If ventilatory support only is provided, claims should then be made under Ventilatory Support. Comprehensive Care fees do not apply. Other physicians should then charge Critical Care fees, if applicable, or the appropriate consultation, visit or procedure fees.

### **Dialysis Fees**

#### Acute renal failure Peritoneal dialysis:

#### Chemotherapy

- a) Where a patient has been administered high intensity cancer chemotherapy, the fees for limited cancer chemotherapy are not payable within the interim of 28 days.
- b) Hospital visits are not payable on the same day.
- c) Visit fees are payable on subsequent days, when rendered.
- d) A consultation, when rendered, is payable in addition to fee item 33581, high intensity cancer chemotherapy, in situations where it is important that chemotherapy be administered immediately, e.g.: for out of town patients. A letter of explanation is required when both services are performed on the same day.
- e) The administering of chemotherapy via intrathecal and intrabladder methods is payable under the chemotherapy listings. Other methods of administration, such as oral and rectal, are not payable under these listings.

#### 33581 High intensity cancer chemotherapy:

- a) chemotherapy for acute leukemia.
- b) chemotherapy utilizing cisplatinum given in a dose exceeding 50 mg/m2 per treatment.
- c) chemotherapy utilizing isophosphamide in combination with bladder protector Mesna.
- d) chemotherapy using DTIC in a dose exceeding 100 mg/m2.
- e) chemotherapy utilizing methotrexate in dose exceeding 1 g/m2 (and combined with the folinic acid rescue regimen).
- f) chemotherapy using continuous infusion technique exceeding a period of 8 hours per session (except for the infusional 5-FU treatment protocol).

#### 33582 Major Cancer Chemotherapy:

12-7

#### Notes:

i) Applicable only for investigation for diagnosis of neurally mediated syncope.

- ii) Physician must be present throughout duration of procedure.
  iii) Includes testing before and if necessary, after pharmacological provocation.
  iv) Requires backup resuscitation equipment and materials.
  v) Routine ECG not billable in addition.
  vi) Restricted to facilities licensed to perform cardiac electrophysiological testing.

# **GERIATRIC MEDICINE**

## Preamble

Criteria for Billing Fee items 33401, 33402, 33421 and 33422:

- 1. Payable only to qualified geriatricians.
- 2. Applicable to the assessment of geriatric patients who have multiple medical, physical, mental and/or social problems; who often require a collateral history from physicians, other health care givers and family; and for whom community services may be required. Includes diagnostic interview and examination, including cognitive, functional and social assessment, review of X-ray, laboratory and other relevant records, treatment recommendations and a written report.
- 3. Applicable only when written report includes at least two aspects of complexity. Common clinical syndromes include, but are not limited to, the following:
  - Assessment and management of medical condition(s)/syndrome(s) in patients 65 yrs and over.
  - assessment of dementia, using both some form of formal cognitive measurement, as well integrating reports from family/homemakers/Home Health
  - assessment and management of delirium including behavioural issues
  - behavioural/affective issues in dementia management
  - failure to thrive, including detailed assessment of nutrition
  - Polypharmacy, review of medication tolerability/response and compliance issues
  - incontinence
  - management of common psychiatric syndrome in the elderly, including
  - co-management with geriatric psychiatry, particularly where there is significant medical instability
  - Elder abuse/neglect, caregiver stress
  - Assessment/monitoring of functional status including issues of competency and "living at risk"
- 4. Cumulative time requirements for billing fee items 33401, 33402, 33421 and 33422 is based on clinical assessment time. It is understood that payment for these fee items includes time spent preparing reports, and, as necessary, the other aspects of assessment outlined in #2.

### Chemotherapy

- a) Where a patient has been administered high intensity cancer chemotherapy, the fees for limited cancer chemotherapy are not payable within the interim of 28 days.
- b) Hospital visits are not payable on the same day.
- c) Visit fees are payable on subsequent days, when rendered.
- d) A consultation, when rendered, is payable in addition to fee item 33581, high intensity cancer chemotherapy, in situations where it is important that chemotherapy be administered immediately, e.g.: for out of town patients. A letter of explanation is required when both services are performed on the same day.
- e) The administering of chemotherapy via intrathecal and intrabladder methods is payable under the chemotherapy listings. Other methods of administration, such as oral and rectal, are not payable under these listings.

#### 33581 High intensity cancer chemotherapy:

- a) chemotherapy for acute leukemia.
- b) chemotherapy utilizing cisplatinum given in a dose exceeding 50 mg/m2 per treatment.
- c) chemotherapy utilizing isophosphamide in combination with bladder protector Mesna.
- d) chemotherapy using DTIC in a dose exceeding 100 mg/m2.
- e) chemotherapy utilizing methotrexate in dose exceeding 1 g/m2 (and combined with the folinic acid rescue regimen).
- f) chemotherapy using continuous infusion technique exceeding a period of 8 hours per session (except for the infusional 5-FU treatment protocol).

### 33582 Major Cancer Chemotherapy:

### 33583 Limited Cancer Chemotherapy:

# NEUROLOGY

## Preamble

### Acute Cerebral Vascular Syndrome (Stroke & TIA) Listings:

Acute cerebrovascular syndrome (ACVS) includes acute stroke and TIA. Both are indistinguishable clinically at onset and are acute emergencies. The ACVS fee items have been developed in conjunction with the BCSS and the Section of Neurology, and are intended for services provided by neurologists in the acute management of stroke/TIA. When submitting claims, the appropriate 3 –digit ICD-9 stroke code (431, 433, 434, and 435) must be used, and the patient's initial NIHSS 2-digit code for the billed visit must be appended in the ICD-9 field (i.e.: 43412 or 43405). The TIA code (435) may also have an appended score if the billed visit includes the symptomatic phase.

#### Face-to-Face Services:

These fee items are intended for services rendered at public facilities with adequate diagnostic capabilities (i.e.: laboratory services, diagnostic imaging ability including CT scan, ultrasound) to ensure timely patient care.

#### **Telestroke Services**

"Telestroke Service" is defined as a Neurologist-delivered health service provided via videoconferencing for a patient referred by a physician at a different site for diagnosis related to acute cerebral vascular syndrome (ACVS).

i) Referral sites must have capability to provide laboratory services, diagnostic imaging ability including CT scan, ultrasound, CT angiography and must be part of a Health Authority approved, publicly-funded Telestroke program.

Consulting sites are defined as a neurologist-delivered health service provided to a patient at a Health Authority approved, publicly-funded Telestroke program.

 Telestroke service includes live interactive transmission of sound and full-motion picture information between the referring site (hospital) and an approved consulting site (the location of the Telestroke neurologist) using secure videoconferencing technology as defined in Preamble D. 1. In order for payment to be made, the patient must be in attendance at the referring site at the time of the video capture. Information regarding the start and stop times of service must accompany claims.

In those cases where a neurologist's service requires a general practitioner at the patient's site to assist with the essential physical assessment, without which the neurologist's service would be ineffective, the neurologist must indicate in the "Referred by" field that a request was made for a General Practice assisted assessment.

Where a receiving neurologist, after having provided a Telestroke consultation service to a patient, decides s/he must examine the patient in person, the neurologist should claim the subsequent visit as a limited consultation, unless more than 6 months has passed since the Telestroke consultation.

Telestroke services are payable only when provided as defined under the specific Preamble pertaining to the service rendered (e.g.: Telestroke consultation - see Preamble D. 2.) to a patient with valid medical

coverage. Patients or their representative must be informed and given opportunity to agree to services rendered using this modality, without prejudice.

Where a Telestroke service is interrupted for technical failure, and is not able to be resumed within a reasonable period of time, and therefore is unable to be completed, the receiving neurologist should submit a claim under the appropriate miscellaneous code for independent consideration with appropriate substantiating information.

In exceptional circumstances, for facilities targeted in the BCSS phased implementation in the process of implementing Telestroke services, a telephone consultation may be payable in an emergent (i.e.: life or death) situation. Telemetry review of diagnostic images is required as an integral aspect of the consultation. A note record is required in these instances.

Compensation for travel, scheduling and other logistics is the responsibility of the Regional Health Authority. Rural Retention fee-for-service premiums are applicable to Telestroke services and are payable based on the location of the receiving medical practitioner in eligible RSA communities.

- viii) Restricted to Neurologists.
- ix) If billed in addition to 00441, paid at 100%.
- x) Daily Maximum per patient is six (6), unless note record indicates medical necessity for extended service.

\$

#### 00443 Face-to-face follow-up neurological clinical monitoring and treatment for persisting ACVS: with administration of tPA, per 1/2 hour or major portion thereof ......100.19 Notes: *i*) To be used for the ongoing evaluation, clinical monitoring and treatment of a patient referred for suspected acute cerebral vascular syndrome requiring ongoing care by the neurologist. ii) Includes ongoing review/discussion of any and all diagnostic imaging and/or interventional imaging. Includes the time required for use and monitoring of tPA by the neurologist. iii) Includes sequential scales e.g.: NIHSS, as necessary. iv) Not payable with 00410, 00081, 00082 or 00442 by same physician. V) vi) Not intended for standby time such as waiting for laboratory results. For payment purposes, when immediately subsequent to 00441, the vii) consultation fee constitutes the first half hour of the time spent with the patient. viii) Start and end times must be submitted with claim. ix) Restricted to Neurologists. x) If billed in addition to 00441, paid at 100%. xi) Daily maximum per patient is six (6), unless note record indicates medical necessity for extended service. 00444 Face-to-face follow-up ACVS relapse intervention, per <sup>1</sup>/<sub>2</sub> hour or major portion thereof......80.14 Notes: To be used for the ongoing evaluation, neurological clinical monitoring and i) treatment of a patient seen within 72 hours of onset of symptoms with referral diagnosis of ACVS with remission (partial or complete) of original symptoms who requires ongoing care by the neurologist. Includes ongoing review of any and all diagnostic imaging. ii) iii) Not payable with 00410 or 00081, 00082 by same physician. Includes sequential scales e.g.: NIHSS, as necessary. iv) Not intended for standby time such as waiting for laboratory results. V) For payment purposes, when immediately subsequent to 00441, the vi) consultation fee constitutes the first half hour of the time spent with the patient. vii) Start and end times must be submitted with claim. viii) Restricted to Neurologists. ix) If billed in addition to 00441, paid at 100%. x) Daily maximum per patient is four (4), unless note record indicates medical necessity for extended service. 00485 Face-to-face assessment for acute deterioration in status of an MS patient - 1st full half hour. To consist of acute assessment, examination including EDSS, review of history, laboratory testing Notes: Restricted to Neurologists. i) ii) Applicable only for patients seen within 14 days of onset of symptoms. Date of onset of symptoms must be recorded in the

medical record.
iii) Payable only for patients with established diagnosis of MS (ICD9 code 340 billed previously by any neurologist).

### **Ventriculoscopic Procedures**

**Note:** When ventriculoscopy is performed as part of a craniotomy, the ventriculoscopic fee is not payable in addition to the craniotomy fee, unless the ventriculoscopic procedure is done via a separate cranial opening. When a craniotomy is performed as a result of complications arising from a ventriculoscopic procedure, or because of failure of the ventriculoscopic procedure, the ventriculoscopic fee may be billed according to the usual rules in the Payment Schedule (ie. 50%).

- ii) Charges for delivery payable in addition
   iii) Call-out charges (1200 series) and emergency visits (04005) are not payable in addition.
- iv) Not payable with 04039.

\$

04039

#### Notes:

- i) Requires completion of written record.
- ii) Payable only after at least one hour of attendance at bedside.
- iii) Start and end times must be entered in both the billing claims and the patient's chart.
- *iv)* Not payable with 04038, 04050, 14104, 14109, or 14199.
- v) Payable x 1 only, regardless of multiple gestation.
- vi) Payable only for the following conditions:
  - Fetal conditions:
    - (a) Abnormal FH tracing requiring scalp pH monitoring, (or attendance at bedside by obstetrician for no less than 60 minutes)

- (b) Prematurity <37 completed weeks gestation
- (c) Severe IUGR (< 2500 g)
- (d) Face or breech presentation
- e) Multiple gestation
- (f) Congenital anomaly where neonatal morbidity/mortality is an issue and may be affected by labour/delivery process (e.g.: open neural tube defect, body wall defect such as omphalocele, or gastroschisis, congenital; fetal arrhythmia, hydrocephalus)
- (g) Hydrops fetalis
- (h) Iso-immunization
- Placental or amniotic fluid conditions:
- (a) Placental abruption
- (b) Severe oligohydramnios (AFI<6)
- (c) Severe polyhydramnios (AFI>25)
- Maternal Conditions:
- (a) Cardiovascular disease where the management of labour must take into account avoidance of rapid changes in volume (e.g.: aortic stenosis or regurgitation, mitral valve stenosis, mitral valve regurgitation with LV dysfunction, severe pulmonary stenosis, coarctation of the aorta, cardiomyopathy, arrhythmia requiring pharmacological treatment, any lesion with pulmonary hypertension or ventricular dilatation).
- (b) Renal disease (e.g.: renal failure, renal transplant)
- (c) Pulmonary disease (e.g.: pulmonary fibrosis, severe asthma, cystic fibrosis)
- (d) Endocrine disease (e.g.: Addison's disease, clinical hyperthyroidism, Type 1 Diabetes Mellitus)
- (e) Neurological disease (e.g.: cerebral aneurysm, brain tumour, paraplegia)
- (f) Infectious disease (AIDS, severe pneumonia, systemic sepsis)
- (g) Severe pre-eclampsia (attempt made to deliver vaginally)
- (h) Maternal obesity BMI >40.

# **ORTHOPAEDICS**

The following preamble applies to the Orthopaedic fee guide and, if in conflict with, supersedes the general preamble.

#### 1. \* Items- Operation Only

Items indicated with a \* are operation only items and are exempt from the 14 day in hospital post-op rule (D. 5. 2.).

#### 2. Under general anesthesia or procedural sedation

Procedures so indicated are performed in hospital, under general anesthesia or procedural (conscious) sedation.

**Note:** The orthopaedic procedure and anesthesia or procedural sedation are not billable by the same physician.

#### 3. ADULT / PEDIATRIC

An adult is an individual over 12 years old.

#### 4. Harvest of Bone Autograft

Bone graft harvested through a separate incision is always charged in full in addition to any other procedural fee(s).

#### 5. Harvest of Skin Autograft

Harvest of skin graft is always paid in full in addition to any other procedural fee(s).

#### 6. Open (Compound) Fractures

Primary wound management fee(s) may be charged in addition to the fracture fee and will be paid at the same percent as applies to the fracture fee(s)

The Secondary Wound Management fee(s) are exempt from the 14 day rule (D. 5. 2.).

Primary and Secondary Wound Management fee(s) are paid for procedures under GA only.

#### Primary:

Management of the soft tissue component of an open fracture - includes wound excision, debridement, irrigation, implantation of antibiotic beads. Occasionally primary closure/immediate local tissue transfer/skin grafting may be included.

#### Secondary:

Repeat primary (as above) at a second sitting or return to the operating room for delayed primary closure/closure with skin graft/local skin flap. Includes removal of beads. Does not include muscle flaps or free flaps. These are billed as shown and paid in full.

#### 7. Fasciotomy Wound Management

Fasciotomy wound management fee(s) are for procedures done under GA and are payable within 14 days of the initial procedure.

#### 8. Casts

Formation and application of moulded casts or splints may be charged in full in addition to procedure and visit fees with the following exceptions :

- formation and application of a cast or splint at the time of the initial orthopedic procedure charged is included in the procedure;
- in the minority of cases when application of a cast or splint is the sole purpose of a visit, a visit fee may not be charged.

Fees for formation and application of moulded casts or splints are payable only when performed by the medical practitioner. Multiple casts (e.g.: bilateral leg casts) are paid at 100%.

#### 9. Re-Operation

The treatment of a fracture and/or dislocation or a reconstructive procedure where remanipulation or (re)operation is required is chargeable in full. It is chargeable by the physician providing the initial service only if it is carried out more than five days following the index procedure.

#### 10. Non-Operative Management

Non-operative management of injuries not itemized are chargeable on a per visit basis.

# ORTHOPAEDICS

These listings cannot be correctly interpreted without reference to the Preamble.

## \$ Lev

#### Notes:

iii)

- i) Patient must be 18 years of age or younger.
- *ii)* For services related to:
  - a) psychiatric disorders
  - b) developmental disorders
  - *c) major chronic disease*
  - d) pre-transplant (concerning donor/recipient assessment)
    - e) end of life
    - f) multiple medical handicaps
  - Maximum of one hour may be claimed per patient per day.
- *iv)* Not to exceed a maximum of four hours per patient per year.
- v) The case conference must last at least 15 minutes to submit a claim.
- vi) The results of the case conference must be recorded in the patient's chart along with the start and end times of the conference, as well as the names and job titles of the other participants at the meeting.
- vii) This fee is not payable to physicians who are employed or who are under contract to a facility, agency or program (ie: Ministry of Children and Families' FAS, autism and child abuse or neglect assessments, HEAL, health authorities) who otherwise would have attended the conference as a requirement of their employment with the facility, agency or program.
- viii) This fee is payable when the care conference occurs in person or by phone
- ix) A visit or consult may be payable for the same patient on the same day as a case conference, provided the two items are consecutive, not concurrent, and start and end times are provided for both. A note record must be submitted for consults and patient management conferences occurring on the same day.
- x) It may not be claimed unless the pediatrician has a pre-existing relationship with the patient.
- xi) Not payable within 3 months of fee item 00511 without a note record explaining the medical necessity.
- xii) If multiple patients are discussed, the billings shall be for consecutive, nonoverlapping time periods and services are to be claimed under the PHN of each patient for the specific time period.
- xiii) Start and end times must be included in time fields.

## **Special Procedures**

Percutaneous transcatheter cardiac occluder device closure of ASD in pediatric patients (0 – 18 years of age) – composite fee (operation only) .....1,044.94 7 *Notes:* 

- Includes all necessary diagnostic imaging, right and left heart catheterization, all necessary angiograms and/or angioplasty, coronary or elsewhere and stent implementation to include any declotting or treatment of underlying cause of access failure.
- *ii)* Not payable with fee item 00871. This composite fee also includes the taking of blood pressure (intra-arterial or intravenous), calculation of pressure gradients during the procedure and any pharmacological study or infusion of therapeutic substance.
- *iii)* Payable to Pediatricians only.
- *iv)* Medically necessary assistance payable under cardiac assist fee items 0845 and 00846.

## **Neonatal Intensive Care**

Please refer to the Critical Care Section of the Payment Schedule for Preamble rules and billing guidelines applicable to appropriate billing of the critical care fees.

These listings may be used for patients receiving neonatal intensive care and are intended for use by the Neonatologist or Pediatrician (or Team) in charge of the patient. These listings may be used by physicians providing direct bedside care to critically ill and unstable patients who are in need of intensive treatment such as ventilatory support, haemodynamic support including vasoactive medications or prolonged resuscitation. They are to be billed only on sick or preterm infants requiring intensive care. They are also for infants who are more than 28 days old, who have neonatal problems related to prematurity, etc. These listings do not apply to non-ventilated stable patients admitted to a special care unit for routine post-op care. These fees are not for the infant who is stable and only requiring a period of observation. Neither are they for the infant who needs a short course of prophylactic antibiotics. It would be unusual to bill these fees on an infant whose period of care in the NICU lasted less than 48 hours Consultation and visit fees would be appropriate.

These neonatal intensive care fees only apply to physicians who are directly involved in the bedside care of patients in the Critical Care Areas. "Preamble to the Payment Schedule" applies:

"C. 18. Guidelines for Payment for Services by Trainees, Residents and Fellows

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the supervising medical practitioner shall be identified to the patient at the earliest possible moment. No fees may be charged in the name of the supervising staff physician for services rendered by a trainee, resident or fellow prior to the identification taking place. Moreover, the supervising staff physician must be available in person, by telephone or videoconferencing in a timely manner appropriate to the acuity of the service being supervised.

For a medical practitioner who supervises two or more procedures or other services concurrently through the use of trainees, residents, fellows or other members of the team, the total billings must not exceed the amount that a medical practitioner could bill in the same time period in the absence of the other team members. For example:

- a) If an anesthesiologist is supervising two rooms simultaneously, the anesthetic intensity/complexity units should only be billed for one of the two cases.
- b) If a surgeon is operating in one room while his/her resident is operating in a second room, charges should only be made for the case the surgeon performs.

- c) In psychotherapy where direct supervision by the staff physician may distort the psychotherapeutic milieu, the staff physician may claim for psychotherapy when a record of the psychotherapeutic interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff physician should not exceed the lesser of the time spent by the resident in the psychotherapeutic interview or the staff physician in the supervision of that interview.
- d) For hospital visits and consultations rendered by the resident in the name of the staff physician, the staff physician should only charge for services on the days when actual supervision of that patient's care takes place through a physical visit to the patient by the staff physician and/or a chart review is conducted with detailed discussion with the other members of the health team within the next weekday workday.
- e) The supervising physician may not bill for out-of-office hours premiums or continuing care surcharges unless he/she complies with the explanatory notes for out-of-office hours premiums in the Payment Schedule/Guide to Fees and personally attends the patient.
- f) In order to bill for a supervised service the physician must review in person, by telephone or videoconferencing the service being billed with the trainee, resident or fellow and have signed off within the next weekday workday on the ER record, hospital chart, office chart or some other auditable document."

Included in these daily composite fees are the initial consultation or assessment, subsequent visits and examinations as required in any given day. Also included are: family counselling, emergency resuscitation, insertion of arterial, venous, Swan-Ganz, CVP or urinary catheters, intravenous lines, interpretation of blood gases, insertion of nasogastric tubes, infusion of pharmaceutical agents including TPN, endotracheal intubation and artificial ventilation and all other necessary respiratory support.

Exchange transfusion is not included in these fees and not all infants requiring an exchange transfusion are critically ill.

Out-Of-Office Hours Call-out Charges may still apply for special calls back to the hospital and may be billed in conjunction with a no charge visit. If a patient is discharged from the unit for more than 48 hours and is readmitted, <u>second</u> day rates again apply. If the patient is re-admitted within 48 hours of discharge, billing continues under fee code billed at discharge, unless acuity level changes. If a patient changes acuity level up or down then the appropriate second day rate applies. A note record is required indicating the change in acuity level. Fee item 00505 (Emergency Visit) may not be billed by the person claiming these fees.

Call-out charges are billable with the neonatal critical care fee items. Historically, these have not been included in the neonatal fees and may be billed separately.

Members of the team billing the Neonatal Guide can not be receiving other payments (e.g.: fees, alternative or sessional payments) for the clinical care of the patient.

# **PSYCHIATRY FEE GUIDE - PREAMBLE**

## 1. Time Units

Some psychiatry fee item descriptions specify nominal time units of 15/30/45/60 minutes. For these listings to be applicable, the psychiatrist must spend at least 12.5 out of each 15 minutes actually engaged in the designated activity for that fee (ie., 25 out of 30 minutes, 37.5 out of 45 minutes, 50 out of 60 minutes). The designated activities are:

#### Psychiatric Treatment, Family Therapy and Group Psychotherapy

- actual patient/group contact time;
- billing for individual therapy is permitted for only one person within a specified time frame;
- psychiatric treatment or counselling by telephone is not an insured service.
- psychoanalysis is not an insured benefit under the Plan.

### Patient Management Conference

actual meeting time

For all time-based out-patient claims, start and end times must be entered in both the billing claims and the patient's chart. In recognition of the nature of In-patient or Institutional psychiatry, the start time of the first patient seen and the end time of the last patient seen each day must be entered in both the billing claims and the patient's chart. Physicians must ensure that the patient's chart contains enough information about time spent with the patient and how this time was billed to allow independent confirmation that there is no overlap in reimbursement received from different payment modalities (e.g.: FFS, APP).

For example:

If a patient was seen on five occasions for between five and ten minutes at 8:30 (10 min), 9:45 (5 min), 10:00 (5 min), 11:00 (10 min) and 11:30 (5 min), the claim could be appropriately submitted as 1 x 00650 as the total time was 35 minutes. However, any other claims from the same physician for services provided between the hours of 8:30 and 11:35 (all payment modalities) cannot exceed a total of the balance of time of 2 hours and 30 minutes.

Like other specialists with possible Alternative Payment Plan (APP) funding, there must not be any time overlap in fee items billed by psychiatrists under FFS and APP/sessional contract or arrangements (see also General Preamble C. 24.).

## 2. Psychiatric Treatment

Psychiatric Treatment is defined as a series of medical interventions carried out by a psychiatrist trained to treat mental, emotional, and psychosomatic illness through a relationship with the patient in an individual, group, or family setting, utilizing verbal or non-verbal communication with the patient.

Psychiatric Treatment always entails continuing medical diagnostic evaluation and responsibility and may be carried out in conjunction with drug and other physical treatments. Psychiatric Treatment/Group Psychotherapy recognizes that the psychological and physical components of an illness are intertwined and that at any point in the disease process psychological symptoms may give rise to, substitute for, or run concurrently with physical symptoms and vice versa.

Family/Conjoint Therapy and Group Psychotherapy are defined as Psychiatric Treatment rendered to a family or other group.

Where a therapy session extends beyond one hour in a day, a written explanation of need is required by the Plan. Typical situations are:

- a) patient is from out of town,
- b) emergency or like situations,
- c) extended time required due to nature of clinical problem (explanation needed in each such case),
- d) a particular type of psychiatric therapy is being rendered, requiring extended sessions.

Approval from the Plan will be necessary in each such case.

Psychiatric treatment/psychotherapy sessions in excess of two hours in any one week require an explanation of need to the Plan and approval from the Plan in each such case. Typical situations are:

- a) patient is from out of town;
- b) emergency or like situation;
- c) patient in an acute care facility.

### 3. Prolonged Time-Intensive Psychiatric Treatment

The BC Psychiatric Association has adopted the following principle:

Due to the unmet demand for psychiatric services, prolonged time-intensive psychiatric treatment must be provided only to the extent that it is justified and cost-effective in the context of limited psychiatric treatment resources and waiting lists.

### 4. Re-referral for Prolonged Psychiatric Treatment

- 1. Continuation of payment of specialist fees beyond six months is dependent on re-referral by a physician. This procedure is required in all specialties and is, in fact, a requirement of the BC Medical Association rather than of the Medical Services Commission who, however, have agreed to accept this as an adequate procedure for ensuring the need for continuing medical care by the specialist.
- 2. While the judgment concerning the medical necessity of continuation of psychiatric treatment may, in effect, be that of the psychiatrist, the referring physician must concur to ensure continued payment at specialist rates. In practice, it would be advisable for the specialist who sees the need to continue treatment beyond six months to ensure that the referring physician is contacted just prior to that time and to maintain contact with the referring physician's office until he/she is sure that a referral has been sent.
- 3. Re-referral at the six month interval does not necessarily require a visit by the patient to the referring physician, who can, in effect, send in a "no charge" re-referral. It is obvious, however, that the referring physician must be aware of the need for continuing care by the specialist, and this would be best achieved by the specialist sending the referring physician a written report of his/her treatment, of the present status of the patient and of the prognosis.
- 4. In cases where confusion is likely to arise; for example, where the patient has changed his general physician from the time of the original referral, or when the specialist is unable to ensure that a re-referral is being made, it would be advisable for the specialist to cover the situation by writing directly to the Medical Advisor of MSP concerned, indicating the circumstances and supplying whatever information he/she thinks necessary to ensure continued payment at specialist rates.

# 5. Rural Retention Program Premium Adjustments

The Rural Retention Program applies a fee premium based on a community's isolation points. This fee premium is adjusted for Psychiatric fee codes by a factor of 1.782.

# PSYCHIATRY

| 00630<br>00631<br>00632           | Individual (office or hospital out-patient):       107.22         - per 1/2 hour       107.22         - per 3/4 hour       151.71         - per 1 hour       192.65         Note:       Start and end times must be entered in both the billing claims and the                                                                                                                                                                                       |   |

**Note:** Start and end times must be entered in both the billing claims and the patient's chart.

#### Individual (hospital or institution in-patient or home):

| 00650 | - per 1/2 hour |  |
|-------|----------------|--|
| 00651 | - per 3/4 hour |  |
| 00652 | - per 1 hour   |  |

**Note:** The start time of the first patient seen and the end time of the last patient seen each day must be entered in the billing claims and the patient's chart should have sufficient documentation around the timing of the patient interaction (See Psychiatry Preamble 1.).

#### Family/Conjoint Therapy - (two or more family members):

| 00633 | - per 1/2 hour |  |
|-------|----------------|--|
| 00635 | - per 3/4 hour |  |
| 00636 | - per 1 hour   |  |
| 00638 | - per 1 ¼ hour |  |
| 00639 | - per 1 ½ hour |  |

#### Notes:

- *i)* Start and end times must be entered in both the billing claims and the patient's chart.
- *ii)* A note record is required for sessions longer than one hour.

#### **Group Psychotherapy**

#### Fee per patient, per 1/2 hour:

| 00663 | Three patients                         | 48.00 |
|-------|----------------------------------------|-------|
| 00664 | Four patients                          |       |
| 00665 | Five patients                          |       |
| 00666 | Six patients                           |       |
| 00667 | Seven patients                         | 27.05 |
| 00668 | Eight patients                         | 25.11 |
| 00669 | Nine patients                          | 23.56 |
| 00670 | Ten patients                           |       |
| 00671 | Eleven patients                        |       |
| 00672 | Twelve patients                        |       |
| 00673 | Thirteen patients                      | 17.02 |
| 00674 | Fourteen patients                      | 16.70 |
| 00675 | Fifteen patients                       | 16.03 |
| 00676 | Sixteen patients                       | 15.55 |
| 00677 | Seventeen patients                     | 14.90 |
| 00678 | Eighteen patients                      | 14.67 |
| 00679 | Nineteen patients                      |       |
| 00680 | Twenty patients                        |       |
| 00681 | Greater than 20 patients (per patient) |       |
|       |                                        |       |

#### Notes:

- i) A separate claim should be submitted for each patient.
- Where two co-therapists are involved in a group of eight or more patients, the group should be divided for claims purposes, with each co-therapist claiming the appropriate rate per patient for the reduced group size. Each claim should indicate "co-therapy" and also identify the other co-therapist.
- iii) Where a group psychotherapy session extends beyond two hours or involves more than 20 patients, a written explanation of need is required by the Plan.
- *iv)* Start and end times must be entered in both the billing claims and the patient's chart.

# PLASTIC SURGERY

## Preamble

Complete understanding of the following paragraphs is essential to appropriate billing of the Plastic Surgery fees, but should be interpreted in the context of the General Preamble.

These listings cannot be correctly interpreted without reference to the Preamble.

### **Definitions**

"Ablation" means destruction of a lesion without excision.

"Advancement flaps" are adjacent tissue transfers based on extensive undermining and layered closure. The medical necessity for a flap or graft occurs when Direct Closure alone would not suffice due to unacceptable wound tension or local distortion. The distances required to be undermined are:

- a. 1 cm nose, ear, eyelid, lip, eyebrow
- b. 1.5 cm other face and neck
- c. 3 cm rest of body

"**Complicated blepharoplasty**" means skin removal and transgression (and occasional partial excision) of orbicularis oculi muscle, as well as at least one of: manipulation of the orbital septum, removal or repositioning of orbital fat, supratarsal fixation of the pre-tarsal skin to the upper tarsal plate.

"Direct closure" means approximation of wound/skin edges with minimal undermining. Simple ligation of vessels in an open wound is considered included in any wound closure.

"Excision" means a procedure involving removal of skin and/or subcutaneous tissue.

"Functional area" means head, face, neck, shoulder, axilla, elbow, wrist, hand, groin, perineum, knee, ankle, foot and includes coverage of exposed vital structures (bone, tendon, major vessel, nerve).

"Incision" means a simple cut or puncture of skin and/or subcutaneous tissue for the purpose of aspiration, drainage, biopsy or extraction of a foreign body.

#### "Lesions:"

#### **Benign Lesions**

Destructive therapies of benign skin lesions are insured services when the treatment is medically necessary. Examples of medical necessity include but are not limited to the following indications:

- *i)* genital warts (condylomata acuminata)
- ii) plantar warts
- iii) viral induced cutaneous tumours in the immune compromised patient
- iv) inflamed dermal and epidermal cyst
- v) dysplastic nevi
- vi) lentigo maligna
- vii) congenital nevi
- viii) actinic (solar) keratosis
- ix) atypical pigmented nevi
- x) painful neurofibromata

The following are <u>not</u> a benefit of MSP, <u>unless</u> there is medically significant pathophysiological dysfunction:

- *i)* excisions for the listed benign skin lesions
- ii) benign nevi
- iii) seborrheic keratosis

- iv) common warts (verrucae)
- v) lipomata
- vi) uncomplicated benign dermal and/or epidermal cysts
- vii) telangiectasias and angiomata of the skin
- viii) skin tags
- ix) acrochordons
- x) fibroepithelial polyps
- xi) papillomata
- xii) neurofibromata
- xiii) dermatofibromata

#### **Premalignant Lesions:**

- dysplastic nevus (nevus with dysplastic features, atypical melanocytic i) hyperplasia, atypical melanocytic proliferation, atypical lentinginous melanocytic proliferation or premalignant melanosis).
- ii) actinic/solar keratosis
- iii) chemical and other premalignant keratoses
- iv) large cell acanthoma
- v) erythroplasia of Queryrat
- vi) leukoplakia and other in-situ lesions such as lentigo maligna, melanoma in-situ and Bowen's Disease and squamous cell carcinoma in-situ are considered malignant.
- vii) locally invasive tumours are considered malignant lesions.

### **Cutaneous Malignant lesions:**

- i) basal cell carcinoma
- ii) squamous cell carcinoma
- iii) malignant melanoma
- iv) lentigo maligna
- v) dermatofibrosarcoma protuberans
- vi) sebaceous carcinoma
- vii) adnexal carcinoma
- viii) atypical fibroxanthoma
- ix) merkel cell carcinomax) eccrine carcinoma
- xi) extramammary Paget's disease
- xii) leiomyosarcoma
- xiii) primary cutaneous adenocarcinoma

"Local Flap closure" means skin and subcutaneous tissue is moved locally to close an adjacent defect.

"Minimal undermining" means less than 1 cm on the nose, ear, eyelid, lip; less than 1.5 cm on the rest of the face; or less than 3 cm for the rest of the body.

"Non-functional area" means posterior trunk, anterior trunk, arm (above elbow), forearm (below elbow), thigh, leg (below knee).

"Operation Only," means listings designated as "operation only," the in hospital post-operative visits within 14 days post-op may be claimed in addition to the surgical procedure with the exception of the visit(s) made the day of the procedure.

"Rotations, Transpositions, Z-plasties" are the same as advancement flaps with the addition of extra incisions required to create the shape the flap.

"Simple repair" of an excision means the wound is superficial (i.e. involving primary epidermis or dermis or subcutaneous tissue without significant involvement of deeper structures), and requires direct closure.

"Skin Flaps and Grafts" Unless otherwise noted, these include creation of the defect (debridement of tissue, excision of a lesion) and closure (creation and placement of flap or graft and the care of the donor site). When bone or tendon grafts or inlay grafts are required with skin flaps or grafts, they can be billed in addition.

"**Simple blepharoplasty**" means simple skin (and possible muscle) removal on the upper lid and involves only skin removal. "Significant blepharochalasia" is defined when the usual field is restricted within 20° of fixation above the horizontal meridian, due to excess upper eyelid skin or brow ptosis.

# **Suture of Lacerations and Minor Traumatic Wounds**

# Wounds – Simple, or involving minor debridement of traumatic wounds

These fees apply to closure using tissue glue (included), direct closure with sutures (included) but <u>not</u> flap/graft (bill in flap/graft section for composite fee). For primary excision and direct closure of benign (medically necessary) and pre-malignant or malignant lesions, bill 61310 to 61318. These fee items are intended for linear/stellate wounds. In the case of wider degloving/abrasion, it is appropriate to bill 70155 to 70169 if wound debrided but left open or treated with Vacuum Assisted Closure (VAC).

|                  | * A layered closure is required when the defect would require too much                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |   |
|                  | tension for an acceptable primary closure. It involves at least two layers of                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |   |
|                  | deep dissolving sutures to close off dead space and take tension off the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |
|                  | wound. A deep cartilage closure is also considered a layered closure.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |   |

### **Lesions and Scars**

For medically necessary excision and/or repair of benign, pre-malignant and malignant lesions and scars, by direct closure, and resulting in linear closure:

### Notes:

- i) Restricted to Plastic Surgery, Orthopaedics and Otolarngology.
- ii) First paid at 100%, 2nd to 5th 50%. The maximum payable for benign and pre-malignant lesions is 5 per sitting. If additional (>5) malignant lesions are removed at the same sitting payment will be made at 25% of the listed fee. If more than 10 malignant lesions are removed at the same sitting a copy of the operative and pathology reports is required.
- iii) Not paid with excision fees 61320, 61321, 61322.

### Trunk, Arms and Legs

| S61310 | Resulting in repair less than 5 cm (operation only)       | 121.81 |
|--------|-----------------------------------------------------------|--------|
| S61311 | Resulting in a repair 5 - 10 cm (operation only)          | 157.33 |
| S61312 | Resulting in a repair greater than 10 cm (operation only) | 233.47 |

### Face, scalp, neck, genitalia, hands, feet, axilla

| S61313 | Resulting in repair less than 5 cm (operation only)     | 168.50 |
|--------|---------------------------------------------------------|--------|
| S61314 | Resulting in repair 5 -10 cm (operation only)           | 223.31 |
| S61315 | Resulting in repair greater than 10 cm (operation only) | 274.07 |

### Eyelids, ears, lips, nose, mucous membrane, eyebrow

| S61316 | Resulting in repair less than 2 cm (operation only)    |  |
|--------|--------------------------------------------------------|--|
| S61317 | Resulting in repair 2 - 4 cm (operation only)          |  |
| S61318 | Resulting in repair greater than 4 cm (operation only) |  |
|        |                                                        |  |

- 61319 For excision of lesion (in hospital), to achieve tumour-free margin with frozen section, (extra)......101.51
  Notes:

  i) Restricted to Plastic Surgery, Orthopaedics and Otolaryngology.
  - Restricted to Plastic Surgery, Onthopaedics a
  - ii) Paid once per sitting.
  - iii) Paid with 61310-61318, 61320-61322 and 61325-61341.

# **Skin Flaps and Grafts**

### **Excision of Malignant and Pre-malignant Lesions**

**Note:** For excision of malignant and pre-malignant lesions, when the recipient area requires skin flaps, full thickness grafts or split thickness grafts for closure, use the following fee items for excision in addition to the fees for skin flaps or grafts. For defects less than  $10 \text{ cm}^2$  (3cm x 3cm), payment is made for closure only.

| 61320 | Area 10-50 cm <sup>2</sup> (minimum 10 cm <sup>2</sup> ) – extra (operation only)           | 2 |
|-------|---------------------------------------------------------------------------------------------|---|
| 61321 | Area 51-100 cm <sup>2</sup> (minimum 51 cm <sup>2</sup> ) – extra (operation only)          | 2 |
| 61322 | Area over 100 cm <sup>2</sup> (minimum 101 cm <sup>2</sup> ) – extra (operation only)182.71 | 2 |

\$

#### Notes:

- *i)* Restricted to Plastic Surgery, Orthopaedics and Otolaryngology.
- ii) Not paid with direct linear closure fees (61310-61318).
- iii) For areas  $\geq 10$  cm<sup>2</sup>.
- iv) Maximum 3 services paid per patient, per sitting, regardless of number performed.
- v) Paid in addition to skin flaps, split-thickness graft or full-thickness grafts (where applicable).
- vi) Paid with 61319 (when applicable).

### Advancement flap fees

#### Notes:

- These fees are for adjacent tissue transfers based on extensive undermining and layered closure. The medical necessity for a flap or graft occurs when direct closure alone would not suffice due to unacceptable wound tension. The distances required to be undermined are:
  - a. 1 cm (nose, ear, eyelid, lip, eyebrow)
  - b. 1.5 cm (other face and neck)
  - c. 3 cm (rest of body)
- ii) Fee items 61324 to 61329 are restricted to Plastic Surgery, Orthopaedics and Otolaryngology.
- iii) These fees include creation and closure of the defect, except when 61320 to 61322 apply.

### Nose, Lids, Lips or Scalp:

| 61324 | - up to 2 cm (operation only)184.75  | 2 |
|-------|--------------------------------------|---|
| 61325 | - 2.1 to 5 cm (operation only)233.47 | 2 |
| 61327 | - 5.1 to 10 cm (operation only)      | 2 |
|       |                                      |   |

### **Other Areas:**

| 61326 | - 2.1 to 5 cm (operation only)181.70                          | 2 |
|-------|---------------------------------------------------------------|---|
| 61328 | - 5.1 to 10 cm (operation only)233.47                         | 2 |
| 61329 | - defects more than 10 cm (such as a thoracic abdominal flap) | 2 |

### Rotations, transpositions, Z-plasty, Limberg or V-Y type flaps

#### Notes:

- *i)* These flaps differ from advancement flaps in that they require skin incisions specifically to create the shape of the flap.
- ii) Fee items 61330 to 61344 are restricted to Plastic Surgery, Orthopaedics and Otolaryngology.

#### Trunk

| 61330 | Defect up to 40 cm <sup>2</sup> 243.61           | 2 |
|-------|--------------------------------------------------|---|
| 61331 | Defect 40 cm <sup>2</sup> to 100 cm <sup>2</sup> | 2 |
| 61332 | Defect greater than 100 cm <sup>2</sup> 423.66   | 2 |

### Arms, legs and scalp

| 61333 | Defect up to 6 cm <sup>2</sup>                 |        | 2 |
|-------|------------------------------------------------|--------|---|
| 61334 | Defect 6 cm <sup>2</sup> to 19 cm <sup>2</sup> | 223.31 | 2 |
| 61335 | Defect greater than 19 cm <sup>2</sup>         |        | 2 |

# **Regional Mandibulo-Facial**

### Guidelines for compounded facial fractures:

- 1) a. When fractures of the zygoma, the orbital floor and medial wall are compounded into the sinuses, no additional fee should be paid for these fractures.
  - b. When fractures of the maxilla and mandible involve the dento-alveolar tissues, and are compounded, no additional fee should be paid (this would include fractures into the tooth socket where a tooth is lost or a fracture into a partially erupted wisdom tooth, or a diastasis to two teeth at the fracture site where the compounding component does not extend further than the dento-alveolar area).

- 2) Significant external compounding of facial fractures is recognized as a factor which compromises the treatment and possible outcome of patients with these injuries. Treatment of these fractures should be billed at 150% of the pertinent listed fee. Operative notes should accurately describe such an injury to support these billings when submitted to MSP.
- 3) Fractures of the maxilla and mandible with intraoral compounding beyond the dentoalveolar bone, therefore exposing basal bone, complicates treatment and possible outcome. These injuries should be billed at 150% of the listed fee (eg: degloving of the maxilla or mandible).

# **Emergency Care**

- 1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
- 2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions: (which are given as examples)
  - a) Cardiac Arrest
  - b) Multiple Trauma
  - c) Acute Respiratory Failure
  - d) Coma
  - e) Shock
  - f) Cardiac Arrhythmia with haemodynamic compromise
  - g) Hypothermia
  - h) Other immediate life threatening situations
- 3. 00081 includes the following procedure items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, nasogastric tubes with or without lavage and urinary catheters (as part of a cardiac arrest).
- 4. 00081 includes the time required for the use and monitoring by the physician of pharmacologic agents such as inotropic or thrombolytic drugs.
- 5. All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which therefore, may be billed in addition when rendered:
- (Note the time required for these procedures should be noted with the claim and deducted from the 00081 time).
  - a) Endotracheal Intubation as a separate entity, ie., not part of a cardiac arrest or followed by an anesthetic.
  - b) Cricothyroidotomy
  - c) Venous cutdown
  - d) Arterial catheter
  - e) Diagnostic peritoneal lavage
  - f) Chest tube insertion
  - g) Pacemaker insertion
- 6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.
- 7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.
- 8. When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.
- 9. When a second or third physician becomes involved in the emergency care of a acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.

\$

- 00082 Monitoring of critically ill patients (when modification of the care and active intervention is not necessary), per half hour or major portion thereof ......63.15 **Note:** Start and end times must be entered in both the billing claims and the patient's chart.

### Trauma - General Services:

These fees are intended for the Trauma Team Leader (TTL) within the facility (or facilities) that a trauma patient may arrive at, requiring treatment.

Trauma Team Leader Assessment and Support fees (10087, 10088, and 10089) will be paid for services to patients demonstrating any one of the following criteria:

### Trauma Team Activation Criteria:

- i) Shock confirmed Blood Pressure < 90 at any time in adults.
- ii) Airway Compromise including intubations.
- iii) Transfer patients from other Emergency Departments receiving blood to maintain vital signs.
- iv) Unresponsiveness Glasgow Coma Score  $\leq 8$  with a mechanism suggestive of injury.
- v) Gunshot or other penetrating wounds to head, neck, chest, abdomen or proximal extremity (at or above knee or elbow).
- vi) Autolaunched Trauma Patient.
- vii) Pediatric Trauma Patient under 16 years of age.
- viii) Special consideration will be given for patients with significant comorbidities, pregnant patients, and patients <5 years of age and >65 years of age.

### Trauma Team Consults:

- i) Spinal cord injury (confirmed or suspected).
- ii) Vascular compromise of an extremity with a traumatic mechanism.
- iii) Amputation proximal to the wrist or the ankle.
- iv) Crush to the chest or pelvis.
- v) Two or more proximal long bone fractures (ie: humerus, femur).
- vi) Burns
  - Partial thickness ( $2^{\circ}$ ) burn  $\geq$  10% and full thickness ( $3^{\circ}$ ) burn
  - Electrical or lightning burn
  - Chemical burn or Inhalation injury
  - Burn injury in patients with significant comorbidities
  - Burn injury with concomitant trauma
- vii) Obvious significant injury and Falls > 20 feet.
- viii) Obvious significant injury and Pedestrian hit (thrown or run over).
- ix) Obvious significant injury and Motorcycle crash with separation of the rider and bike.
- x) Obvious significant injury and -Motor vehicle crash with either
  - Ejection
    - Rollover
  - Speed > 70 kph
  - A death at the scene
- xi) Patients with possible head injury and GCS less than 13.

### All Trauma Assessment and Support fees include:

- Consultation and assessment
- subsequent examinations of the patient
- family counselling
- teleconference with higher level trauma facilities
- ongoing and active daily surgical management of trauma patients including but not limited to:
  - performing tertiary and quaternary survey physical exams
  - assessment and management of active and passive body core warming
  - care of traumatic wounds or burns (including suturing) not requiring a general anesthetic
  - obtaining appropriate surgical consultations and transfer to higher level facilities when needed
  - coordinating with the transplant organ retrieval team, family counselling (related to organ donation) and obtaining consent for organ procurement
- usual resuscitative procedures such as endotracheal intubation, tracheal toilet and artificial ventilation
- extraordinary resuscitative procedures such as resuscitative thoracotomy or emergency surgical airway
- all necessary measures for respiratory support
- insertion of intravenous lines, peripheral and central
- bronchoscopy
- chest tubes
- lumbar puncture
- cut-downs
- arterial and/or venous catheters and insertion of SWAN-GANZ catheter
- pressure infusion sets and pharmacological agents
- insertion of CVP lines
- defibrillation
- cardio-version and usual resuscitative measures
- insertion of urinary catheters and nasal gastric tubes
- securing and interpretation of laboratory tests
- oximetry
- transcutaneous blood gases
- intra-cranial pressure (ICP) monitoring, interpretation and assessment when indicated
- suturing of wounds not requiring a general anesthetic
- ensuring adequate DVT prophylaxis
- reduction of fractures and dislocations (including casting) not requiring a general anesthetic
- clearance of C-spines or appropriate referral

#### Anes. Level

\$

|       | <li>ii) Indicated for those patients experiencing any of the Trauma Team Activation<br/>Criteria.</li>   |  |
|       | <li>iii) Minimum of 2 hours of bedside care required on Day 1 (excluding stand by time).</li>            |  |
|       | <li>iv) Start and end times must be entered in both the billing claims and the<br/>patient's chart.</li> |  |
|       | v) Payable in addition to the adult and pediatric critical care fees at 100%                             |  |

- Not paid with any consult, visit or emergency care fees, by the same practitioner on the same date of service.
- vii) Paid to only one physician for one patient, per facility, per day.

\$

### 10088

### 

### Notes:

- i) Restricted to General Surgeons
- ii) Not paid on same date of service as 10087 or 10089.
- iii) Not paid unless 10087 has been previously claimed (on same PHN).
- *iv)* Not paid in addition to the adult and pediatric critical care fees by the same practitioner.
- v) Not paid with any consult, visit or emergency care fees, by the same practitioner, on the same date of service.
- vi) Payable to only one physician for one patient, per facility, per day.

#### 

- i) Restricted to General Surgeons
- *ii)* Not paid on same date of service as 10087 or 10088.
- iii) Not paid unless 10087 has been previously claimed (on same PHN).
- *iv)* Not paid in addition to the adult and pediatric critical care fees by the same practitioner.
- v) Not paid with any consult, visit or emergency care fees, by the same practitioner, on the same date of service.
- vi) Payable to only one physician for one patient, per facility, per day.

# **Surgical Fee Modifiers**

### Notes:

- *i)* Out-of-Office Hours operative surcharges (01210, 01211 and 01212) are not to be paid on the modifier.
- *ii)* Surgical fee modifiers are excluded from the calculation for total operative fee(s) for which surgical assist fees are based.

### 07001 Surgical Surcharge (Age 75+)......81.57 *Notes:*

- *i)* Payable only to General Surgeons.
- *ii)* Fee item 07001 will be paid only once when multiple procedures are performed under the same anesthetic.
- Payable when the following General Surgery Fee items are performed for iii) patients who are age 75 or older: 07027, 07061, 07072, 07075, 07076. 07082, 07108, 07109, 07110, 07111, 07112, 07143, 07147, 07150,07360, 07363, 07366, 07368, 07402, 07403, 07404, 07405, 07406, 07407, 07408, 07409, 07410, 07411, 07412, 07413, 07431, 07432, 07433, 07434, 07435, 07436, 07437, 07438, 07440, 07441, 07442, 07443, 07444, 07445, 07446, 07447, 07448, 07449, 07452, 07455, 07460, 07470, 07471, 07472, 07473, 07474, 07475, 07479, 07497, 07498, 07516, 07522, 07528, 07536, 07560, 07561, 07562, 07565, 07567, 07569, 07570, 07578, 07580, 07588, 07589, 07597, 07600, 07601, 07603, 07610, 07623, 07624, 07626, 07627, 07628, 07630, 07632, 07634, 07635, 07636, 07640, 07641, 07643, 07645, 07646, 07647, 07648, 07649, 07650, 07651, 07654, 07658, 07660, 07662, 07663, 07665, 07666, 07672, 07675, 07676, 07677, 07678, 07679, 07683, 07685, 07687, 07689, 07698, 07699, 07703, 07705, 07706, 07707, 07711, 07714, 07725, 07732, 07733, 07740, 07741, 07743, 07744, 07745, 07749, 07756, 07758, 07769, 07771, 07776, 07782, 07789, 07790, 07796, 33321, 33322, 33323, 33324, 33325, 33326, 33329, 70084, 70155, 70158, 70159, 70162, 70163, 70165, 70166, 70168, 70169, 70470, 70471, 70473, 70477, 70478, 70479, 70500, 70530, 70531, 70532, 70533, 70534, 70535, 70536, 70538, 70539, 70540, 70541, 70542, 70544, 70545, 70601, 70602, 70603, 70605,

70606, 70607, 70620, 70621, 70622, 70625, 70626, 70627, 70628, 70629, 70630, 70631, 70632, 70633, 70635, 70637, 70641, 70642, 70643, 70644, 70645, 70646, 70648, 70649, 70650, 70660, 70665, 70666, 70668, 70671, 70672, 70674, 70676, 70680, 70683, 70694, 70695, 70698, 70700, 70701 70702, 70703, 70704, 70705, 70712, 70713, 70714, 70715, 70716, 70718, 70720, 70721, 70722, 70725, 70726, 70727, 70728, 70731, 70740, 70742, 70743, 70745, 70747, 70748, 71282, 71290, 71292, 71293, 71380, 71530, 71535, 71536, 71537, 71538, 71539, 71540, 71541, 71542, 71543, 71546, 71548, 71549, 71551, 71606, 71607, 71608, 71609, 71610, 71611, 71612, 71613, 71614, 71615, 71616, 71617, 71618, 71619, 71620, 71621, 71622, 71623, 71624, 71625, 71650, 71651, 71681, 71682, 71684, 71686, 71700, 71703, 71704, 71705, 71706, 71708, 71709, 71710, 71712, 71713, 71714, 71716, 71717, 71718, 71719, 71720, 71721, 71722, 71725, 71746, 72572, 72600, 72601, 72620, 72622, 72623, 72624, 72625, 72626, 72631, 72632, 72633, 72634, 72635, 72636, 72640, 72641, 72644, 72647, 72648, 72650, 72651, 72652, 72653, 72656, 72657, 72658, 72659, 72660, 72665, 72666, 72669, 72670, 72671, 72672, 72673, 72683, 72703, 72704, 72705, 72711, 72713, 72714, 72715, 72720, 72721, 72723, 72725, 72726, 72727, 72728, 72729, 72730, 72731, 72732, 72733, 72734, 72735, 72736, 72737, 72739, 72740, 72741, 72743, 72745, 72751, 72755, 72760, 72762, 72763, 72765, 72767, 72769, 72770, 72775, 72788, 72789, 72794, 72795, 72796, 72797, 72798

P07003 Body Mass Index Surgical Surcharge payable at 25% of listed fee for surgery performed

- The patient has a Body Mass Index (BMI) greater than 35 for major surgery on the peritoneal cavity, pelvis, retroperitoneum or 40 for major surgery on the neck.
- The surgery is rendered under general anesthesia using either an open technique for the neck, or an open or laparoscopic technique for the peritoneal cavity, pelvis or retroperitoneum.
- The principal surgical technique is neither aspiration, core or fine needle biopsy, dilation, endoscopy, cautery, ablation nor catheterization.

#### Notes:

- ) Payable only to General Surgeons.
- Patient's BMI must be provided in the claim note record and documented in the patient's chart and/or operative report.
- iii) Maximum of one surcharge per operation unless two general surgeons perform two synchronous surgeries that are both eligible for the surcharge.
- *iv)* When multiple procedures are performed during the same operation, the surcharge applies to all eligible procedures based on the prorated value according to the surgical preamble for multiple procedures.
- v) The surcharge does not apply to surgical fee modifier 07001 (Surgical Surcharge Age 75+) but may be paid in addition.
- Payable when the following General Surgery fee items are performed for vi) patients with a BMI greater than 35: 07134, 07360, 07363, 07366, 07368, 07402, 07403, 07404, 07405, 07406, 07407, 07408, 07409, 07410, 07411, 07412, 07413, 07431, 07432, 07433, 07434, 07435, 07436, 07437, 07438, 07440, 07441, 07442, 07443, 07444, 07445, 07446, 07447, 07448, 07449, 07450, 07451, 07452, 07455, 07474, 07475, 07479, 07565, 07566, 07567, 07569, 07570, 07578, 07580, 07588, 07589, 07596, 07597, 07600, 07601, 07603, 07610, 07623, 07624, 07626, 07627, 07628, 07630, 07632, 07633, 07634, 07635, 07636, 07640, 07641, 07643, 07645, 07646, 07647, 07648, 07649, 07650, 07651, 07654, 07655, 07658, 07660, 07662, 07663, 07664, 07672, 07698, 07699, 07703, 07705, 07706, 07707, 07711, 07714, 07732, 07733, 07756, 07758, 07764, 07769, 07776, 70024, 70025, 70501, 70503, 70504, 70505, 70506, 70509, 70511, 70531, 70532, 70533, 70534, 70535, 70536, 70538, 70539, 70540, 70541, 70542, 70544, 70601, 70602, 70603, 70604, 70605, 70606, 70607, 70620, 70621, 70622, 70624, 70625, 70626, 70627, 70628, 70629, 70630, 70631, 70632, 70633, 70635, 70641, 70646, 70648, 70649, 70650, 70651, 70660, 70661, 70665, 70666, 70668, 70670,

### Vascular

### Venous

#### **Chronic or Varicose Veins**

**Note:** Treatment of varicose vein pathology is a benefit under MSP only if the patient is symptomatic with varicose veins of at least 3 mm and has one or more of the following:

- *i)* Pain, aching, cramping, burning, itching and/or swelling during activity or after prolonged standing severe enough to impair mobility.
- *ii)* Recurrent episodes of superficial phlebitis.
- iii) Non-healing skin ulceration.
- iv) Bleeding from a varicosity.
- v) Stasis dermatitis.
- vi) Refractory dependent edema.

# **VASCULAR SURGERY**

These fees cannot be correctly interpreted without reference to the Preamble.

Note: Asterisk items (\*) operation only - refer to Orthopaedic Preamble 1.

### Preamble

Complete understanding of the following paragraphs is essential to appropriate billing of the Vascular Surgery fees. These definitions should be interpreted with reference to the General Preamble.

### **Definitions**

### Preparation of the operative site

All pre-operative steps involved in reducing the risk of surgical site infection including: the administration of systemic antimicrobial therapy, hair removal with the use of clippers, reducing the endogenous microbial flora at a planned surgical incision site by the application of antiseptic solution, and the draping of the surgical field to minimize operative site contact.

### Multiple Surgical Procedures (from General Preamble)

### D. 5. 3. Multiple Surgical Procedures

i) When two or more similar procedures (including bilateral procedures) are performed under the same anesthetic, or when two or more procedures are performed in the same general area, whether through the same incision, an extension of that incision or through separate incisions, the procedure with the greater listed fee may be claimed in full and the fees for the additional procedure are reduced to 50 percent, unless otherwise indicated by the Schedule. However, additional incidental surgery performed en passant (i.e. surgery which would not have been performed in the absence of the primary procedure, such as an appendectomy during abdominal surgery, or incidental cystectomy during gynecological surgery) is considered to be included in the fee for the planned procedure and may not be charged.

### Open surgical procedures are defined as:

All open surgical procedures required in optimizing perfusion and maximizing durability of the operation. Additional open surgical procedures are not considered preparation of the operative site. Additional open surgical procedures accompanying the first open surgical procedure will be limited to one per anatomically named vessel despite vessel continuity in series or in parallel.

### Hybrid vascular surgery (open combined with endovascular procedures)

Open surgical procedures are considered separate billable procedures from endovascular procedures in the context of hybrid revascularization. The initial open procedure with the greater fee may be claimed in full and additional open surgical procedures are reduced to 50%. Additional endovascular procedures are billed at 50% of the listed fee for the first and 25% of the listed fee for the second. To a maximum of two angioplasties (77113, 77114) and/or two stents (10919).

Example:

In cases of combined endovascular procedures involving 77113 and 77114, the higher 77113 fee may be claimed in full and the lower 77114 fee is reduced to 50%.

When combined with open vascular procedures in the setting of hybrid revascularization, any subsequent 77113 or 77114 angioplasty and 10919 intraoperative stenting is to be paid at 50% for the first additional and 25% for the second additional anatomical named vessel to a maximum of two additional 77113 or 77114 and two additional 10919 per operation.

One or more angioplasty 77113 or 77114 or stent 10919 per anatomical named vessel will be considered as one angioplasty and stent of that anatomical named vessel despite vessel continuity in series or in parallel with other vessels requiring intervention.

The fee code includes any and all diagnostic imaging required to complete the procedure.

### **Endovascular surgery**

When angioplasty 77113 or 77114 is performed as isolated endovascular procedure (not in combination with open surgery), multiple angioplasties done during the same procedure on different anatomical named vessels are paid as follows: the first is paid at 100%, the second at 50%, the third at 25% to a maximum of 3 endovascular interventions. Simultaneous stenting 10919 on differing anatomical named vessels is to be paid: the first at 100%, the second at 50%, and the third at 25% to a maximum of 3 stents.

One or more angioplasty 77113 or 77114 or stent 10919 per anatomical named vessel will be considered as one angioplasty and stent of that anatomical named vessel despite vessel continuity in series or in parallel with other vessels requiring intervention.

The fee code includes any and all diagnostic imaging required to complete the procedure.

#### Intraoperative open or percutaneous tibial artery angioplasty 77113 anatomical named vessels

Refers to the following four anatomical named vessels: Anterior tibial artery Posterior tibial artery Peroneal artery Tibioperoneal trunk

### Intraoperative open or percutaneous angioplasty 77114 anatomical named vessels

Refers to angioplasty of the following anatomical named vessels with the exception of the 77113 named vessels as defined above.

#### Upper extremity vessels

Right brachial artery Right radial artery Right ulnar artery Left brachial artery Left radial artery Left ulnar artery

### Lower extremity vessels

Right common femoral artery Right superficial femoral artery Right profunda femoral artery Right popliteal artery Left common femoral artery Left superficial femoral artery Left profunda femoral artery Left popliteal artery

#### Intra abdominal vessels

Abdominal aorta Celiac axis Hepatic artery Splenic artery Superior mesenteric artery Inferior mesenteric artery Right common iliac artery Right external iliac artery Right internal iliac artery Left common iliac artery Left external iliac artery Left internal iliac artery Right renal artery Left renal artery Left renal artery

#### Thoracic vessels

Ascending thoracic aorta Transverse thoracic aorta Descending thoracic aorta Brachiocephalic artery Right common carotid artery Right subclavian artery Right vertebral artery Left common carotid artery Left subclavian artery Left vertebral artery

#### **Cervical vessels**

Right common carotid artery Right internal carotid artery Right external carotid artery Left common carotid artery Left internal carotid artery Left external carotid artery

### **Emergency Care**

- 1. 00081 is to be used for the evaluation, diagnosis and treatment of a critically ill patient who requires constant bedside care by the physician.
- 2. A critically ill patient may be defined as a patient with an immediately life threatening illness/injury associated with any of the following conditions (which are given as examples):
  - (a) Cardiac Arrest
  - (b) Multiple Trauma
  - (c) Acute Respiratory Failure

\$

- (d) Coma
- (e) Shock
- (f) Cardiac Arrhythmia with haemodynamic compromise
- (g) Hypothermia
- (h) Other immediate life threatening situations
- 3. 00081 includes the following procedure items where required: defibrillation, cardioversion, peripheral intravenous lines, arterial blood gases, nasogastric tubes with or without lavage and urinary catheters, intubation (as part of a cardiac arrest).
- 00081 includes the time required for the use and monitoring by the physicians of pharmacologic agents such as inotropic or thrombolytic drugs.
- All other procedural fee items not specifically listed in #3 above are not included in 00081. Below are listed some of the procedures that are not included and which, therefore, may be billed in addition when rendered: (Note - the time required for these procedures should be noted with the claim and deducted from the 00081 time).
  - (a) Endotracheal Intubation as a separate entity, i.e. not part of a cardiac arrest or followed by an anesthetic
  - (b) Cricothyroidotomy
  - (c) Venous cutdown
  - (d) Arterial Catheter
  - (e) Diagnostic Peritoneal lavage
  - (f) Chest tube insertion
  - (g) Pacemaker insertion
- 6. 00081 is not intended for standby time such as waiting for laboratory results, or simple monitoring of the patient.
- 7. When a consultation fee is charged in addition to 00081, for billing purposes the consultation fee shall constitute the first half hour of the time spent with the patient.
- 8. When surgery is performed by the same doctor after prolonged emergency care, the surgical fee may be charged in addition to the appropriate emergency care fee.
- 9. When a second or third physician becomes involved in the emergency care of an acutely ill patient requiring continuous bedside care, item 00081 is applicable just as it is to the attending physician who is first on the scene.

### **Out-Of-Office Hours Premiums**

These listings cannot be correctly interpreted without reference to the Explanatory Notes in the Out-of-Office Hours Premiums Section.

### **Call-Out Charges**

Extra to consultation or other visit or to procedure if no consultation or other visits charged.

| 01200 | Evening (call placed between 1800 hours and 2300 hours and service rendered between 1800 hours and 0800 hours) | .42 |
|-------|----------------------------------------------------------------------------------------------------------------|-----|
| 01201 | Night (call placed and service rendered between 2300 hours and 0800 hours)                                     |     |
| 01202 | Saturday, Sunday or Statutory Holiday (call placed between 0800 hours and 2300 hours)                          |     |

Note: Claims must state time service rendered.

### **Continuing Care Surcharges**

### a) NON-OPERATIVE

Applicable when an out-of-office hours call-out charge is applicable or when specially called for an emergency. Timing begins after the first 30 minutes for consultations, visits or anesthetic evaluation. Payment is based on one half hour of care or major portion thereof. Therefore, the first surcharge is billable after 45 minutes of continuous care.

Applicable also, without the 30 minute time lapse and with timing continuing, to immediately subsequent patients seen on the same call-out as an emergency.:

Surcharges do not apply to time spent standing by and are based on the amount of time providing care, regardless of the number of patients attended or services provided.

| 01205 | Evening (service rendered between 1800 hours and 2300 hours)         |       |
|-------|----------------------------------------------------------------------|-------|
|       | - per half hour or major part thereof                                | 56.48 |
| 01206 | Night (service rendered between 2300 hours and 0800 hours)           |       |
|       | - per half hour or major part thereof                                | 77.21 |
| 01207 | Saturday, Sunday or Statutory Holiday (Service rendered between 0800 |       |
|       | hours and 2300 hours) - per half hour or major part thereof          | 56.48 |

### Notes:

- *i)* Claim must state start and end times
- ii) Where timing is continuous, submit an account for each patient, indicating "CCFPP" (continuing care from previous patient).
- iii) Not applicable to full or part-time emergency physicians or to onsite practitioners providing coverage in drop-in emergency clinics or hospital emergency rooms.

### b) OPERATIVE

Applicable only to emergency surgery or to elective surgery which, because of intervening emergency surgery, commences within the designated times. Applicable only to surgical procedure(s) requiring general, spinal or epidural anesthesia and/or requiring at least 45 minutes of surgical time.

| Evening(1800 hours to 2300 hours ) – 38% of surgical (or assistant) fee -                                         |                                                                                                                                                                                                                            |

|                                                                                                                   | minimum charge<br>- maximum charge<br>Night (2300 hours to 0800 hours) –61% of surgical (or assistant) fee -<br>minimum charge<br>- maximum charge<br>Saturday, Sunday or Statutory Holiday (Service rendered between 0800 |

#### Notes:

- *i)* When surgery commences within evening time period (1800 -2300 hrs) and continues into night time period (2300-0800hrs), the appropriate item for billing is determined by the period in which the major portion of the surgical time is spent.
- When emergency surgery commences prior to 1800, even if the major portion of surgical time is after 1800, surgical surcharges are not applicable.
   If emergency surgery approach prior to 0800 and applicable.
- iii) If emergency surgery commences prior to 0800 and continues after 0800 hours, surcharges are applicable to the entire surgical time.
- iv) Claim must state time surgery commenced.

### Venous

### **Chronic or Varicose Veins**

**Note:** Treatment of varicose vein pathology is a benefit under MSP only if the patient is symptomatic with varicose veins of at least 3 mm and has one or more of the following:

- *i)* Pain, aching, cramping, burning, itching and/or swelling during activity or after prolonged standing severe enough to impair mobility.
- *ii)* Recurrent episodes of superficial phlebitis.
- iii) Non-healing skin ulceration.
- iv) Bleeding from a varicosity.
- v) Stasis dermatitis.
- vi) Refractory dependent edema.

### **Arterial System**

### Notes: Repeat Vascular Surgery

- i) Same procedure within 24 hours 75% of listed fee.
- ii) Same procedure after 24 hours see repeat surgery items 77043, 77112 and applicable notes.

### Removal of synthetic graft:

- without replacement (payable at 100% of the current fee listed for the initial insertion).
- with replacement at the same site (payable at 50% of the current fee listed for the initial insertion), extra to the replacement graft.
- with replacement at a different site (payable at 75% of the current fee listed for the initial insertion), extra to the replacement graft.
   Notes:
  - i) 77100, 77102, & 77104 are payable only where more than 21 days have elapsed since insertion and where more than 50 percent of the graft is removed.
  - *ii)* 77043 is not payable in addition to 77100, 77102, 77104, nor to the replacement graft where removal also is claimed.
  - *iii)* Initial graft procedure fee code should be submitted with claim as a note record.
  - *iv)* Anesthetic procedural fee should be claimed in equity with that listed for the initial insertion (for 77100), and in equity with that listed for the replacement graft (for 77102, 77104).

### **Repeat Surgery**

### **Groin Dissection:**

| C77110 | Re-exploration of groin for bleeding or hematoma (operation only)1 | 25.47 | 4 |
|--------|--------------------------------------------------------------------|-------|---|
| 77112  | Re-dissection of groin (after 21 days) - extra1                    | 32.47 | 4 |
|        | Note: Not payable with fee items 77100, 77102, 77104, or 77043.    |       |   |

### Re-operation:

77043 Re-dissection of artery/vein at site of previous anastomosis, arteriotomy or venotomy - (after 21 days) - extra. Payable at 25% of listed fee for surgery performed.

### Notes:

- *i)* Payable once per side only.
- *ii)* Not payable with fee items 77100, 77102, 77104, or 77112.

### **Arterial Procedures**

### Therapeutic procedures utilizing radiological equipment:

### Notes:

- *i)* Intraoperative renal artery angioplasty payable in addition at 50% of fee item 00982 when done.
- *ii)* Intravascular stent placement extra (10919) paid in addition under 10919 at 100%.
- *iii)* This fee will not be paid to the primary operator.

|       | Note: The Doppler Vascular listings are applicable to hospital-based, accredited                                                                |
|       | and approved ultrasound vascular studies laboratories only.                                                                                     |

## **DIAGNOSTIC RADIOLOGY**

These listings cannot be correctly interpreted without reference to the Preamble (Applicable in full for Certified Radiologists).

\*Service is payable to Certified Radiologists only.

## Diagnostic Radiology Telemetry

# **Definition:** The electronic transmission of radiological images from one site to another for interpretation.

For diagnostic radiology telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines as follows.

### Telemetry Billing Guidelines:

- a) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation
- b) Facility number field the facility number of the diagnostic facility where the image was taken
- c) Sub-Facility field the facility number of the diagnostic facility where the image was interpreted
   zeros if interpreted at the same site where the image was taken
- d) Service charges (fee items 01200 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.
- e) The original site should ensure that only one interpretation is billed to MSP.
- f) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician

## Bone Mineral Densitometry Using DEXA Technology

| 08688<br>08689<br>08696 | Bone density - single area                                                                                                                      |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
|                         | i) Please refer to the May 1, 2011 Guideline "Osteoporosis: Diagnosis,                                                                          |
|                         | Treatment and Fracture Prevention" to determine if service is payable by                                                                        |
|                         | MSP. Claims for males and females <50 require written explanation                                                                               |
|                         | indicating risk factor.                                                                                                                         |
|                         | ii) Altering patient care requires one of the following:                                                                                        |
|                         | a) prescribing bisphosphonates (ie: fosomax)                                                                                                    |
|                         | b) weaning patient off glucocorticosteriods (ie: prednisone)                                                                                    |
|                         | c) adequate ongoing monitoring (in cases of primary hyperparathyroidism)                                                                        |
|                         | iii) Not payable for following indications:                                                                                                     |
|                         | a) chronic back pain                                                                                                                            |
|                         | b) kyphosis                                                                                                                                     |
|                         | c) menopause                                                                                                                                    |
|                         | d) routine bone density screening                                                                                                               |
|                         | <li>iv) Additional areas paid to a maximum of one, except for unusual<br/>circumstances, which must be accompanied by written explanation.</li> |
|                         | v) Repeat scans are not billable within three years of a previous scan, except                                                                  |
|                         | for indications outlined in the guidelines, which must be accompanied by                                                                        |
|                         | written explanation.                                                                                                                            |
|                         | vi) Claims for whole body bone density must be accompanied by written                                                                           |
|                         | explanation of need.                                                                                                                            |
|                         | vii) Includes any lumbar and/or hip radiographs taken as a part of the procedure.                                                               |
|                         | Medically necessary lumbar and/or hip radiographs for other disease                                                                             |
|                         | processes may be billed when accompanied by written explanation.                                                                                |
|                         | viii) Restricted to certified radiologists or nuclear medicine physicians and                                                                   |
|                         | individuals who have received approval from the College of Physicians and                                                                       |
|                         | Surgeons of BC (CPSBC) to perform these tests, and the tests are provided                                                                       |
|                         | in a DAP accredited and MSC approved facility.                                                                                                  |

## **Computerized Tomography**

### **Professional Fees:**

| *08690 | Head scan - without contrast                                                      | 45.58 |
|--------|-----------------------------------------------------------------------------------|-------|
| *08691 | - with contrast                                                                   |       |
| *08692 | - double scan or 2 planes                                                         |       |
| *08693 | Body scan - one region without contrast                                           |       |
| *08694 | - one region with contrast                                                        |       |
| *08695 | - double scan or two regions                                                      |       |
| P83090 | Cardiac CT/CT Coronary Angiography, Professional fee                              |       |
|        | Notes:                                                                            |       |
|        | i) Paid once daily per patient.                                                   |       |
|        | ii) Includes cardiac gating and 3D imaging post-processing, cardiac structure     |       |
|        | and morphology and computed tomographic angiography of coronary arteries          |       |
|        | (including native and anomalous coronary arteries, coronary bypass grafts         |       |
|        | and requires imaging without contrast material followed by contrast materials.    |       |
|        | <li>iii) Includes supervision of oral beta blockers and/or IV injection.</li>     |       |
|        | iv) Paid only for a minimum of a 64-detector CT scanner.                          |       |
|        | <ul> <li>Restricted to Radiologists with a minimum of Level 2 CCTA; or</li> </ul> |       |
|        | other duly qualified Specialists with a minimum of Level 2 CCTA who also          |       |
|        | meet the American College of Radiology standards of competency in                 |       |
|        | Performing and Interpreting Diagnostic Computed Tomography, and                   |       |
|        | Performance of (Adult) Thoracic Computed Tomography.                              |       |

- vi) Paid only for the following indications:
  - Diagnosis of obstructive CAD in symptomatic patients with an intermediate pre-test likelihood of CAD; or symptomatic patients with equivocal/inclusive stress test results.
  - b) Assessment of patency or course of coronary bypass grafts.
  - c) Exclusion of obstructive CAD in low risk patients who require invasive coronary angiography.
  - d) Identification or definition of the course of anomalous coronary arteries.
  - e) Assessment of LV or RV size, volume, and function when alternative imaging modalities are unavailable or inconclusive.
  - f) Assessment of pulmonary venous anatomy before and after pulmonary vein isolation for arterial fibrillation. Assessment of coronary venous anatomy prior to cardiac resynchronization therapy.
  - g) Assessment of cardiac and extra-cardiac structures (e.g.: aorta, pericardium, and cardiac masses) and non-cardiac structures (e.g.: lungs, pleura, spine, mediastinal structures (esophagus, lymph nodes), ribs and chest musculature.
- vii) Not paid for coronary calcium scoring.
- viii) Not paid with 08693, 08694 or 08695.
- ix) Not paid with a consult or a visit on the same day.

#### 

- Paid only as a diagnostic procedure, only in circumstances where optic colonoscopy is not technically possible, or clinically unsafe.
- ii) Restricted to Radiologists.
- iii) Restricted to referrals by Gastroenterologists, General Surgeons and General Internal medicine specialist.
- iv) Rural GP's (in RSA communities) can refer patients for this procedure in communities where a specialist referral is not available.
- v) Paid on out-patients only.
- vi) Paid in addition to 08695, same patient, same day.
- vii) Maximum one per patient per day.

## Interventional Radiology

**Note:** The following fees are specific to physicians' professional fees for the following services:

| 83000 | regio | rventional Radiology Consultation: To include pertinent patient history,<br>onal physical examination, review of laboratory and radiological findings |
|-------|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
|       |       | generation of a written report82.73                                                                                                                   |
|       | Note  |                                                                                                                                                       |
|       | i)    | Payable only to physicians with appropriate training in interventional radiology.                                                                     |
|       | ii)   | Must be initiated by written request by another physician.                                                                                            |
|       | iii)  | Payable only when patient is referred for an interventional radiological                                                                              |
|       | ,     | procedure which requires extensive discussion and review of all available data.                                                                       |
|       | iv)   | Includes all patient visits necessary.                                                                                                                |
|       | v)    | Repeat consultation not applicable for same condition, same patient within 6 months.                                                                  |
|       | vi)   | The IR consultation fee is not applicable for simple biopsies or aspirations or                                                                       |

## **DIAGNOSTIC ULTRASOUND**

### (Full Fee for all Qualified Physicians)

**Preamble:** Real-time Ultrasound Fees may only be claimed for studies performed when a physician is on site in the diagnostic facility for the purpose of diagnostic ultrasound supervision.

### **Diagnostic Ultrasound Telemetry**

**Definition:** The electronic transmission of diagnostic ultrasound images from one site to another for interpretation.

For diagnostic ultrasound telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines as follows:

### Telemetry Billing Guidelines:

- a) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation
- b) Facility number field the facility number of the diagnostic facility where the image was taken
- c) Sub-Facility field the facility number of the diagnostic facility where the image was interpreted
  - zeros if interpreted at the same site where the image was taken
- d) Service charges (fee items 01200 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.
- e) The original site should ensure that only one interpretation is billed to MSP.
- f) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician

Real time ultrasound fees may only be claimed for studies performed by telemetry when:

- the facility currently holds a remote site designation from the Medical Services Commission. (Facilities should recognize that once the volume of services justifies full-time radiologist's coverage remote site designation may be removed.); and,
- the use of telemetry will not negatively affect the existing on-site visit schedules of the radiologists; and,
- the majority of scans will continue to be scheduled when the visiting radiologist is on-site for the purpose of ultrasound supervision.

## LABORATORY MEDICINE

These listings cannot be correctly interpreted without reference to the Preambles.

These fee items may not be billed by Laboratory Medicine physicians who are being compensated under a service contract, sessional or salary agreement with a Health Authority for the same period of time in which the consultation/visit service is rendered. Further, no Laboratory Medicine physician who is being compensated under a service contract, sessional or salary agreement for a full time equivalent shall be entitled to bill these fee items. Special authority must be received from the Doctors of British Columbia before Medical Services Plan will consider honouring accounts submitted for these fee items.

### **Consultations and Visits**

## PREAMBLE TO THE NUCLEAR MEDICINE SCHEDULE

### **Nuclear Medicine Telemetry**

**Definition:** The electronic transmission of nuclear medicine images from one site to another for interpretation.

For nuclear medicine telemetry services to be considered as benefits under the Medical Services Plan:

- the transmitting and receiving sites must be located within Medical Services Commission approved and Diagnostic Accreditation Program accredited diagnostic facilities;
- the services are rendered to out-patients
- the services are billed in accordance with the Telemetry Billing Guidelines as follows:

### **Telemetry Billing Guidelines:**

- a) Services must be billed by the facility where the image was taken using the practitioner number of the physician who did the interpretation
- b) Facility number field the facility number of the diagnostic facility where the image was taken
- c) Sub-Facility field the facility number of the diagnostic facility where the image was interpreted
   zeros if interpreted at the same site where the image was taken
- d) Service charges (fee items 01200 01202) are only billable when a physician is required to travel from home to hospital in order to perform a telemetry service for an outpatient and when the *MSC Payment Schedule* criteria are met.
- e) The original site should ensure that only one interpretation is billed to MSP.
- f) In those rare cases when a second radiological opinion is requested by the referring physician, a radiologist may bill for the service using fee item 08628, provided written radiological report is sent to the referring physician

### **Nuclear Medicine Preamble:**

- 1. A separate fee item for SPECT is not required, since SPECT is included in the scan fee when performed. Fee item 09877 (repeat of major scan) should not be billed for SPECT.
- 2. When medically necessary, the following items are billable with Nuclear Medicine Listings. A note record is required:
  - a) Fee item 00016 (intrathecal medications by injection) is billable with fee item 09886 (Cisternography).
  - b) Fee item 00015 (Intra-articular medications by injection tendons, bursae, and all other joints) is billable with fee item 09890 (Therapeutic joint injection with isotope).
- 3. When required for patient care, and the results are not available, laboratory tests such as a pregnancy test or hematology profile may be requested by a Nuclear Medicine Physician subject to the provisions of the Laboratory Services Payment Schedule.

- 4. When plain film radiographs are required and not available, these may be requested by a Nuclear Medicine Physician for correlation.
- 5. Fee item 09866 (Perfusion study [dynamic scan], regional or organ) this fee item is only billable in addition to the following scans and only when not rendered immediately prior to a scan:
  - a) 09824 Testicular imaging isolated procedure
  - b) 09834 Bone Scan (only for indications listed under this fee item)
  - c) 95045 RBC (Red Blood Cell) Liver Scan
- 6. When it is medically necessary to perform an aspiration in addition to a Nuclear Medicine scan, it is appropriate to bill the applicable joint aspiration fee (e.g.: 00757). A note record is required.
- 7. Fee item 09877 (Repeat of major scan no additional radionuclide) can only be billed with the following scans if additional (delayed) imaging is performed. Fee item 09877 may not be used for SPECT:
  - a) 09806 Parathyroid imaging
  - b) 09807 M.I.B.G. imaging (I131-metaiodobenzyl-guanidine)
  - c) 09817 Receptor imaging
  - d) 09826 Tumour imaging
  - e) 09829 Adrenal imaging
  - f) 09844 Red cell survival study
  - g) 09854 Thallium myocardial scan
  - h) 09867 Brain scan, static
  - i) 09869 Pancreas scan, static
  - j) 09886 Cisternography
  - k) 95015 lodine 131 whole body scan
  - I) 95053 Thallium Body Imaging
  - m) 95055 Renal imaging with Pharmaceuticals (isolated procedure)
  - n) 95060 Renal imaging without pharmaceuticals (isolated procedure)
  - o) 95065 White blood cell labelled with radioisotope (if views are performed on separate days or 24 hours apart)
  - p) 09834 Bone scan (only if 24 hour views are performed
  - q) 09878 Liver clearance of H.I.D.A. (biliary scan) (if 24 hour views are performed)
  - r) 95025 Liver clearance of H.I.D.A. with pharmaceutical (if 24 hour views are performed)

## SPECIALIST SERVICES COMMITTEE INITIATED LISTINGS

### 1. Preamble

The following Specialist Services Committee (SSC) fee items are billable only by Specialists certified by the Royal College of Physicians and Surgeons of Canada.

The objectives of SSC fees are to reduce unnecessary face-to-face encounters, to reduce care gaps, and to provide more timely care from the most appropriate physician, thereby improving patient care.

- 1. For the purposes of this section, face-to-face services include consultation; office, home or hospital visit; and any diagnostic, therapeutic, anesthetic or surgical procedure with both physician and patient in the same room.
- 2. SSC fees are not payable for situations where the sole purpose of the communication is to:
  - a) book an appointment
  - b) arrange for transfer of care that occurs within 24 hours
  - c) arrange for an expedited consultation or procedure within 24 hours
  - d) arrange for laboratory or diagnostic investigations
  - e) inform the referring physician of results of diagnostic investigations
  - f) arrange a hospital bed for the patient
  - g) renew prescriptions with a pharmacist.
- 3. For Fee items G10001, G10002, G10003, G10004, refer to section D.1. Telehealth Services of the General Preamble.
- 4. G10002, G10004, and G10005: All registered and regulated health care providers can serve as referral sources. When advice is requested by an Allied Care Provider not registered with MSP use the generic practitioner number 99987: Advice requested by an Allied Care Provider. (Not applicable to referred case fee items such as consultations or Specialist visits).
- 5. At minimum, the following is required, and the practitioner is responsible for keeping their practice consistent with any new guidelines which may be published by the Canadian Medical Protective Association (CMPA) and/or the College of Physicians and Surgeons of British Columbia (CPSBC).

Electronic communication as part of patient care must ensure that security and patient confidentiality are maintained and guarded in the same way that paper records are protected.

- The CMPA and the CPSBC recommendations regarding the use of electronic communications indicate three major areas of potential liability:
  - Confidentiality/privacy/security
  - Timeliness of Response
  - Clarity of Communication
- Document consent. Obtain express and informed consent before transmitting patient information. Refer to the CMPA Template for consent to use electronic communications: <u>https://www.cmpa-acpm.ca/</u>
- Document discussion & advice for all communications.
- The email record should be included in the patient record.
- Develop clear, written policies around use of email.
- Communication between providers should clearly identify the most responsible physician (MRP).
- Information should be encrypted as an attachment, or, at a minimum, password protected. Send password or cryptographic key separately.
- Use secure communication modalities (i.e. Health authority email addresses) if possible.
- Email addresses need to be double-checked.

- SSC fees are payable for face-to-face, telephone, video conference and email communication. Review the individual fee notes which identify their respective eligible communication modality. SSC fees are not eligible for communication by instant message, text or short message service (SMS) modality.
- 7. SSC fees are not payable to physicians for services provided within time periods when working on salary, service contract or sessional arrangement.
- 8. No claim may be made where communication or service is with a proxy for the billing physician.
- 9. The SSC reserves the right to re-value, modify, suspend or cancel these fee items. Fees will be monitored to ensure that the overall expenditures do not exceed the funds available.
- 10. Out-of-Office Hours Premiums may not be claimed in addition.
- 11. G10001, G10002, G10004 and G10005 are not payable for the same patient on the same date of service if adult or pediatric critical care team fees have been paid to the same practitioner or a practitioner who belongs to the same critical care team.

### 2. SSC Fees

**Note:** These fees cannot be correctly interpreted without reference to the Preamble for SSC Fees above, and the Eligibilities preceding each set of fee items below.

### Specialist Advice Fees G10001, G10002, G10005

### Eligibility

The intent is to replace the need for the Specialist to see the patient in person. The consulting Specialist is responsible for ensuring that such communication meets the medical needs of the patient.

#### Notes:

- Payable to Specialists for communication regarding assessment and management of a patient but without the consulting physician seeing the patient.
- ii) Includes discussion of pertinent family/patient history, history of presenting complaint, and discussion of the patient's condition and management after reviewing laboratory and other data where indicated.
- iii) An adequate medical record/chart, including times as specified under each fee item, is required.
- iv) Not payable to physician initiating communication.
- v) The Specialist is responsible for the confidentiality and security of all records, and electronic transmissions. For video technology, see Section D. 1. of the Preamble.
- vi) G10001, G10002, G10005 may not be delegated to resident physicians.
- - *i)* Payable for telephone, video technology or face-to-face communication only. Not payable for written communication (i.e. fax, letter, email).
  - *ii)* Document time of initiating request, time of response, as well as advice given and to whom.
  - *iii)* Include the practitioner number of the physician or Health Care Practitioner requesting the advice in the "referred by" field when submitting claim.

|        | <ul> <li>patient by the same practitioner.</li> <li>v) Limited to one claim per patient per physician per day.</li> <li>vi) Not payable if there is a paid visit/service for the same condition by the same practitioner in the previous 180 days.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Total<br>Fee \$ |

iv) Not payable in addition to another service on the same day for the same

vii) Not payable if there is a paid visit/service for the same condition by the same MD in the previous 30 days.

## Specialist Patient Follow-up Fees G10003, G10006

## Eligibility

The purpose of these fees is for the Specialist to provide advice when the intent of communication is to replace the need for the Specialist to see their own patient in person. The consulting Specialist is responsible for ensuring that appropriate communication is used to meet the medical needs of the patient.

## Notes:

*i)* These fees apply to communication between the Specialist and his/her own patient or patient's representative.

- ii) Patient management requires two-way communication about clinical matters between the patient or patient's representative and the physician; the fee is not billable for administrative tasks such as appointment booking or notification.
- iii) An adequate medical record/chart entry is required.
- *iv)* Not payable in addition to a different service on the same day for the same patient by the same practitioner.

### Specialist Patient Follow-up Fees G10003, G10006

| G10003 | Specialist Patient Management / Follow-up – per 15 minutes or portion                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|        | thereof                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|        | Notes:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|        | <ul> <li>i) For verbal, real-time telephone and video technology communication<br/>(including other forms of electronic verbal communication) only. Not payable<br/>for written communication (i.e. fax, letter, email).</li> <li>ii) Documentation in the medical record to show that the patient understood and<br/>acknowledged the information provided.</li> <li>iii) Include start and end times in the medical record, and in time fields when<br/>submitting claim.</li> <li>iv) Face-to-face service must have been billed for the same patient by the same<br/>physician within the preceding 18 months.</li> </ul> |
| G10006 | <ul> <li>Specialist Email Patient Management / Follow-up</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## **Multidisciplinary Conferencing for Complex Patients G10004**

### Eligibility

This fee is only billable for a scheduled meeting to discuss and plan medical management of patients with serious and complex problems under extraordinary circumstances that the Specialist cannot manage by him/herself. Payable only when coordination of care is required via a collaborative conference with at least two of the following in addition to the Specialist billing: Specialists, GPs, Allied Care Providers and/or coordinators of the patient's care.

#### Notes:

- *i)* Includes scheduled face-to-face, telephone or video technology communication regarding assessment, clinical coordination and management of a complex patient.
- *ii)* All Specialists involved in the conference may each independently bill this fee.
- iii) If multiple patients are discussed, the billings shall be for consecutive, non-overlapping time periods and services are to be claimed under the PHN of each patient for the specific time period.
- Not payable to the same patient on the same date of service as 00545, 00645, 60645, G33445, G10001, G10002, G10003, G10005, G10006, G78717 when claimed by the same practitioner.

- Not payable to the same patient on the same date of service if adult or pediatric critical care team fees have been paid to the same practitioner or a practitioner who belongs to the same critical care team.
- vi) Patient must be complex, with multiple medical needs or complex co-morbidities (two or more distinct but potentially interacting problems), where care needs to be coordinated over a period of time between several health disciplines.

Or a diagnosis of malignancy (excluding non-melanoma skin cancer).

Or one morbidity plus a minimum of one of the following non-medical conditions:

- poor socioeconomic status
- unstable home environment
- dependency on family/caregiver for daily living tasks
- accessibility/mobility issues
- under care of MCFD Protection Services
- received Tertiary or Acute level of care related to psychiatric condition within the previous 6 months
- frail elderly
- >75 years old
- BMI > 35
- high readmission rate

Document complexity in the medical record using the ICD9 code for one of the major disorders when billing. If patient has non-medical comorbidity use the ICD9 code M04 when billing.

### Group Medical Visits G78763 - G78781 Inclusive

#### Eligibility

A Group Medical Visit (GMV) provides medical care in a group setting. A requirement of a GMV is a 1:1 interaction between each patient and the attending physician. Because this is a time-based fee, concurrent billing for other services during the time of the GMV is not permitted. The physician must be physically present at the GMV for the majority of each time interval billed. While portions of the GMV may be delegated to a non-physician staff member the Specialist must be present for a majority of the GMV and assumes clinical responsibility for the patients in attendance.

Group Medical Visits are an effective way of leveraging existing resources; simultaneously improving quality of care and health outcomes, increasing patient access to care and reducing costs. Group Medical Visits can offer patients an additional health care choice, provide them support from other patients and improve the patient-physician interaction. Physicians can also benefit by reducing the need to repeat the same information many times and free up time for other patients. Appropriate patient privacy is always maintained and typically these benefits result in improved satisfaction for both patients and physicians.

This fee is not intended for provision of group psychotherapy (00663, 00664, 00665, 00667, 00668, 00669, 00670, 00671, 00672, 00673, 00674, 00675, 00676, 00677, 00678, 00679, 00680, 00681).

Total Fee \$

### **Referred Cases**

Group Medical Visit applies only when all patients in the group are receiving medically required treatment. These fees are not for efforts to persuade patients to alter diet or other lifestyle behavioral patterns, other than in the context of the individual medical condition.

Fee per patient, per 1/2 hour

| G78763 | Three patients                         |       |

| G78781 | Greater than 20 patients (per patient) |       |
|        | ,                                      |       |

#### Notes:

- i) Submit a separate claim for each patient.
- ii) Each patient must have an active referral.
- *iii)* Start and end times required in both the medical record and time fields in the claim.
- *iv)* Not payable with any other services for the same patient on the same day by the same physician.
- If multiple physicians are involved, the group should be divided for claims purposes, with each physician claiming the appropriate rate for only the patients in their own fraction of the group. The claim note and patient chart should specify:
  - a. Number of people in entire group
  - b. Number of patients billed by billing physician
  - c. Of the patients billed by the billing physician, how many were to each insurer
  - d. Name of any other billing physicians

### Specialist Discharge Care Plan for Complex Patients G78717

### Eligibility

This fee premium is intended to support clinical coordination leading to effective discharge and community-based management of complex patients. It is to be billed for provision of a care plan for patients who require community support upon discharge, and who are otherwise at risk of readmission.

#### Notes:

- *i)* Primary health care provider must be notified by phone, fax, or electronic means within 24 hours of admission.
- ii) Care Plan must:
  - a. Be developed in consultation with the providers identified in the plan
  - b. Include record of appropriate clinical information, interventions, co-morbidities and safety risks
  - c. Include re-referral triggers and description of arranged follow-up care
  - d. Include expectation of symptom progression/remission and patient progress
  - e. Be included in the patient's medical record.
- iii) Patient must be complex, with multiple medical needs or complex co-morbidities (two or more distinct but potentially interacting problems), where care needs to be coordinated over a period of time between several health disciplines.

Or a diagnosis of malignancy (excluding non-melanoma skin cancer).

Or one morbidity plus a minimum of one of the following non-medical conditions:

- poor socioeconomic status
- unstable home environment
- dependency on family/caregiver for daily living tasks
- accessibility/mobility issues
- under care of MCFD Protection Services
- received Tertiary or Acute level of care related to psychiatric condition within the previous 6 months
- frail elderly
- >75 years old
- BMI > 35
- high readmission rate

Document complexity in the medical record using the ICD9 code for one of the major disorders when billing. If patient has non-medical comorbidity use the ICD9 code M04 when billing.

|        | Notes:                                                                        |  |
|        | i) Pavable to the Specialist who is the MRP for the majority of the patient's |  |

- Payable to the Specialist who is the MRP for the majority of the patient's in-hospital care and who writes the care plan, and communicates and oversees its implementation.
- *ii)* Patient must be an in-patient for at least 5 days prior to discharge for the current admission.

- iii) The written Discharge Care Plan must be completed and shared with: a. The patient at time of discharge, and
  - b. The patient's primary health care provider within 24 hours of discharge.
- *iv)* Document the time the primary health care provider was notified of discharge in the medical record.
- v) Payable once per patient per discharge from hospital.
- vi) Claim on the day of discharge.
- vii) Use the ICD9 code for one of the major disorders when billing.
- viii) If patient has non-medical comorbidity (see Eligibility) use the ICD9 code M04 when billing.

### Advanced Care Planning G78720

### Eligibility

Advance Care Planning occurs when a capable adult forms his/her beliefs, values and wishes for health care in the event of future incapacity. Advance care planning discussions may take place with family, trusted friends, and/or health care providers.

This fee premium is for a Specialist to discuss advance care planning based on the patient's beliefs, values and wishes for future health care.

#### Notes:

- *i)* The advance care planning discussion should include sharing information and resources on how a patient can create an advance care plan, including Advance Directives.
- ii) An advanced care plan form is required to be completed and added to the patient's medical record, medical chart and the discussion should be summarized in the consultation report including any decisions about the patient's future health care wishes. (The care plan form template is available at: www.sscbc.ca).
- iii) The care plan template form must be shared with: a. The patient, and
  - b. The patient's primary health care provider.
- *iv)* The message to the patient and the plan must be consistent with the Practice Support Program's End of Life Module resources.
- v) Not payable in the same hospital admission during which adult or pediatric critical care (01400 series) or neonatal intensive care (01500 series) fees are claimed.

|        | i)     | Planning discussions and plan development for patients presenting with: |  |
|        |        | a. A chronic medical illness or complex co-morbidities, and             |  |

- b. A deteriorating quality of life or end-stage disease state.
- ii) Always payable at 100%.

### Labour Market Adjustment Fee Items

The 2009 Physician Master Agreement included provisions for the Specialist Services Committee (SSC) to allocate funding specifically for making labour market adjustments where required to recruit and retain specialists and to support the delivery of high quality specialty care in British Columbia. The SSC allocated \$10 million to specifically address labour market adjustments linked to recruitment and retention pressures. In so doing, the SSC ensured funds would be made available only in relation to proposed initiatives that met the overall objectives of the 2009 Agreement, that met the necessary thresholds regarding demonstrable recruitment and retention pressures and, further, that provided for new fees or initiatives that could be monitored and managed within the fixed amount that was made available pursuant to the terms of the 2009 Agreement.

For additional information on the Labour Market Adjustment process see: http://www.sscbc.ca/
