# Introduction

---

Under the authority of the *Medicare Protection Act*, the Medical Services Commission administers MSP. MSP insures registrants for medically required services provided by general practitioners, specialists and other health practitioners. MSP pays practitioners on a fee-for-service and on an alternative payment basis.

The MSP Fee-for-Service Payment Analysis summarizes services and expenditure by fee item for each fiscal year. These figures are based on fee-for-service payments made to British Columbia practitioners by MSP for services provided to MSP registrants.

Short fee item descriptions are included. Please refer to the Medical Services Commission Payment Schedule for a more detailed description of fee items. The current payment schedule can be viewed online at:

<http://www2.gov.bc.ca/gov/content/health/practitioner-professional-resources/msp/physicians/payment-schedules/msc-payment-schedule>

The Methodology section outlines general data inclusions and exclusions that apply throughout the manual. A glossary has been provided at the end of the manual to explain terms used in the publication. Readers are encouraged to refer to the glossary to ensure accurate interpretation of the statistics presented.

## **Interest**

## **Medical Services**

## **Out-of-Province Claims**

Out-of-Province claims include four separate cases:

1. When a Canadian resident from another province (except Quebec) receives medical care in B.C., MSP will pay the B.C. physician at the B.C. fee rates. The Ministry of Health will pay the B.C. hospital. The patient's home province/ territory will then reimburse B.C. for insured physician and hospital services under the provincial reciprocal payment agreements.
2. When a B.C. resident receives physician services in another province/territory (except Quebec), the physician is paid by the appropriate agency in the providing province/territory, at the fee rates in the providing province. The province/territory will then bill B.C. for the insured medical services that are eligible for payment under reciprocal payment agreements.
3. As in (2), but when a B.C. patient personally pays for services received in Quebec or in

another province, MSP will reimburse the patient for the insured medical services when services are provided by a licensed physician. MSP will pay the out-of-province physician directly or reimburse the B.C. patient at the B.C. or Quebec provincial fee rates.

4. When a B.C. resident receives emergency medical care outside Canada, MSP will reimburse the B.C. resident or the out-of-country provider for the physician services at B.C. fee rates. B.C. will pay the hospital in-patient care up to a maximum CAD\$75.00 per diem.

**Registrant**

**Tray Fee**
