- 3.1 The Province will pay the University of British Columbia's Faculty of Medicine for the costs of the Participant's Postgraduate Medical Education, including the Participant's salary and benefits at the rate specified in the Resident Doctors of BC Collective Agreement, as the rate and terms that apply during the term of the Participant's Postgraduate Medical Education.

### Article 4 Repayment on Termination

- 4.1 **In the event that this Contract is terminated for any reason, before the Participant has completed Postgraduate Medical Education and the Return of Service in full, (including due to the Participant breaching the Return of Service or other obligations under the Contract), the Participant must pay to the Province the amount set out in the table below that corresponds to the timing of the breach of the Contract by the Participant that gives rise to termination of the Contract:**

(the amounts “Repayment Amount” column in the table above, including compound interest, that corresponds to the row for the timing of the termination of the Contract is the “**Repayment Amount**”).

- 4.2 The interest rate and method of calculation used to calculate the Repayment Amount that is referred to in Article 4.1 above are those that are set out or prescribed under the Overdue Accounts Receivable Regulation of the *Financial Information Act* (“**Compound Interest**”). For ease of reference, the rates listed are based on the prime lending rate of the principal banker to the Province, updated on a quarterly basis, compounded monthly.
- 4.3 The Parties agree that the Repayment Amount is a reasonable estimate and determination of Postgraduate Medical Education costs and liquidated damages (if applicable) that the Province will suffer in the event that the Contract is terminated before the Participant has completed the Return of Service in full, recognizing that:
- (a) the Province will incur approximately \$363,276 in costs to fund the Participant’s three-year Postgraduate Medical Education;
  - (b) a replacement participant is required for the Return of Service community in the event the Participant does not complete the Return of Service, and the Province will have to pay the amounts referred to in (a) above to educate the replacement participant; and
  - (c) it takes approximately one year to fill a vacancy in an average community-of-need in British Columbia and can take much longer in some communities. If the Participant does not complete the Return of Service obligations, the Province will incur additional costs for related administration and to ensure that comparable services are provided in the Return of Service community during this time (*e.g.*, the possibility of increased reimbursement for patient travel, significant long term costs due to less early detection or patient management that is associated with less access to specialty health care in a region, etc.). Such costs are difficult to quantify, but the Parties agree that such damages are \$433,000 for the purposes of this Contract.
- 4.4 Within thirty (30) days following the Contract termination referred to in Article 4.1, the Participant will pay to the Province the Repayment Amount in full. The Repayment Amount is a “debt due to the government” within the meaning of the *Financial Administration Act*. Further, if the Participant fails to pay the full amount owing by this date, the Province may refer the matter to any other person or entity, for the purpose of collection.

## Article 5 Return of Service

- 5.1 Upon successful completion of the Postgraduate Medical Education, the Participant must practice medicine on a Full-Time Basis in the clinical discipline for which the Participant has been trained and licenced for and in accordance with this Contract including the terms of the Return of Service Addendum that is appended as Schedule 2 (except that it is filled out and signed based on the participant's Return of Service requirement and placement under the process set out in Schedule 1 of this Contract).
- 5.2 **The duration of the Participant's required Return of Service will be three years on a Full-Time Basis.** If the Participant requires accommodation for providing services on less than a Full-Time Basis, the duration of the Return of Service period will be increased to a time period that will represent the equivalent of three years of service on a Full-Time Basis.
- 5.3 The Participant acknowledges and agrees that the Province, in its sole discretion, will determine the process by which the Participant is assigned to return service to a Health Authority and the Return of Service community. The Participant must follow the BC Return of Service Placement Process that is set out in Schedule 1, unless amended by the Province at its sole discretion and communicated in writing – at which time the Participant must follow the amended process. The Participant acknowledges that Schedule 1 forms part of this Contract, and that the Participant is bound by the requirements in it.
- 5.4 The term of the Participant's Return of Service will commence at a time agreed to by the Participant and the Health Authority, but, in any event, the term must commence no later than three (3) months from the completion date of Residency during which time the Participant must obtain the CPSBC Certificate of Registration.
- 5.5 In the event that the Participant enters into a practice agreement or form of alternative payment program agreement in relation to the Return of Service, the Participant will provide the Health Authority with a copy of the completed practice agreement or other agreement in advance of the Health Authority executing the Addendum. Further, the Participant will promptly disclose to the Health Authority any amendments to such practice agreement or other agreement made during the Term of the Contract. In the event of any conflict between the practice agreement and this Contract, this Contract will prevail.
- 5.6 If the Participant does not secure a Return of Service placement in accordance with Schedule 1, the Participant must:

- (a) continue to liaise with the Health Authority and Province and take steps the Province reasonably requires in furtherance of the Participant securing a Return of Service Addendum;
  - (b) continue to independently and actively seek - and take any steps necessary to promptly execute - a Return of Service Addendum in a community of need identified by the Health Authority, and comply with all reasonable directions from the Province in furtherance of this objective; and,
  - (c) keep the Province fully informed of all efforts and steps taken by the Participant in seeking a Return of Service Addendum.
- 5.7 Notwithstanding the Participant's compliance with 5.6, if the Province notifies the Participant of a placement for the Participant that the Province considers to be reasonable, in its sole discretion and determination, the Participant will be in breach of Article 9(1)(e) of this Contract if the Participant fails to execute and deliver to the Province an executed Addendum within 30 days of the placement notification.

## **Article 10 Reporting**

10.1 If the Province asks for information relating to this Contract, including but not limited to a report, documentation, records or other information related to any matter under or relating to this Contract, the Participant will provide this information as soon as practicable.
